# **Mud Flood**

**David Ewing Jr**

# **Introduction**

**This book will discuss many important great secrets of Great Tartaria that maybe you never knew and they could blow your mind away.**

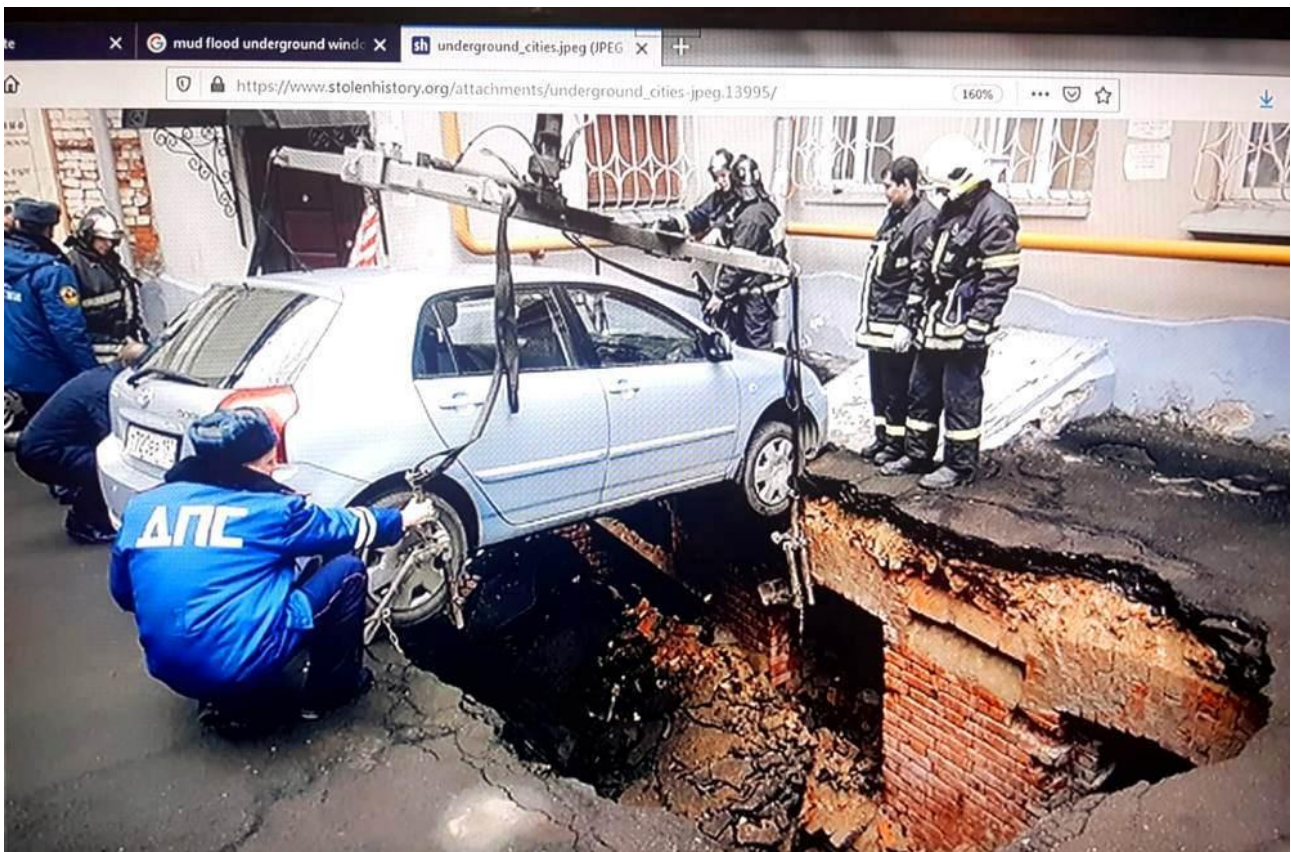

**The author David Ewing Jr has travelled to over 2500 cities and places worldwide and has done much research over 20 years and has great knowledge regarding the subject of what is now known as the Great Tartaria to many. To some it is known by other names, but this is the name that will be used in this book. It may or may not be the correct name of the topic, but that is what it has become known as to many researchers worldwide. Please remember that different people call this civilisation with different names - maybe you call it Grand Tartaria - but it does not mean everyone else does so. Some call it Russia or Slavonic Russia - everyone has their own choice.**

**This book will show some of the research that Anatoly Fomenko and others have done regarding Tartaria - and will show some of the evidence that researchers point out - and photo evidence is provided to show you that proper research has been done by David Ewing Jr - to check what researchers are saying.**

# Tartaria

**Many modern researchers have found evidence that world history is a lie - and they asked the question - if history is a lie - what is true history?**

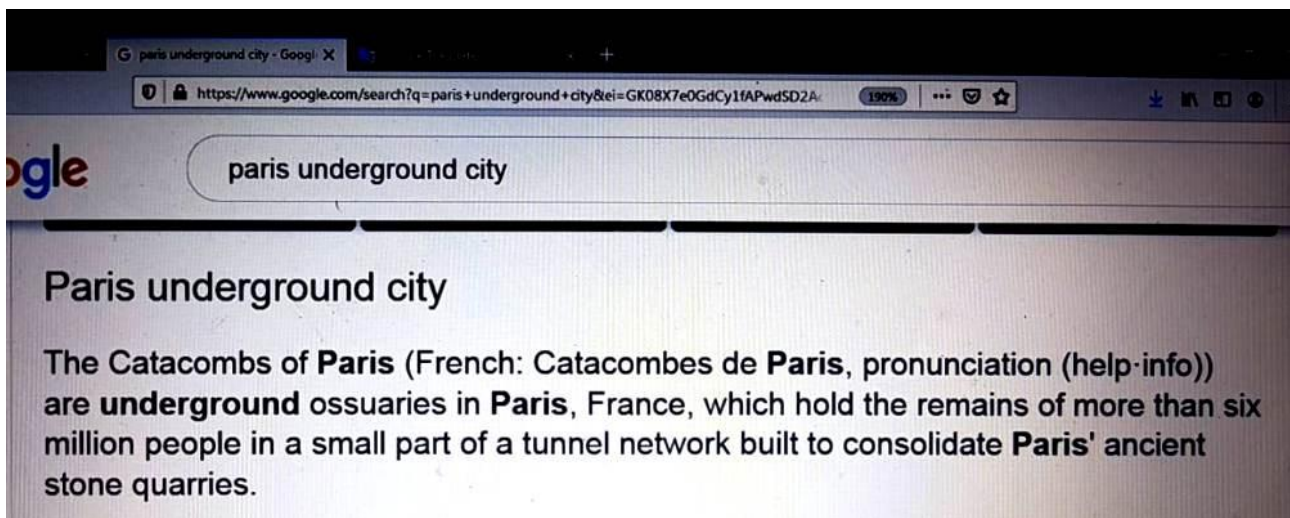

**Researchers decided to look around the world to find the answer - here is some evidence they found when they started their investigation.**

**There are many reports from all over the world that people have found buildings with windows and doors underground. Much evidence has been presented by**

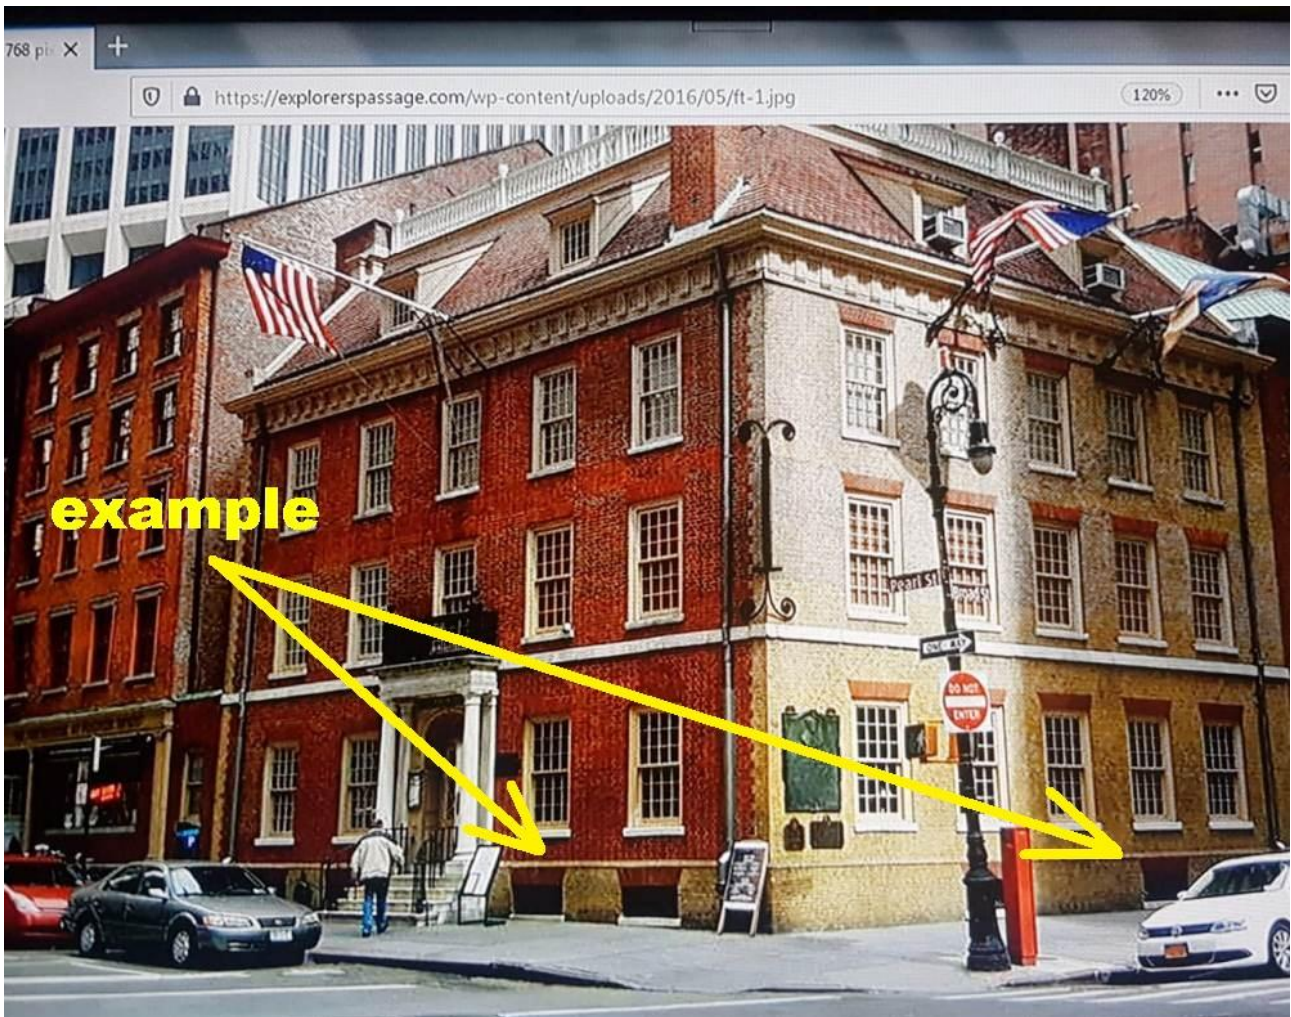

**researchers that show many monuments and buildings are buried all over the world.**

**Not only this, but there are many known underground cities and villages around the world, for example Paris has an underground city and it has 6 million dead people or maybe even more.**

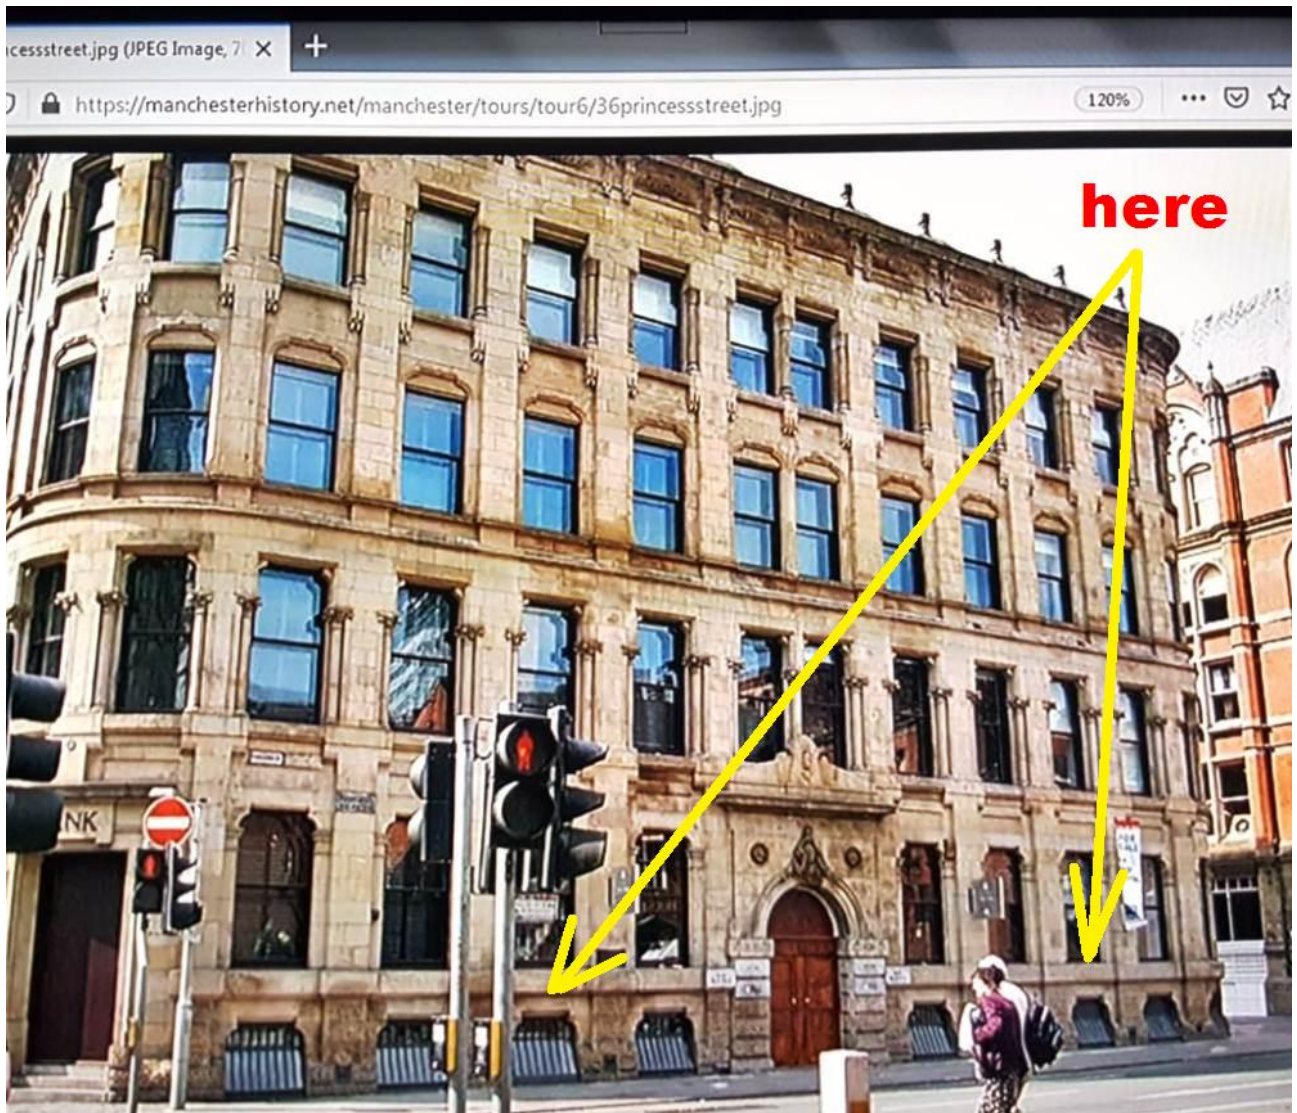

**There are hundreds of kilometres of so-called tunnels, about 20 meters deep in the underground city of Paris. Many researchers are questioning if it was originally an underground city - or - did a serious event took place in the past, that buried the old city underground and killed all of the people?**

**Below is a photo from New York City in the United States of America (Fraunces Tavern)**

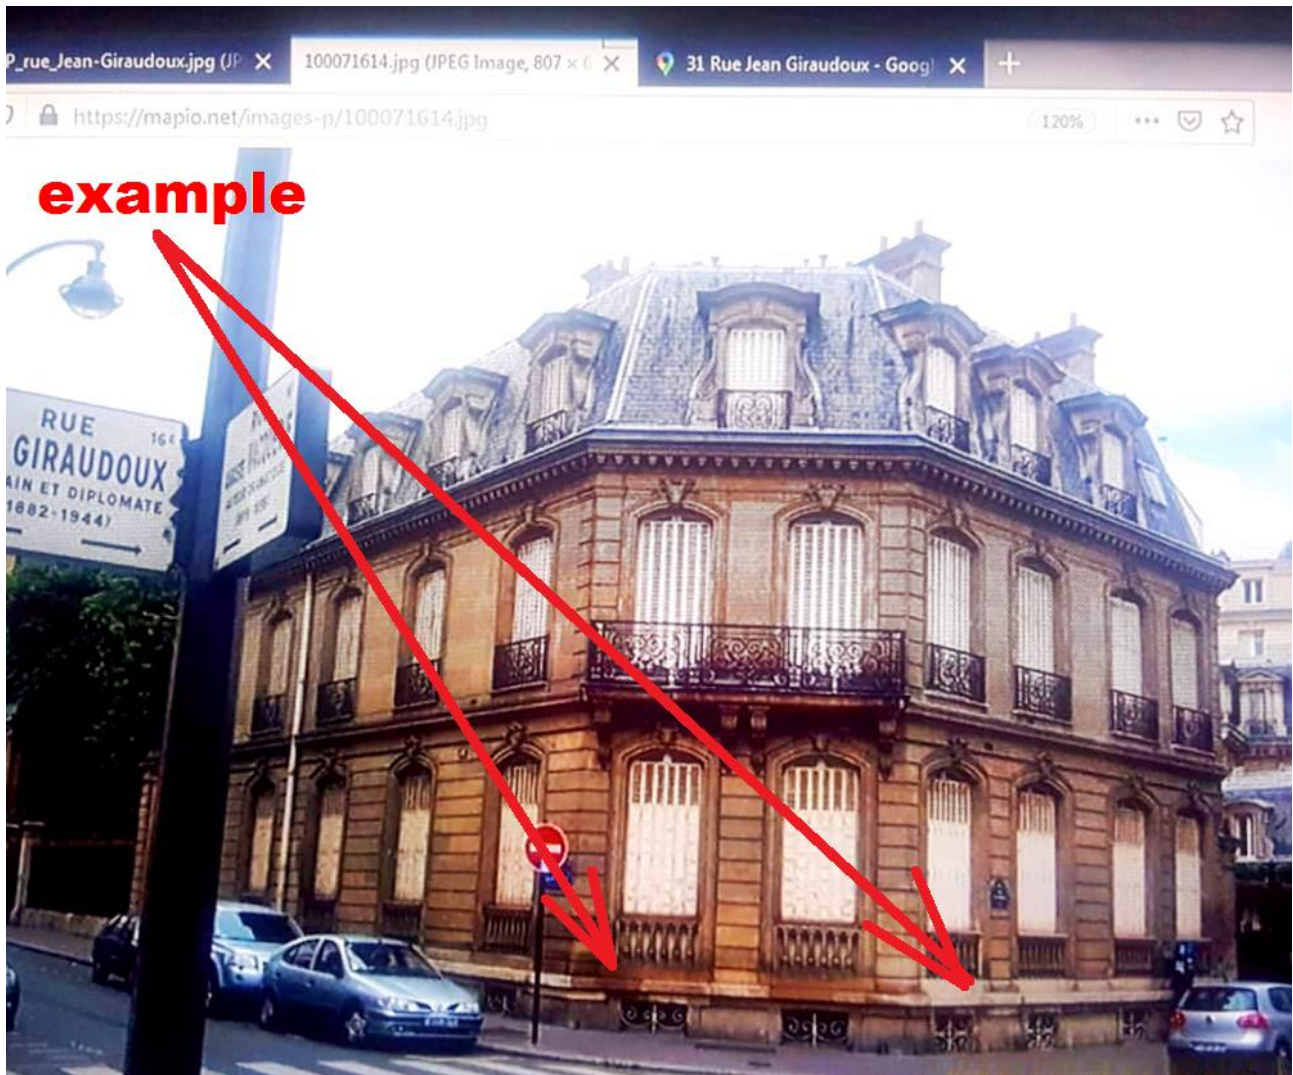

**In the photo we can see windows that are going into the ground. Many older buildings in New York City and around the world show something similar to what we see in the photo above.**

**Below is a photo from Princess Street, Manchester, England**

**In the photo we can see windows that are going into the ground. Many older buildings in England and around the world show something similar to what we see in the photo above.**

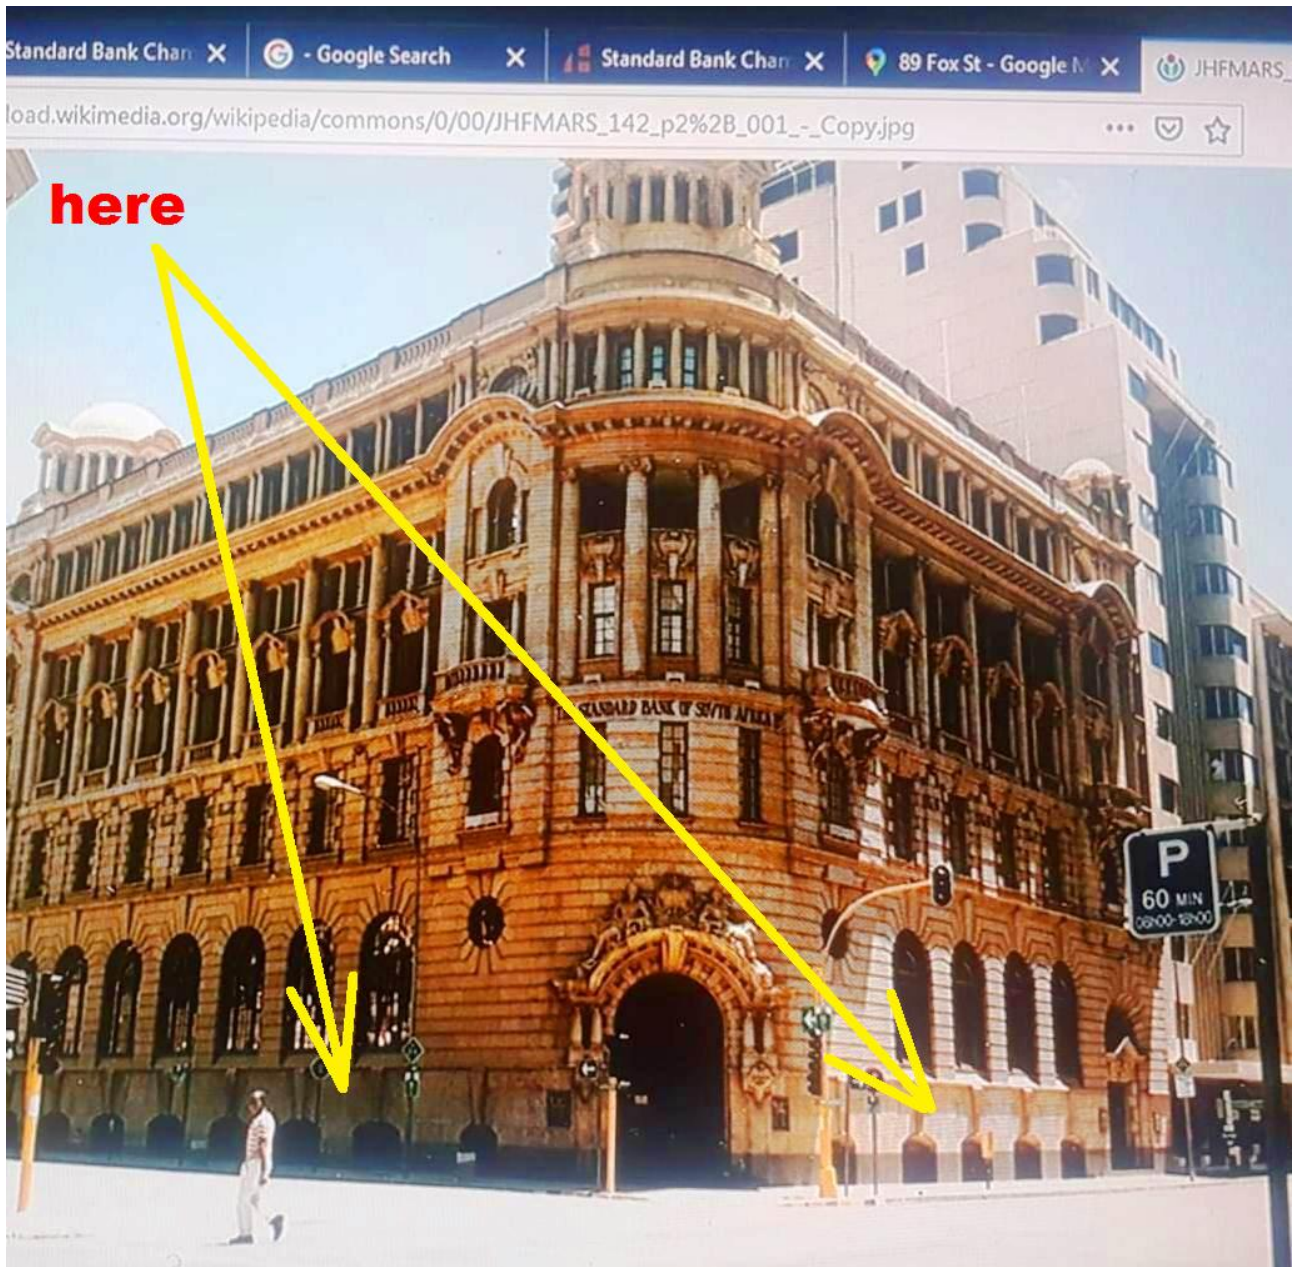

**Below is a photo from Rue Jean Giraudoux, Paris, France**

**In the photo we can see windows that are going into the ground. Many older buildings in France and around the world show something similar to what we see in the photo above.**

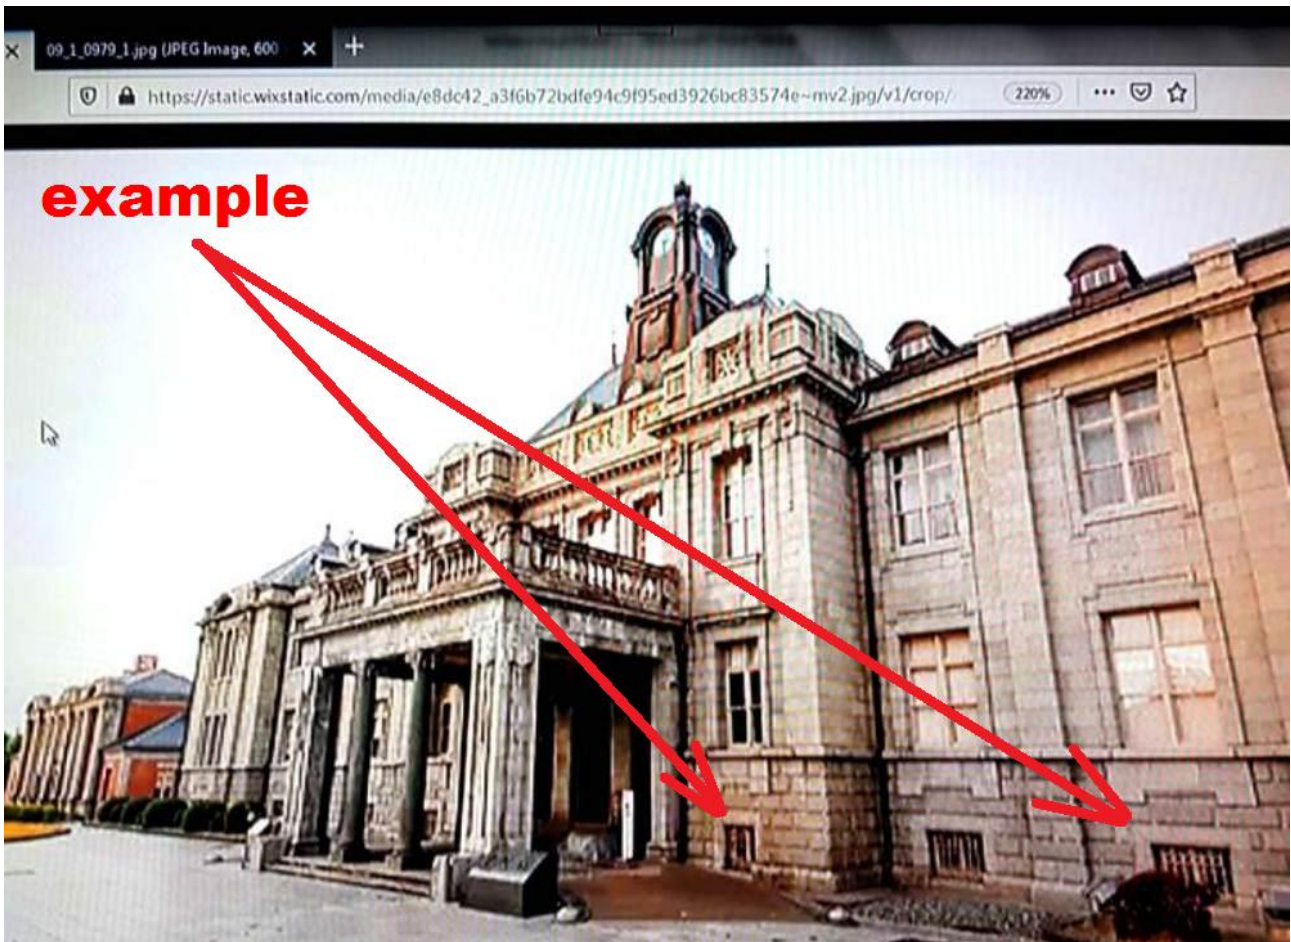

**Below is a photo from the Standard Bank Building, Johannesburg, South Africa**

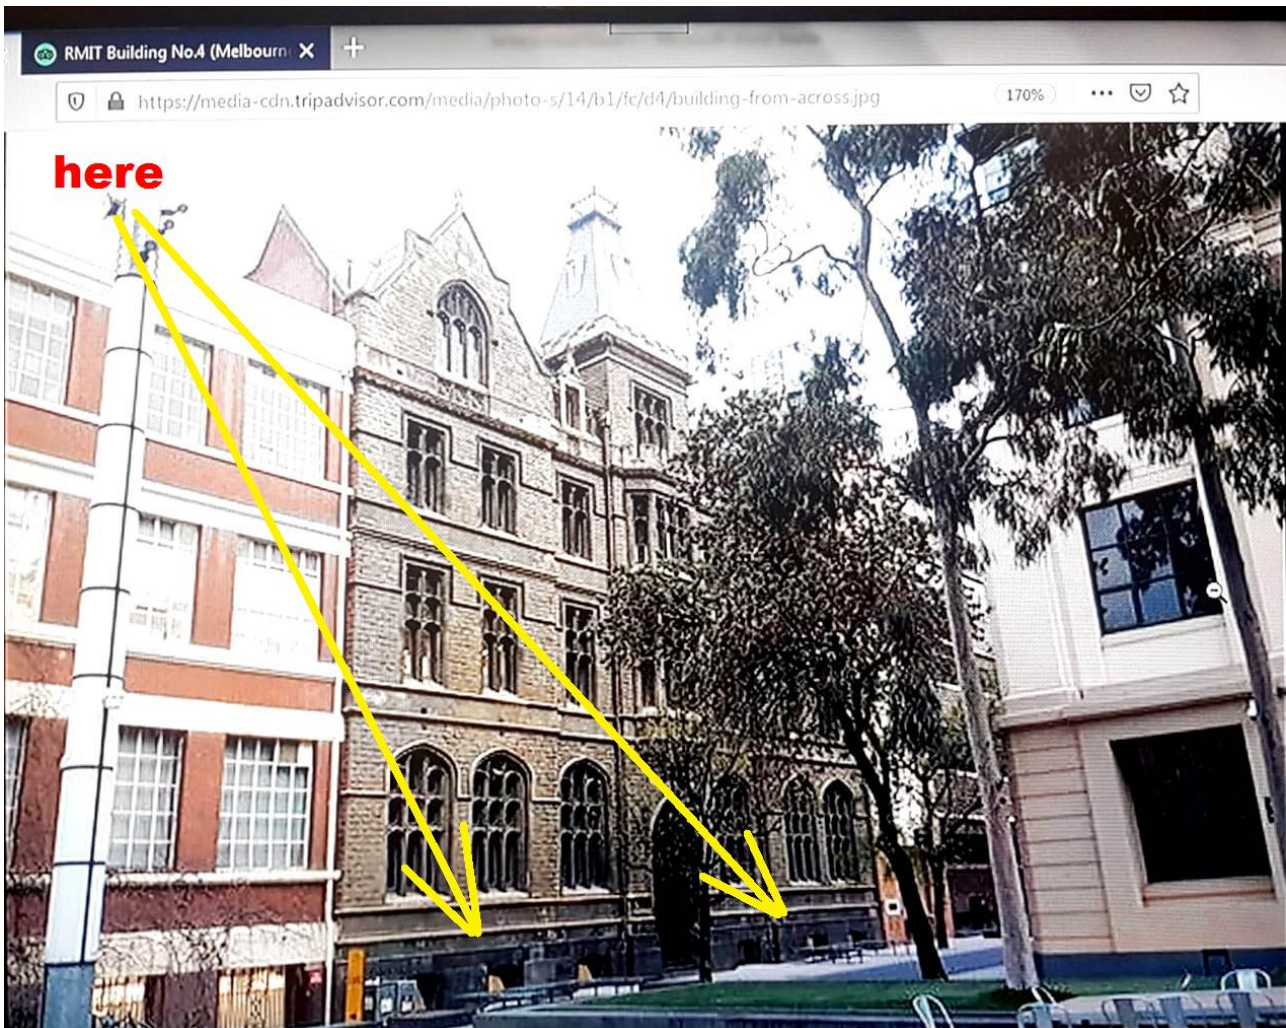

**In the photo we can see windows that are going into the ground. Many older buildings in Africa and around the world show something similar to what we see in the photo above.**

**Below is a photo from Bunshokan, Yamagata City in Japan**

**In the photo we can see windows that are going into the ground. Many older buildings in Japan and around the world show something similar to what we see in the photo above.**

**Below is a photo from Cohen Street, Melbourne in Australia**

**In the photo we can see windows that are going into the ground. Many older buildings in Australia and around the world show something similar to what we see in the photo above.**

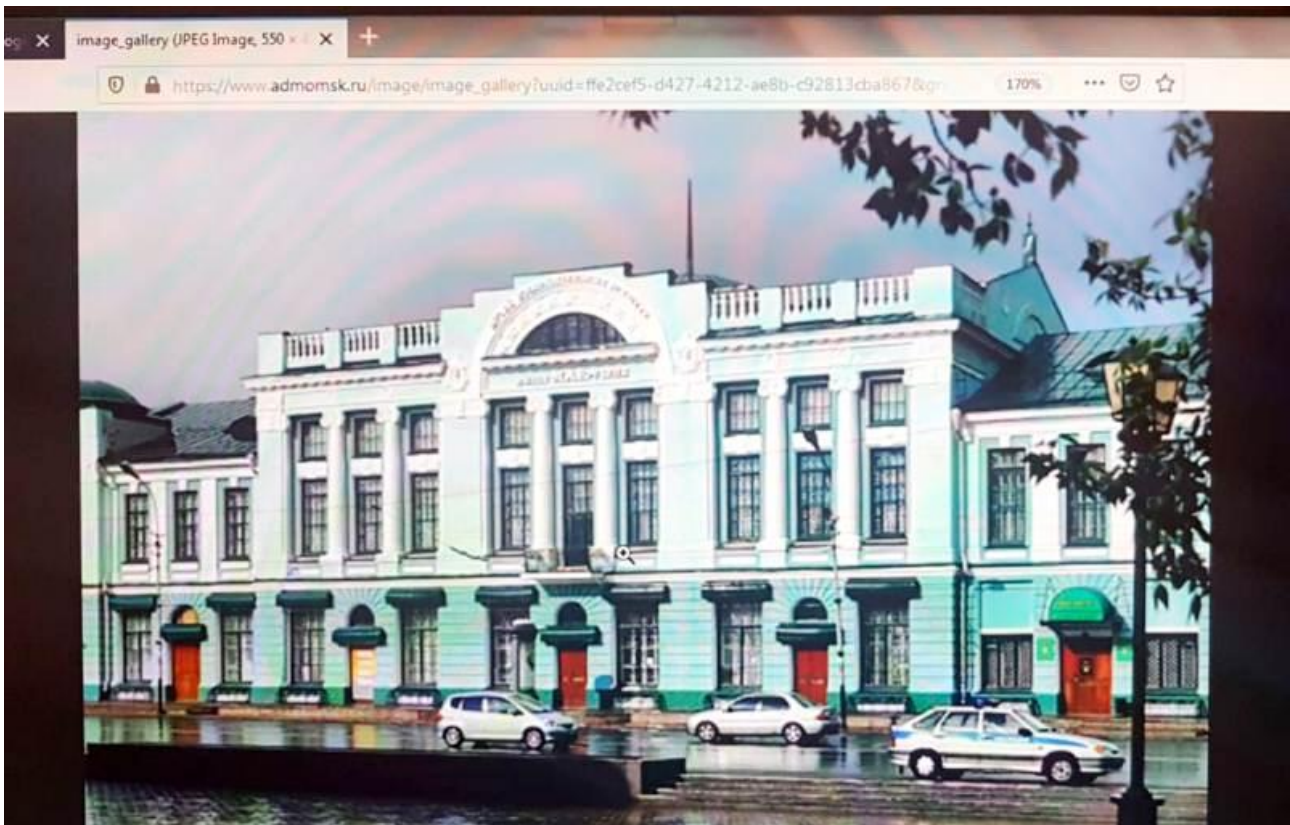

**Many researchers started to question as to why many buildings seemed like they were buried or half buried. Many of the windows did not stop at ground floor level, but they continued underground and it was crazy that windows should be found buried underground. Many researchers soon realised that many of these buildings indeed buried or half buried and they began to investigate why this might be the case.**

**A few years ago, in Lucknow city in India, researchers discovered that buildings structures were buried underground, below the current ground level. Below is a photo of what they discovered.**

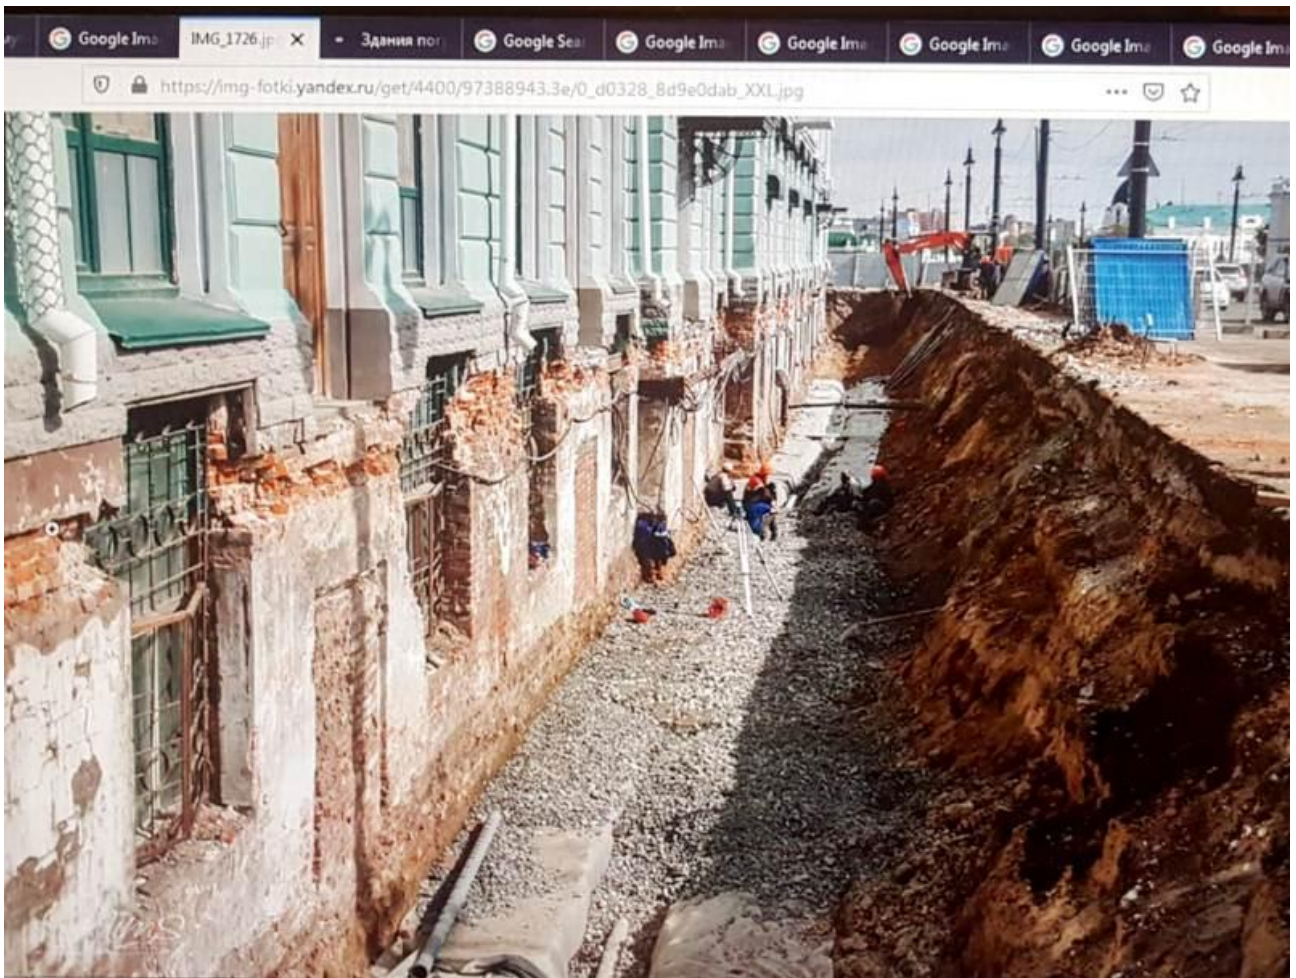

**Buried underground structures can be clearly seen in the photo below. How these buildings got buried underground is a very serious question**

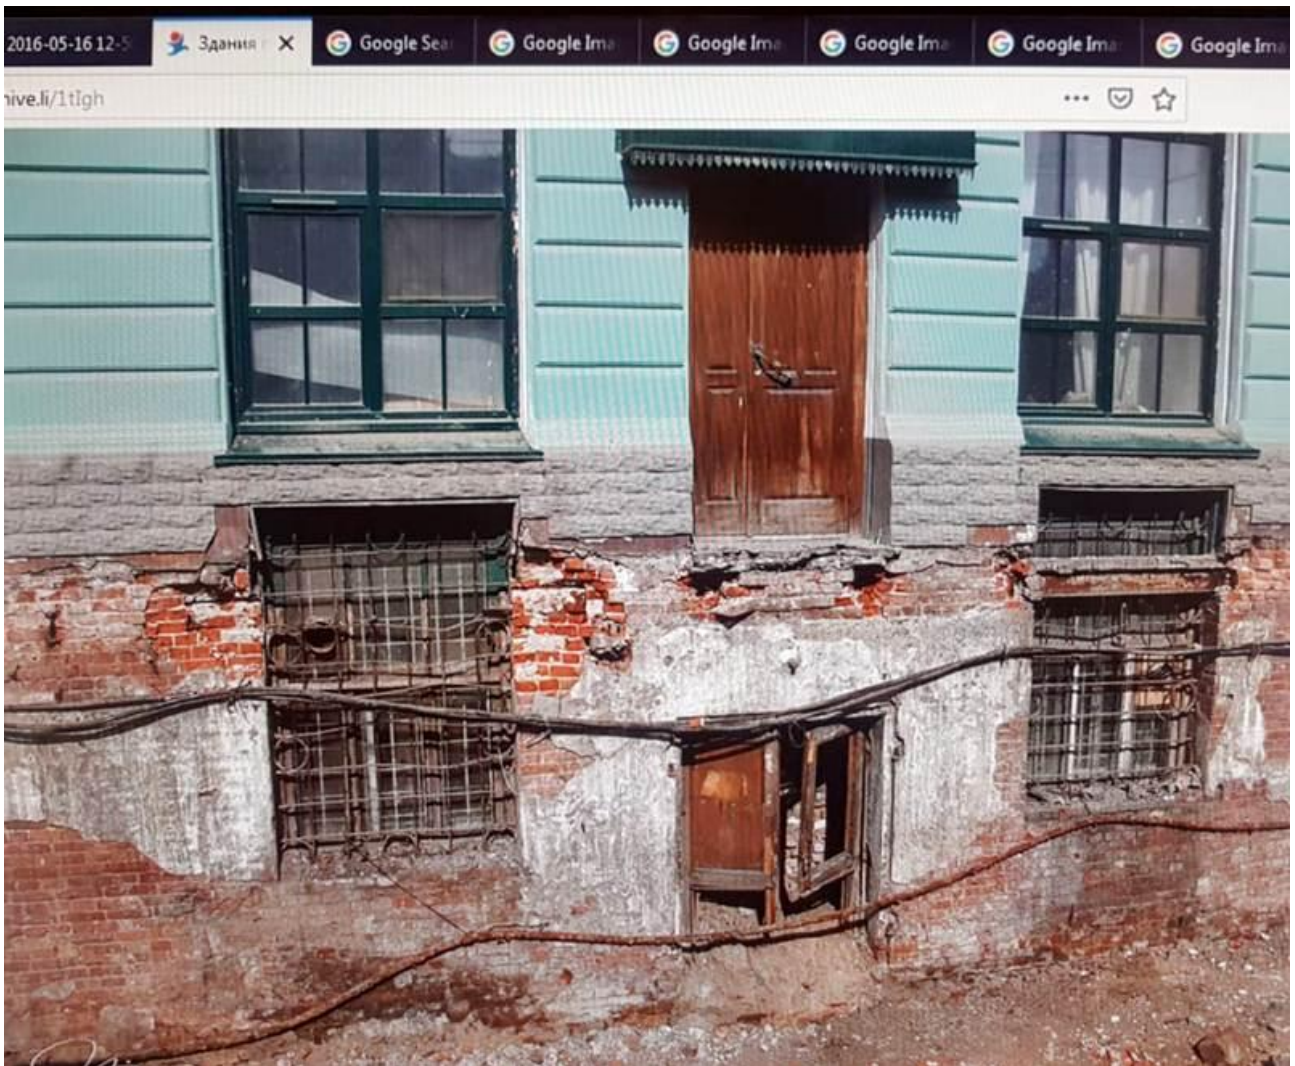

**Below is a photo of Omsk Museum - Siberia - with today's ground level**

**A few years ago, in Omsk city, Siberia, researchers discovered that buildings structures were buried underground, below the current ground level. Below are photos of Omsk Museum and it shows what they discovered**

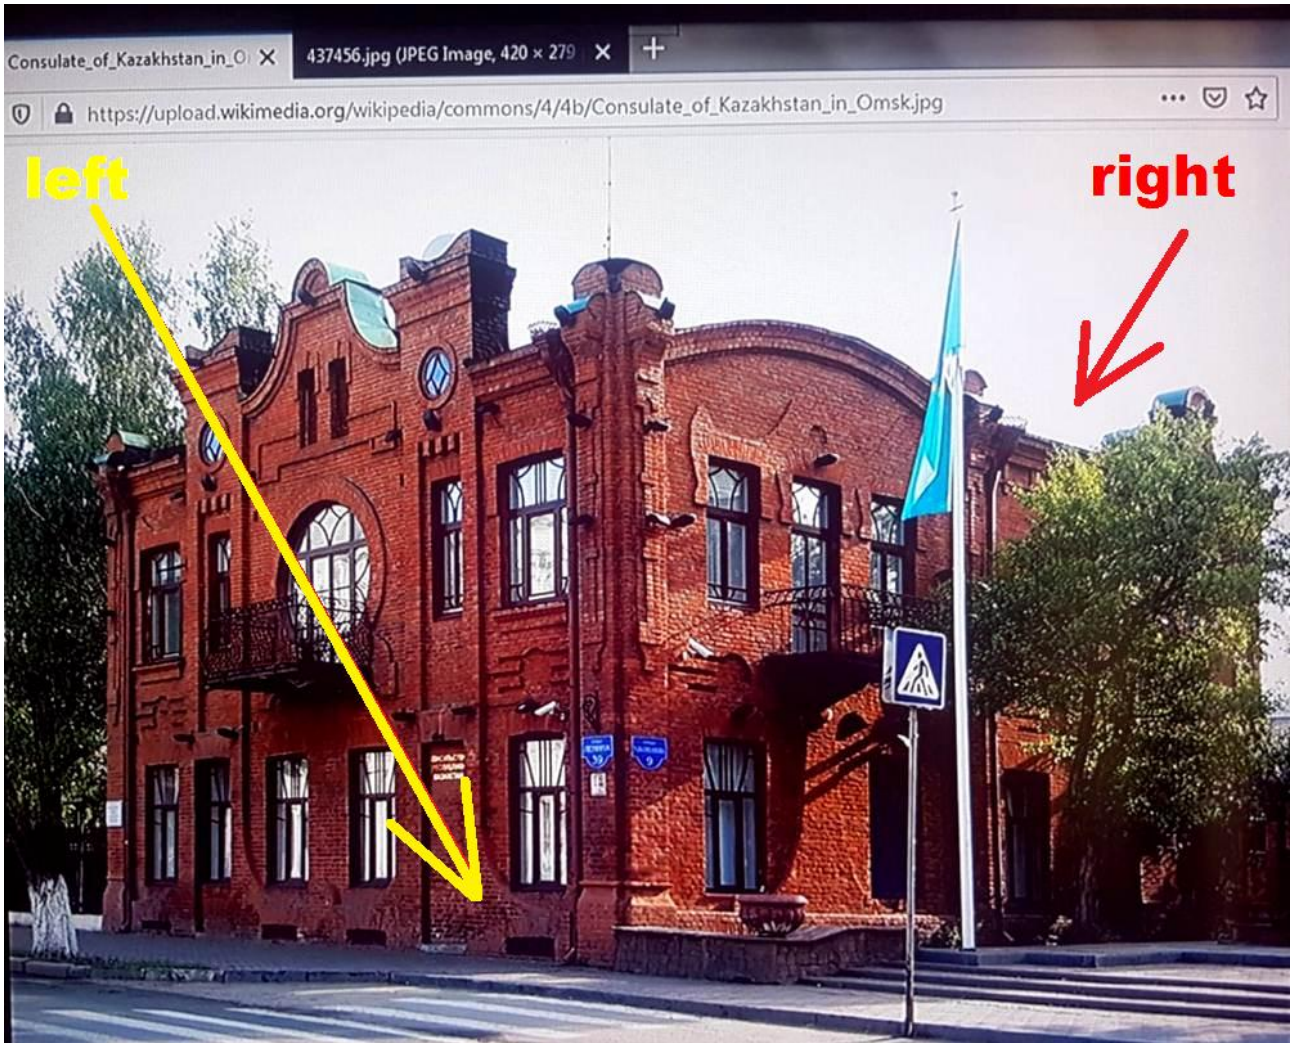

**In the photos we can see windows and doors buried underground. Omsk city in Siberia - is located far away from India, but this was similar to the discovery in Lucknow in India.**

**Researchers have pointed out that what we can see - is that the building in the photo above - is buried compared to when the building was originally built - and this clearly shows the ground level has changed and has risen - or the building has sunk.**

**Researchers discovered that there are other buildings in Omsk city in Siberia, which are buried in a similar way underground.**

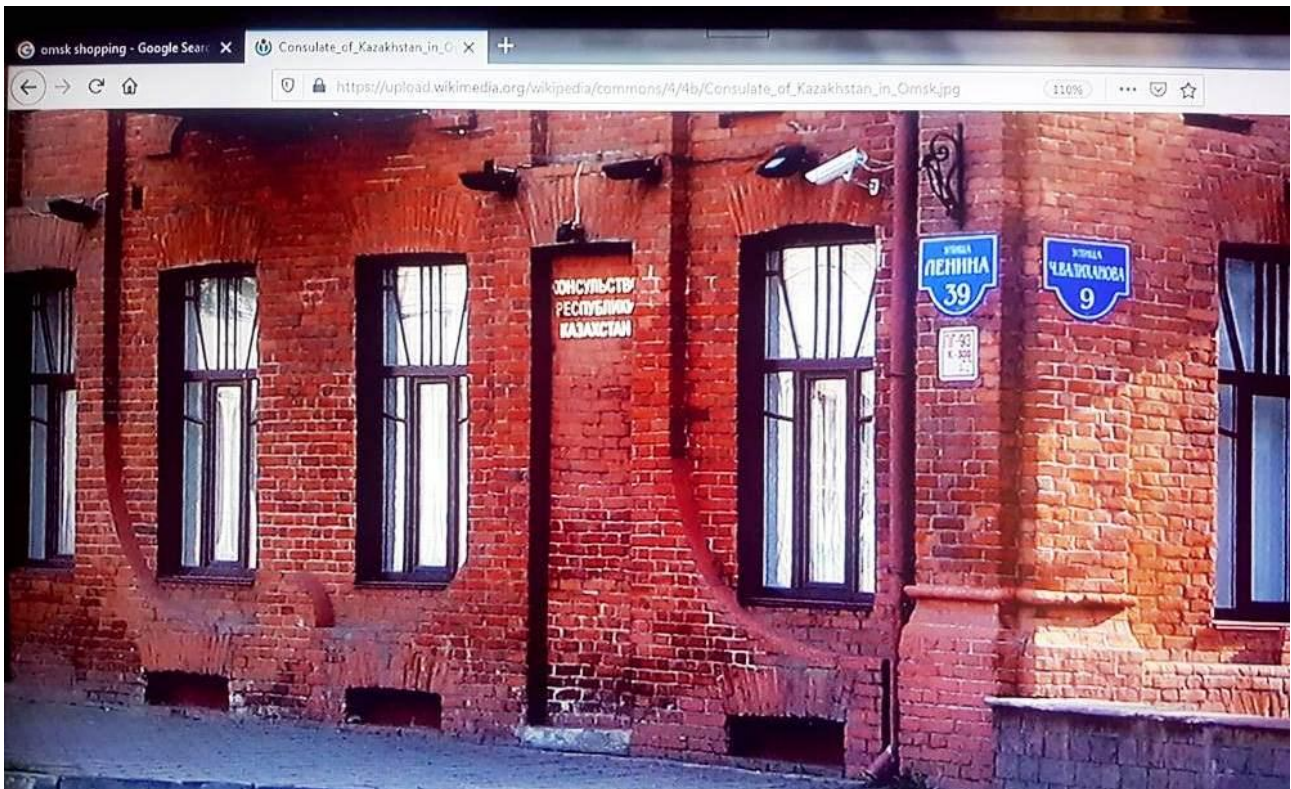

**Below is a photo of building on Ulitsa Lenina, Omsk - Siberia**

**Researchers noted that on the right hand side of the building, there was no evidence that part of the building could be buried underground.**

**Around the corner, on the left hand side of the building, there was clear evidence that a big part of the building was buried underground. Below is a photo showing the left hand side of the building more clearly**

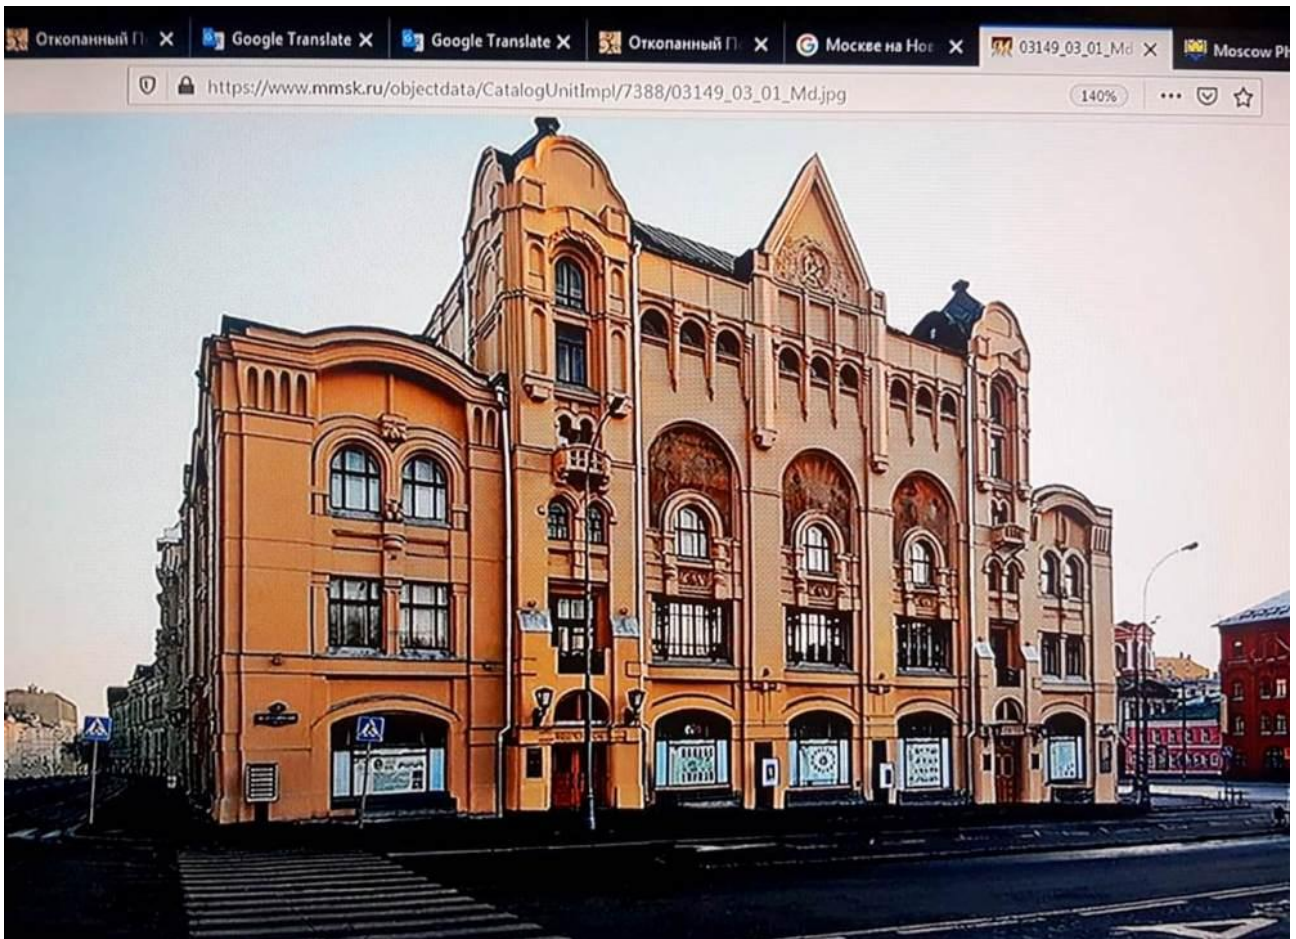

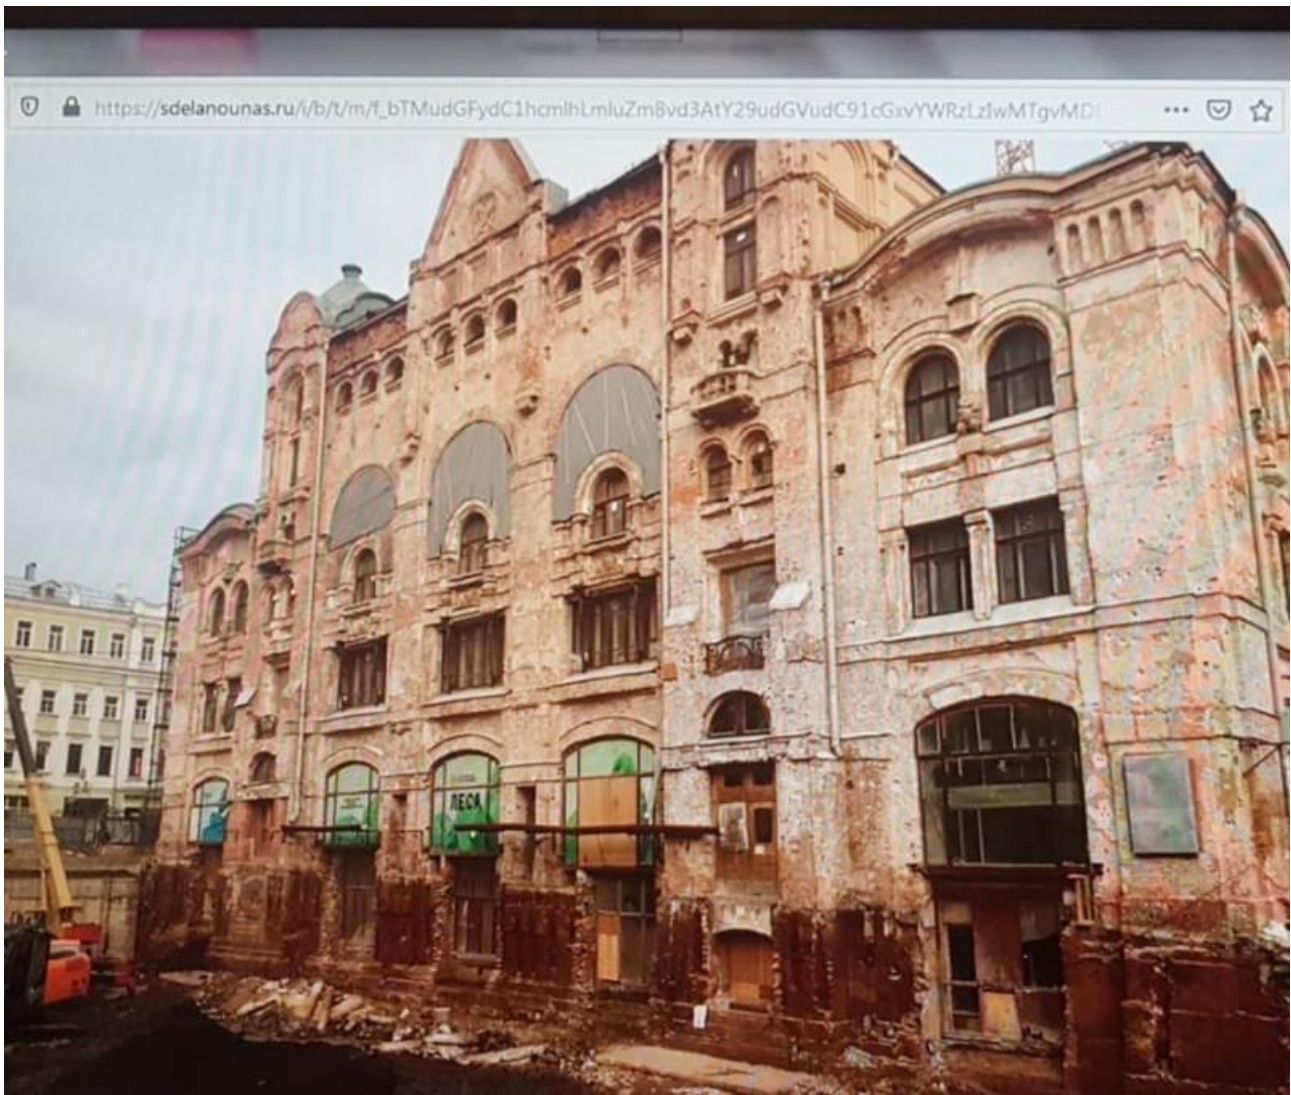

**Many researchers noted that many people who had never even been to Omsk city or to Siberia, were telling lies and making false claims, that no other buildings in Omsk city apart from Omsk Museum, were buried below today's ground level. But, in fact many buildings throughout the city and throughout Siberia are buried below today's ground level.**

**Below is a photo from the Polytechnic Museum, Moscow, Russia**

**In the photo below, everything looks normal and no windows can be seen at the bottom of the building**

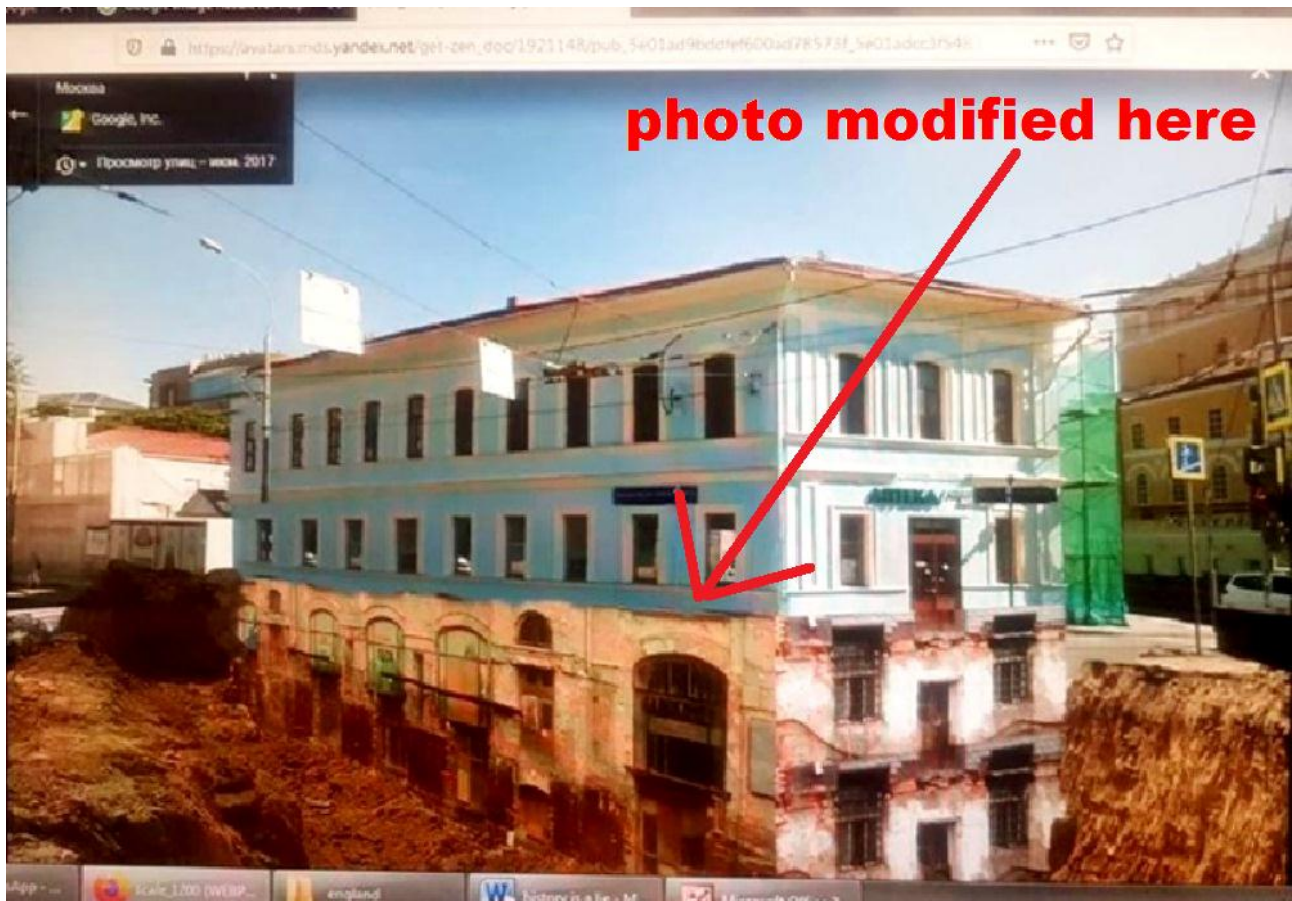

**A few years ago, construction works were being done at the building and researchers noticed that there were windows and doors underground. The photo below shows what researchers discovered**

**It can be seen that the building was buried several meters underground and that the original entrance door was underground. Researchers found thousands of similar buildings in cities around the world in Europe, Australia, India, Japan, America and Africa. Many older buildings all over the world seemed to be buried underground or half buried. What the hell was going on?**

**There were many questions and no proper answers - why were thousands of buildings around the world buried or half buried?**

**Many researchers noted that many people who had never even been To Moscow or to Russia, were telling lies and making producing false photographs to destroy the truth about this topic.**

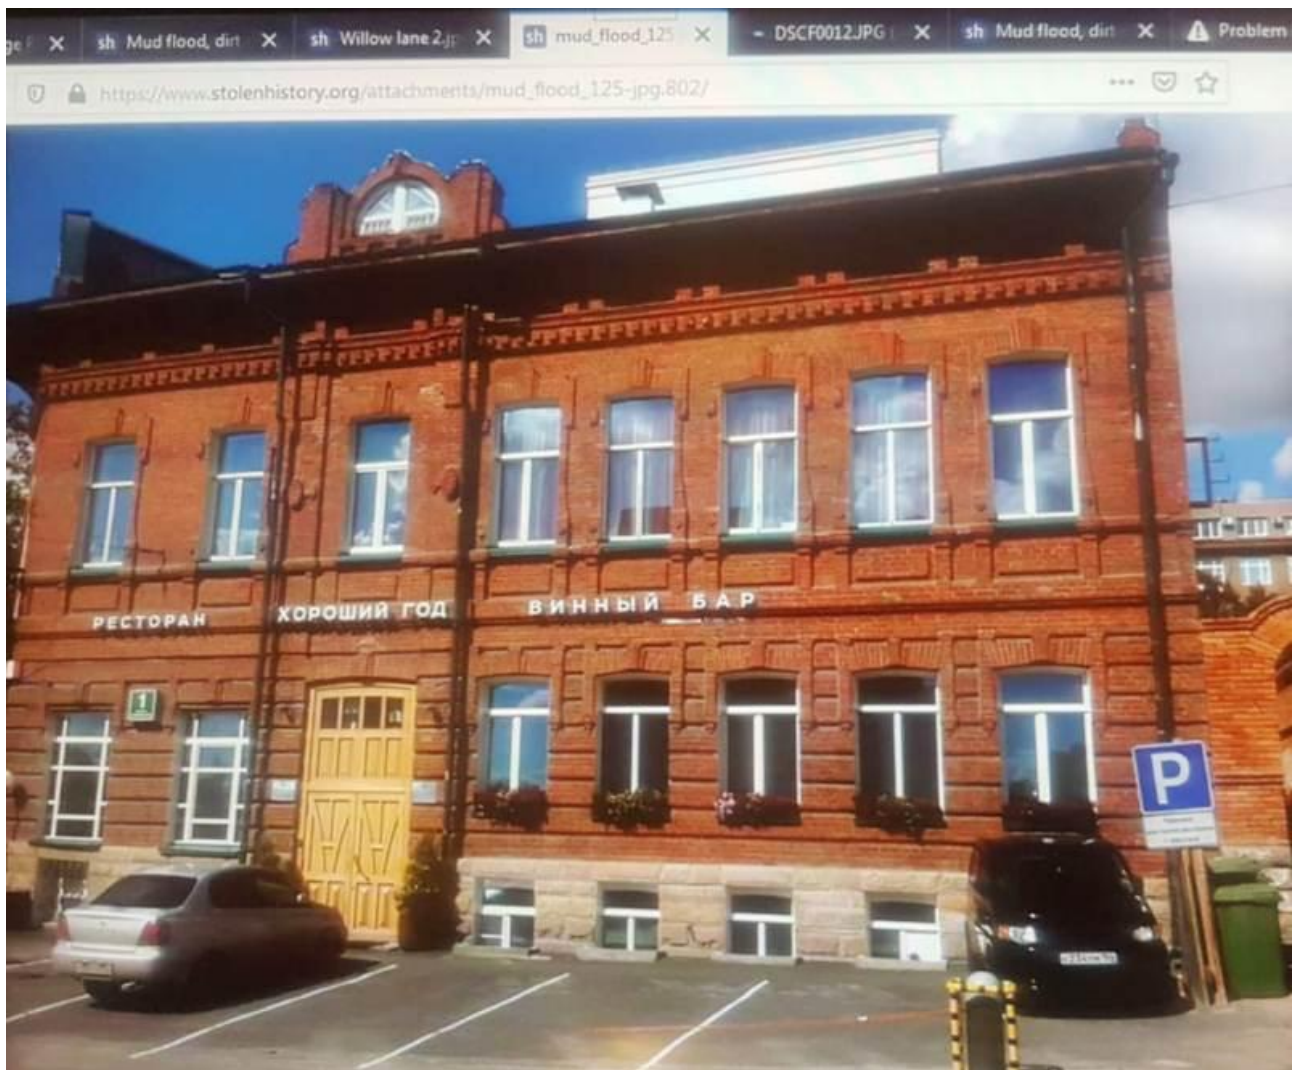

**Above is a photo modification of the Polytechnic Museum, Moscow. Researchers were very careful to identify false photographs and also took note that some people were trying to falsify photographic evidence.**

**Researchers are now investigating as to what might have happened - some researchers are thinking that the reason why these buildings are buried underground is maybe because of a flood or mud flood type of event**

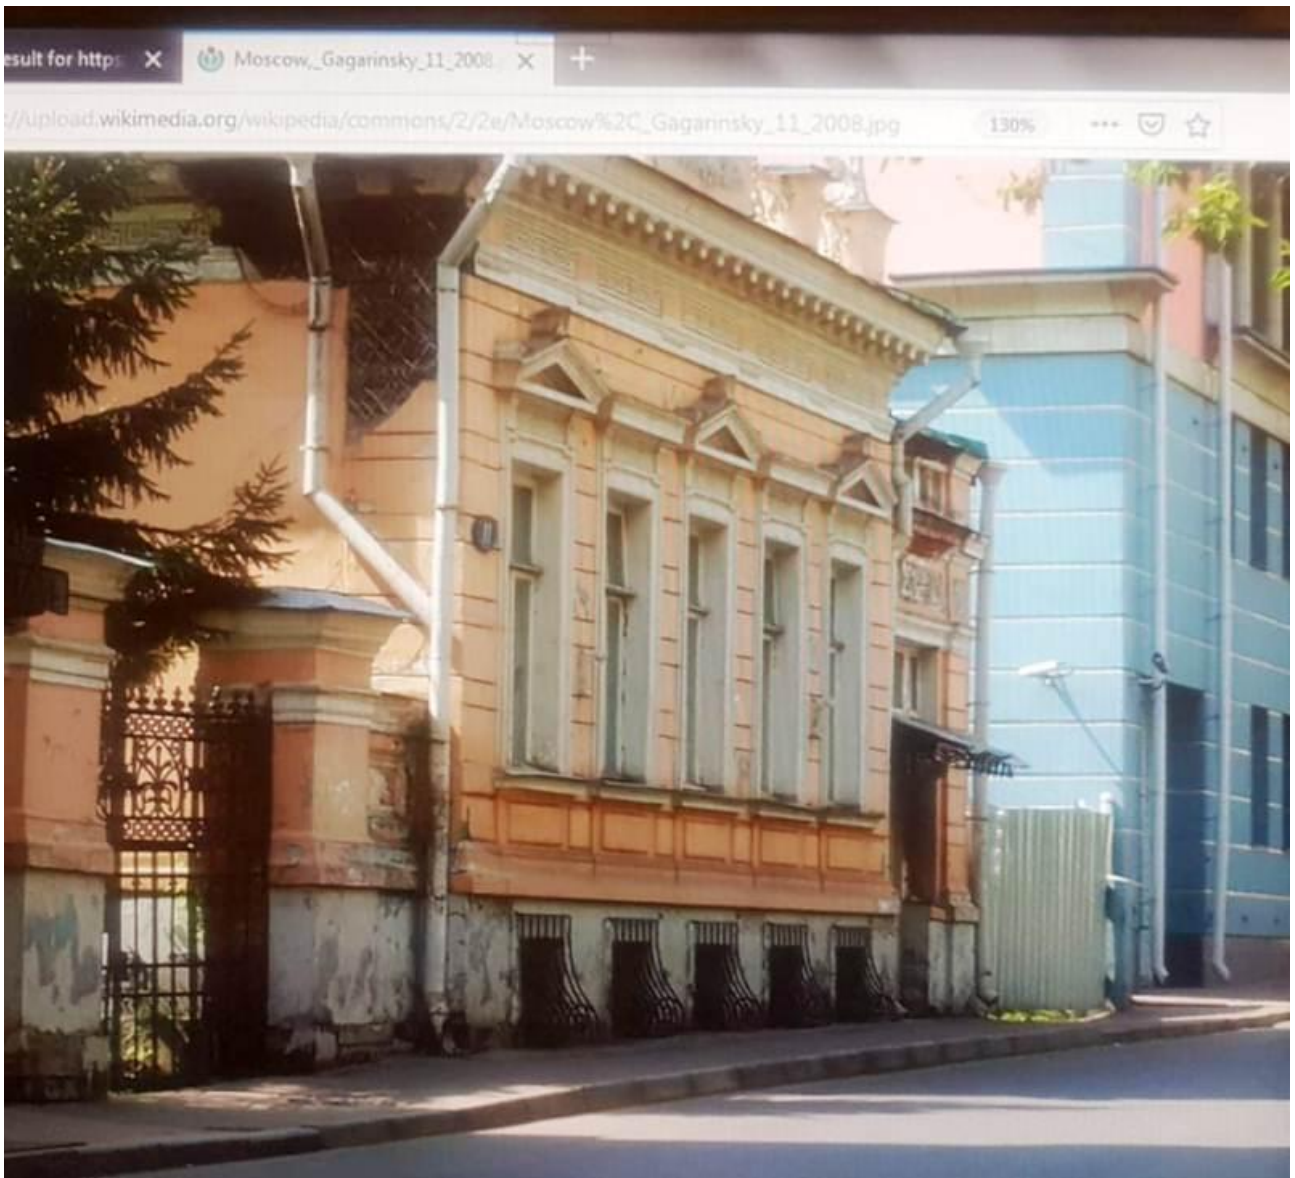

**- but they are not sure yet - or maybe a global war happened a few centuries ago and advanced weapons were used that buried these buildings. Some researchers are even asking if an alien force from outside our world - attacked the world - which led to the burial of many cities and buildings. Researchers are divided and have not yet fully decided as to what happened worldwide and what buried these buildings underground.**

**Researchers have found a strange global pattern where thousands of buildings have windows and doors buried underground and in some cases 2 or more floors underground. The pattern shows that the ground level around the world - has risen in many cities around the world - maybe in the last few centuries.**

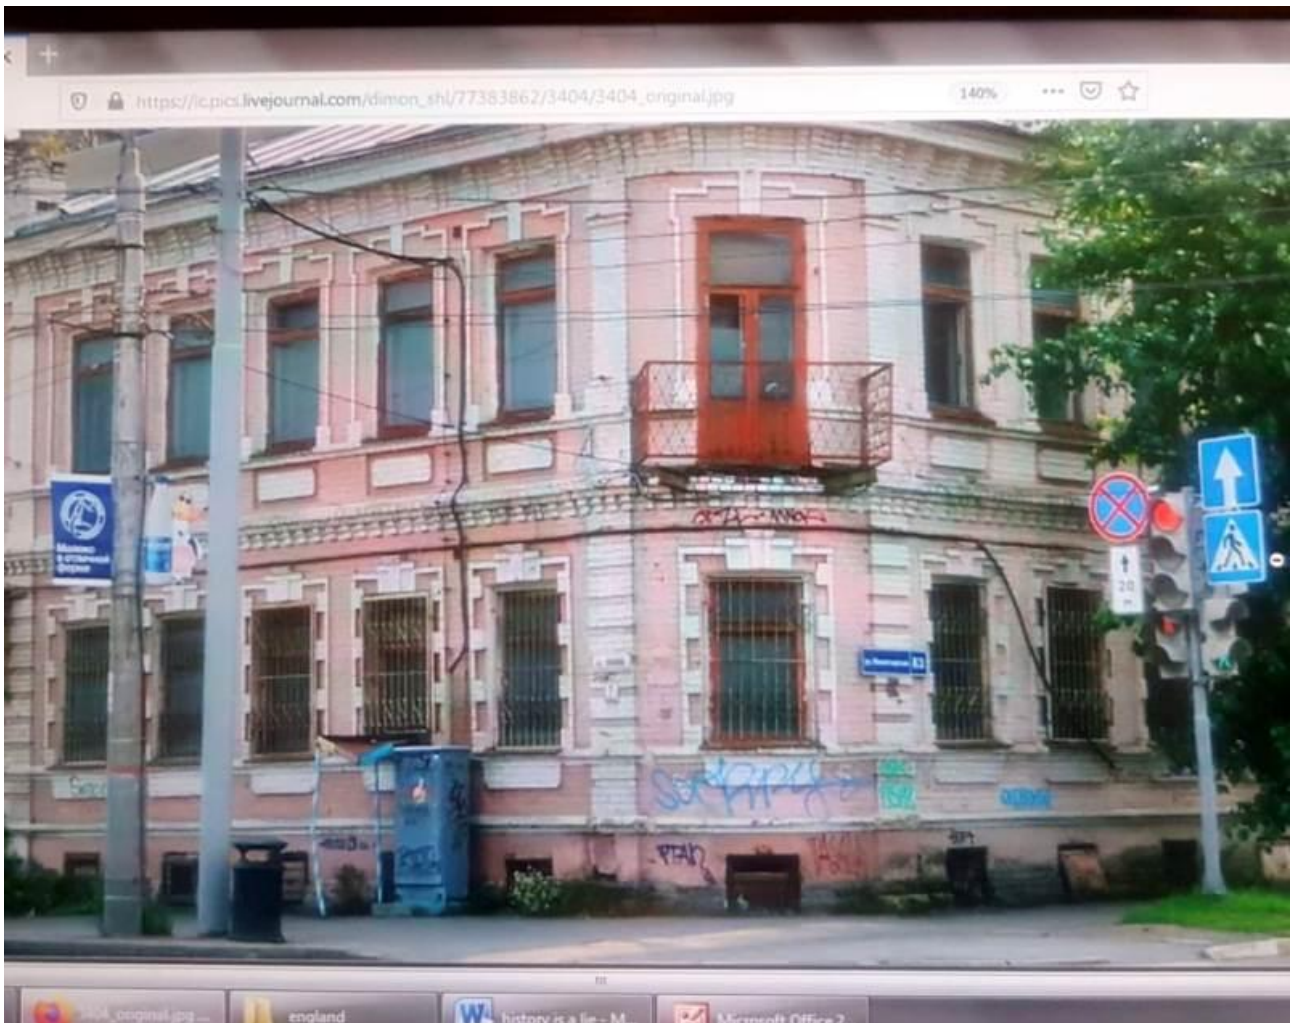

**Researchers claim that a global event such as a flood or - mud flood - or a series of global events happened - that buried large parts of the world underground.**

**Researchers are not sure yet when these events took place. Some researchers are investigating if it was 200 years ago, Other researchers are investigating if it was 500 years ago. And other researchers are investigating if this was part of the Great Flood of Noah. What caused these events is a subject that researchers are investigating.**

**Researchers point out that the evidence shows that thousands of buildings all over the world are half buried - with windows and doors several floors underground.**

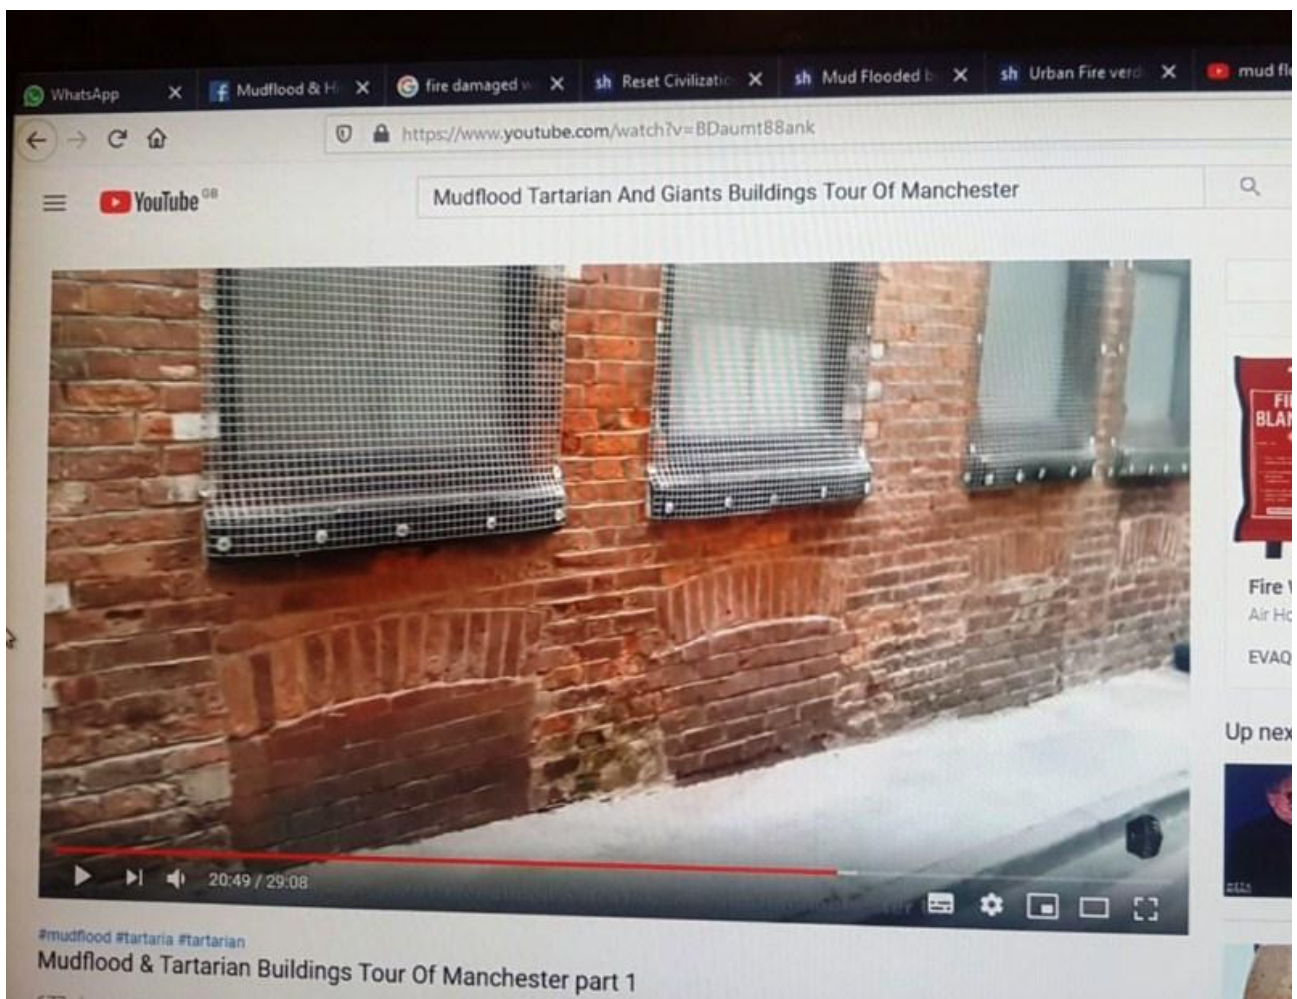

**This topic has become to be known as Tartaria.**

**Researchers pointed out that many new buildings constructed in the last 100 years or so - have windows below ground level and have put them there for a little light and not because of a possible mud flood. Researchers noted that many buildings built on slopes have windows below ground level and may have actually been built that way - so researchers carefully noted the difference between such buildings.**

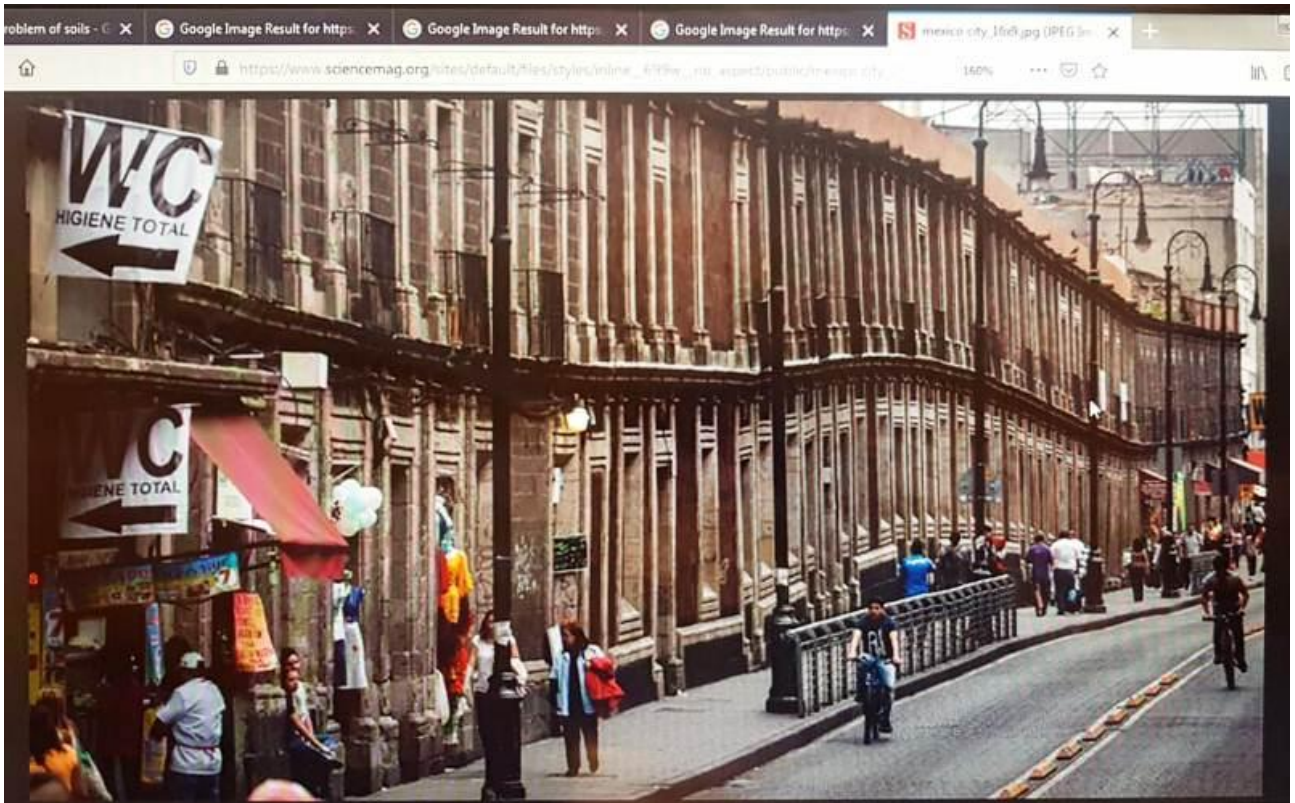

**Below is a picture from Manchester to show you how many buildings have had their windows bricked up because the building is below ground level - such sights are common throughout older buildings around the world.**

**Historians say that maybe these buildings have sunk or have been buried over time - or the buildings have been built on unstable land. But researchers do not agree with this.**

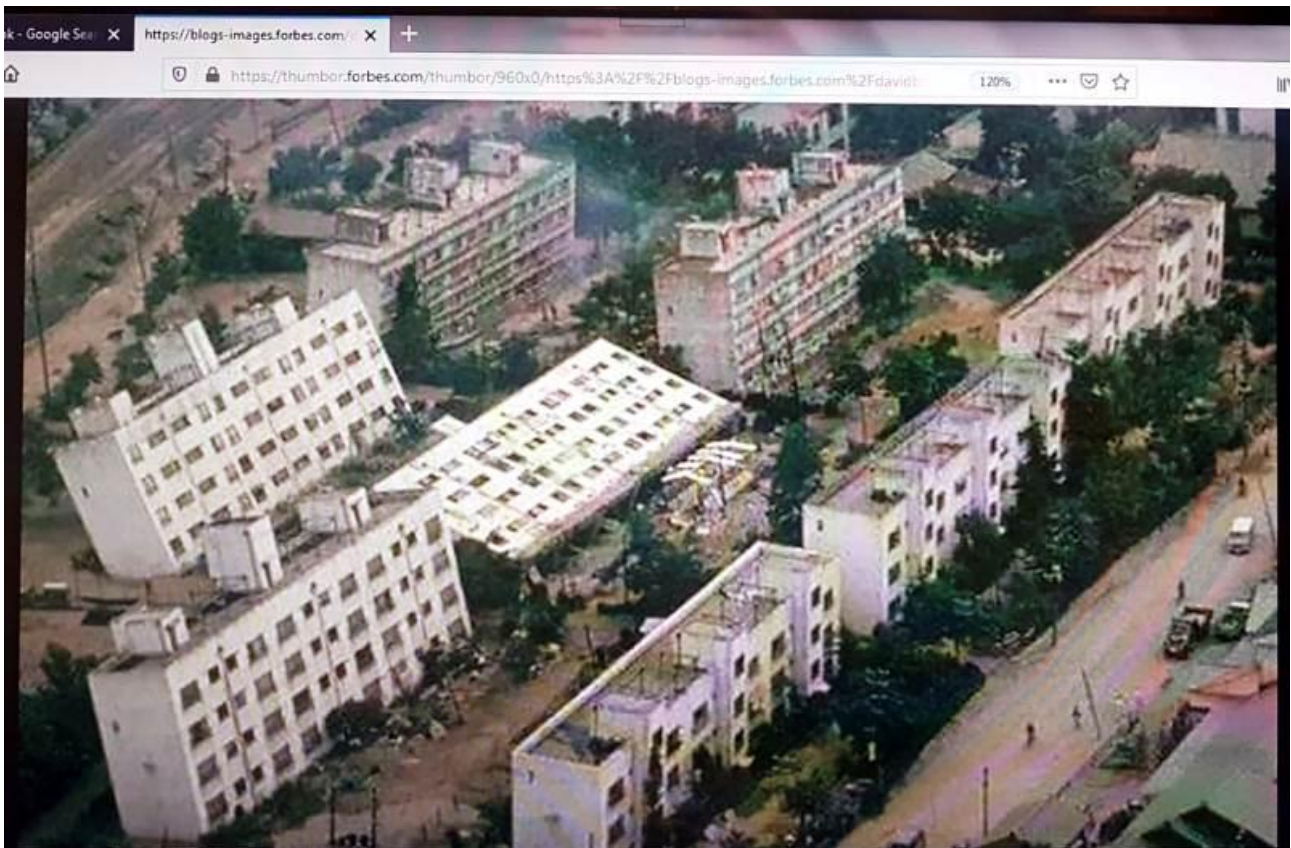

**Below is an example of a building built on unstable land and the building has sunk a little in Mexico City**

**Researchers pointed out that there is a big difference between a building that is sinking into the ground and buildings that are buried or half buried into the ground.**

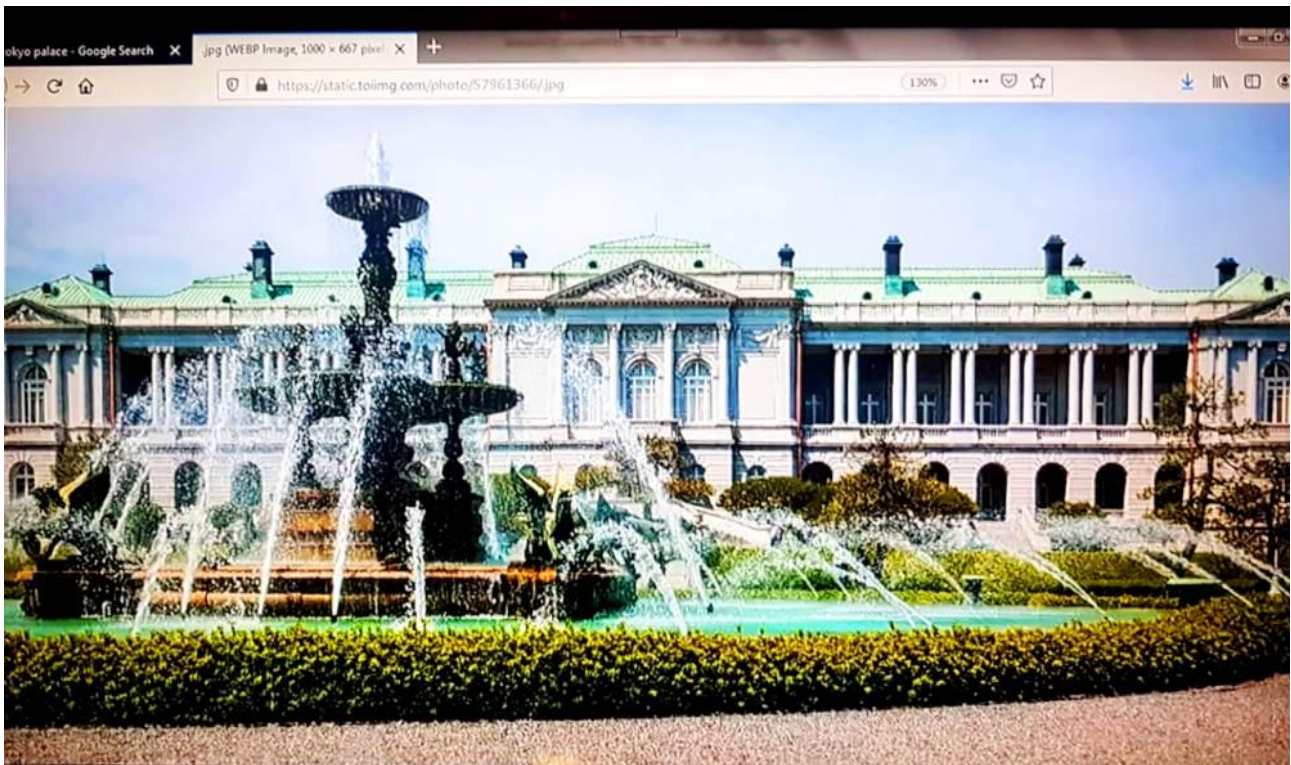

**Sometimes buildings can sink a little after an earthquake too.**

**Below is an example of buildings sinking - after an earthquake - Nigata Japan 1964**

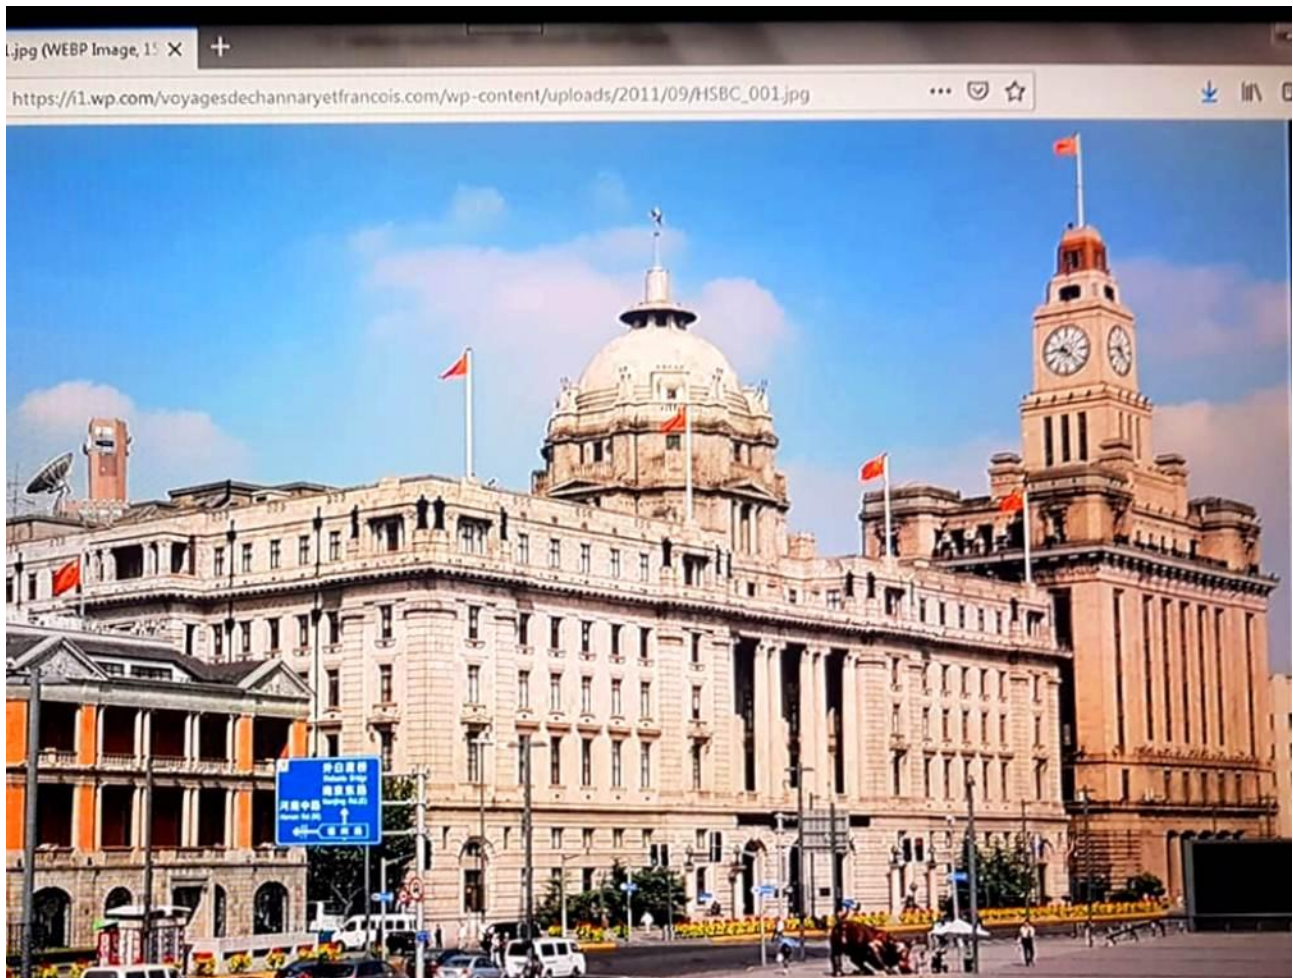

**Researchers are trying to understand what happened to thousands of buildings around the world - could there have been global disasters? Researchers are exploring the possibility that maybe global disasters happened and not a global war - some type of event or events - related to the climate or something similar - that may have caused many buildings and cities around the world - to be buried or half buried**

**Below is a photo of Akasaka Palace in Tokyo, Japan**

**There are many questions regarding the older buildings in Japan, who built them, why and when and how. Many researchers are questioning if the current people of Japan actually lived there a few centuries ago - or did they come and take the land - after a disaster happened which may have wiped out the original people living there a few centuries ago. Researchers have noticed that - many of the building doorways and ceiling heights of classical buildings in Japan - are a lot higher and bigger - than the people seen living in Japan - for example in 1920. Before 1945 - there were many classical or European type of buildings seen throughout Japan - but today there are less.**

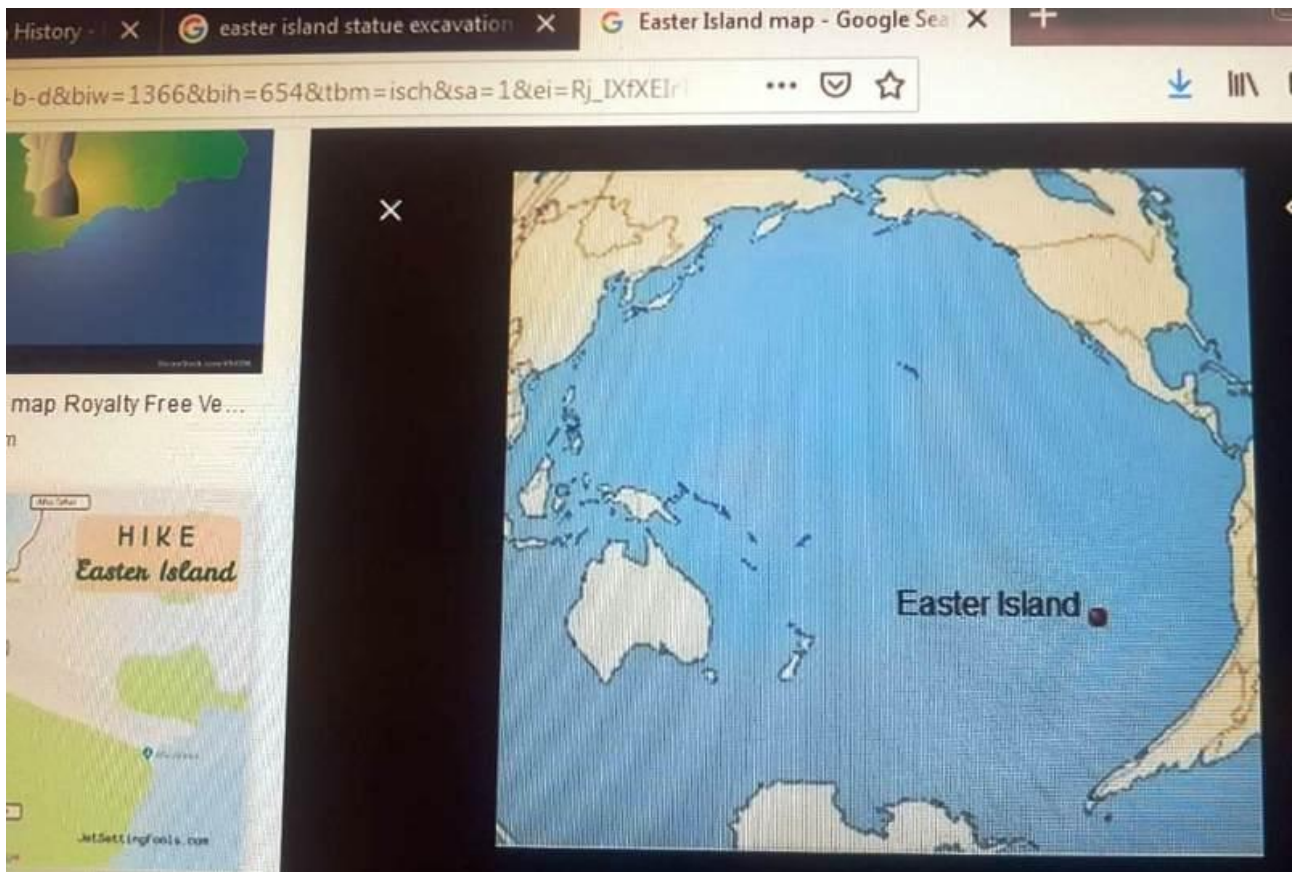

**Below is a photo of the Bund in Shanghai, China**

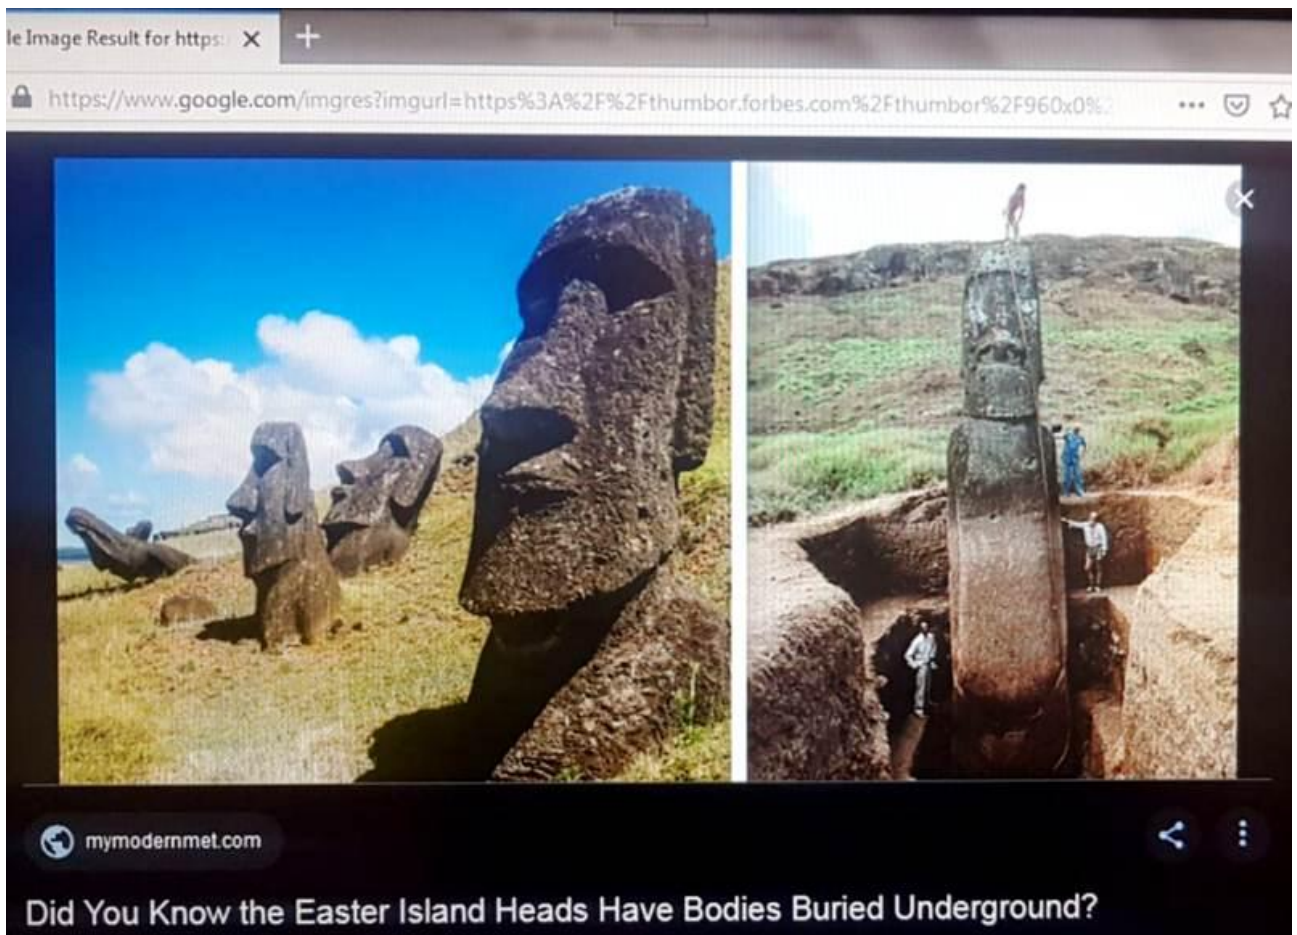

**Another thing that researchers noticed - was that many of these buildings worldwide had common global styles or architecture which many people call classical or European. This type of building and architecture - researchers have decided to call - Tartarian architecture for now while they are doing research.**

**It was not just buildings that are buried but many other things around the world that made researchers ask many questions**

**Easter Island in the middle of the South Pacific**

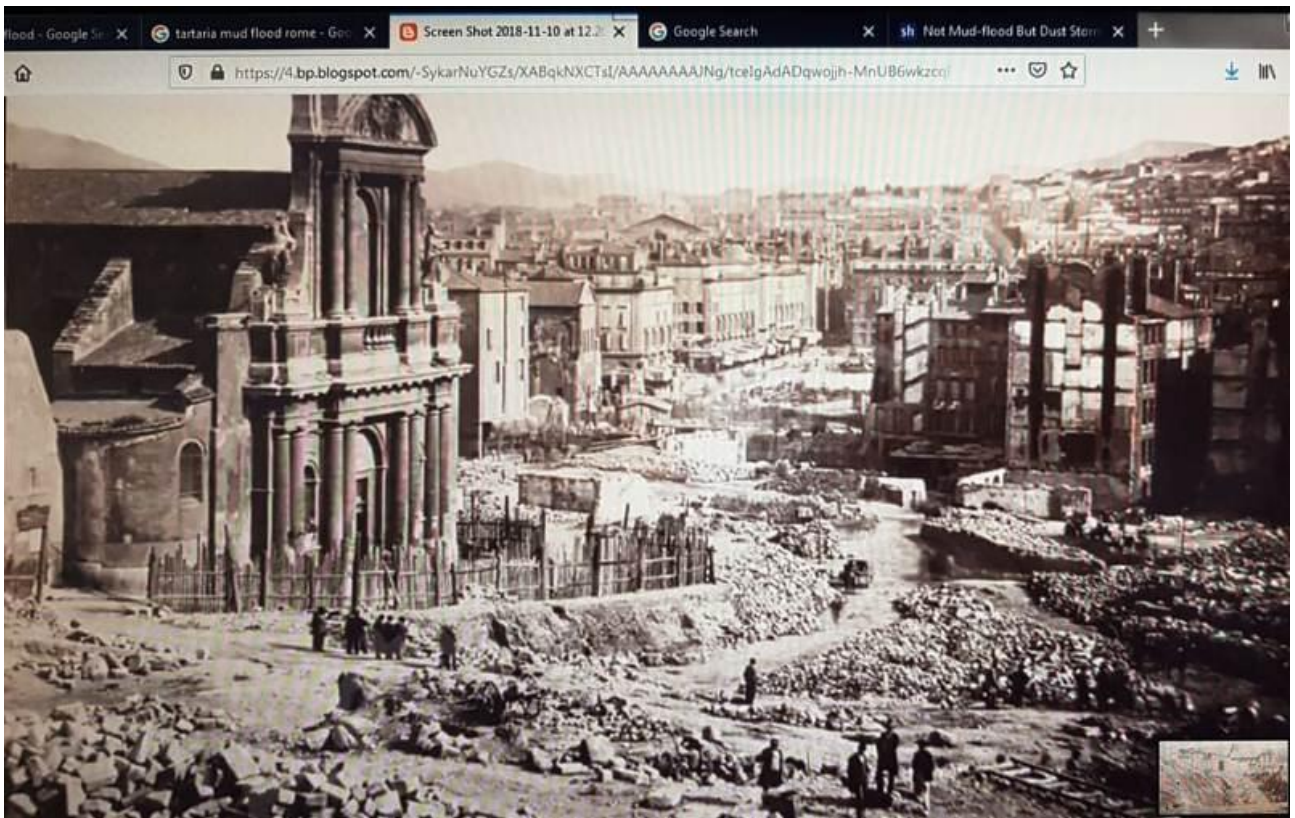

**A big question researchers asked was - the Easter Island heads - the statues are buried - what happened - how did they get buried?**

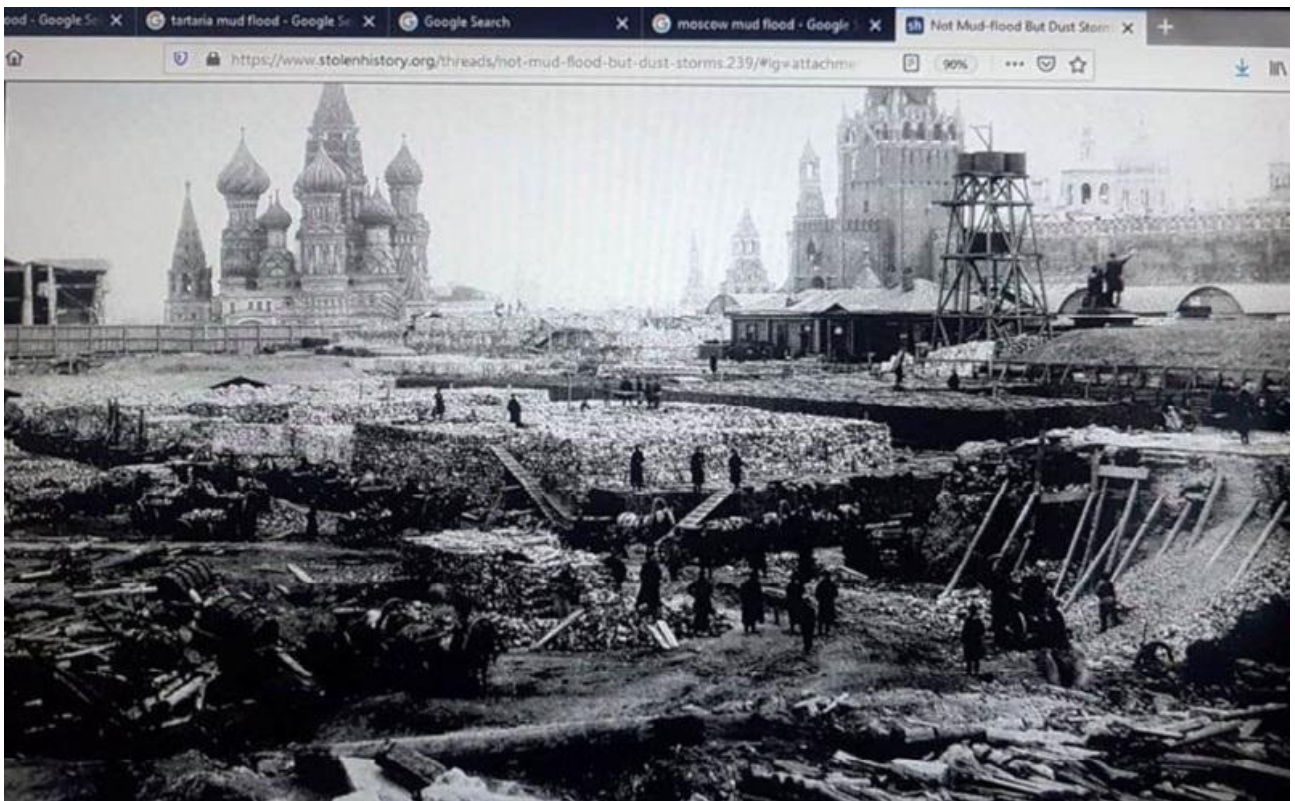

**This made researchers look at historical monuments around the world. Researchers also asked the question if the Easter Island statues are really historical or were they fakes.**

**Researchers are also investigating old photos showing cleaning operations in many cities in the world - such as Rome and Moscow - where parts of the cities were buried over a hundred years ago.**

**Rome - Italy**

**Moscow - Russia**

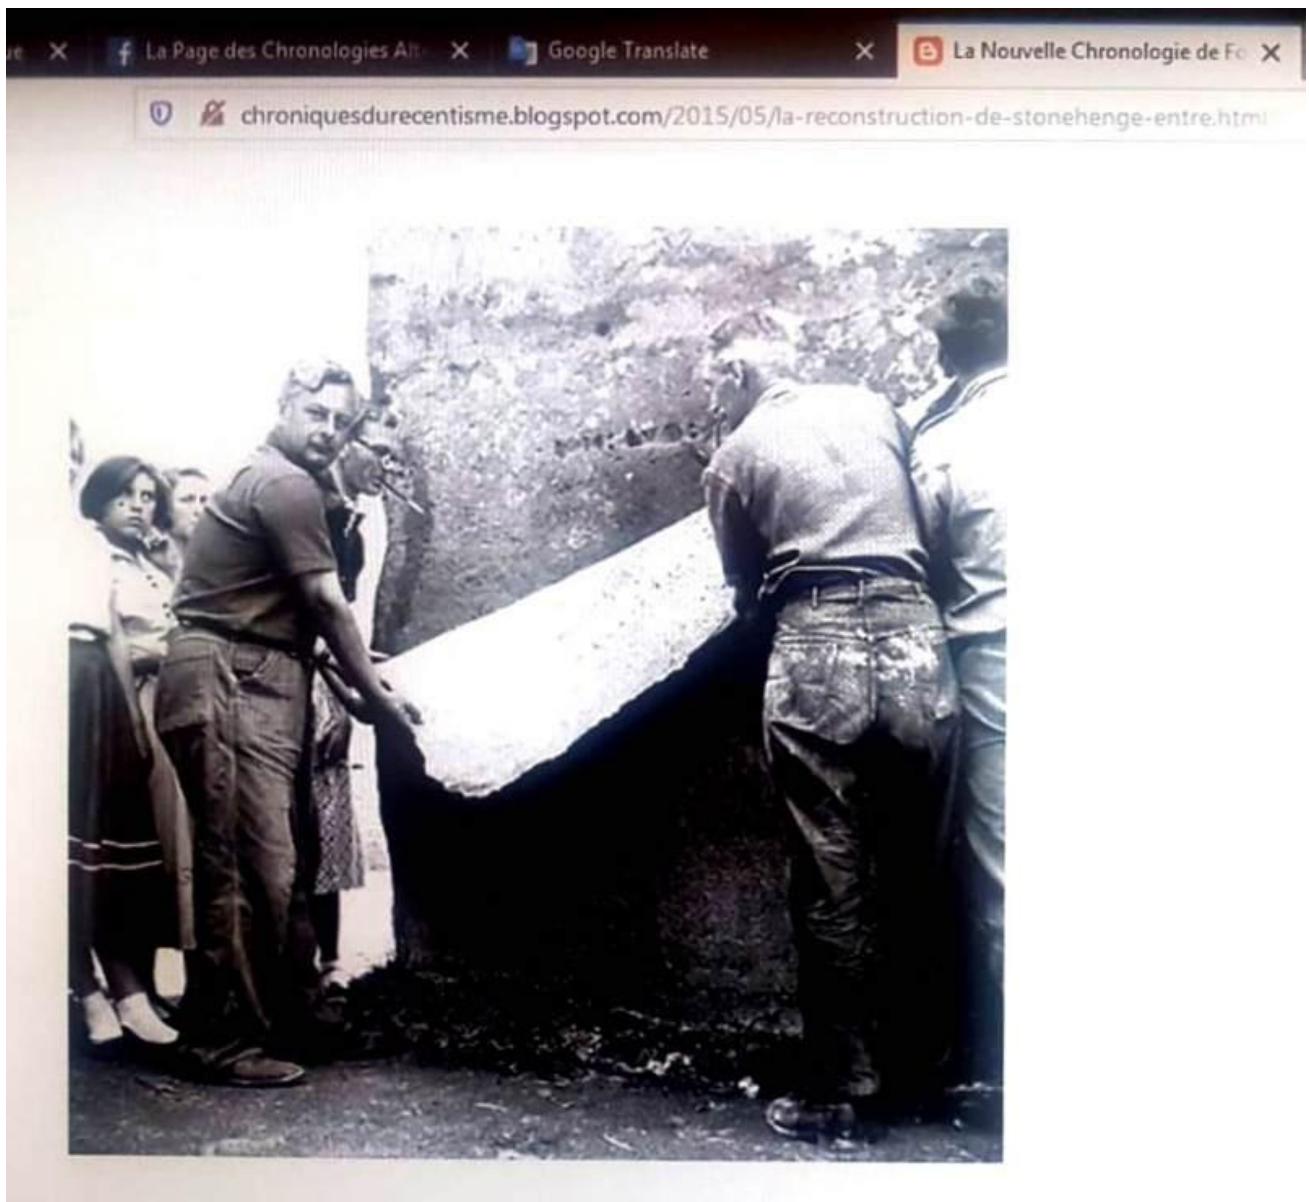

**Below are some pictures of Stonehenge - England**

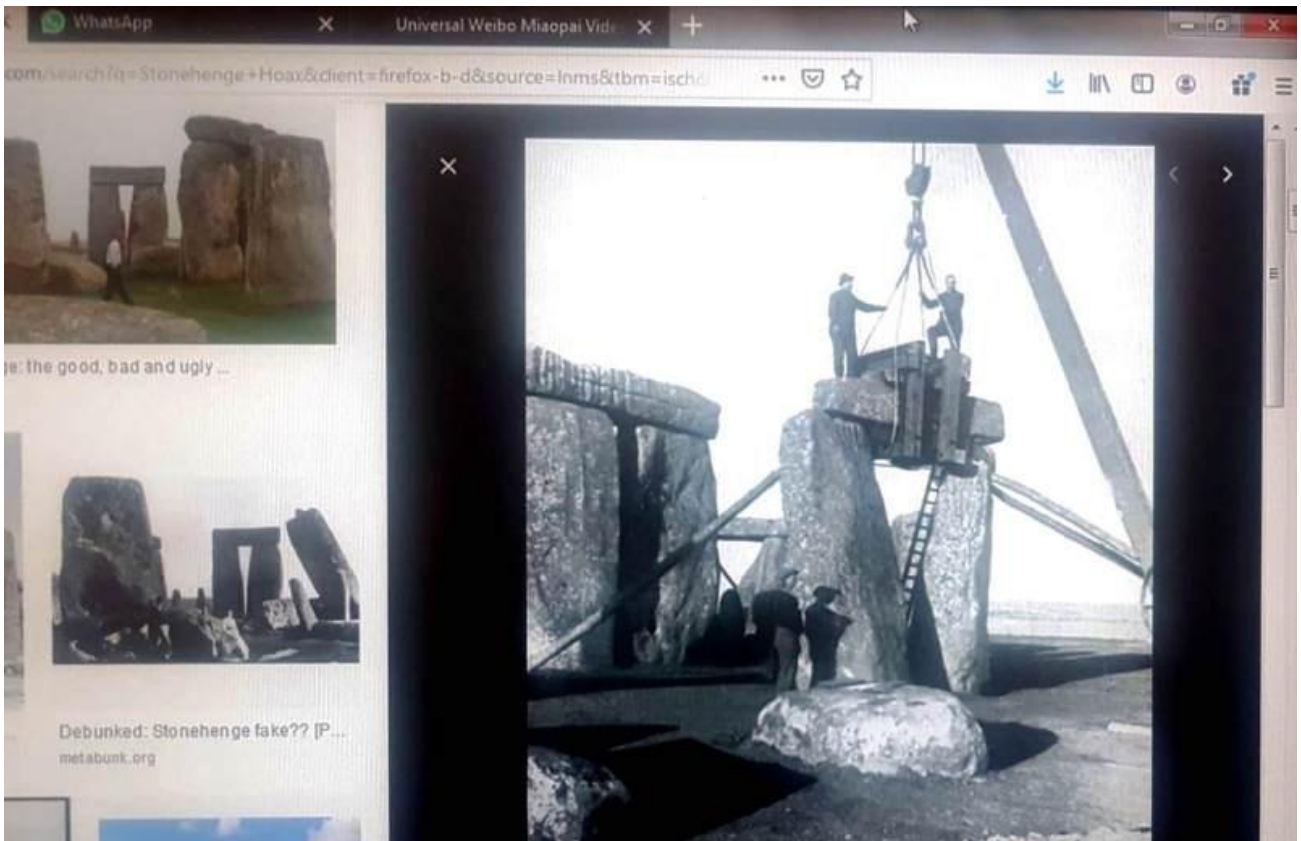

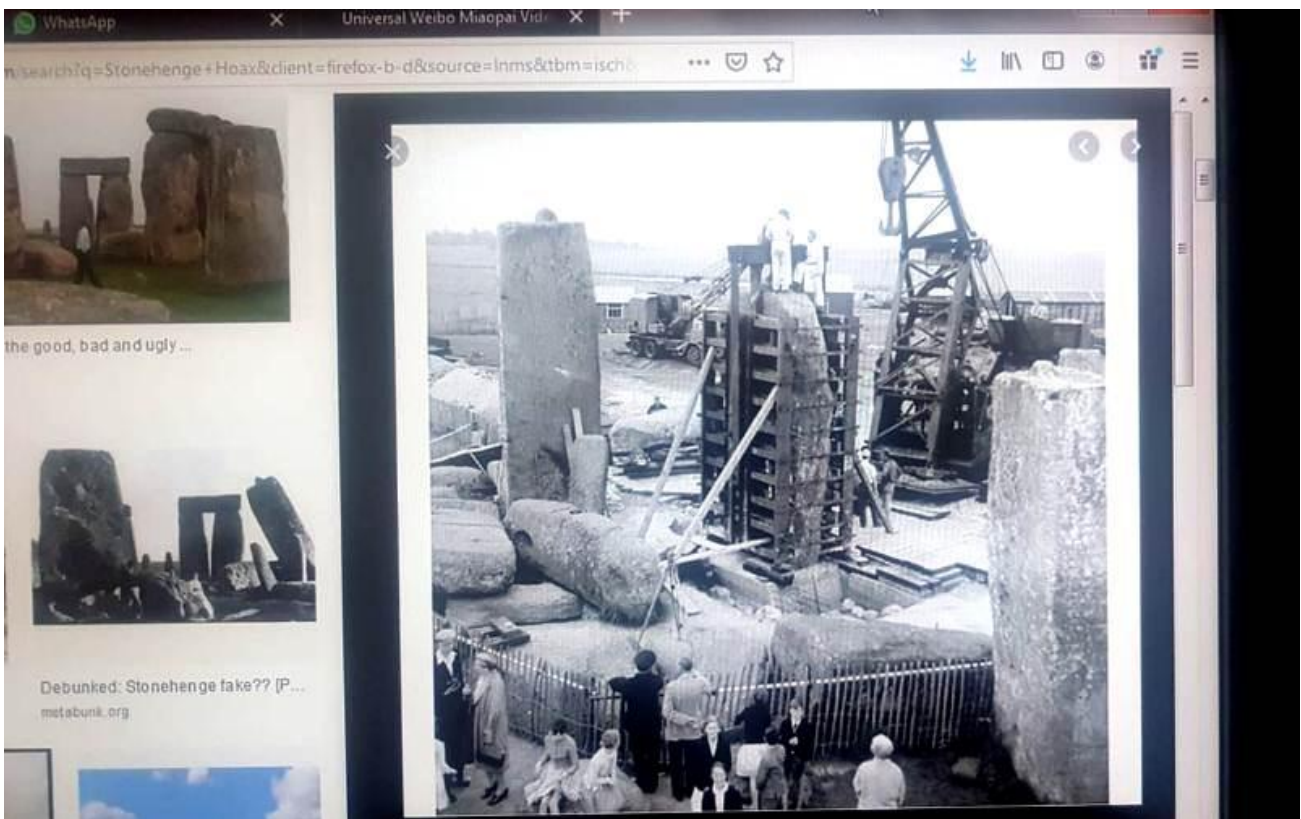

**There are many photos showing work being done at Stonehenge. Researchers show these photos as clear evidence that Stonehenge was built recently - but historians claim that it was just reconstruction and rebuilding.**

**But researchers also claim that many of the stones were actually made recently and their protective covering was taken off when the stones were placed in Stonehenge.**

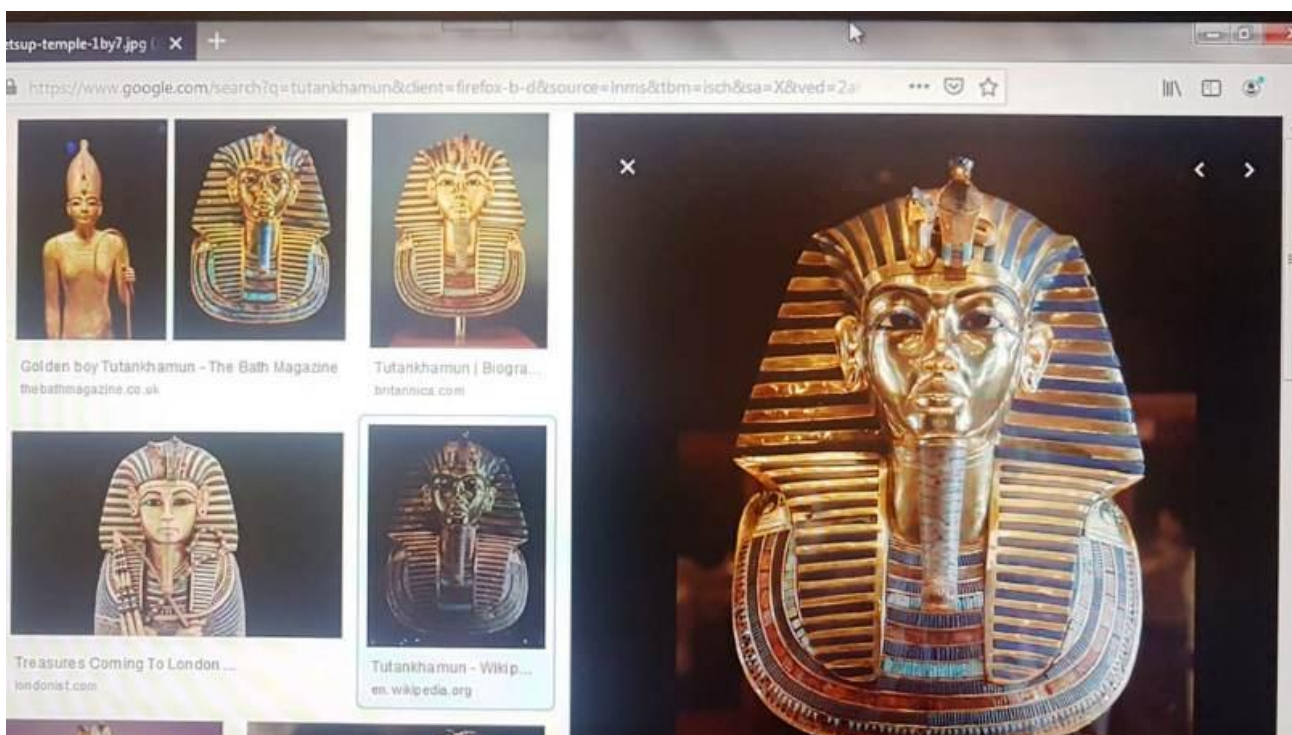

**Many modern researchers now believe that Stonehenge is a fake and that it was built in the last 100 years**

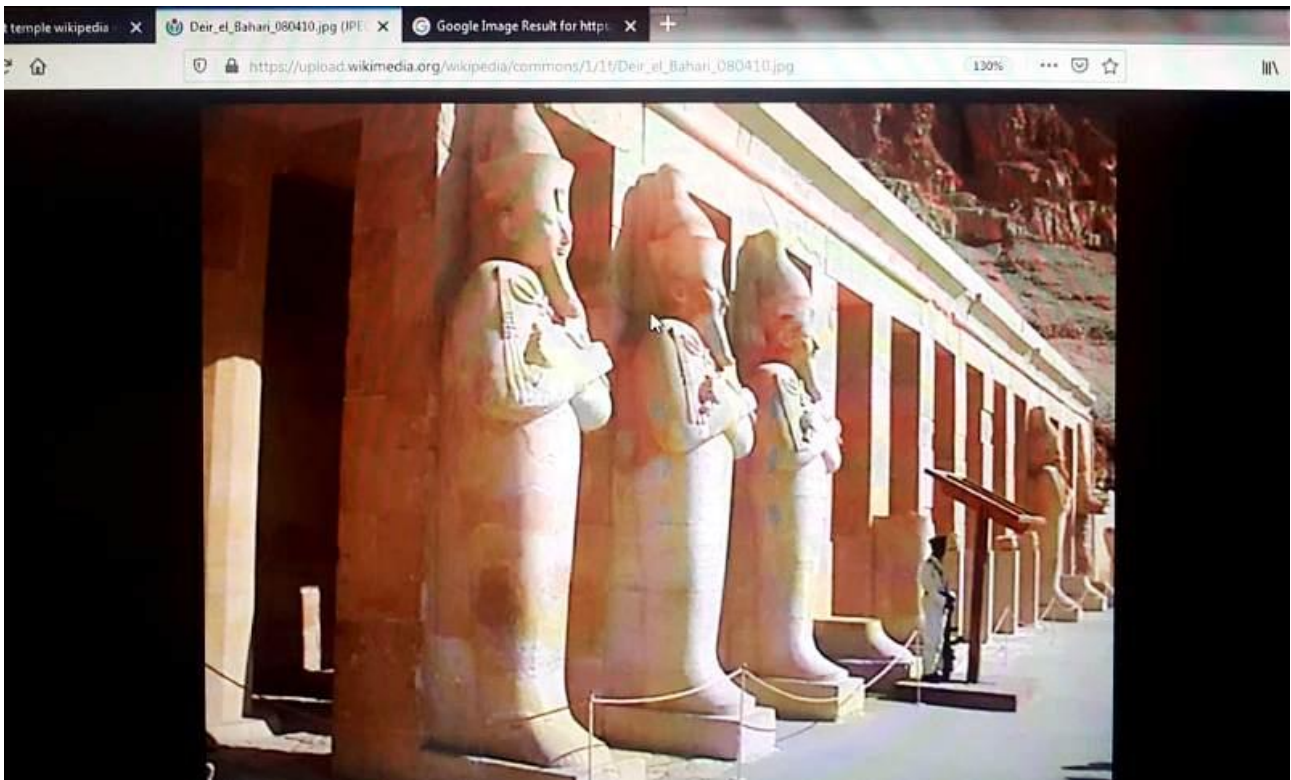

**Looking at Stonehenge - researchers began to ask the question - how many historical monuments and places around the world were fake? Researchers then began to ask - is history a lie?**

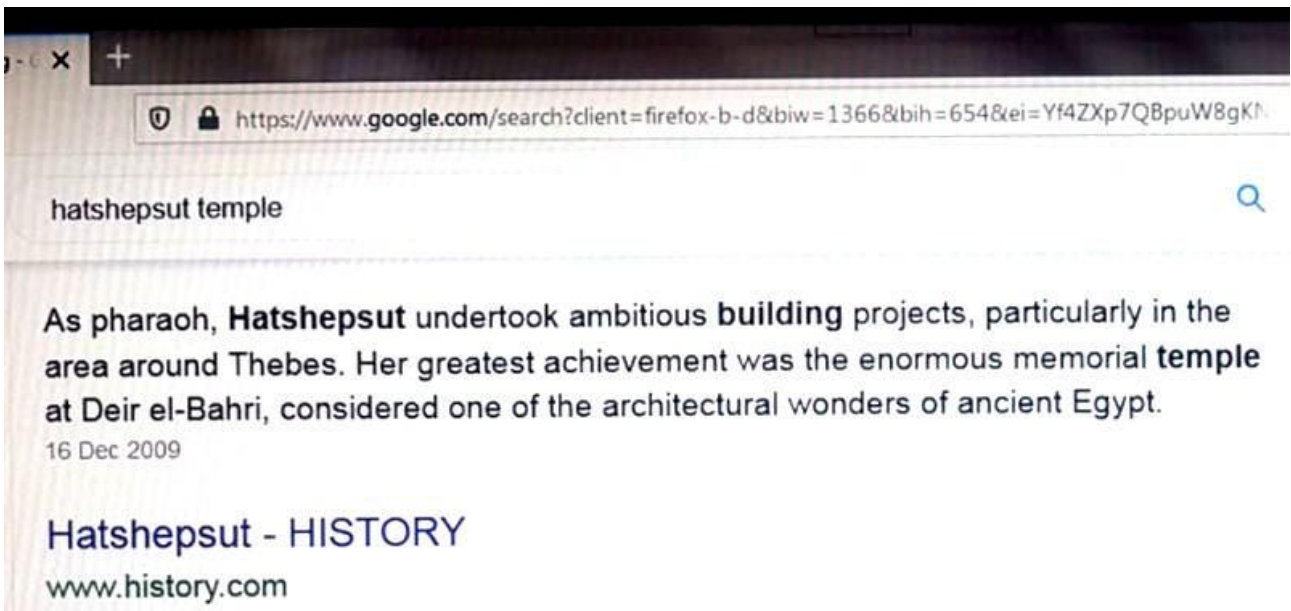

**Ancient Egypt and the Pyramids is something that many researchers have studied for a long time. The Valley of the Kings in the Thebes region - known as the Luxor region today - is famous for the Pharaoh Tutankhamun**

**Around 500 to 600 metres away from the Valley of the Kings is the famous Temple of Queen Hatshepsut.**

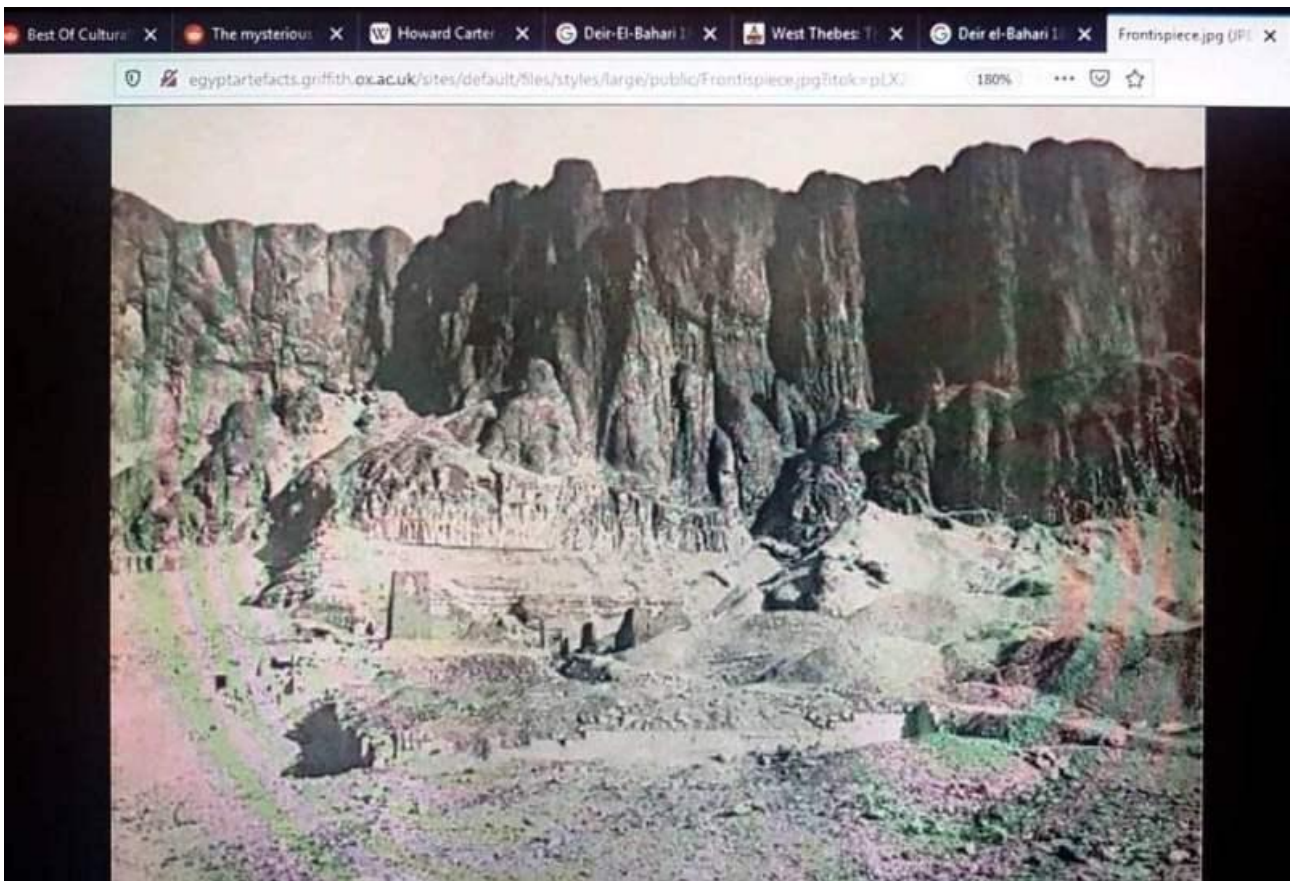

**This temple is considered to be one of the architectural wonders of Ancient Egypt - historians say that it is an amazing masterpiece**

**Below is photo of the temple as you see it today**

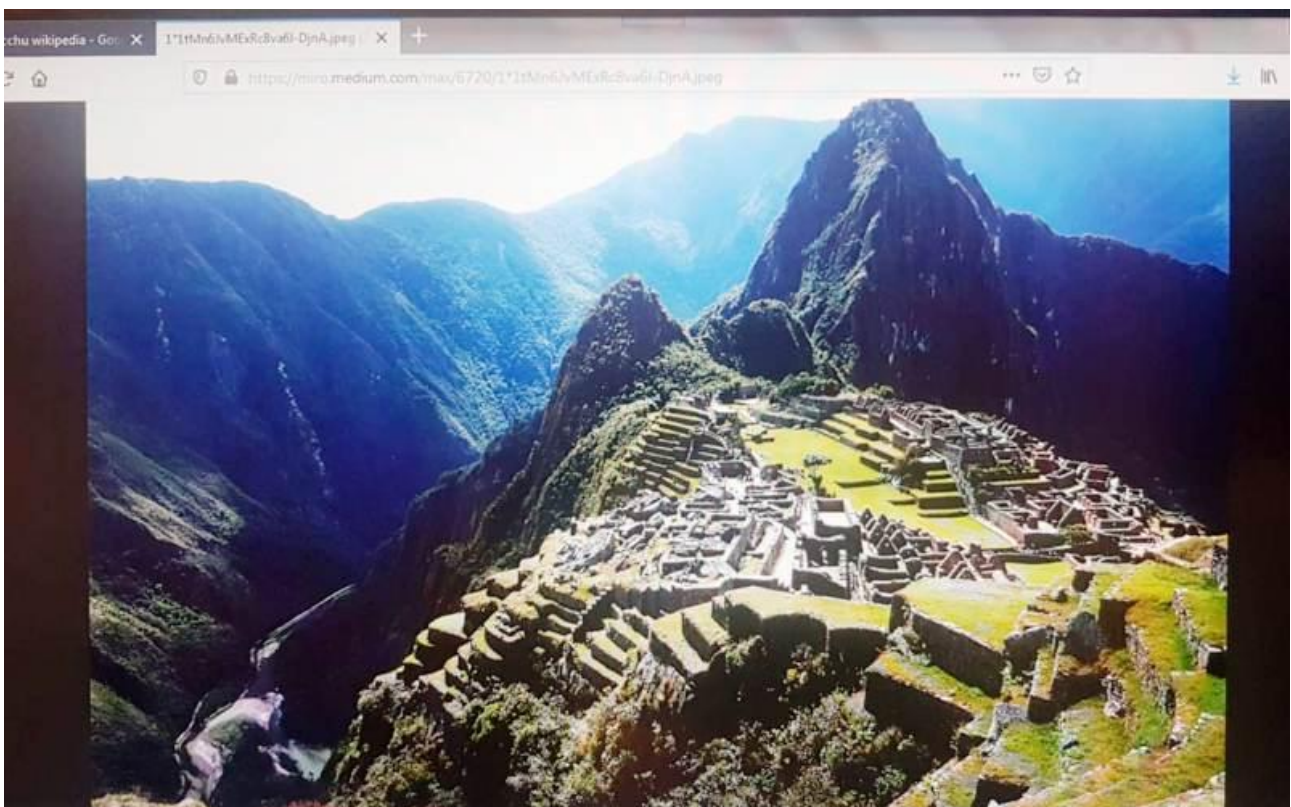

**And below is the same place in 1890 - nothing is there**

**Researchers are examining if all of Ancient Greece and Ancient Egypt and Ancient Rome and Ancient Persia - if all the history is a lie. Historians claim that they reconstructed many ancient sites - but looking at the evidence from photos - researchers believe it is a lie - and researchers show evidence that they falsely created full ancient history and then created the fake monuments to match the fake history.**

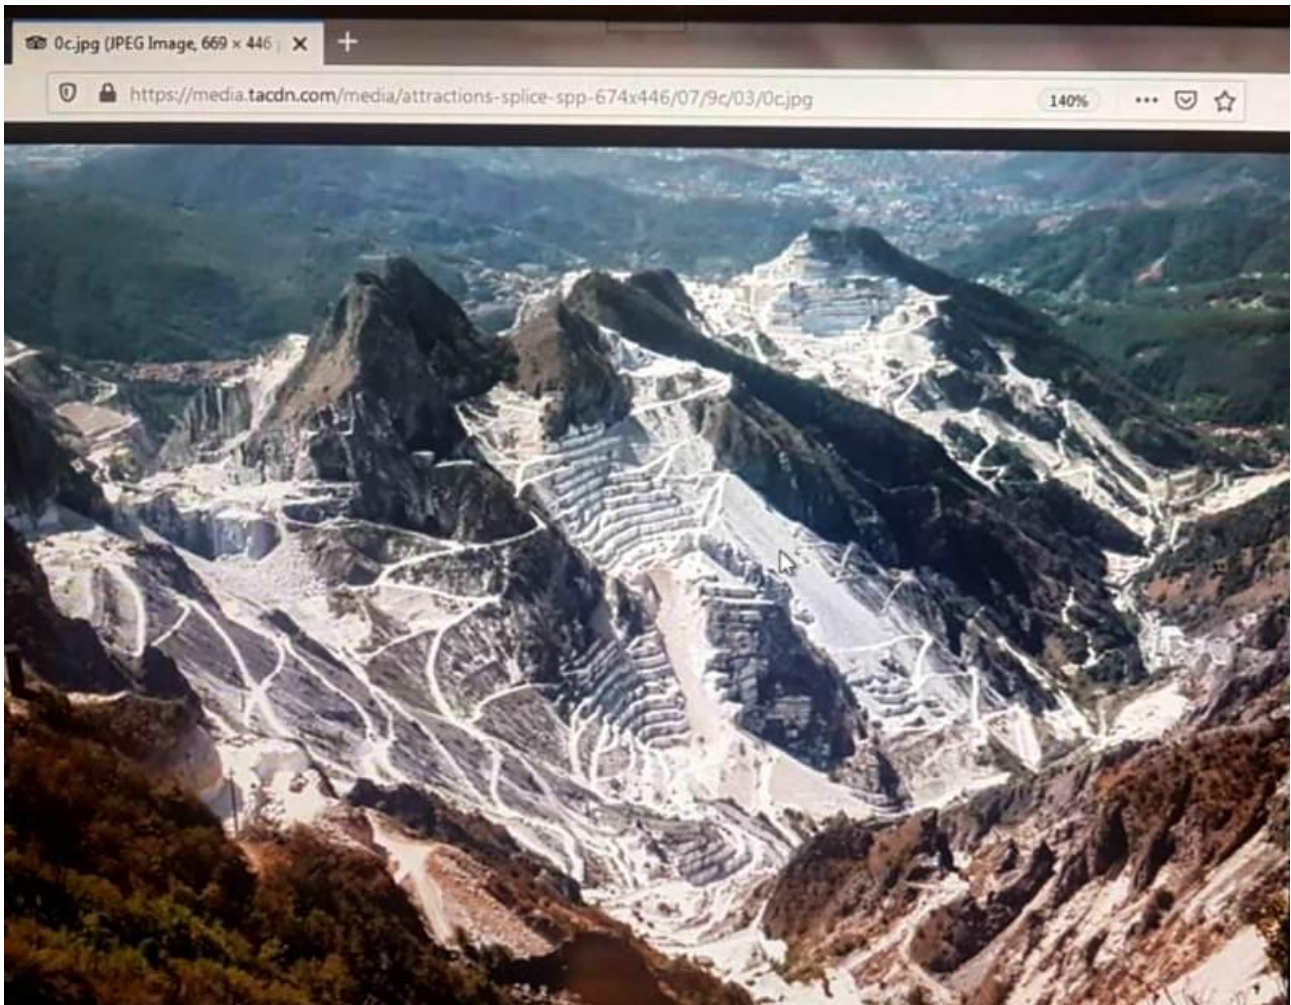

**Below is a photo from Ancient America - the famous Machu Picchu of Peru - Lost City of the Incas**

**Researchers believe that Ancient America and the history of America is a lie and that the monuments are fake - Below is Carrara Marble Quarry in Italy and**

**researchers noticed it looks exactly the same like  
Machu Picchu**

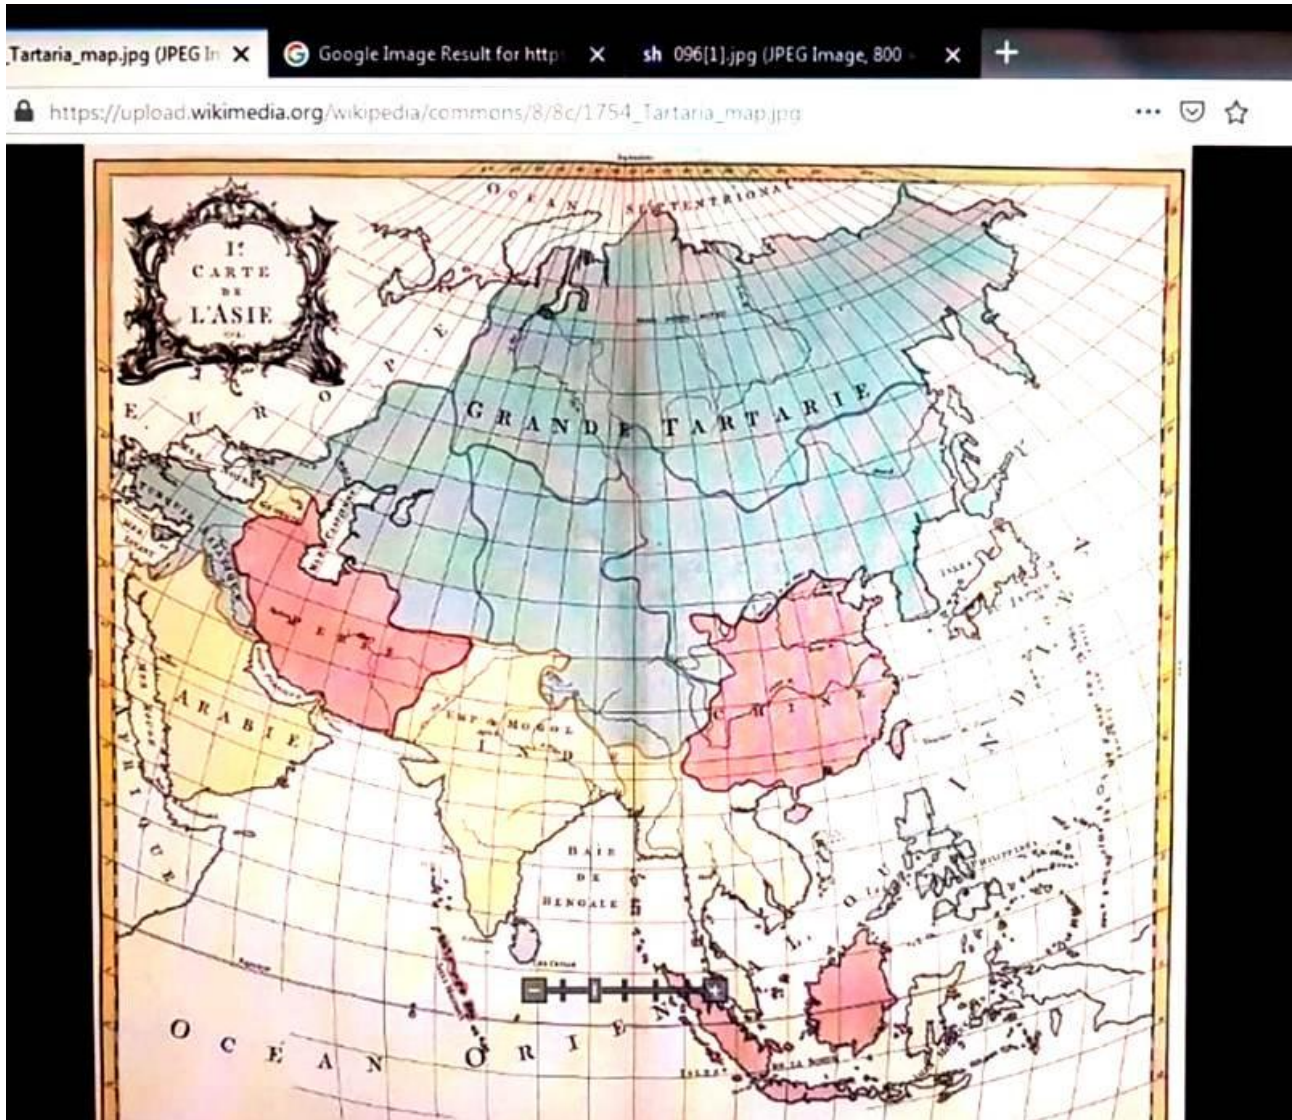

**Researchers now believe that Machu Picchu is a fake site – and is nothing more than a modified quarry - and has been falsely decorated to look like a historical site.**

**Below is a map from the year 1754 and it shows a land known as Tartaria - the dates are questionable. This map and many other maps from that time - show Great Tartaria - and from the evidence of the maps - we can say that Grand Tartaria covered vast amounts of the world surface - in some maps - it can be seen that**

**Tartaria at some points in time - ruled many parts of Europe and Asia and also in the Americas. Who and what was this Grand Tartaria?**

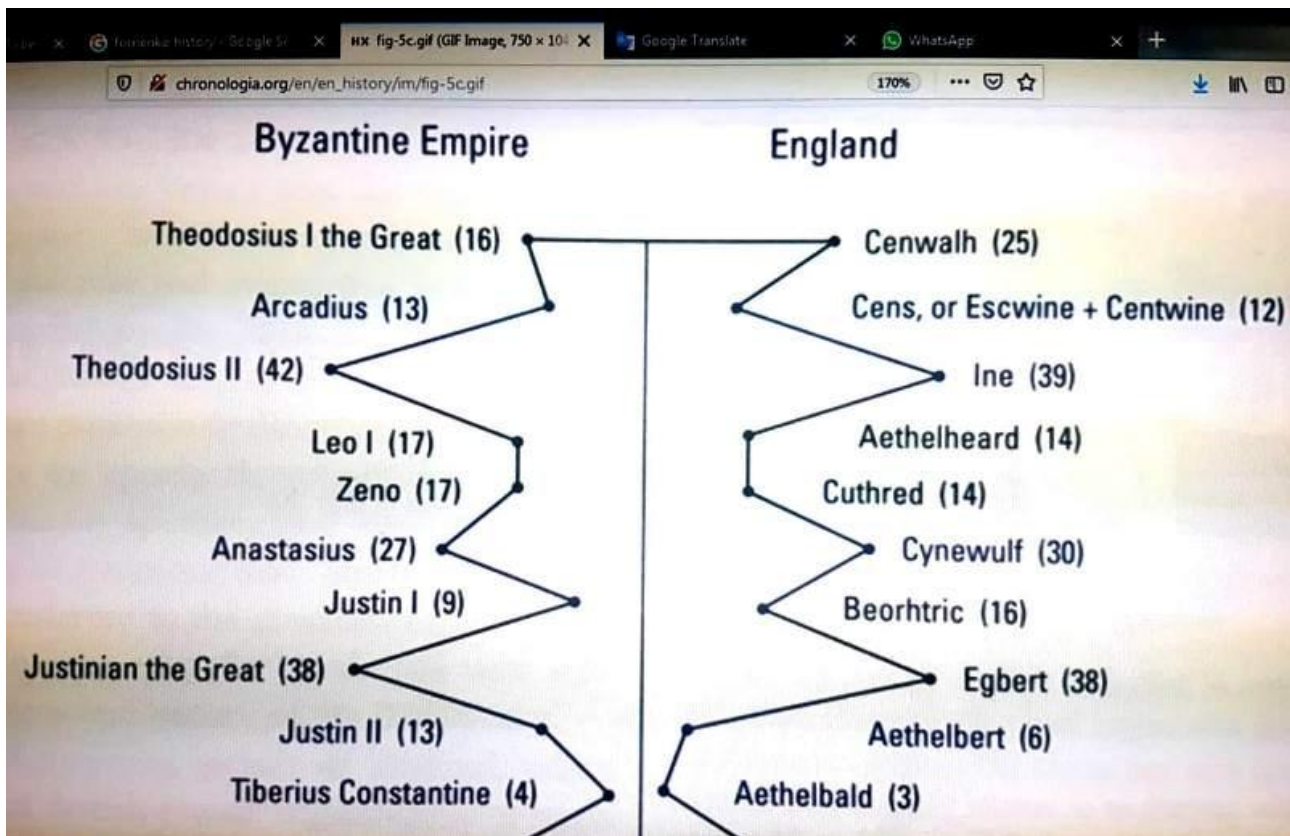

**Maps were very popular between 1860 and 1900 and many companies and businessmen - created many maps in many cities in Europe - and many maps were drawn inaccurately and very badly - but it was big business to draw and print maps - and many maps claimed to be old and had many fake dates - it was big business. So this is why the dates on maps are**

**questionable and the information presented within maps is also questionable. Researchers found evidence that much of world history and historical documents were fakes and full of lies.**

**Researchers such as Anatoly Fomenko from Russia (a very famous professor at Moscow State University) - presented much evidence regarding world history. He has shown many examples in his research that much of world history has been changed and copied and created fakely - he even shows in his research that most periods in world history are just a total lie - let's have a look at some discoveries by him and by other researchers.**

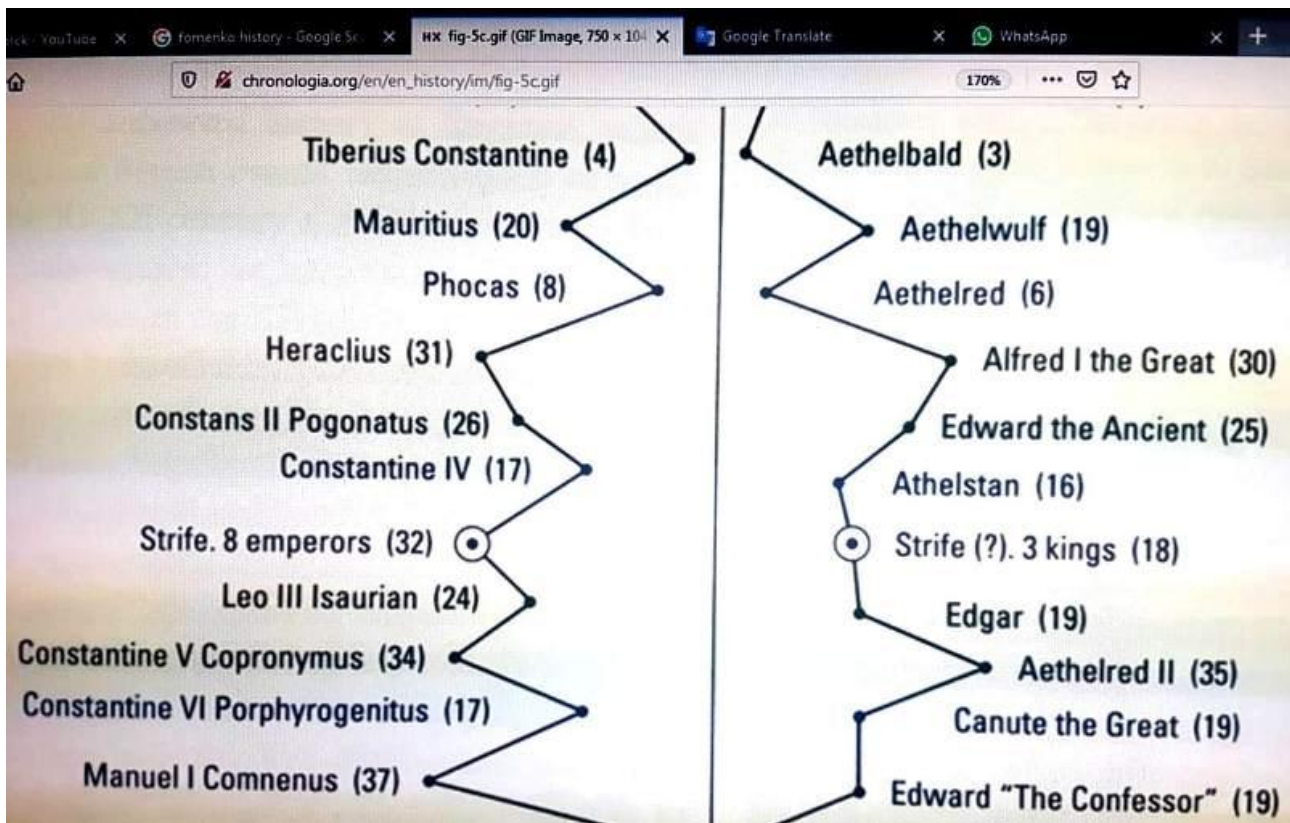

**The graphs below are an example by Fomenko which shows - the similarity in the number of years ruled by the Kings of England and the third Roman Empire - primarily in the east - and we can see clearly that they are practically the same.**

**The lines show how many years a king ruled, it is longer if he ruled longer. You will notice that the timelines of the kings of the 2 different nations - are similar - that they are practically the same kings - except that their names were changed to create fake histories for different countries.**

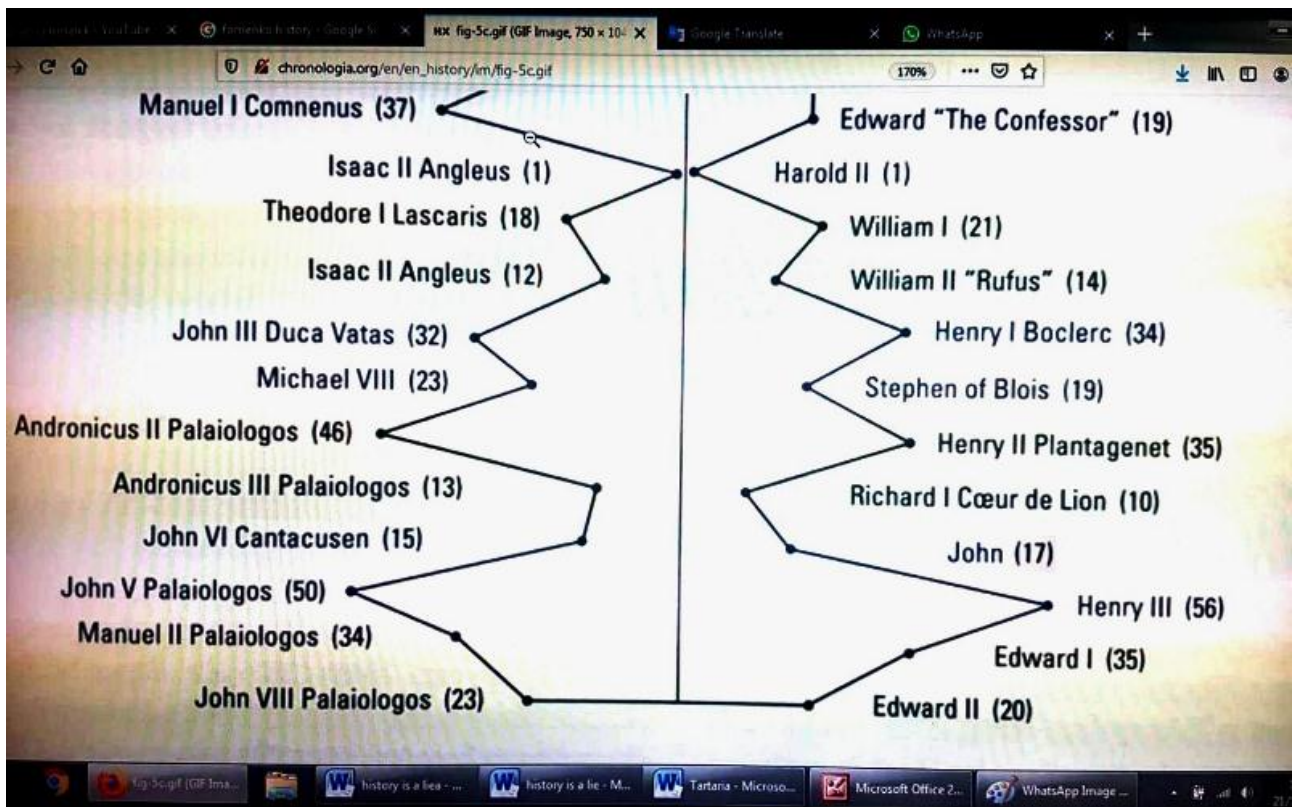

**Fomenko shows the number of years these people supposedly ruled in both nations (the number of years are in brackets) and then shows this on a graph - opposite each other - showing the similarity in the number of years the kings ruled their nations.**

**Researchers point out that it can be clearly seen that one nation copied another. Who copied who and why? And which was the original? And was the original one true - or was that falsely created also?**

**Fomenko demonstrates that not just the timelines have been copied but events have been copied and duplicated - mostly the places and names have been changed to match their local histories to give them a new history. Most events were copied and some events were even made up to make the local histories unique for political and nationalistic purposes for each nation.**

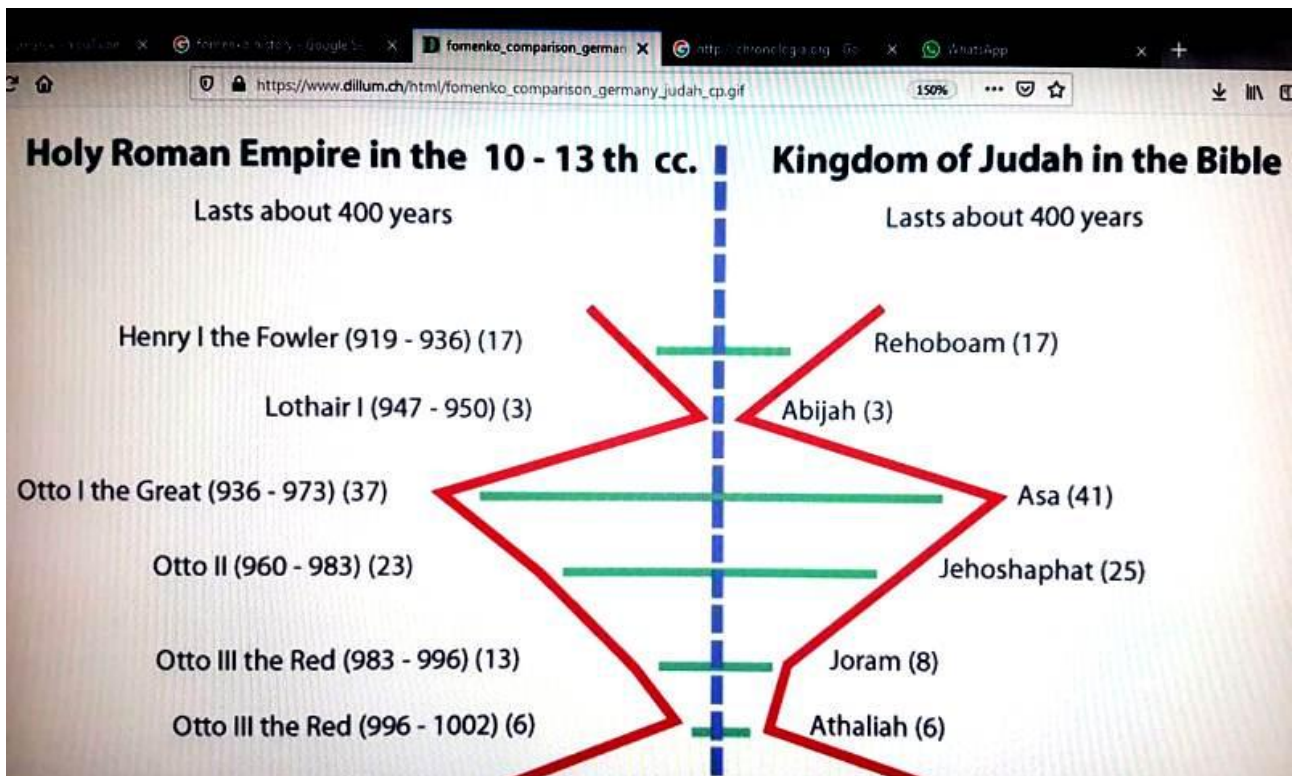

**Researchers point out that to make the fake history seem true - monuments and fake historical manuscripts and books and artefacts were created**

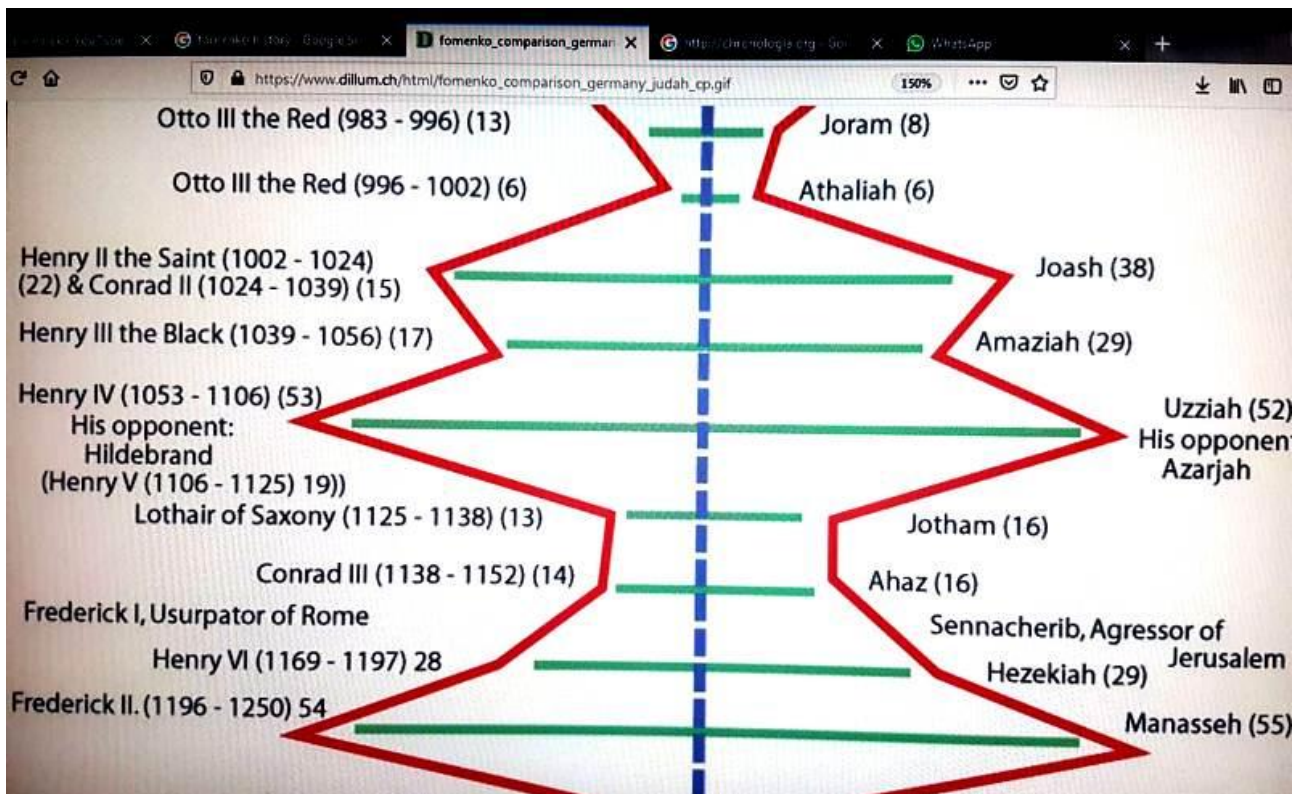

**Researchers say that we have a serious problem here - if they copied each other - where did they find the original? Also it means that all the history and the evidence in museums - and documents for all these kings - are totally fake - and that these kings did not exist. For example there is King William I of England - known as the conqueror - who was in the Battle of Hastings in 1066 - if he did not exist - it means this battle never happened. We also have King Richard the Lionheart - if he did not exist - then the Crusades against Original Islam also never happened the way we are told. If history is a lie and has been made up - then there is the new serious question - what is true history?**

**Below is a graph showing the similarity between the Holy Roman Empire between the 10 and 13 centuries**

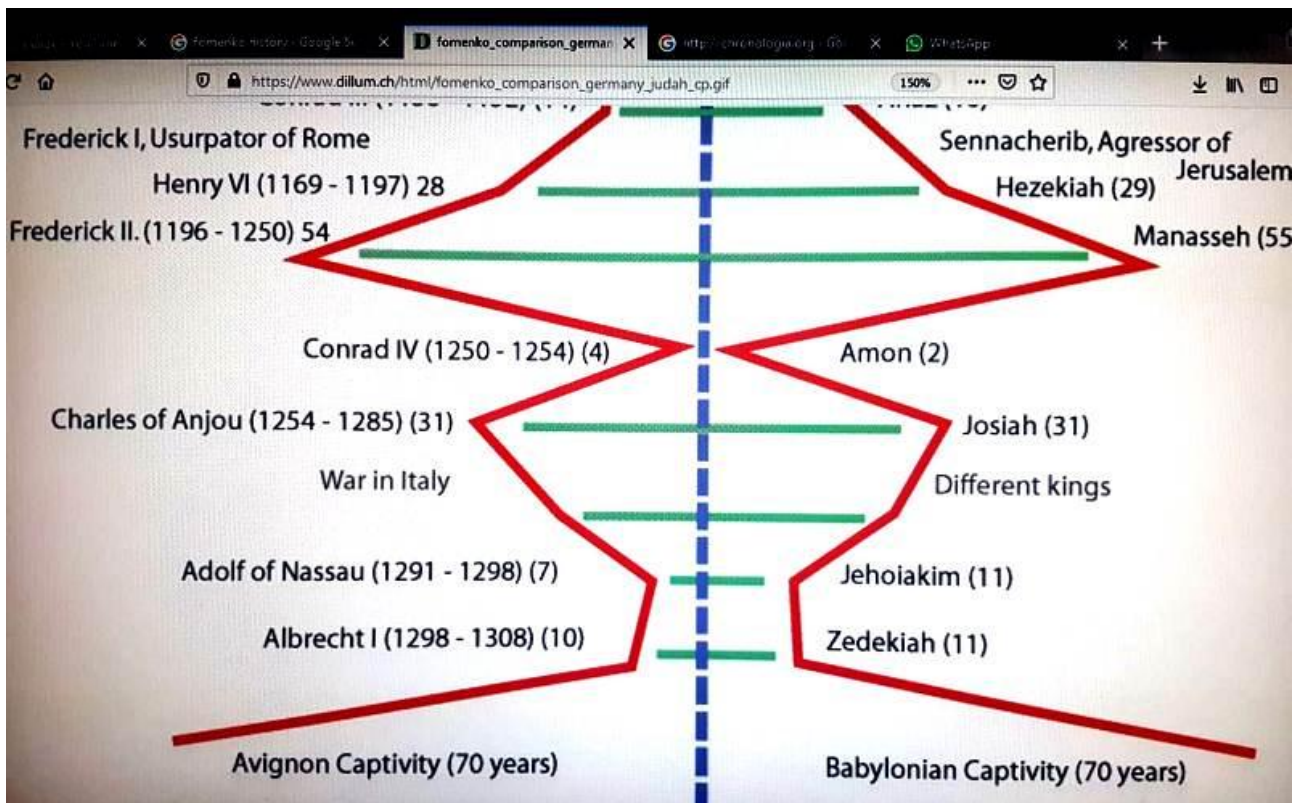

and the Kingdom of Judah and the number of years they supposedly ruled.

Once again researchers point out that - we can clearly see that one nation copied another or that maybe they copied from another original source. Who copied who and why and of course - when did they do this and what was their reason to do this?

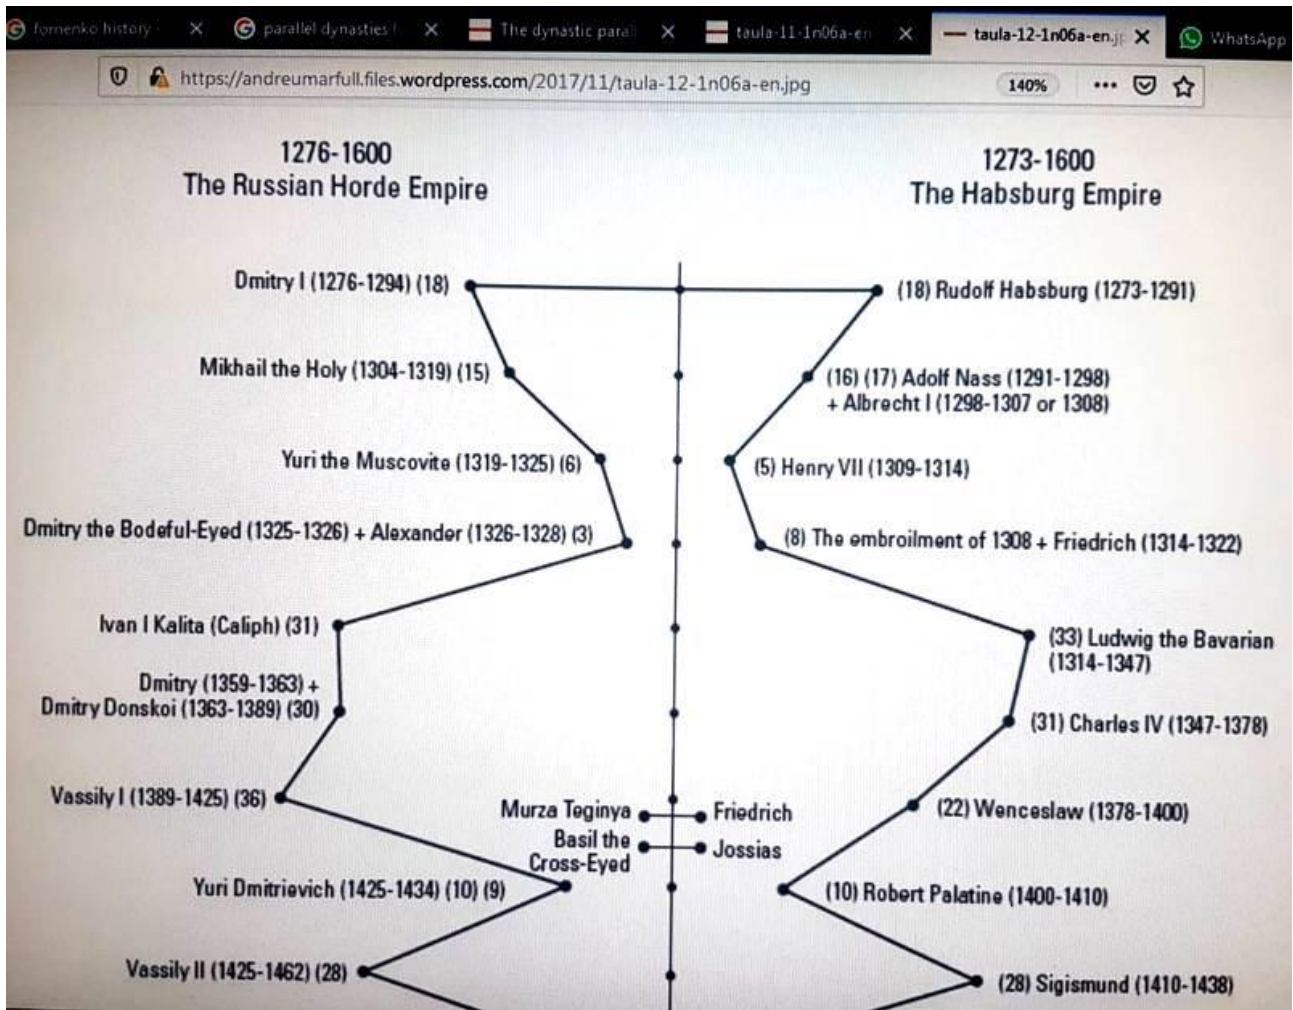

**The lines show how many years a king ruled (the number of years are in brackets) - the lines are longer if the king ruled longer. You will notice that the timelines of the kings of the 2 different nations - are similar - that they are practically the same kings - except that their names were changed to create fake histories for different countries.**

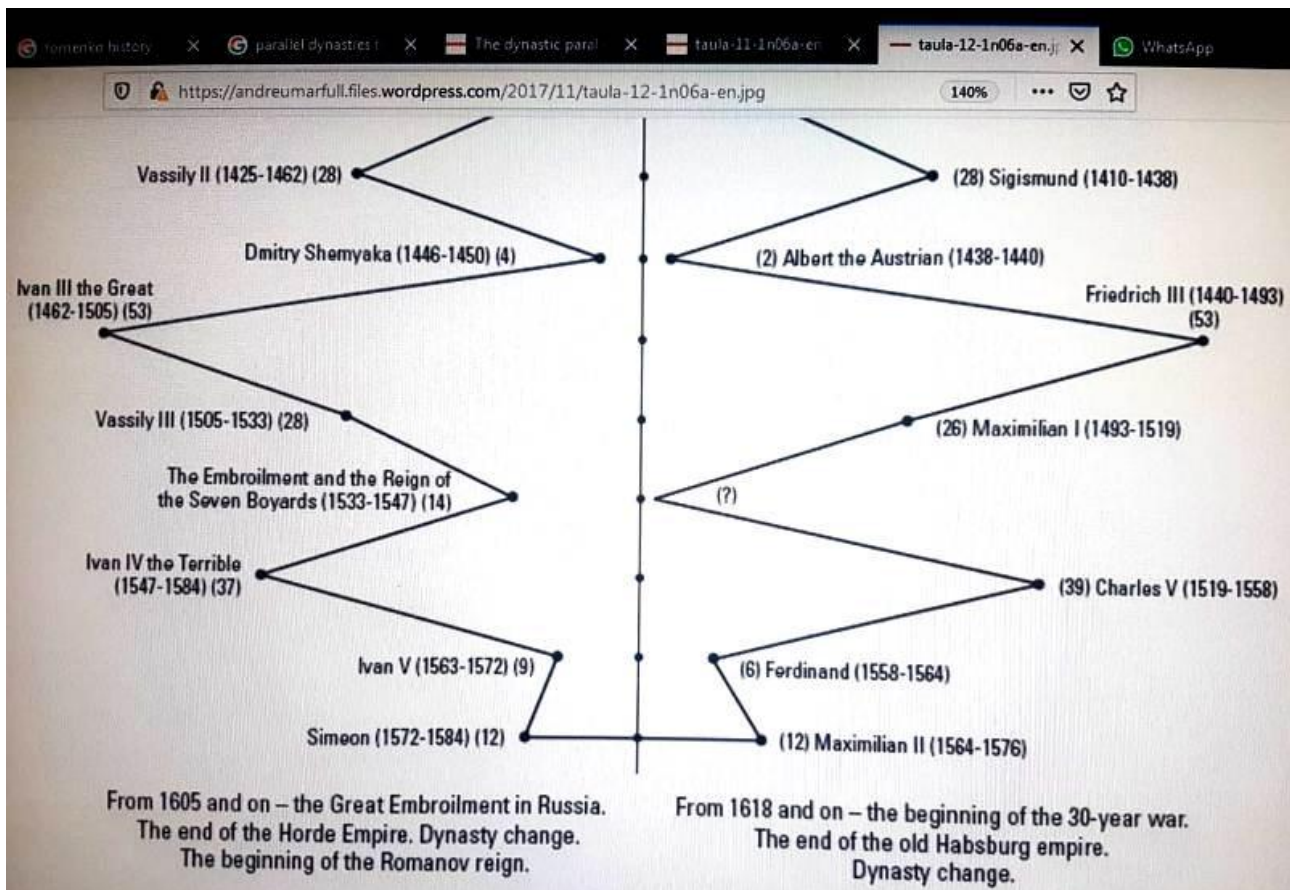

Researchers point out that here again - it can be clearly seen that one nation copied another. Who copied who and why? And which was the original? And was the original one true - or was that falsely created also?

Below is a graph showing the similarity between the Kings of Russia and the Habsburg Kings of Germany and the number of years they supposedly ruled.

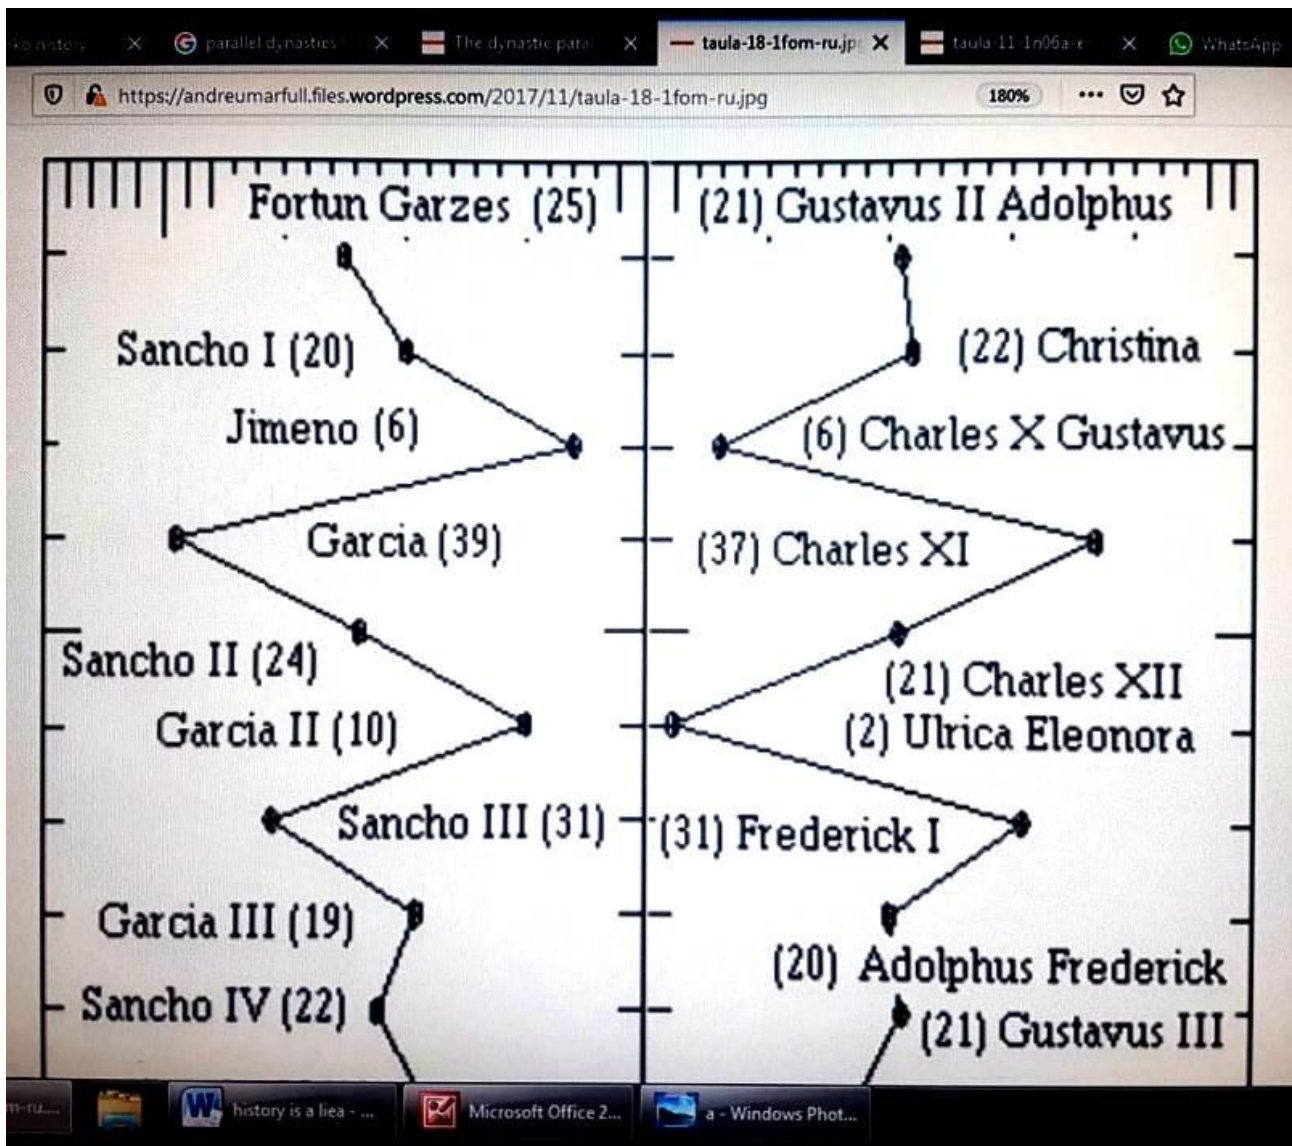

The lines show how many years a king ruled (the number of years are in brackets) - the lines are longer if the king ruled longer. You will notice that the timelines of the kings of the 2 different nations - are similar - that they are practically the same kings - except that their names were changed to create fake histories for different countries.

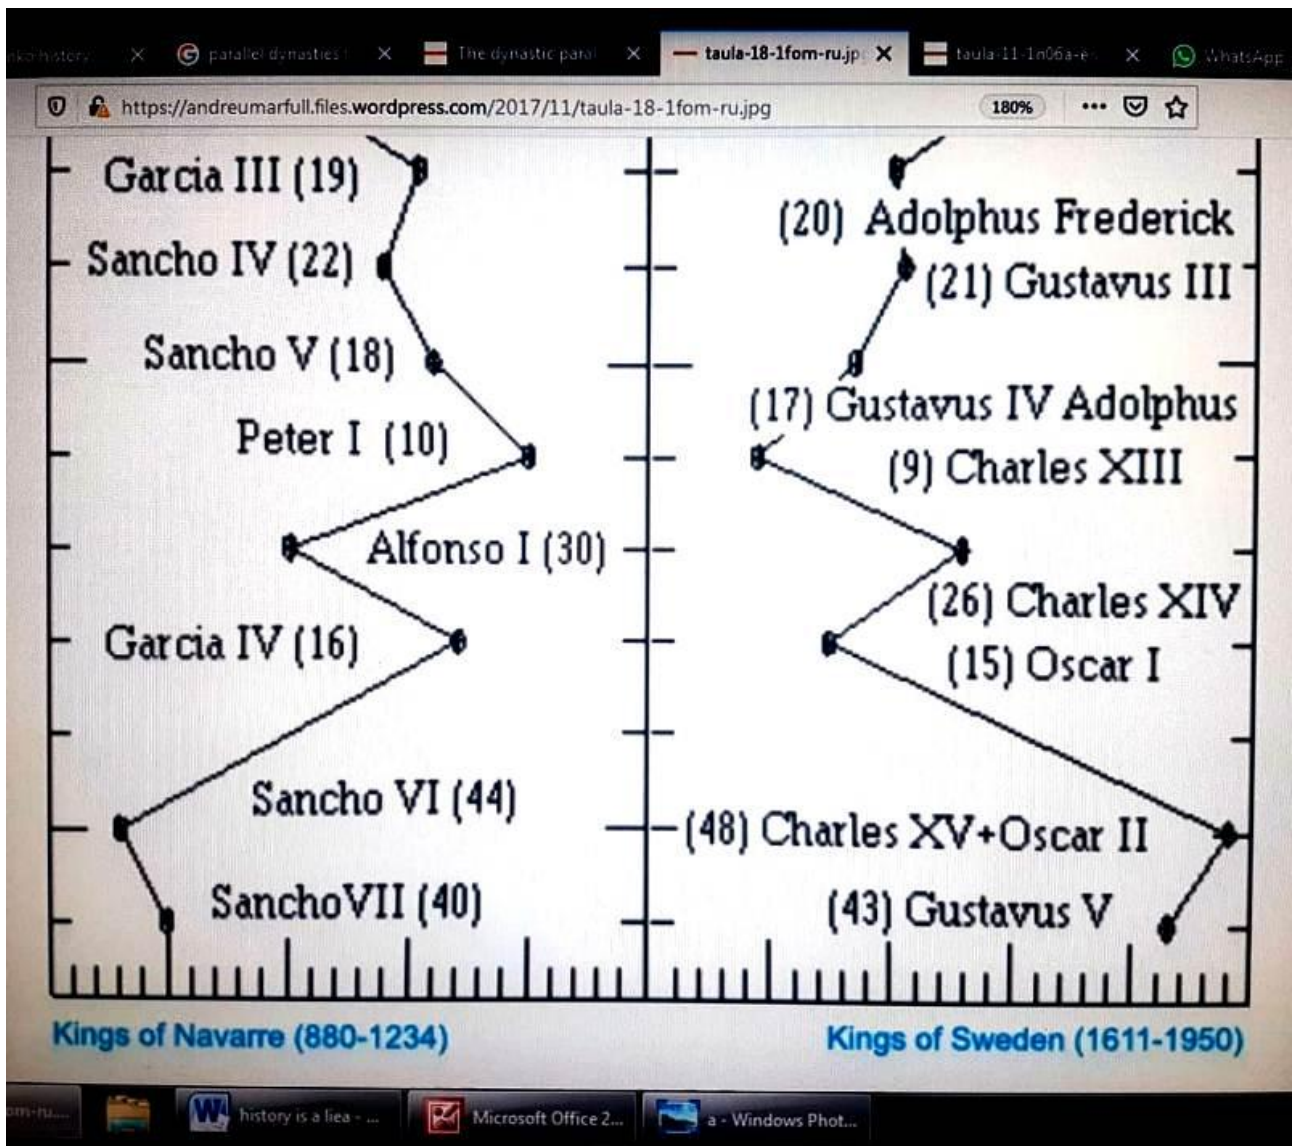

Researchers point out that once again - it can be clearly seen that one nation copied another. Who copied who and why? And which was the original? And was the original one true - or was that falsely created also?

Below is a graph showing the similarity between - the Kings of Navarre in Spain and the Kings of Sweden - and the number of years they supposedly ruled. Notice the distance between many of these nations and the locations are far from each other.

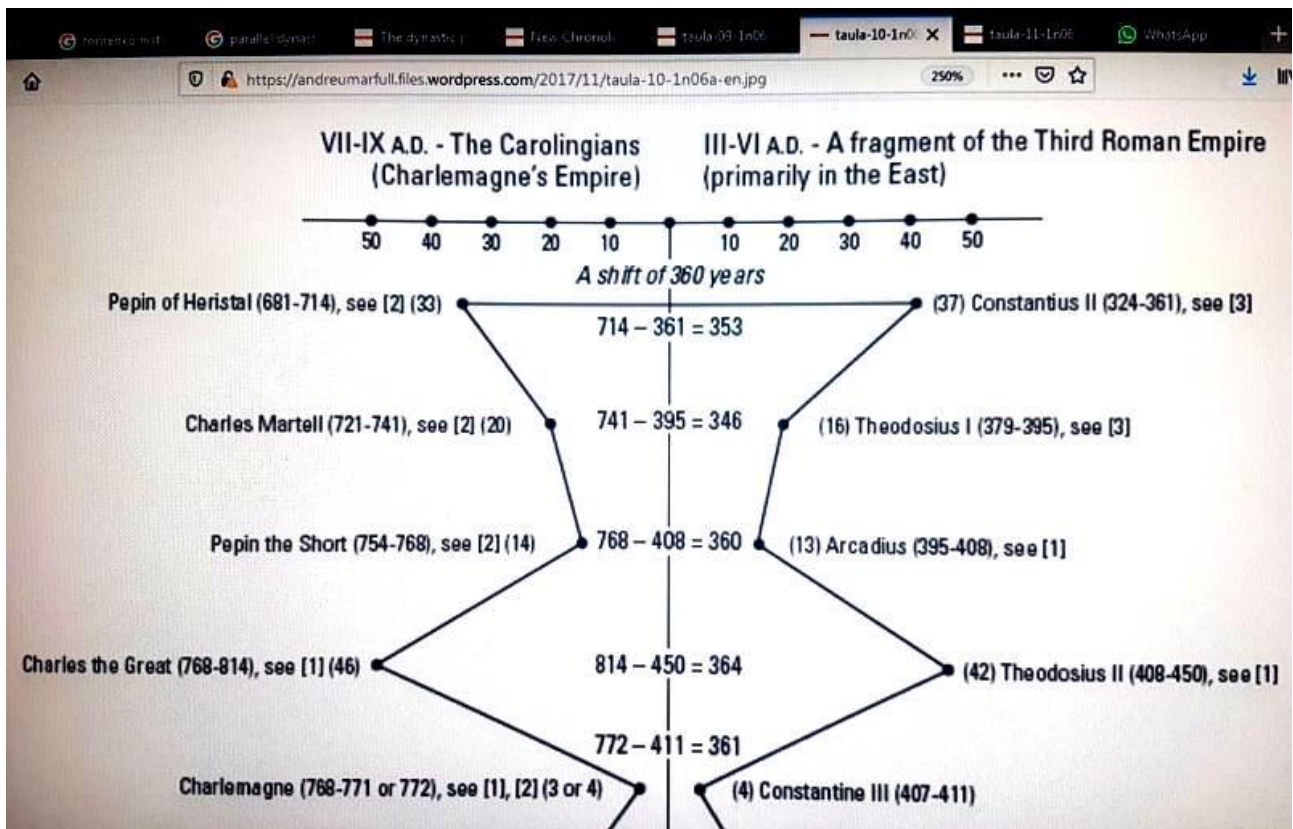

The lines show how many years a king ruled (the number of years are in brackets) - the lines are longer if the king ruled longer.

Once again you will notice that the timelines of the kings of the 2 different nations - are similar - that they are practically the same kings - except that their names were changed to create fake histories for different countries.

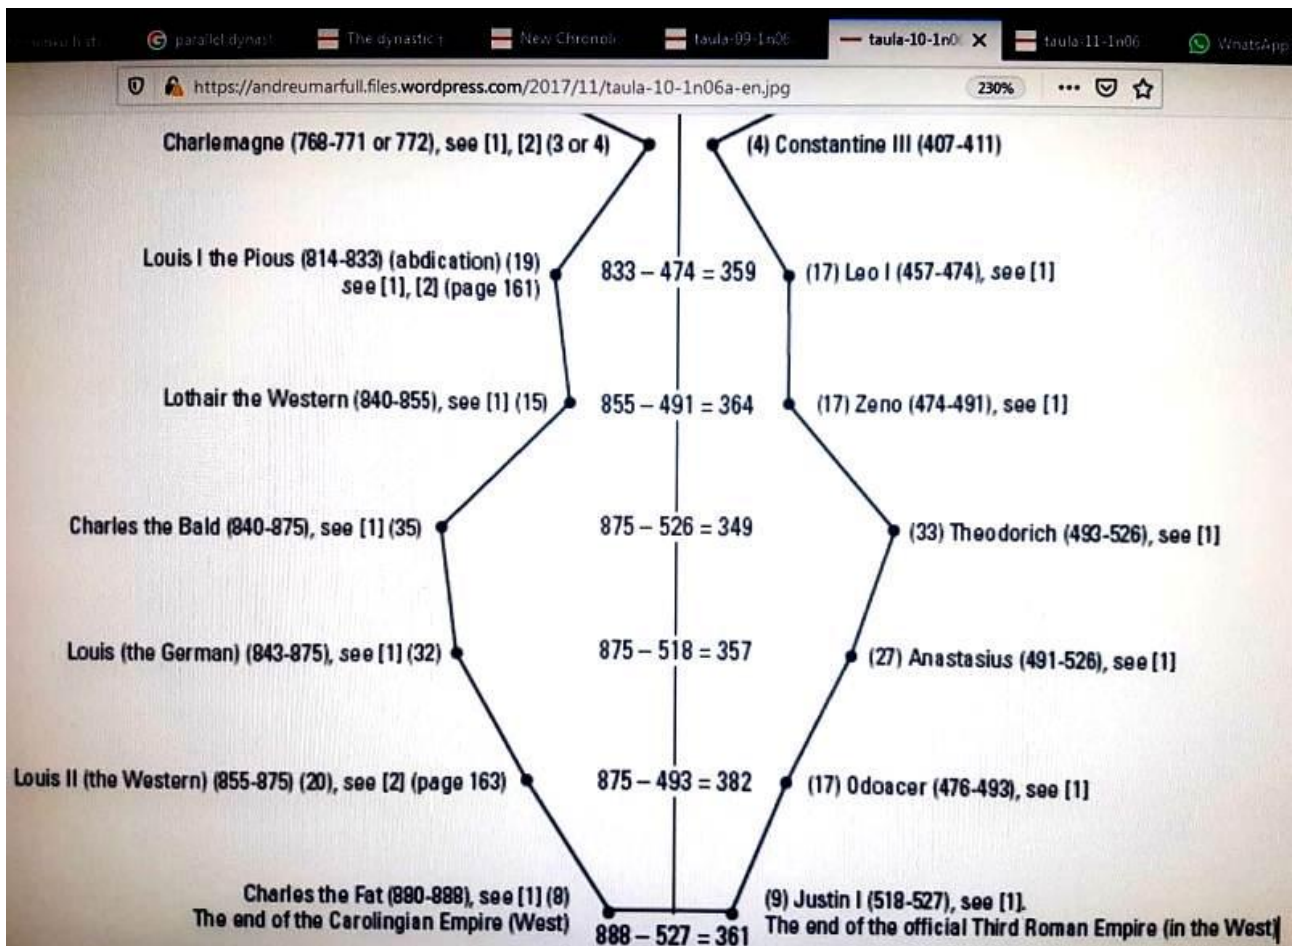

Researchers point out that **AGAIN** - it can be clearly seen that one nation copied another. Who copied who and why? And which was the original? And was the original one true - or was that falsely created also?

The graph below shows the similarity in the number of years ruled by the French kings at Charlemagne's time and the third Roman Empire - primarily in the east - and we can see clearly that they are practically the same.

**Researchers point out that AGAIN and AGAIN - it can be clearly seen that one nation copied another. Who copied who and why? And which was the original? And was the original one true - or was that falsely created also?**

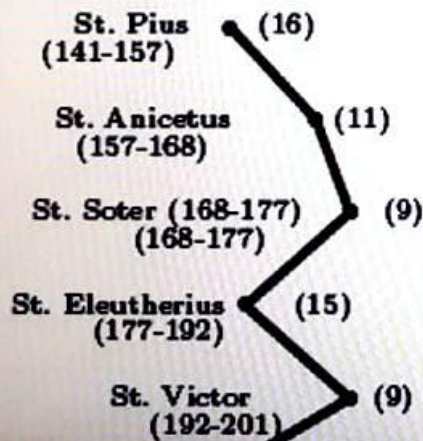

**Because there was so much copying - it meant that these kings were obviously made up and created falsely - and researchers began to worry - it was almost like there was no true history at all - it meant that all the stories and documents and literature of the past were also falsely created to match the fake histories.**

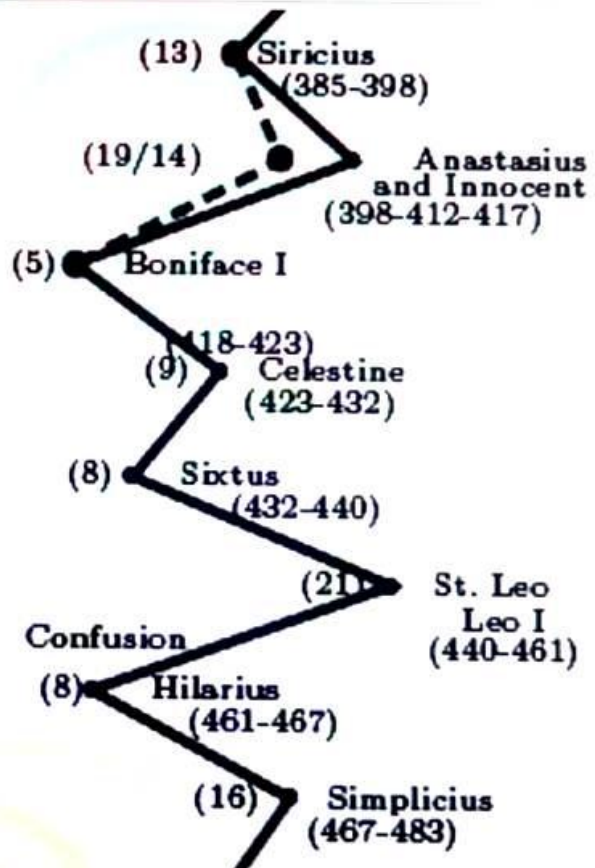

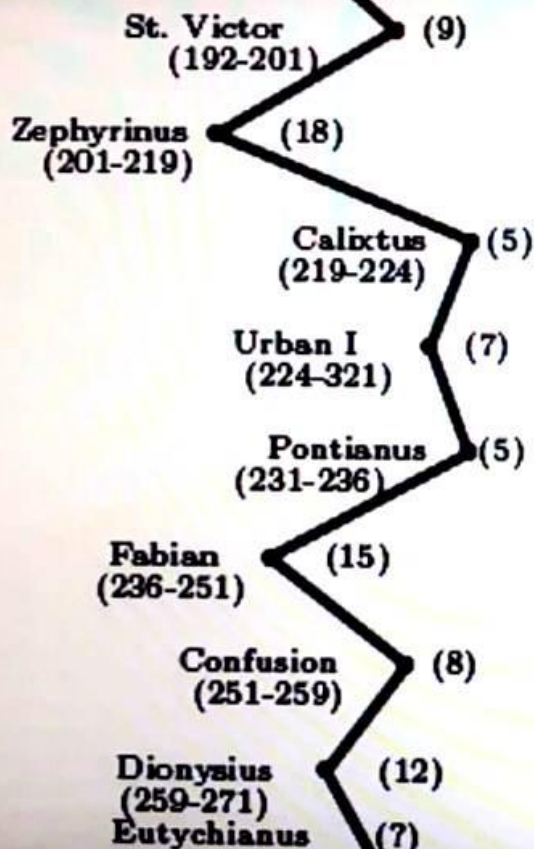

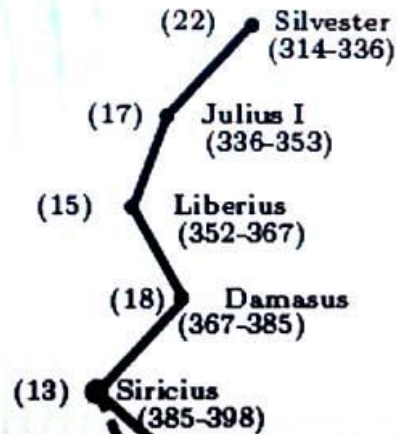

The graph below shows the similarity in the number of years ruled by the Popes - who are the worldwide leaders of the Catholic Church of Christianity. The left side of the graph shows the Popes from the years 140 AD to 314 AD - and the right side of the graph shows the Popes from the years 314 AD to 532 AD.

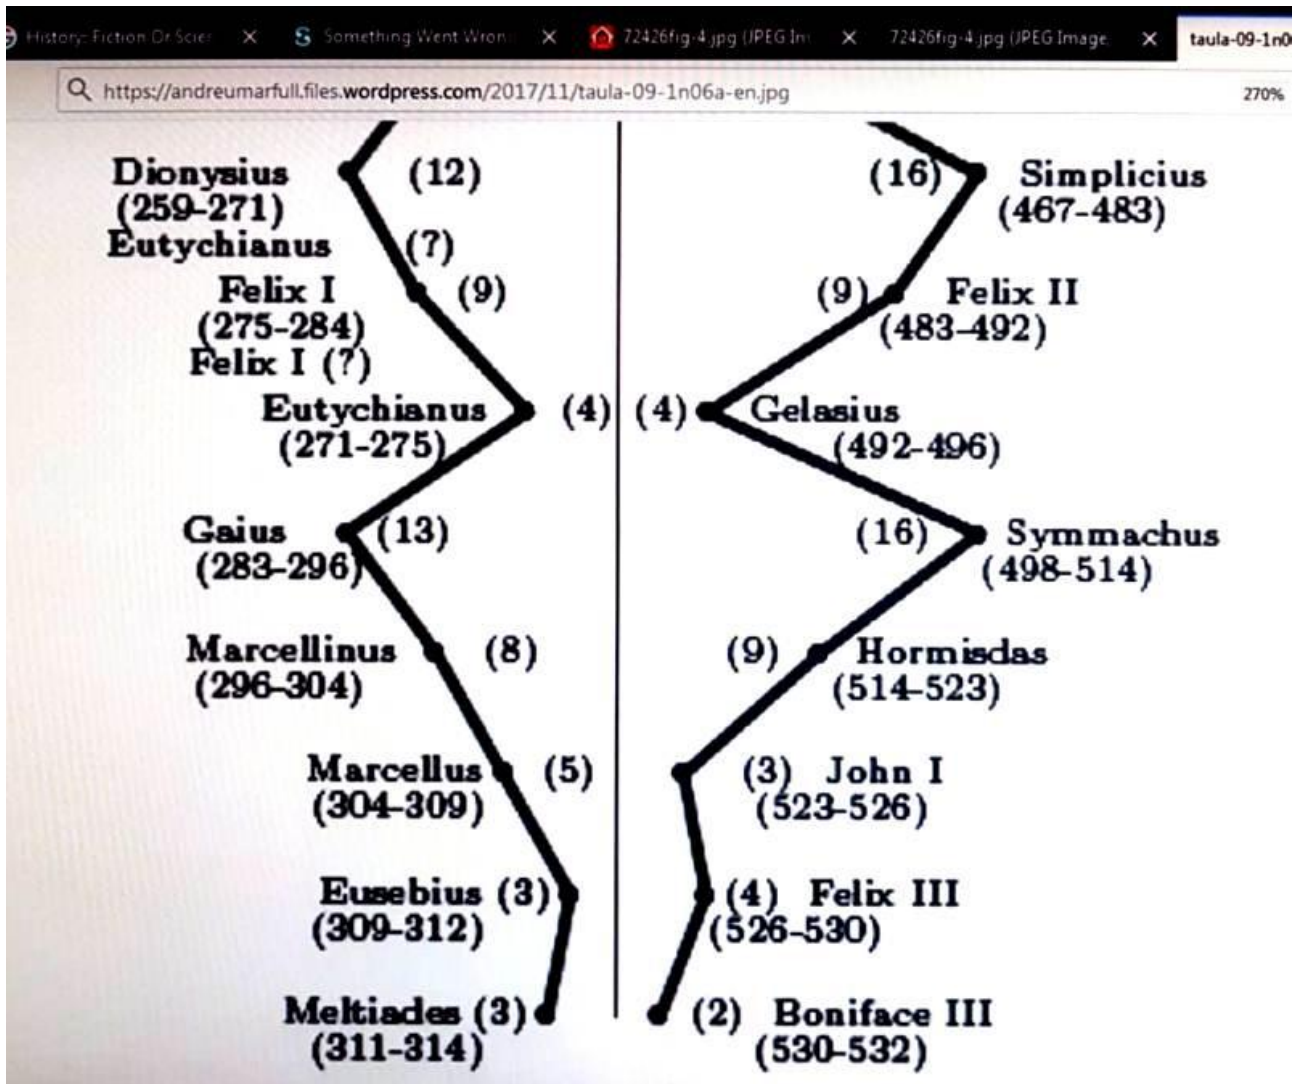

The lines show how many years a pope was in office (the number of years are in brackets) - the lines are longer if the pope stayed in office longer.

## First Period of the Roman Episcopate in 141-314 A.D.

## Second Period of the Roman Episcopate in 314-532 A.D.

These Popes were in office in different centuries - not even in the same century - but researchers point out that you will notice that the timelines of the popes in the different centuries - are similar - that they are practically the same - except that their names were changed to create fake histories for different centuries.

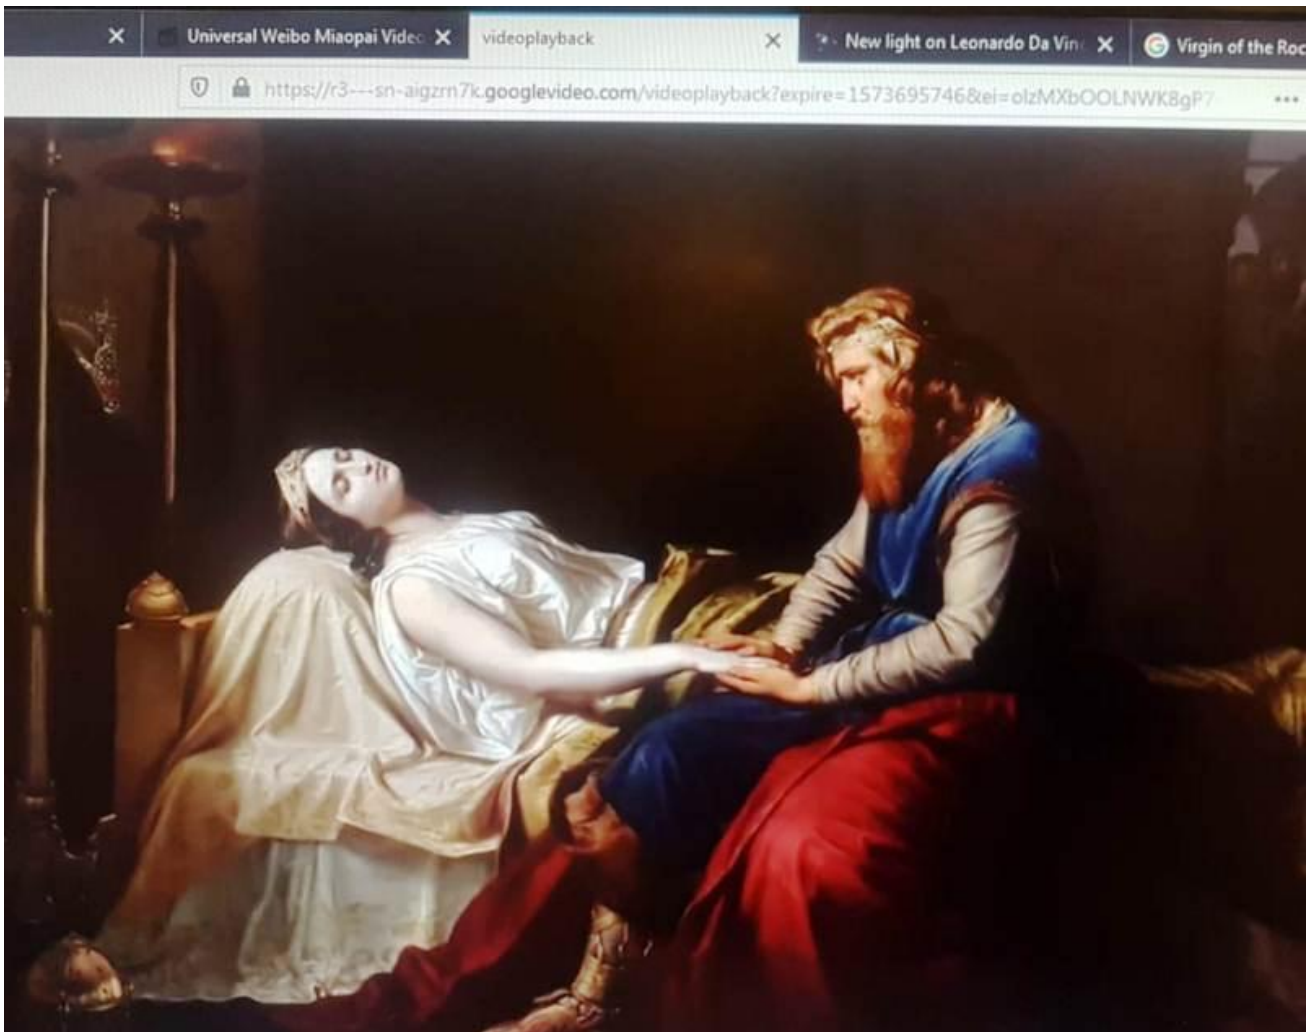

Researchers came to the conclusion from the evidence that the so-called history of Rome and the Byzantines and Holy Roman Empire and Roman Episcopate and the European kingdoms - was falsified and was a lie.

**Researchers not only looked at buildings but looked at classical or historical art - the famous painting of the last supper of Christ by Da Vinci, up to a certain extent represented the 12 constellations and has their shapes within the painting, if you look carefully within the peoples body shapes and their clothes - you may see some of the constellations shapes.**

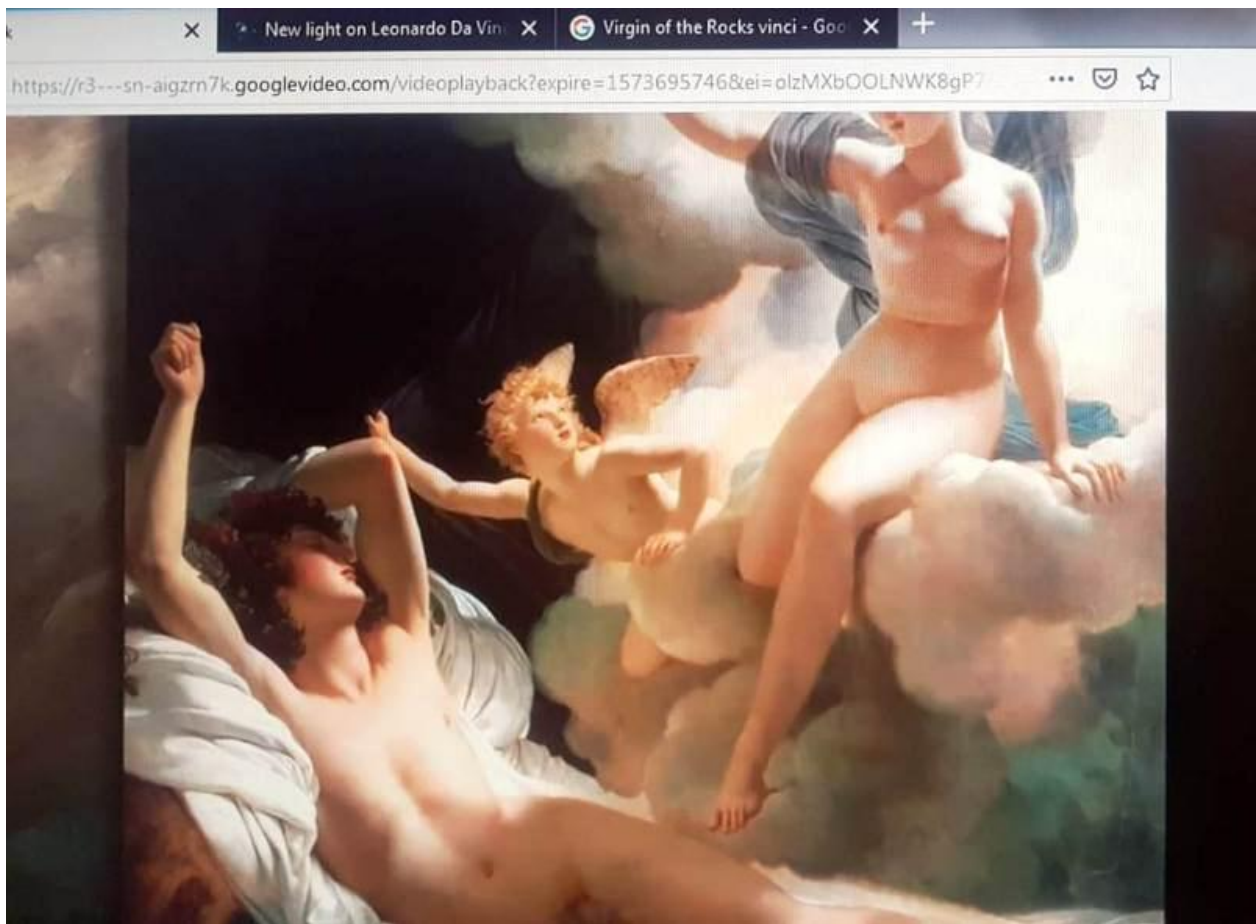

**Renaissance paintings are so amazing and realistic as if some of the people depicted in some of the paintings are almost alive - many of these paintings have puzzled historians for many years.**

**How did those painters supposedly at that time - create such realistic images - many people today have tried to copy the art of the renaissance paintings - but they have totally failed. Why have they failed?**

**People have painted similar things - but nothing like the quality of the great paintings from the times of the renaissance.**

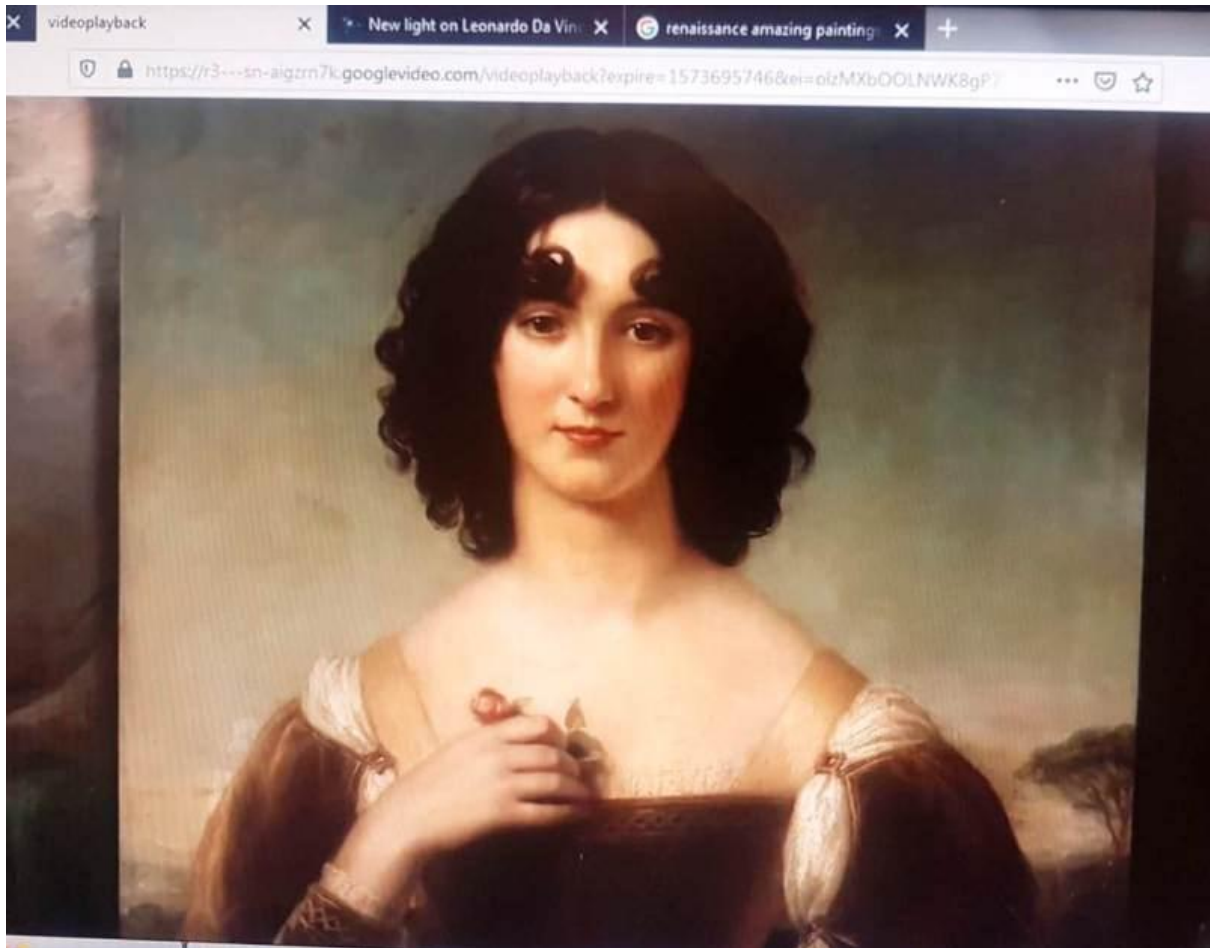

**Historians says that the technique that was used by Da Vinci and others has been lost and it's a great mystery - researchers questioned - is that really so?**

**Some of the paintings have so much accuracy and detail as if they are photographic art. Some of the details in many of the paintings seem to have been captured immediately by the painter - same like a camera captures images today.**

**Other images have different scenes and backgrounds as if two different or several different images were combined together.**

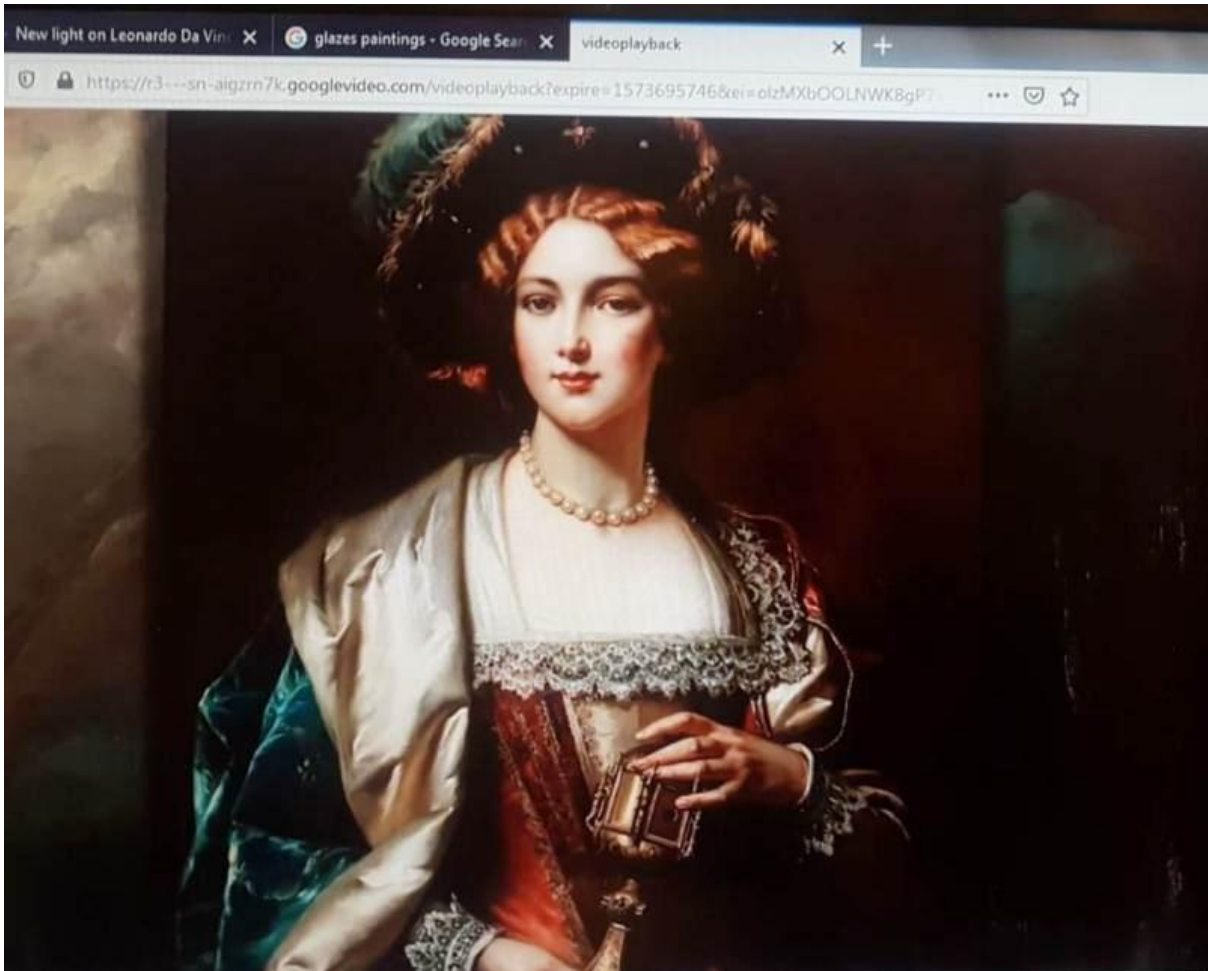

**We can do such things today with our computer and camera - how did they do it in them days - supposedly after the so-called dark ages? And why is their technology lost? Are the historians correct in what they say or are they wrong or is there something else?**

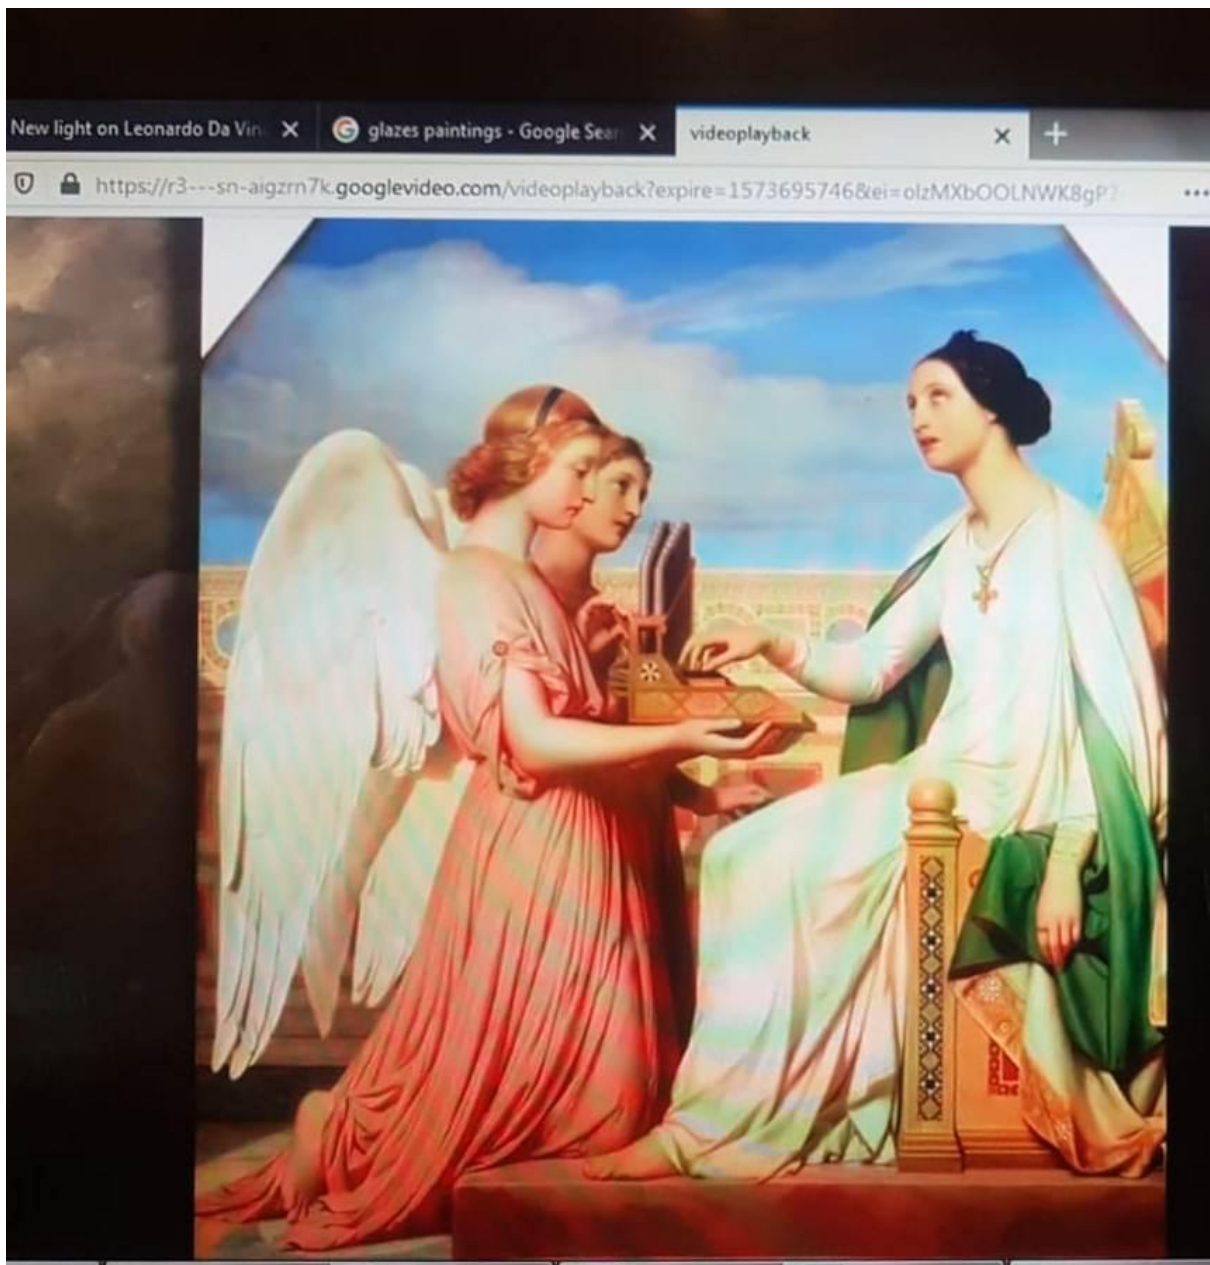

**One, there is no evidence that a man called Da Vinci ever existed and it does not fit the historical timeline that researchers have found.**

**Two, the paintings are so amazing that when they are touched - you cannot feel any marks of paint brushes.**

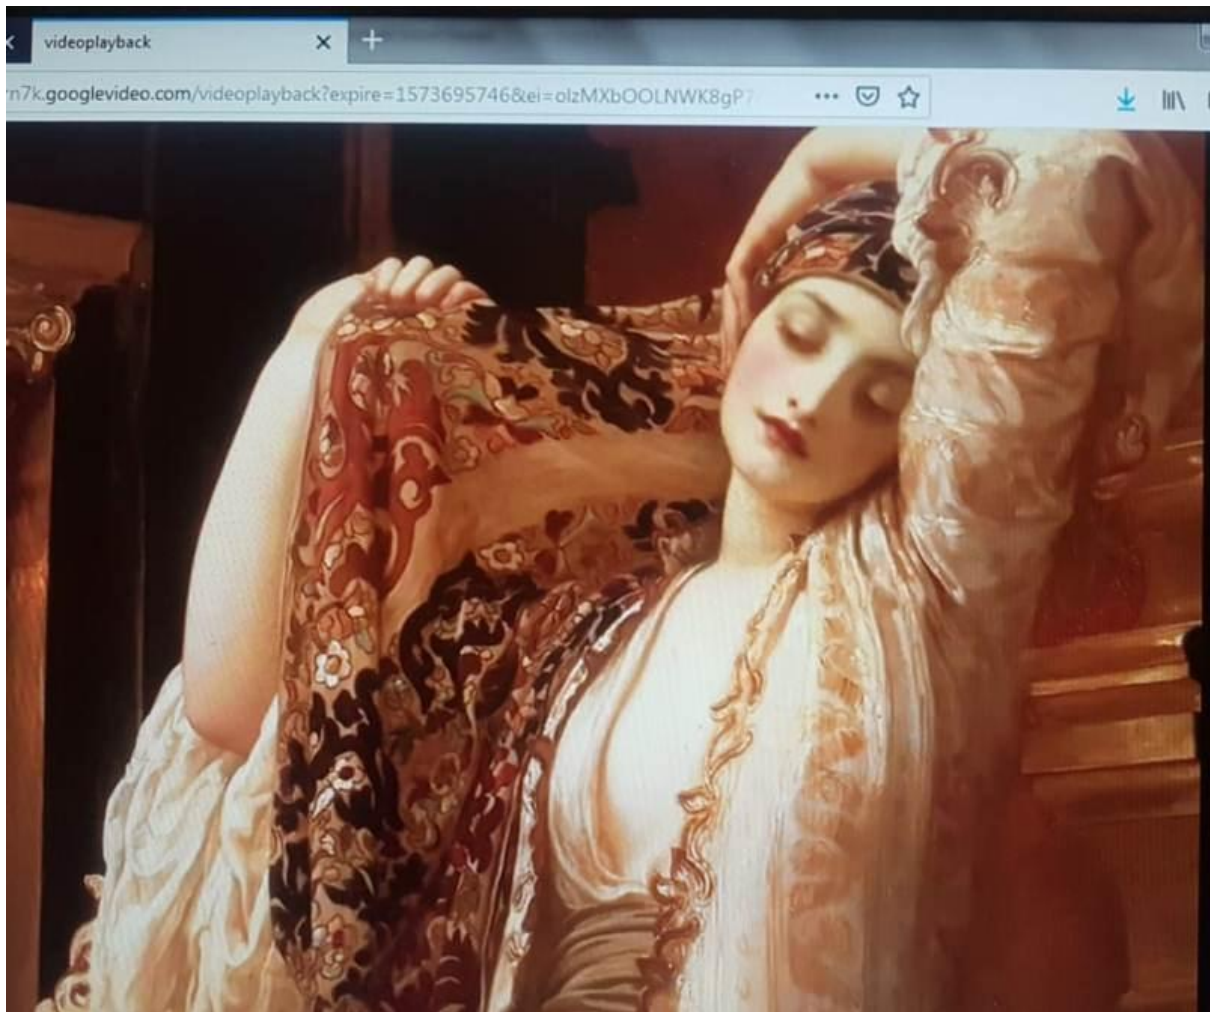

**In all other paintings - we can feel the paint brush marks on the paintings - but in the master pieces you cannot see or feel - any signs of paint that may have been applied to them.**

**X-ray testing in some of Da Vinci's paintings at the Louvre Museum in Paris has shown the layers of the colours and their thicknesses. For example, what they found showed that the paintings glazes were thin layers of 1 to 5 micrometres and had a total thickness of no more than 30 to 40 micrometres, and in some parts of the paintings it was seen that glazes had the thickness of 0.002 to 0.005 micrometres.**

**This is so thin - that it is many times thinner than human hair. The ink or print is so thin like laser printing with several layers of colours. This is how we can find a forgery compared to an original painting - because in the originals - you cannot feel the paint brush marks and the paint is many times thinner than human hair.**

**Actually - in some of the glazes - it is 50 times thinner than human hair - can you imagine it? Are they really paintings? Or were they created digitally on a computer and printed digitally?**

**We can clearly see that advanced technology was applied in many of the paintings of the renaissance - now we have to think - why did we go backwards in technology? The paintings after the renaissance - were not of such great quality and the paint was much thicker and you can feel that it was painted.**

**The final conclusion that researchers came to - is that no one can paint like many of those paintings today and researchers have questioned if they really are paintings at all or if they were printed. The paintings themselves**

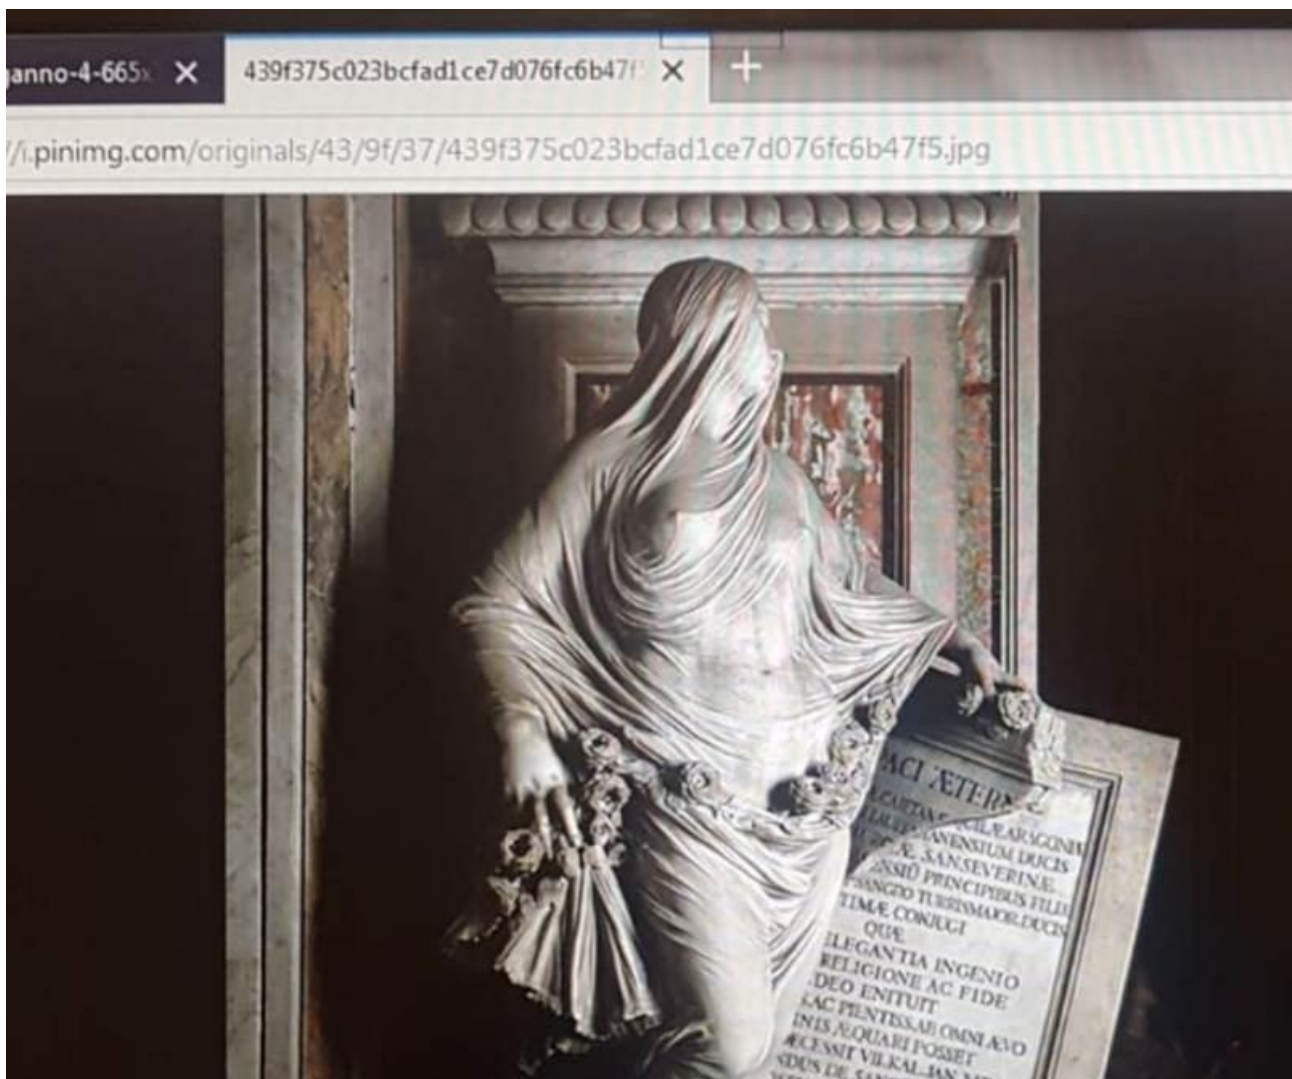

have so many colours within them, similar to laser advanced printing, that an ordinary painter may find difficulty creating. But advanced technology in the past - can't be possible - many historians say - because we may have evolved from apes and the paintings were made after the so-called dark ages - when they supposedly did not have technology or digital printing machines. Researchers then asked the question - who had technology for laser printing a few centuries ago or are the paintings fakes? Were the paintings created after the 1860s or did the world have advanced technology a few centuries ago?

### Francesco Queirola, Il Disinganno (1753-54) Italy

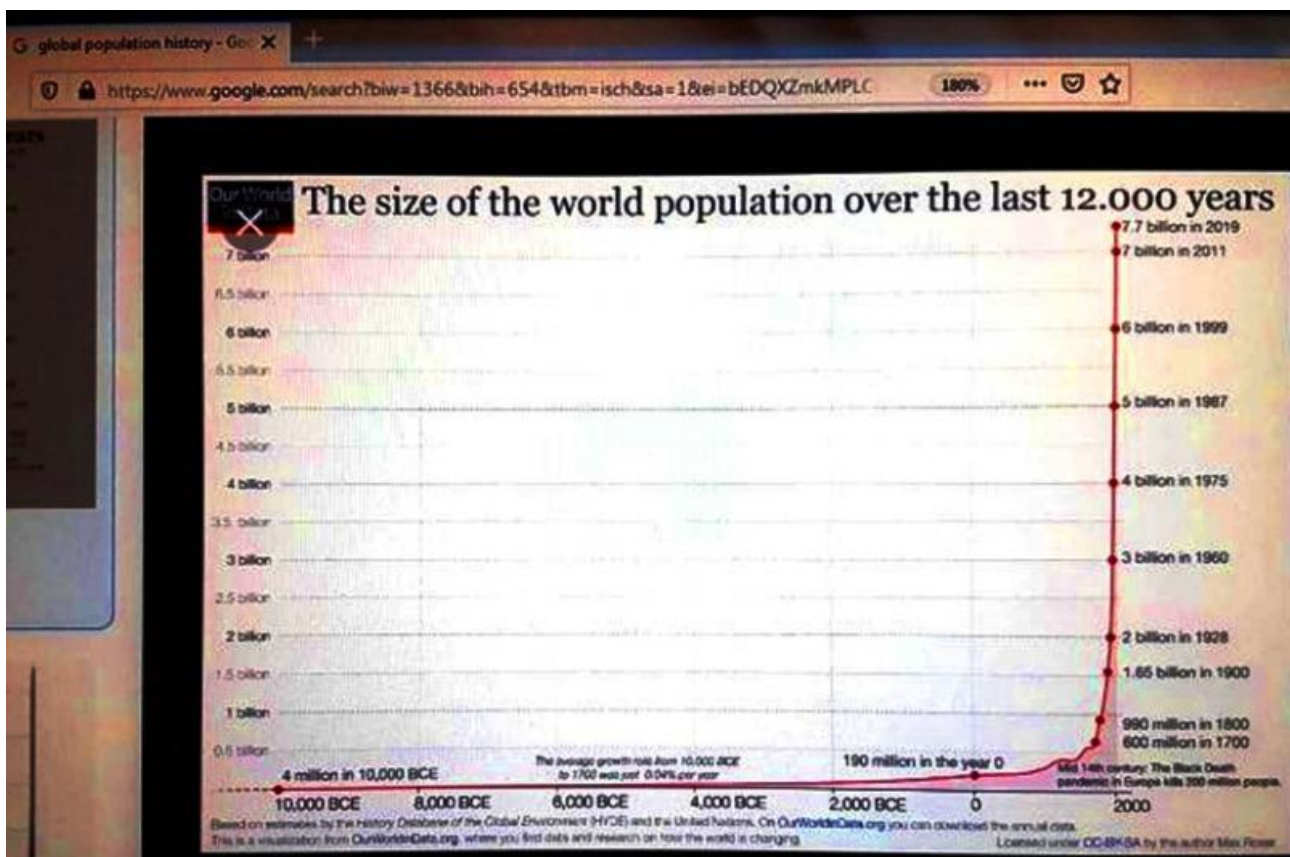

**This statue is a masterpiece and is supposedly carved from a single piece of marble and can be seen in Cappella Sansevero, Naples, Italy. It is considered by many to be impossible to create today - even the net is made from marble with accurate carving. Who really made this and with what technology? Researchers asked the question - were they all really made from marble? And were the statues really created a few centuries ago - or were they fakes created after 1860?**

**Below is another masterpiece made from similar the technology.**

Researchers found serious problems in accepting global population statistics in history - which don't seem to make sense at all. For centuries the world population did not grow much, except recently according to historians. Based on population growth data in the last 100 years or so, according to data provided by historians - the world will be almost empty in most countries 500 years ago. This made researchers ask - did serious events in the last few centuries take place - such as a reset to humanity - to replace the population - such as a global war - or events such as an Armageddon - which put humanity backwards?

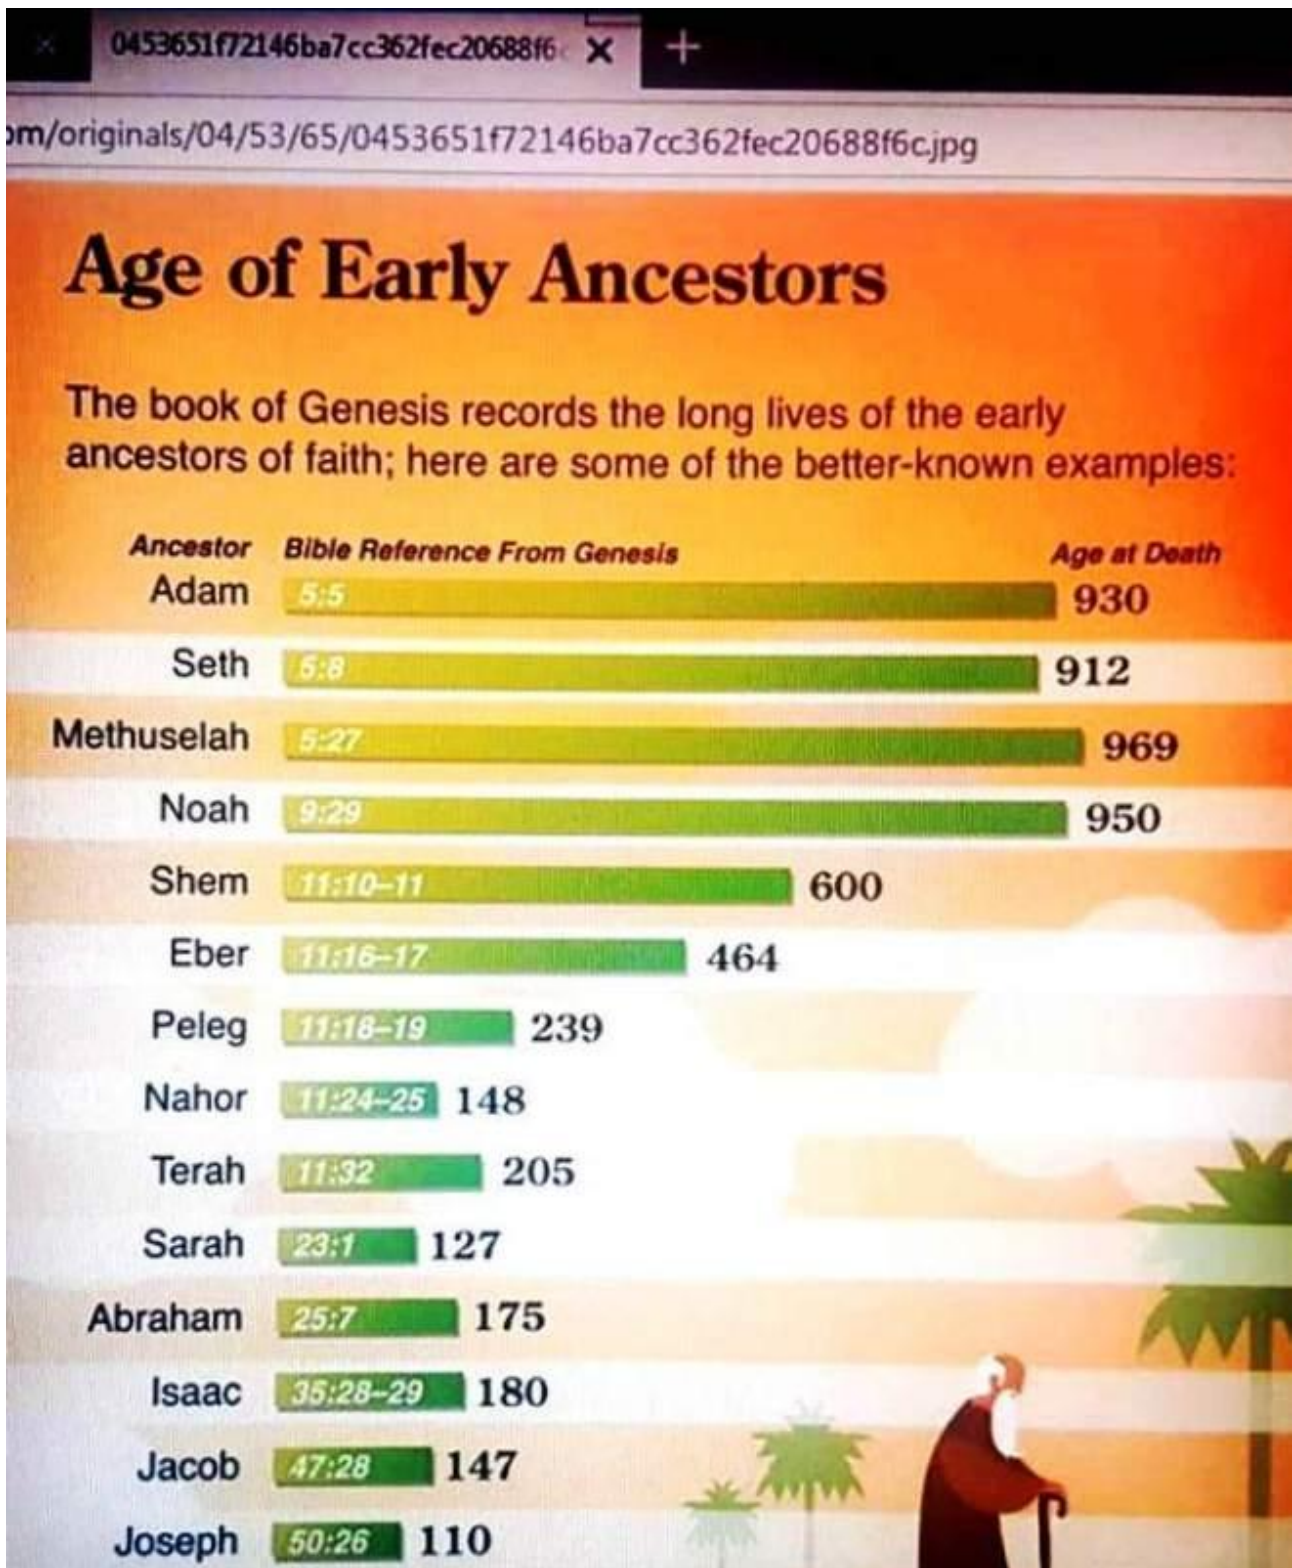

Researchers point out that the world in the past may have been advanced technologically or the climate

**conditions could have been different and that it is very realistic that people may have lived longer and were healthier and taller.**

**If people were living longer they may have had less children and therefore the population could have been much lower than today. But other researchers state that it could have been the opposite and that the world population could have even been as high as 30 billion people.**

**Researchers point to evidence that cities may be buried under the desert lands in Africa, the Middle East and Central Asia and other regions worldwide such as Antarctica - and there is much evidence that shows - many people may have lived in some of those regions a few centuries ago - or in lands that may now be under the sea.**

**The Bible has some stories which mentions that many people in the past lived longer and may have even been taller or giants. Not only the Bible but many historical documents and sources mention this.**

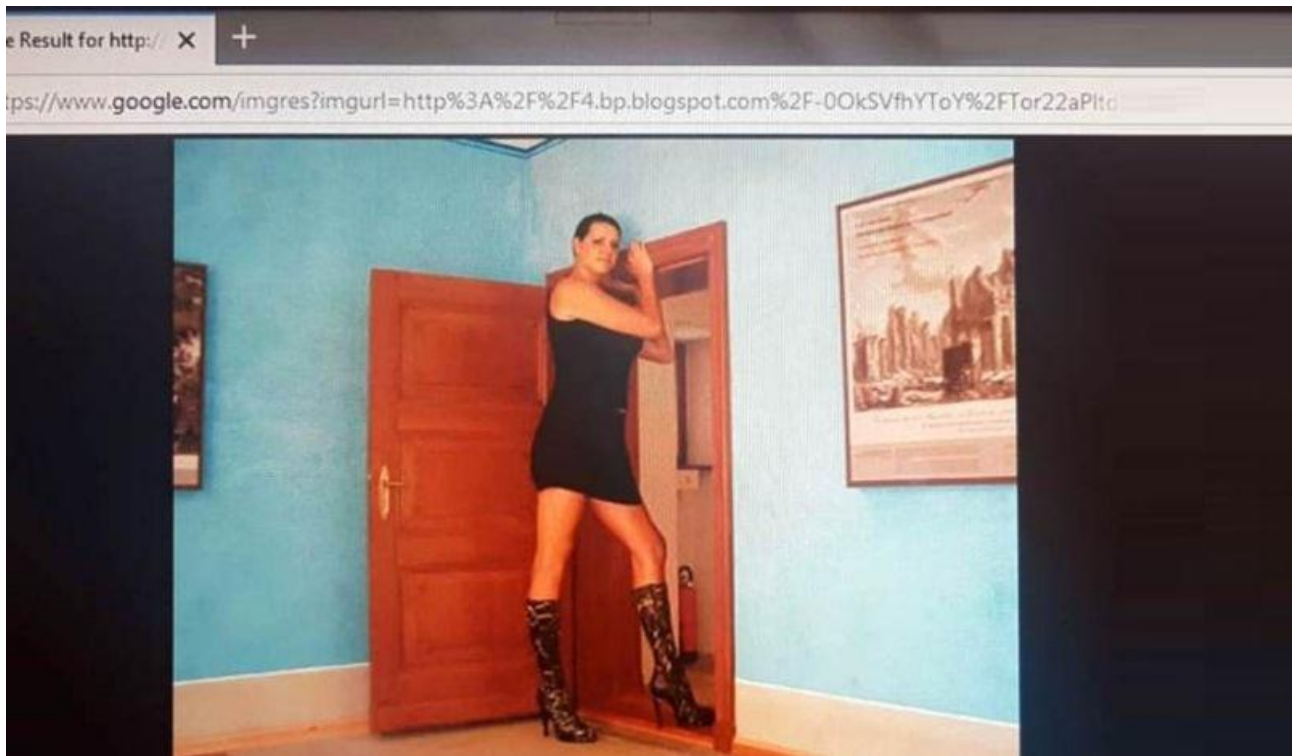

Above is an example of some characters in the Bible and how many years they supposedly lived.

Researchers point out that since history has been modified and falsified - events in the Bible may not have

been thousands of years ago but a lot more nearer to our times. The length of how many years people lived may not be accurate in the Bible - as there is much evidence that the information may have been falsified.

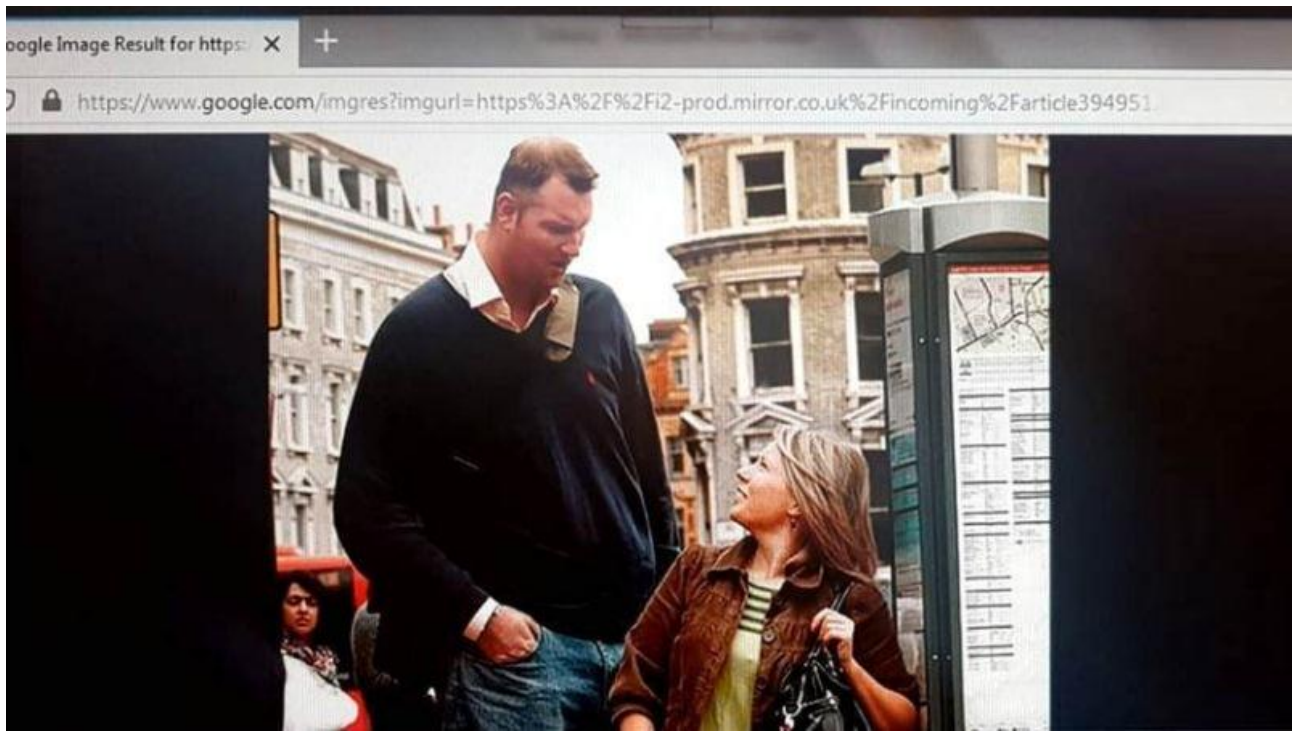

Also throughout the world in the last 100 years, most humans have been growing taller and living longer - because of the economic improvements in the world economy. Above we can see an example of this. Here are examples of tall people seen throughout the world -

**Tall German lady**

**Tall Asian man**

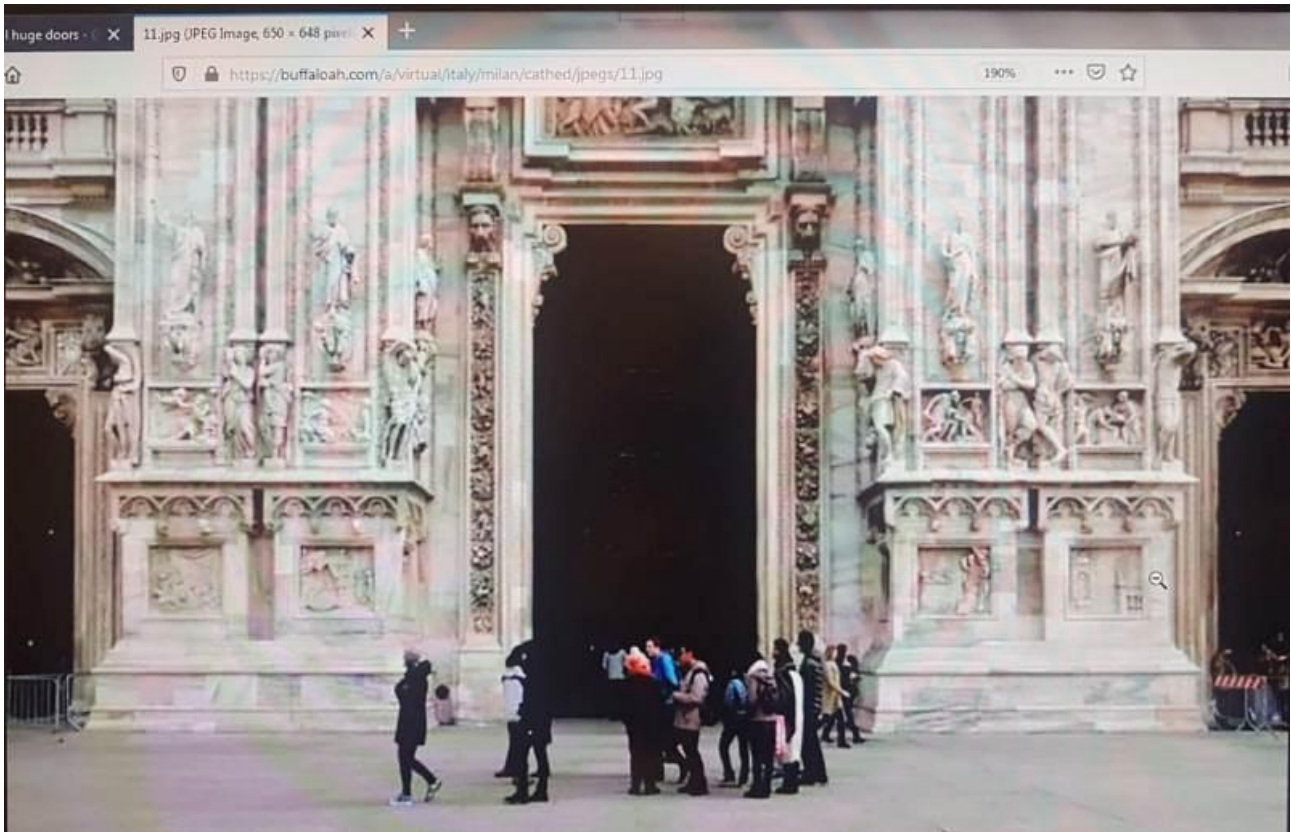

**Tall British man**

**Tall African - American man**

**Researchers noted that people of all races of humanity had giant types of people today and in the recent past. Researchers are now asking - did people live longer in the past a few centuries ago and were they much taller?**

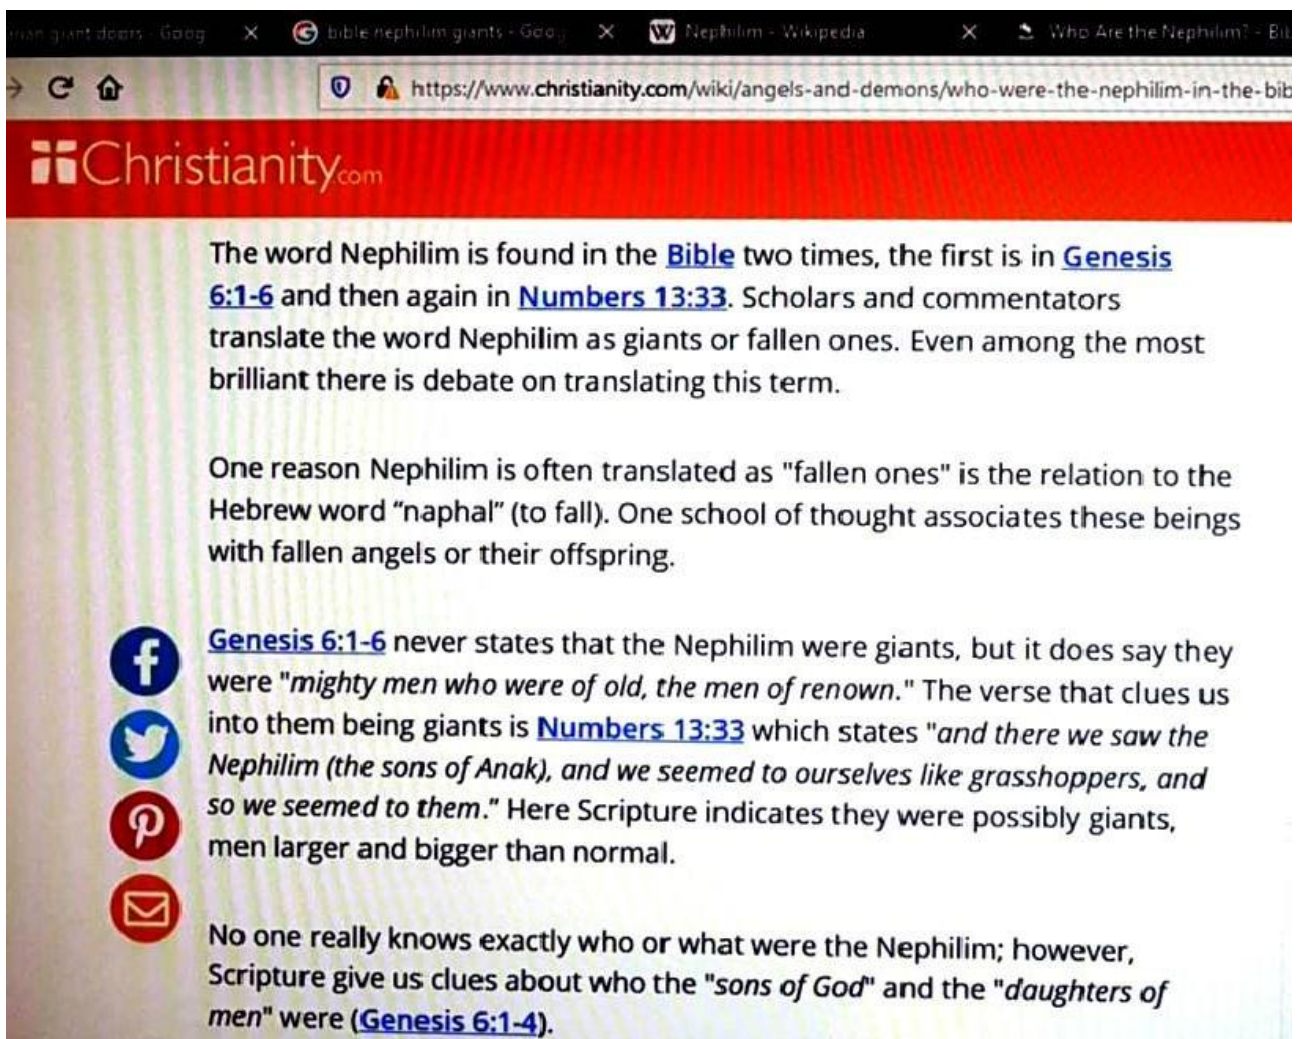

**Milan Cathedral doors are very big - Italy**

**Researchers pointed out that many buildings built in the past had huge doors and this may be because people were much bigger. As we go into the future - people are growing taller because of better health - as the economy gets better. There are existing giant type people today and there may have existed many giant types of people in the past too.**

Researchers did point out that some modern buildings are built with huge doors and higher ceilings for the purpose of grandeur and not for height - this should not be confused with older buildings and why they may have had huge doors and ceilings much higher. One thing that was different about the older buildings - was that there were a huge number of big doors - even in residential type of buildings.

Researchers noted that the Bible mentions Nephilim

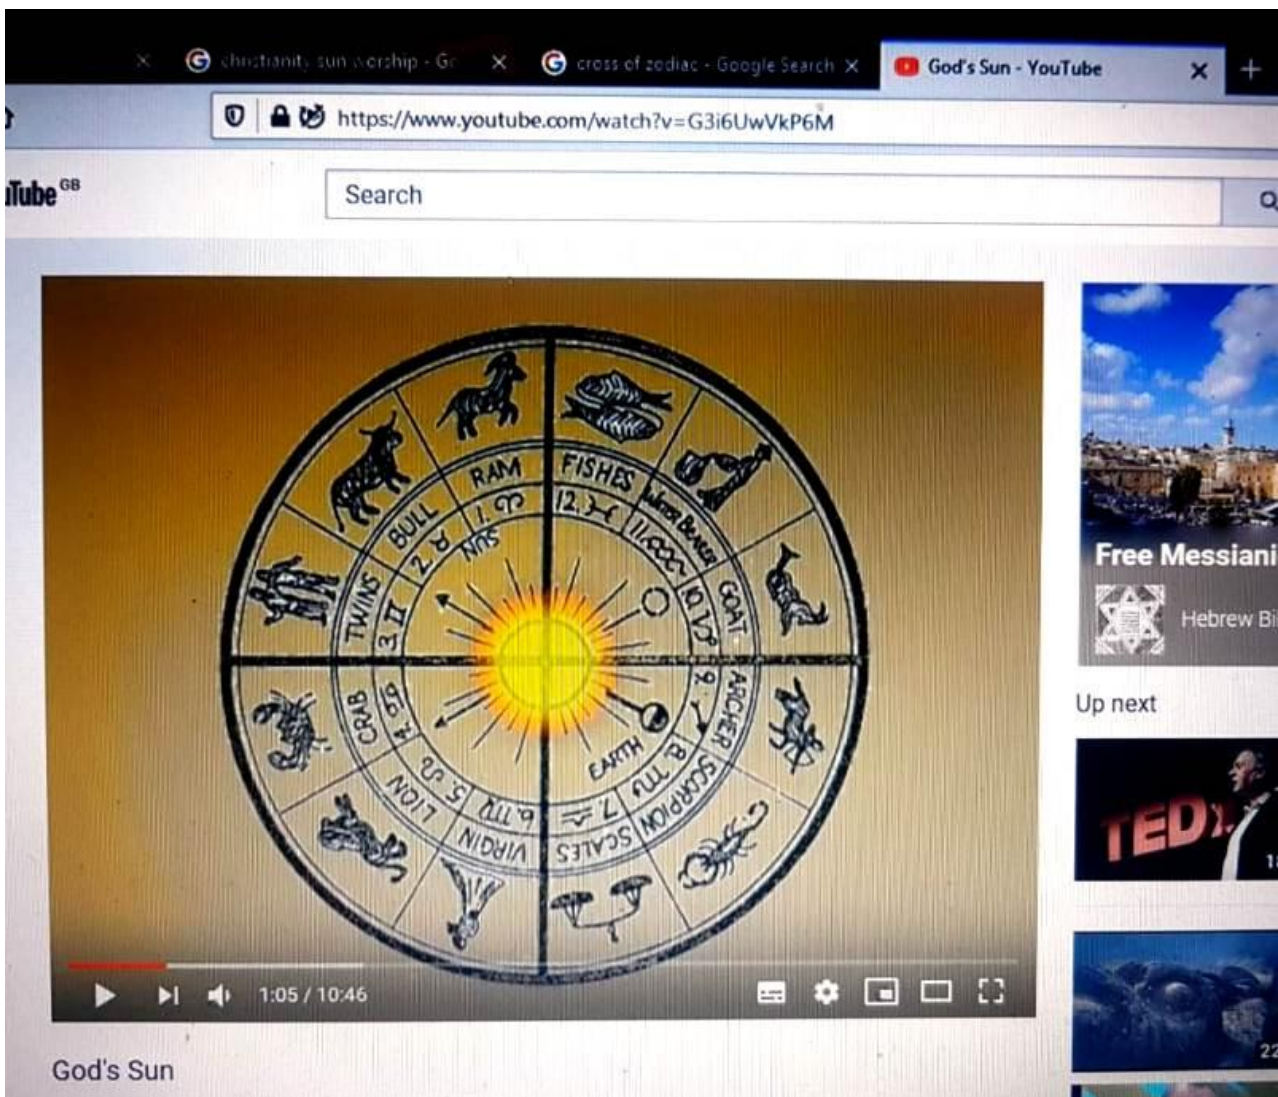

The screenshot shows a web browser with several tabs open: "giant doors - Google", "bible nephilim giants - Google", "Nephilim - Wikipedia", and "Who Are the Nephilim? - Bi". The address bar shows the URL: <https://www.christianity.com/wiki/angels-and-demons/who-were-the-nephilim-in-the-bib>. The page header is "Christianity.com". The main text reads: "The word Nephilim is found in the Bible two times, the first is in [Genesis 6:1-6](#) and then again in [Numbers 13:33](#). Scholars and commentators translate the word Nephilim as giants or fallen ones. Even among the most brilliant there is debate on translating this term." Below this, it says: "One reason Nephilim is often translated as 'fallen ones' is the relation to the Hebrew word 'naphal' (to fall). One school of thought associates these beings with fallen angels or their offspring." There are four social media icons (Facebook, Twitter, Pinterest, Email) on the left. The text continues: "Genesis 6:1-6 never states that the Nephilim were giants, but it does say they were 'mighty men who were of old, the men of renown.' The verse that clues us into them being giants is [Numbers 13:33](#) which states 'and there we saw the Nephilim (the sons of Anak), and we seemed to ourselves like grasshoppers, and so we seemed to them.' Here Scripture indicates they were possibly giants, men larger and bigger than normal." The final paragraph says: "No one really knows exactly who or what were the Nephilim; however, Scripture give us clues about who the 'sons of God' and the 'daughters of men' were ([Genesis 6:1-4](#))." The text is highlighted in yellow.

The Bible does describe these people as tall - but researchers were very careful - because they found

many problems with the books in the Bible - and what the Bible says and how many Bibles there were.

Researchers for example - found much Astrology or SUN worship in the history of Jesus Christ in the Bible.

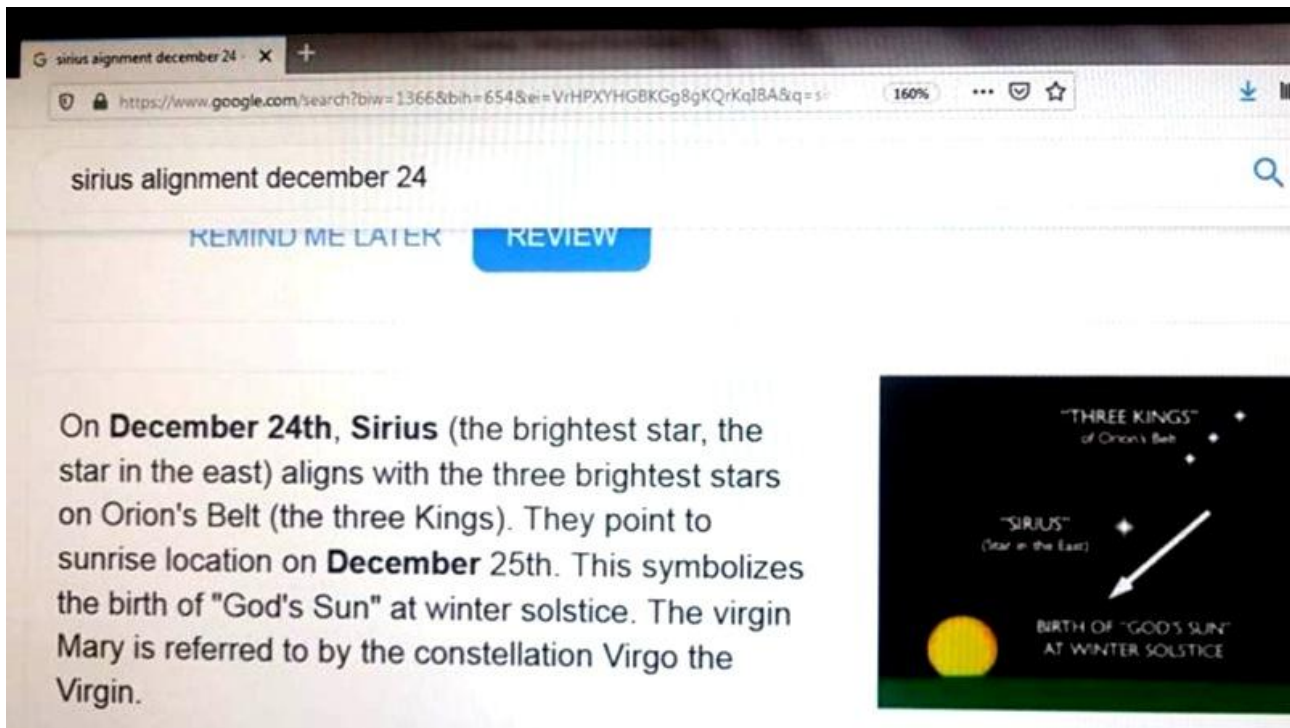

The CROSS on the zodiac reflects how the sun passes through the 12 constellations throughout the year and also shows the 4 seasons of the year and the 12 months and solstices and equinoxes.

In many cases the stars and their shapes were drawn and represented by animals and figures and stories

**were even made up about them - to match the movements of the stars.**

**On December 24 - Sirius aligns with the 3 brightest stars in Orion's belt**

The image shows a screenshot of a Google search result. The search query is "sirius alignment december 24". Below the search bar, there are buttons for "REMIND ME LATER" and "REVIEW". The main text of the search result reads: "On **December 24th**, **Sirius** (the brightest star, the star in the east) aligns with the three brightest stars on Orion's Belt (the three Kings). They point to sunrise location on **December 25th**. This symbolizes the birth of "God's Sun" at winter solstice. The virgin Mary is referred to by the constellation Virgo the Virgin." To the right of the text is a diagram showing a night sky with a yellow sun on the horizon. Three stars are labeled "THREE KINGS" of Orion's Belt. A white arrow points from these stars towards the sun, which is labeled "SIRIUS" (Star in the East). Below the arrow, it says "BIRTH OF 'GOD'S SUN' AT WINTER SOLSTICE".

**The Bible doesn't say that 3 kings came to visit Jesus when he was born - but the story is very famous in the Christian world - and researchers have pointed out that the story may have been totally made up from the star Sirius - which mysteriously aligns on Christmas Eve - 24 December.**

**The three stars of Orion's belt point to where the Sun will rise on December 25 - Christmas Day.**

**According to historians - in the Roman Empire - many people worshipped the SUN god. Researchers are**

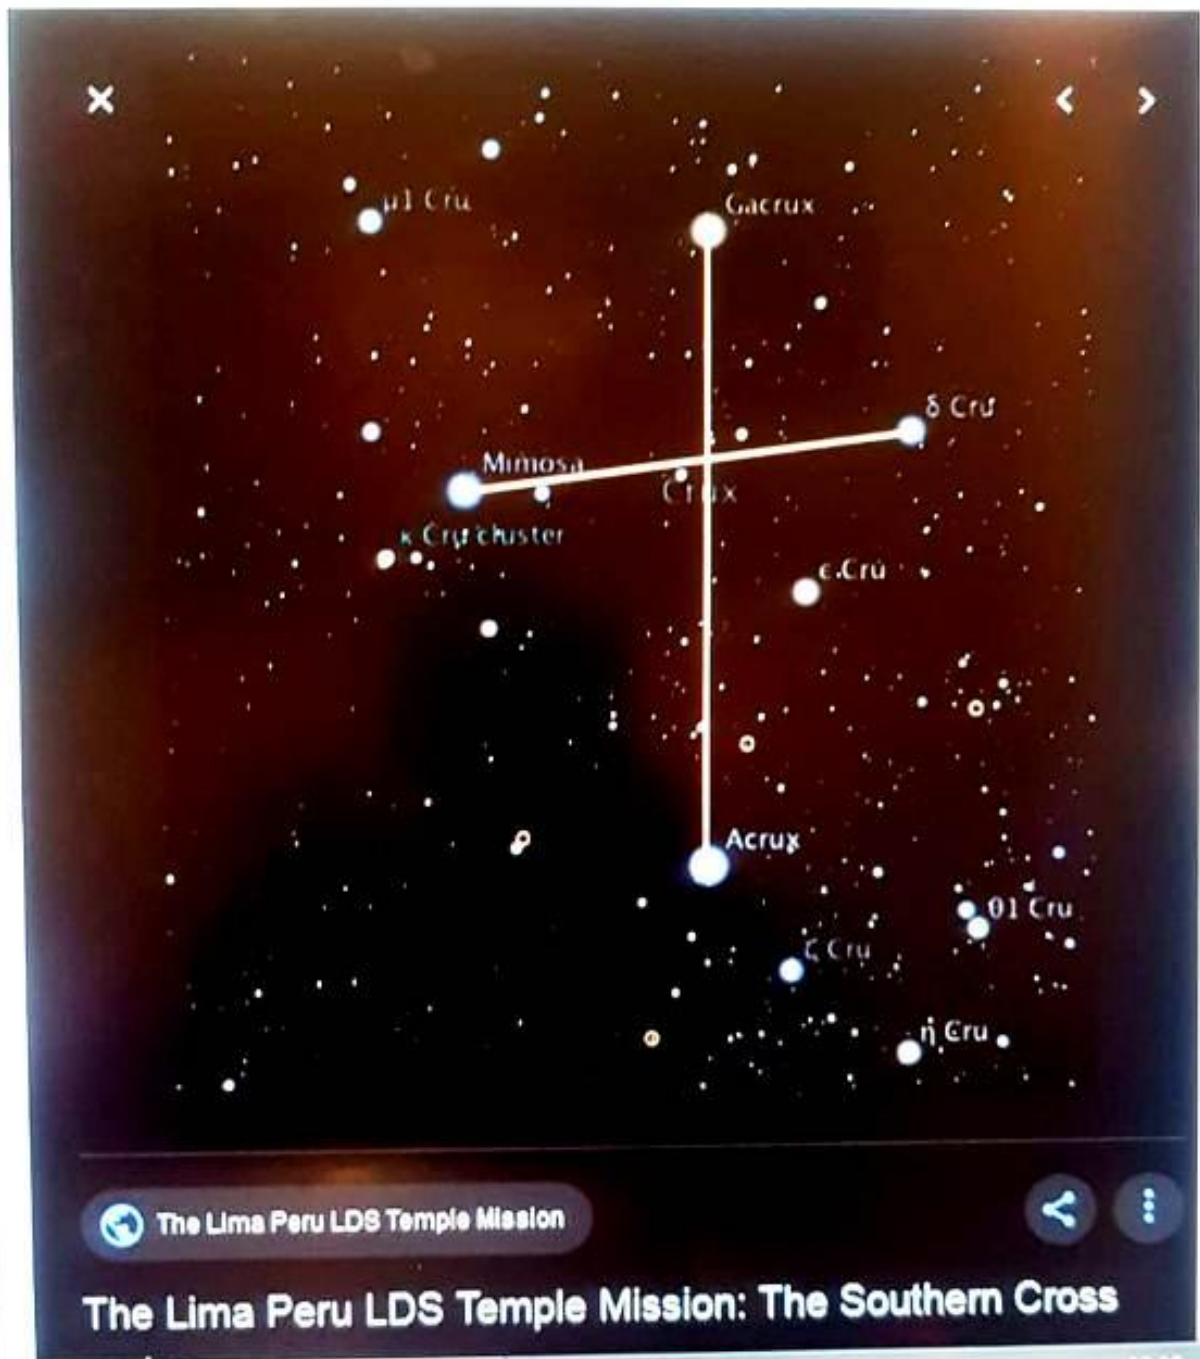

**questioning who these Romans are - were they really  
Ancient Romans or were they Roman Catholics?**

**Researchers ask the question - who was really  
worshipping the SUN god - was it the Romans or was it  
the Roman Catholics?**

**In mythological terms - it is said that the Sun is dying as  
the length of daylight decreases and is at its lowest  
point at the Winter Solstice - beginning on the midnight  
of December 21 (early morning December 22) and ends  
on Midnight December 24 (early morning December 25).**

**The sun actually stops moving south on December 22  
and is at its lowest point in the Northern Hemisphere -  
staying in the vicinity of the Southern Cross.**

The Lima Peru LDS Temple Mission

### The Lima Peru LDS Temple Mission: The Southern Cross

**The Southern Cross or Crux is a constellation that has 4 major stars in the southern sky and forms the shape of a cross.**

**It is the only time of the year that the Sun doesn't move north or south and the Sun is considered dead for practically around 3 days and 3 nights.**

**And it can be said that the Sun died on the Cross - or had a Crucifixion and was then born on December 25 and then starts to move north again. Researchers point out the similarity between the Southern Cross and the Crucifixion. Researchers ask - was the story created to unite SUN worship with story of Jesus Christ? Was it a plan to steal the character of Jesus Christ and unite it to SUN worship?**

**What researchers found strange was that the Arabic Koran opposed SUN worship and opposed the story of the Crucifixion - did these 2 groups (SUN worshippers and the followers of the Crucifixion) - did they unite to confront and oppose the followers of the Arabic Koran?**

**The Arabic Koran openly challenged and denied the Crucifixion and says that it never took place and says that it is total lie and fake history - this made the followers of the Arabic Koran - the worst hated enemies of the Christians in the past - much of this hatred even continues today.**

004.157

YUSUFALI: That they said (in boast), "We killed Christ Jesus the son of Mary, the Messenger of God";- but they killed him not, nor crucified him, but so it was made to appear to them, and those who differ therein are full of doubts, with no (certain) knowledge, but only conjecture to follow, for of a surety they killed him not -

**PICKTHAL: And because of their saying: We slew the Messiah, Jesus son of Mary, God's messenger - they slew him not nor crucified him, but it appeared so unto them; and lo! those who disagree concerning it are in doubt thereof; they have no knowledge thereof save pursuit of a conjecture; they slew him not for certain.**

SHAKIR: And their saying: Surely we have killed the Messiah, Jesus son of Mary, the messenger of God, and they did not kill him nor did they crucify him, but it appeared to them so (like Isa) and most surely those who differ therein are only in a doubt about it, they have no knowledge respecting it, but only follow a conjecture, and they killed him not for sure.

**KHALIFA: And for claiming that they killed the Messiah, Jesus, son of Mary, the messenger of GOD. In fact, they never killed him, they never crucified him - they were made to think that they did. All factions who are disputing in this matter are full of doubt concerning this issue. They possess no knowledge; they only conjecture. For certain, they never killed him.**

Researchers have pointed out that because of such statements that are made in the Arabic Koran - it was like a total war in history - between Original Islam and Christianity - a war that questioned - who is speaking the truth about the history of Jesus Christ - or a war about the truth of history and who is speaking lies. The Bible was considered by many people in the past to be actual history and still is even today by many people.

Researchers pointed out that the Modern Islam of today is divided into groups or sects with various beliefs - and some sects have a clergy system like the Catholic Church - and other sects follow books which oppose and contradict each other. The Original Islam that researchers referred to - was based on the texts of the

**Arabic Koran. Researchers did take note that many Arabic Koran translations have errors and political manipulations - but it was clear from the texts within the Arabic Koran - that it was a war - between what is the truth in history - and what is a lie.**

**Researchers concluded that December 25 was chosen as the supposed birth day of Jesus Christ and it clearly was a copy of the movement of the Sun and stars. Jesus supposedly died on the Cross or something similar - and was then dead for around 3 days and then he rose back to life.**

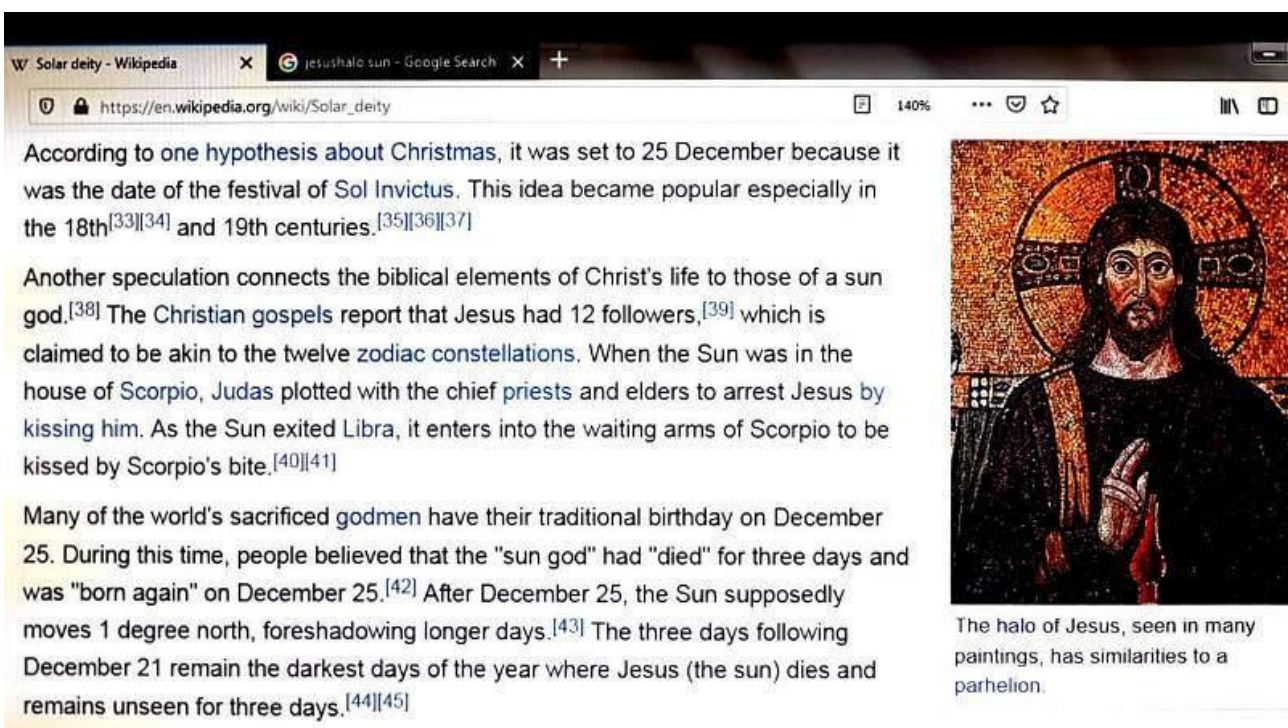

**Much of the Christianity we see today - with reformed groups - many have prepared ridiculous answers for such things. Many modern church groups have**

**modified their beliefs away from the Bible and also away from what Christianity may have been a few centuries ago - because they know that it was linked to SUN worship. But they cannot change the evidence of SUN worship found in the Bible stories.**

**Because they cannot change what the Bible says, most modern church groups focus on singing and issues of the world today and talk about miraculous healing and forgiveness of sins - based on your belief in Christ. They do read texts in the Bible selectively - but no serious answers are given regarding some of the stories in the Bible.**

**Many paintings of Jesus Christ or drawings - depict him with a Sun around his head - showing elements of SUN worship.**

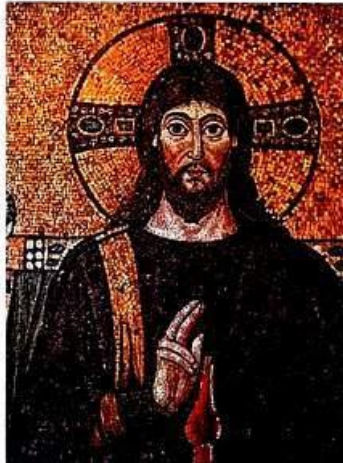

The image is a screenshot of a web browser displaying a Wikipedia article titled "Solar deity". The browser's address bar shows the URL "https://en.wikipedia.org/wiki/Solar\_deity". The article text discusses the connection between the date of Christmas (December 25) and the festival of Sol Invictus, and speculates on the biblical elements of Christ's life being linked to those of a sun god. It mentions that Jesus had 12 followers, which is claimed to be akin to the twelve zodiac constellations. It also notes that many of the world's sacrificed godmen have their traditional birthday on December 25, and that the "sun god" had "died" for three days and was "born again" on December 25. The text further states that after December 25, the Sun supposedly moves 1 degree north, foreshadowing longer days, and that the three days following December 21 remain the darkest days of the year where Jesus (the sun) dies and remains unseen for three days.

According to one hypothesis about Christmas, it was set to 25 December because it was the date of the festival of Sol Invictus. This idea became popular especially in the 18th<sup>[33][34]</sup> and 19th centuries.<sup>[35][36][37]</sup>

Another speculation connects the biblical elements of Christ's life to those of a sun god.<sup>[38]</sup> The Christian gospels report that Jesus had 12 followers,<sup>[39]</sup> which is claimed to be akin to the twelve zodiac constellations. When the Sun was in the house of Scorpio, Judas plotted with the chief priests and elders to arrest Jesus by kissing him. As the Sun exited Libra, it enters into the waiting arms of Scorpio to be kissed by Scorpio's bite.<sup>[40][41]</sup>

Many of the world's sacrificed godmen have their traditional birthday on December 25. During this time, people believed that the "sun god" had "died" for three days and was "born again" on December 25.<sup>[42]</sup> After December 25, the Sun supposedly moves 1 degree north, foreshadowing longer days.<sup>[43]</sup> The three days following December 21 remain the darkest days of the year where Jesus (the sun) dies and remains unseen for three days.<sup>[44][45]</sup>

The painting shows Jesus Christ with a dark beard and hair, wearing a dark robe. He is surrounded by a large, circular, golden sun-like halo with a face in the center. The background is a textured, golden-brown color.

The halo of Jesus, seen in many paintings, has similarities to a parhelion.

**Researchers have come to the conclusion - that the Bible has an important place in history - but - it has many thousands of different versions - and also has elements of SUN worship within it.**

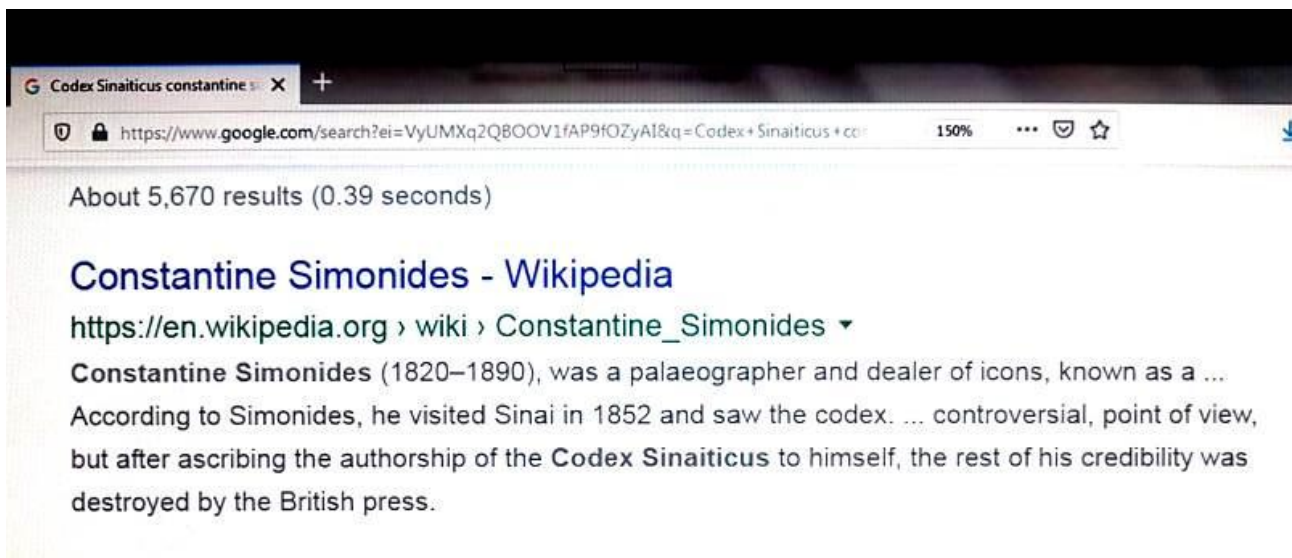

**There are many stories in the Biblical texts and the Arabic Koran regarding Jesus - researchers concluded that up to a certain extent - a man named Jesus Christ probably did exist and was well known globally - and that his story was exaggerated and changed - to match political or religiously oppressive systems.**

**A lot of the world's history is based on the events in the Bible - and the Bible and its books were for a long time considered by many - to be actual world history. Many historians in the last 2 centuries went out of their way to match archaeology and history - to the stories in the Bible. What we do know today is that there are thousands of different Bibles and many were written for political reasons or by businessmen such as Constantine Simonides. There were hundreds of businessmen like him - who were writing much of the events and history - of the stories of the Bible - and they were selling it and claiming that it was the word of God. It was big business - hundreds of businessmen were doing it with many employees doing the writing.**

**Codex Sinaiticus - Greek Bible manuscript - was supposedly discovered in 1889 in Sinai, Egypt. A Greek man called Constantine Simonides - who was a very**

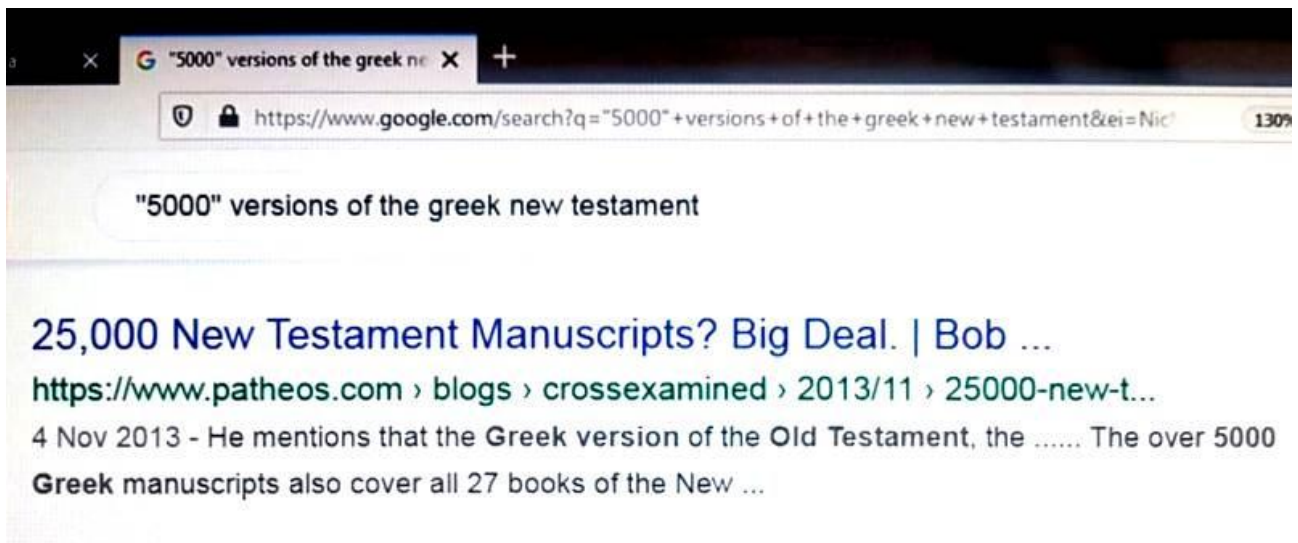

**educated man at the time, was writing and selling his own fake Biblical manuscripts in the Greek language to the King of Greece and to many other people around Europe and the world. Historians know that he was selling fakes but claim that some of the manuscripts that he sold - were originals that he had supposedly found on Mount Athos - but historians show no evidence of this.**

**Constantine Simonides - the same man - claimed to have written this Codex Sinaiticus Bible himself. Historians know that so many of the manuscripts around the world were fakes - most probably all of them - and that Constantine Simonides had admitted that this was also written by him.**

**Researchers point out that Constantine Simonides was an expert writer - but historians have decided to ignore that Constantine Simonides had clearly admitted that he wrote it and that it was a fake.**

**Today we actually have around 5000 manuscripts or more - of the Greek New Testament and most of them are completely different to each other and are not even complete - this shows you an example of how many fakes there are.**

**Researchers ask - how can they call this a historical treasure - even after Constantine Simonides admitted he wrote it - and today it is in the British museum.**

**Many modern historians claim that these so-called manuscripts are old and original - and they have written much fantastic documentaries about such manuscripts in many books - but researchers have found that all the manuscripts are different to each other and that there is no evidence whatsoever to show if they are fake or not.**

**Many researchers are saying that all world history is a lie - not just copies or mistakes - they claim that the**

**world has a totally different history - and that everything was made up to hide the true history.**

**Researchers asked the question as to what exactly is the Bible and what was it originally? The Bible is obviously a collection of books written by different people at different times in different parts of the world. Since we have so many different variations of the Bible and its books - thousands of variations actually - it may be hard to know what was actually written in the original books of the Bible. Each writer changed and added and deleted from the Bible as they wished, when they wrote their manuscript for their nation - or for their customer. Researchers in our times state this fact very clearly with conclusive proof.**

**Not only in our times - but the Arabic Koran of the past - also clearly states that the original books have been changed. Looking at history we can see how strongly the followers of the Arabic Koran (known as Muslims today) opposed the followers of the Bible - it must have been common knowledge that the Bible and its books were being changed at the time.**

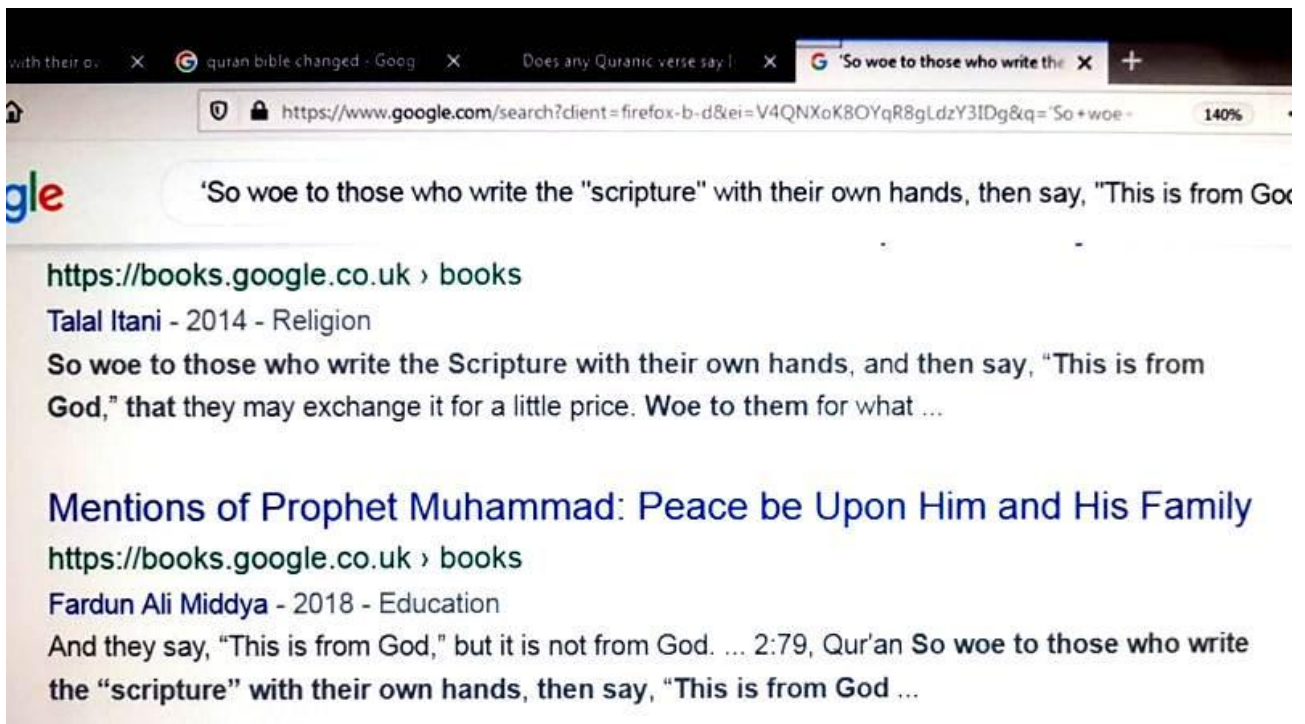

**Researchers found that the Arabic Koran actually condemns the people who were writing such manuscripts and selling them or gaining from them. Hundreds of other people at the time were writing their own Bibles which were seen as history by many people at the time - it was big business. In order to hide the fact**

**that so many manuscripts were fake - many of the thousands of them were destroyed - and of course the Arabic Koran and its followers were demonised and were seen as the enemy.**

**Because the Arabic Koran and its followers (known as Muslims today) were exposing much of what was going on - the Arabic Koran and its followers were seen as a threat by the many people profiting from creating false histories and modifying the Bible for their own political and financial reasons. This was war between 2 peoples - probably one side was changing and modifying history and the other side wished to preserve it.**

**Anyone who has read the Arabic Koran - will notice the strong language within it condemning these people. Similar to how many researchers today are condemning those same people - because they have lied about world history. This then explained why there was such a big hatred between these 2 sides in history. It is almost like a war is taking place today also - between researchers and the people who wrote the lies in history.**

**Below can be seen that the Arabic Koran was against the falsification of the writings and history in the Bible - and the Arabic Koran exposed such actions and condemned it - from the Arabic Koran - chapter 2 - verse 79**

**It was obvious to researchers that a war of history and truth and lies - was taking place between Original Islam and the people who were writing history - especially the history in the Bible. This made researchers question if Original Islam had a greater role in Europe than what history says.**

**The modern world has Christianity in the west mainly, Islam in the centre, and Hinduism and Buddhism in the east, one can say. The data for the number of Christians is actually much lower - when the numbers of atheists are taken into account - making Islam most probably - the biggest religion in the world today. There are other religions too, but these are probably the major religions that stand out.**

**Researchers looked into the history of Buddha - a very important figure in Asia - and they found much similarity between Buddha and Jesus Christ. Researchers came to the conclusion - that they are probably the same historical person - or that their stories have been copied and duplicated and modified.**

**Etymology is a science and below are some similarities in the etymology of words in Buddhism and Christianity**

=====

**The Sanskrit TRi-RaTNaS of the east**

**The Latin TRi-NiTaN of the west**

=====

**Triratna - represent the Three Jewels of Buddhism**

**Trinity - represents one God in three different persons**

=====

**After Buddha will come the Maitreya (Sanskrit) - Medeya (Pali) Buddha and he will achieve complete enlightenment, and will teach the Pure Truth and the Pure Way**

**After Jesus will come the Spirit of Truth and he will guide you into all the Truth, for he will not speak on his own authority, but whatever he hears he will speak**

=====

**Buddha died between 2 sal trees**

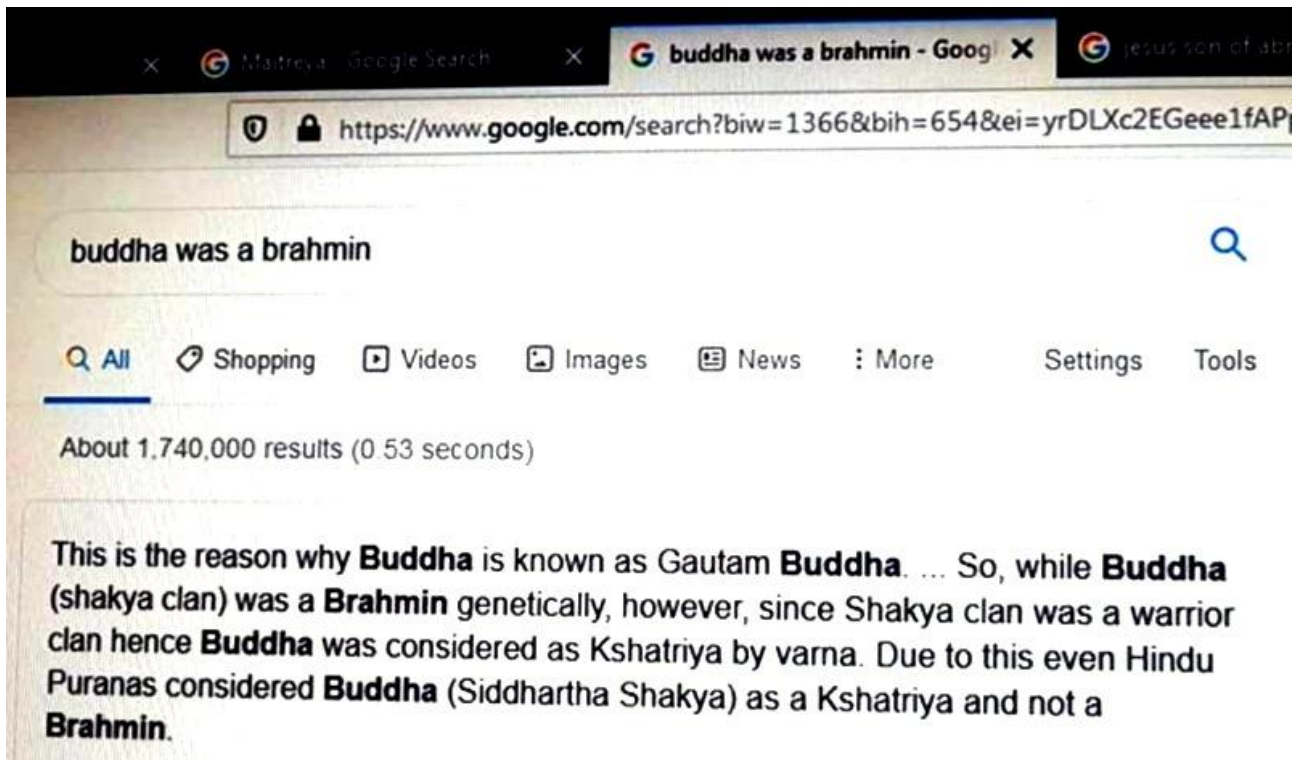

**Jesus - the crucifixion took place between 2 other men on trees or wooden logs or wooden crosses**

=====

**Matthew in the New Testament begins by calling Jesus the son of David, showing his royal origin, and also calls him the son of Abraham, showing he was an Israelite**

**Buddha was a Brahmin by birth - Brahmin is a member of the highest caste in Hinduism - and Buddha was also considered Kshatriya by Varna**

=====

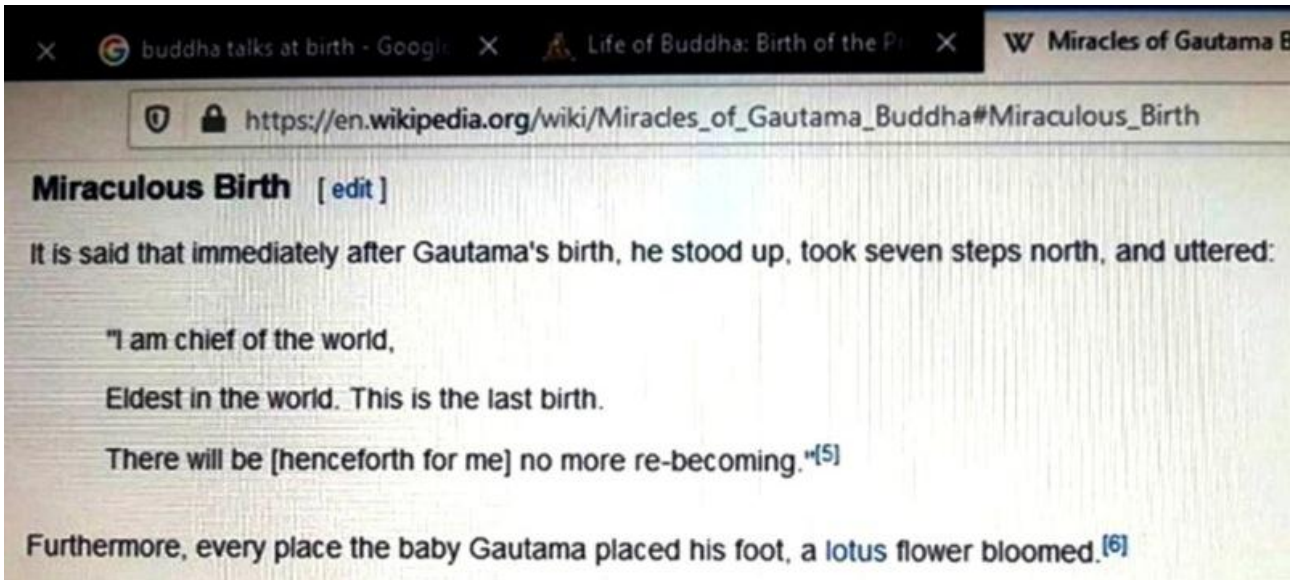

**Note that researchers have noted the similarity between the words Shakya and Hebrew name Ishaak (in English Isaac) and also the similarity between Abraham and Brahma - Brahmin**

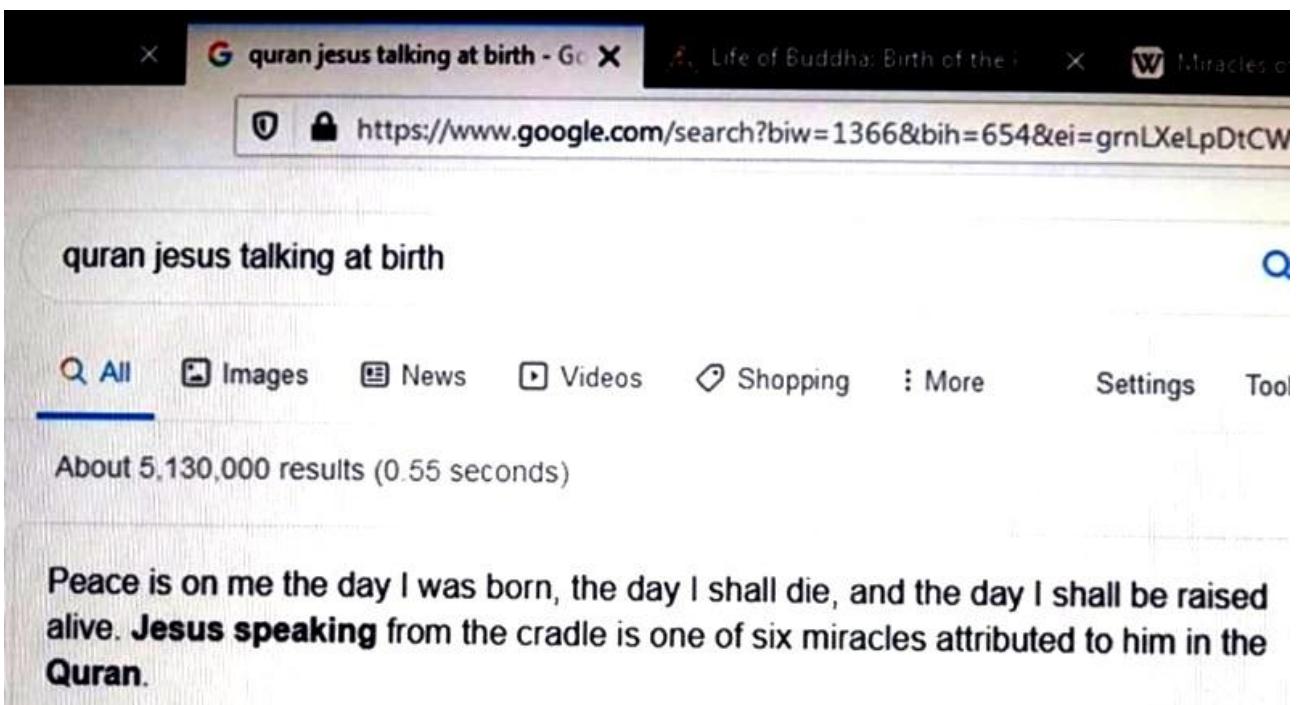

**Christianity is not the only source for Jesus Christ - the Arabic Koran mentions his story also. We call him Jesus in English, the Arabic language calls him Esa or Esau or Isa, depending on your pronunciation. Here are some other things researchers have pointed out about Buddha.**

## Buddha started talking when he was born - this is what Buddhism tells us today

## A similar story is in the Arabic Koran - it says that Jesus Christ started talking when he was born

=====

**The four Gospels do not suggest any link between Jesus Christ's birth and any tree so why do Christians have a Christmas tree?**

**Maybe the answer is here - according to Arabic Koran, Jesus was born beside a tree.**

**The tradition of the Christmas tree is such a big tradition and according to modern historians, they tell you it is probably a pagan tradition from many centuries ago and say many different things - which greatly confuse you - none of which make sense - some researchers say such things were designed on purpose to hide the truth - and to create such confusion and difficulty for researchers to eventually give up - or to finally think that is no truth out there.**

**What researchers found very strange is that the Arabic Koran mentions the story of the birth of Jesus Christ and the birth story is different up to a certain extent from the Gospels in the Bible. The Arabic Koran says that Jesus was speaking after he was born for example, and also says that Jesus was born beside a tree. The story below, where it says - she - it is referring to the Virgin Mary and tells the story of the birth beside a tree. The tree has - dates. Dates are a type of sweet - fruits that grow on date palms.**

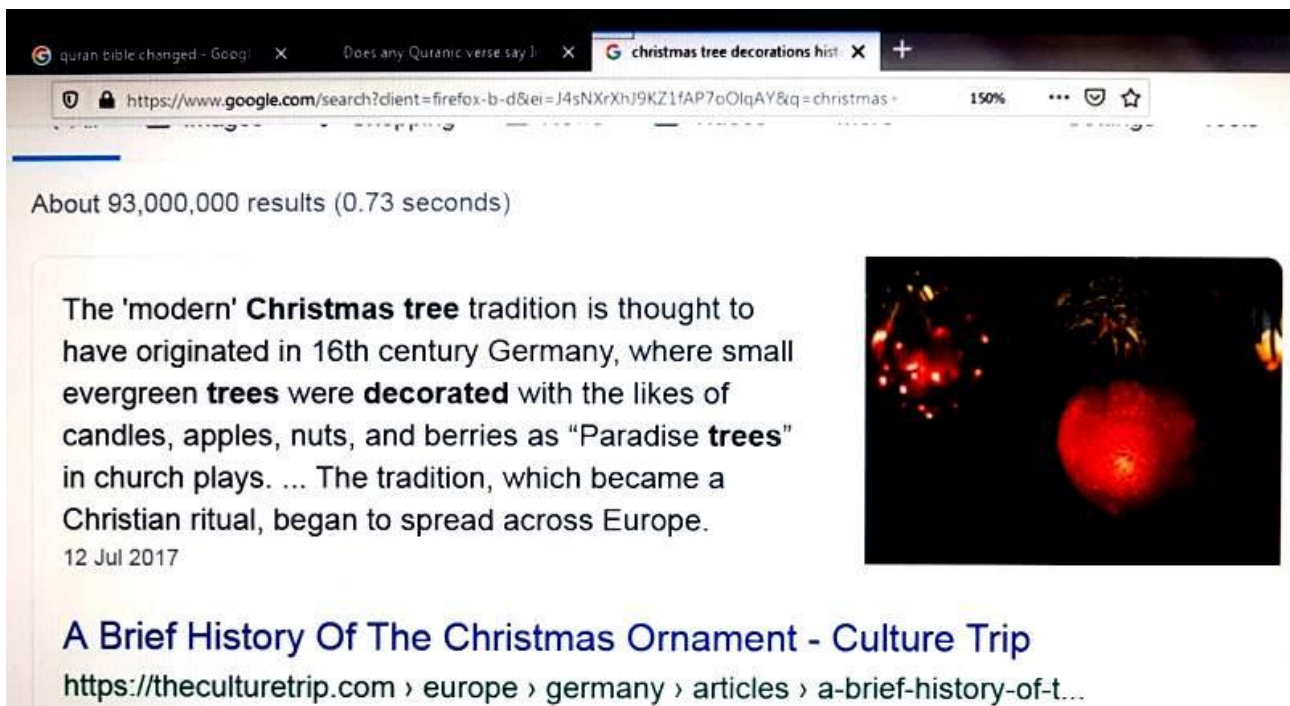

m/historical-jesus/the-christmas-tree-in-the-quran/

But in the Qur'an's account of the birth of Jesus a tree features prominently. I have commented elsewhere on the story of *Jesus' birth in the Qur'an*, so I will only quote the relevant Qur'anic verses here:

“ She conceived him, and she withdrew with him to a far place. (19.22) And the pangs of childbirth drove her to the trunk of a palm tree. She said: “I wish I had died before this and had become something totally forgotten!” (19.23) Then he called her from beneath her: “Do not grieve! Your Lord has placed a rivulet beneath you, (19.24) and shake the trunk of the palm tree toward you, and it will let fall fresh dates upon you. (19.25) So eat, drink, and be consoled. If you meet any human being, say: ‘I have vowed a fast to God, so I will not speak today to any human being.’” (19.26)

The birth took place under a palm tree which also provided Mary with food she desperately needed. This account also has noticeable similarity with the tradition of placing presents under the Christmas tree. The latter may be seen as celebrating the sending of Jesus as

**Researchers found that the history of the Christmas tree is only a few centuries old and not 2000 years old and this made them question - when did Jesus Christ actually live? Also Christmas trees were originally decorated with sweet fruits such as apples and berries or similar fruits that people found in their local market.**

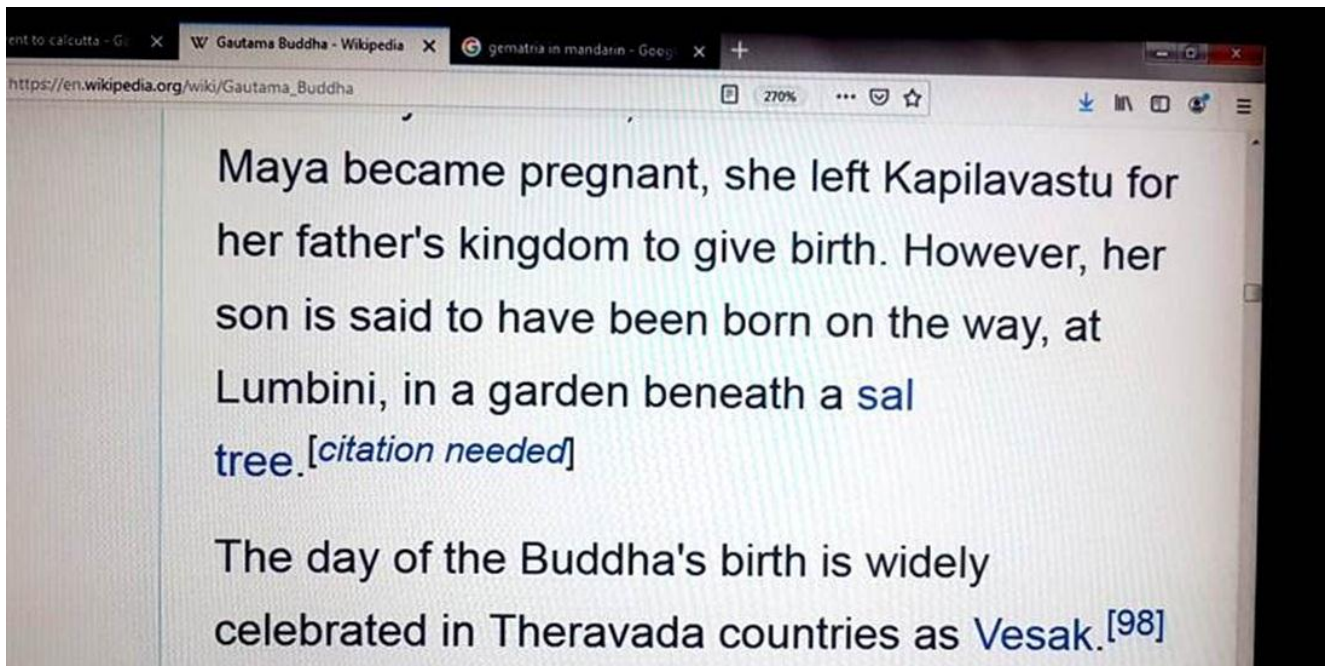

The screenshot shows a Google search interface with the following elements:

- Browser tabs: "quran bible changed - Goog...", "Does any Quranic verse say...", "christmas tree decorations hist..."
- Address bar: "https://www.google.com/search?dient=firefox-b-d&ei=J4sNXrXh79KZ1fAP7oOlqAY&q=christmas..."
- Search results: "About 93,000,000 results (0.73 seconds)"
- Text snippet: "The 'modern' **Christmas tree** tradition is thought to have originated in 16th century Germany, where small evergreen **trees** were **decorated** with the likes of candles, apples, nuts, and berries as "Paradise **trees**" in church plays. ... The tradition, which became a Christian ritual, began to spread across Europe. 12 Jul 2017"
- Image: A photograph of a red Christmas ornament, possibly a strawberry or apple, against a dark background with other lights.
- Link: "A Brief History Of The Christmas Ornament - Culture Trip" with URL "https://theculturetrip.com › europe › germany › articles › a-brief-history-of-t..."

**This evidence made researchers question - what were these so-called Christians doing in Europe? Why were they decorating a tree in such ways? Were they all actually Christians? Or has the history of Europe been deliberately changed? After all - the Arabic Koran was the enemy and the opposing force at the time. Did historians hide the true history of Europe or change it deliberately to remove any traces of the Arabic Koran and its followers?**

## Buddha also, was born beside a tree

## Buddha walks on water

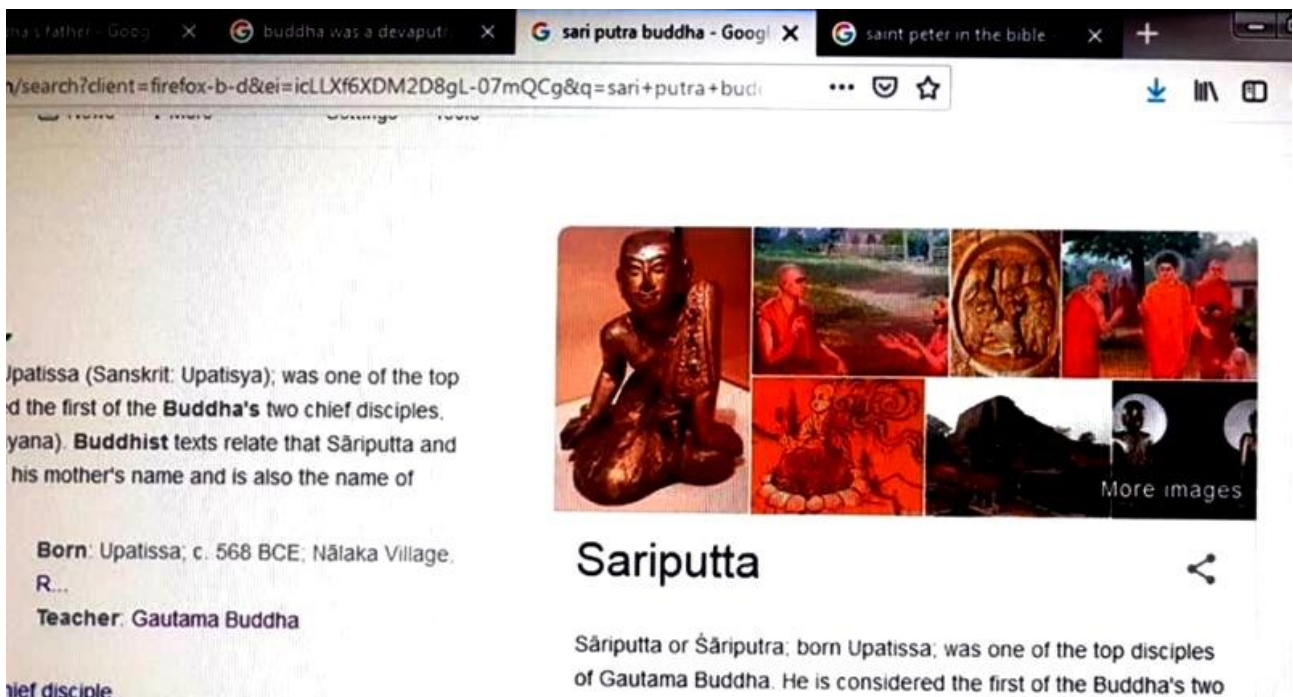

## Jesus walks on water

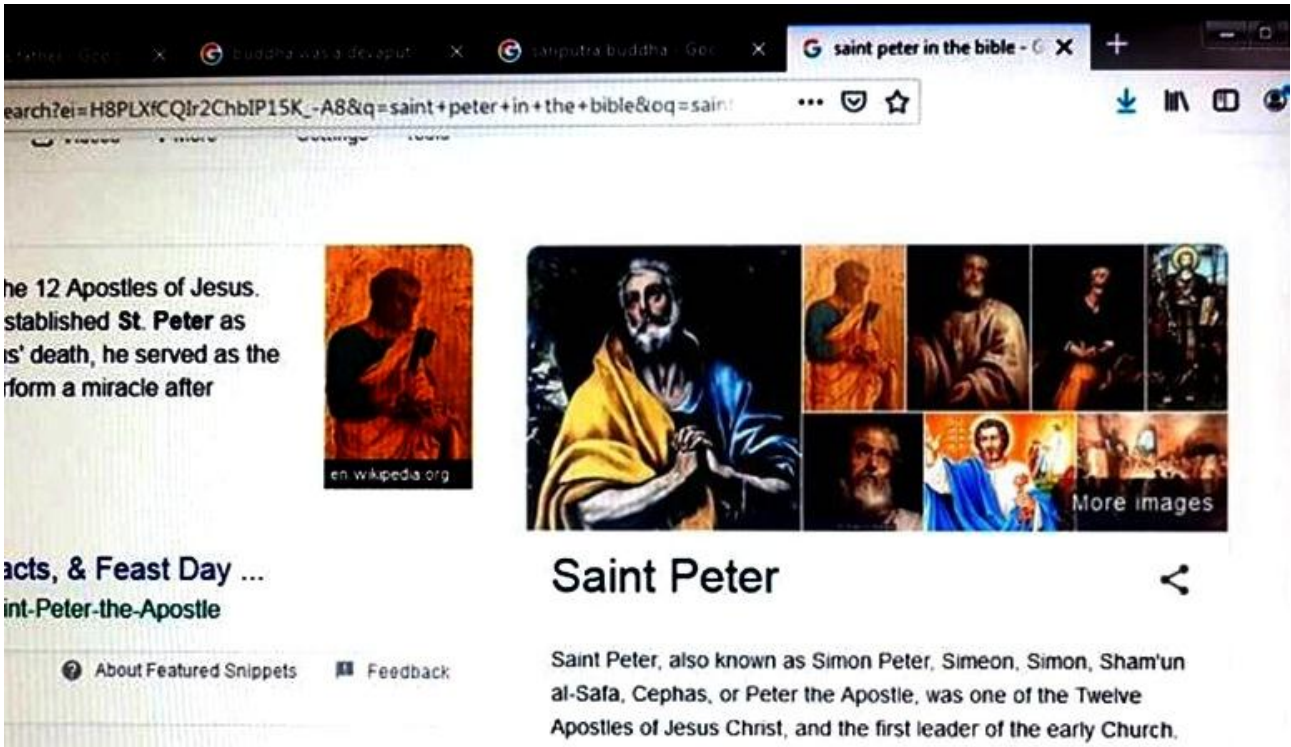

**Sari Putra - Sari Putta was one of Buddha's top men**

**San Pietro - Saint Peter was one of Jesus's top men**

**Notice the similarity between Putra - Putera and Peter**

=====

**Buddha's mother is called - Maya**

**Jesus Christ's mother is called - Maria in Latin**

=====

**Buddha's noble Eightfold Path to Enlightenment**

**Jesus gave Eight Beatitudes in Sermon on the Mount**

=====

**Buddha was born in Lum - Bini**

**Jesus was born in Bet - Lehem or Bayta Lahm - Lum**

=====

**Anuruddha was Buddha's disciple and cousin brother**

**Andrew was an apostle of Jesus and brother of Peter**

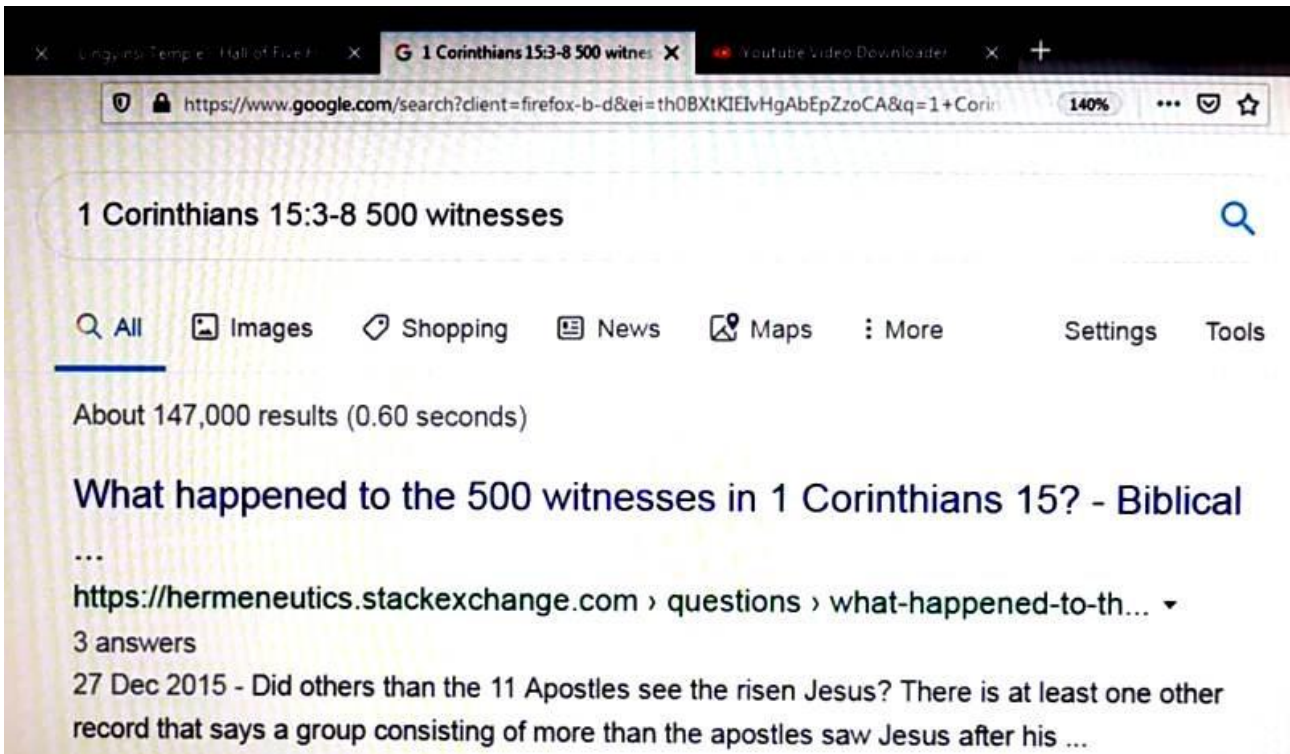

=====

**Virgin Mary had Jesus and she did not have sex**

**Buddha's mother Maya also did not have sex - though sources claim that she was not a virgin because she was married - but gave birth to Buddha without actually having sex**

=====

**Jesus had around 500 witnesses**

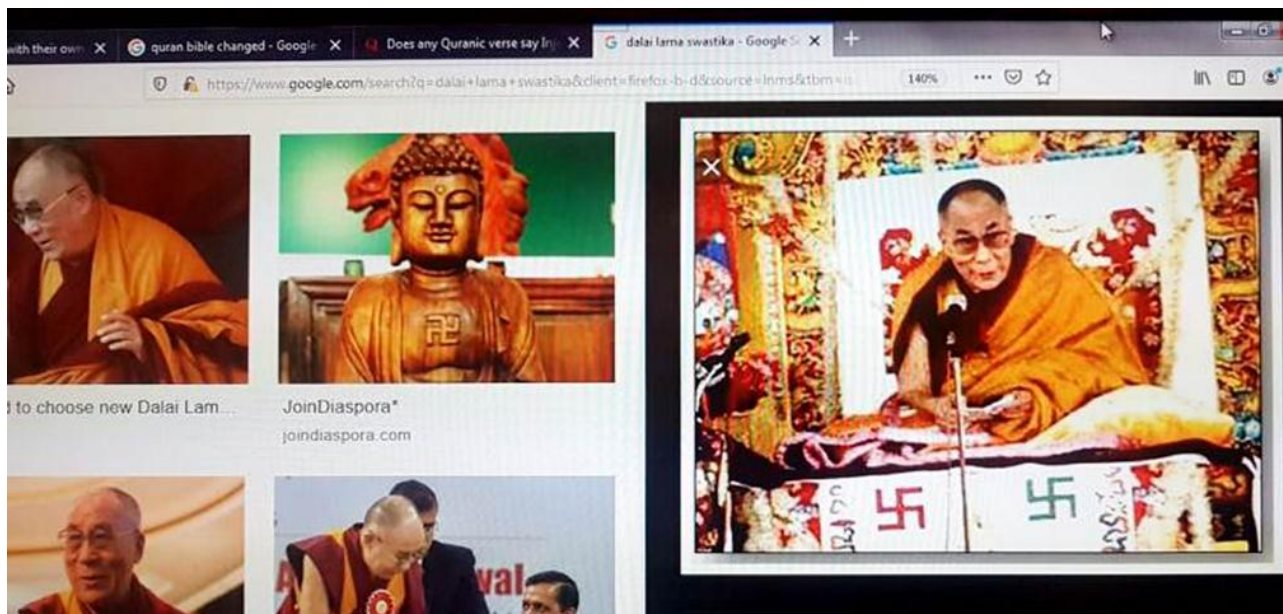

## Buddha had around 500 arhats - disciples

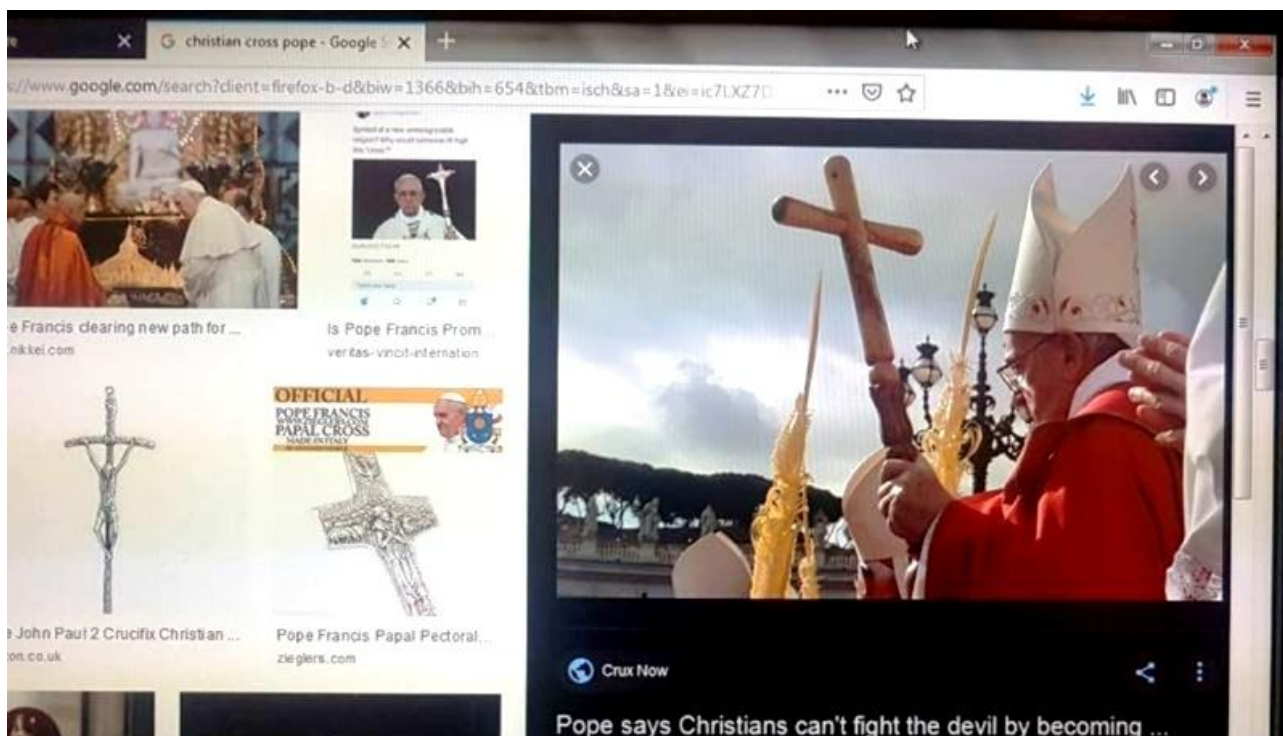

=====

**The Buddhist cross of the east - swastika - with one of their symbolic leaders from one of Buddhism's major sects known as the Dalai Lama**

**The Christian cross of the west - with one of the symbolic leaders from one of Christianity's major sects known as the Pope**

**Researchers found too many similarities and concluded that the history of Jesus Christ and Buddha was a lie.**

**Just like SUN worship was combined with original Christianity to unite 2 groups of people - the same can be seen in the East, the character of Jesus Christ was united with another belief system in that side of the world and formed Buddhism.**

**The final conclusion of researchers was that - history is a lie - and if history is a lie - then - what is true history?**

**Many researchers are asking - how did the world sit there and not notice - that cities are buried and buildings are half buried worldwide and history is silent on these matters? Researchers accepted that history is normally written by the powerful nations and in the last few hundred years - the nations which have had much power are nations such as Japan - Russia - England and France and Turkey - which supposedly had much global power according to what history tells us.**

**The history of the world today - has much bias - against people who live in what is known as the third world - that is obvious - since much of history was written in the powerful nations.**

**Researchers decided to look into what history the third world people might have preserved. They decided to**

**look where world history was challenged the most. They decided to look in the places that written history hated the most - the world of Islam. And researchers noted that the Tatars are traditionally Muslims.**

**The world of researchers was taken by surprise when - Anatoly Fomenko from Moscow State University in Russia - and many other researchers around the world - decided to look into the world of Islam for the answers to true world history. Many researchers faced opposition when they started this research - because much hatred was amongst people against what is known as Islam today - but many researchers wanted to find the truth and decided they cannot hide any research regarding true history. Many researchers stated that it is wrong and false to hide any true history - historians in the past lied about history and hide much evidence - many researchers refused to hide what may be important in true history.**

**Researchers found that most historians - the way they wrote - was with much hatred towards Islam - as if a war was happening between one side and another. The same historians who wrote much lies about world history - are the same historians who wrote many negative things about Islam. Researchers looked at the writings in the Arabic Koran with an open mind to see if they could find the answers why.**

**Looking at the world of Islam - researchers found that in most parts of the world - the historians and the modern media - saw Islam as a type of threat or enemy. Researchers wanted to understand why that might be the case.**

**Modern Islam has many groups and sects and divisions and they follow many different paths - but one thing that the people of modern Islam had in common was a book called the Arabic Koran - not a translated book. Researchers found that most translations of the Arabic Koran were not accurate so they had to be careful when they examined the text within the book.**

**One advantage that researchers found - was that the Arabic Koran had been preserved for the last few centuries - by people who memorised it and textual differences were very rare - except for the cases of spelling - regarding pronunciation.**

**Researchers looked at the word Tartaria - and investigated what the meaning of the word tar-tar could be (Tartar is an English word - Tartarie in French). In the Japanese language - otosan (OTO) - means father. In modern Turkish, ATA - means father, and in English - Dad (TAT) means father. Researchers finally realised that Tartaria simply may have meant - Fatherland.**

**Researchers began to examine the Arabic Koran to see if the book had any answers - to questions regarding true world history and here is what they found.**

**Below is a story from Chapters 7 + 26 of the Arabic Koran regarding a people of great stature who lived on earth in the past - stature generally means height and power and respect - and these people were constructing amazing buildings**

### **Chapter 7**

- to the AT (Ad) civilisation - God sent one of their own people - a man named Hud who said to them - My people - love and respect and worship God - there is no other God except God - do you not realise this?**
- the elite leaders of his people - who refused to accept the truth - replied - we can see that you are a stupid man and we think that you are lying.**
- My people - I am not stupid - Hud replied - but I am a messenger of the Creator and Lord of the world**
- I deliver to you the messages of God and I am an honest adviser to you**
- Do you find it strange that a message should come from God - through a man from among yourselves, so that he may warn you? Don't forget that God made you the successors and inheritors - after the people of Noah and God greatly increased your stature and power. Remember the beautiful things what God has given to you and you will be successful people**

**-They replied to him and said - Are you asking us to remember God and to love and worship God only? Are you asking us to give up what we love and what we worship? If you are speaking the truth - then we challenge you - to bring the punishment you speak about**

**- Hud said - You are going to be punished by God, are you going to argue and debate with me - with the lies that you and your fathers have made up - which have no authority from God? Let's wait and we will see who is telling lies**

**- Hud and the people who believed in the truth - were saved from the disaster - and the people who lied and refused to believe in what is truth - were destroyed**

**=====**

## **Chapter 26**

**- The AT (Ad) people rejected the messengers of God - the Creator of the heavens and the earth**

**- Their brother Hud told them to remember God and to respect God**

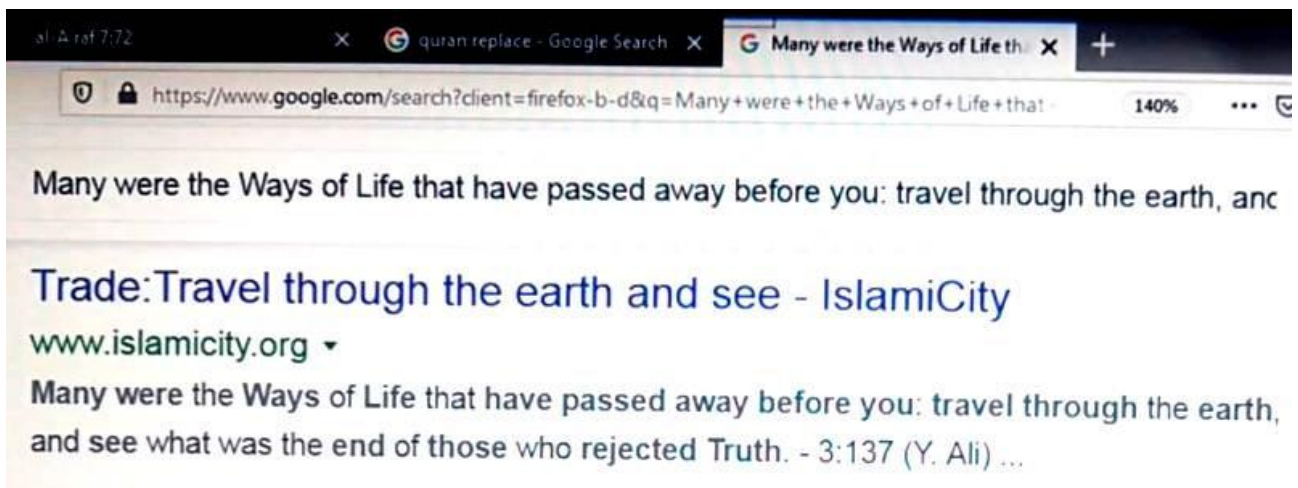

**- He told them that he was an honest and clear messenger of God - and told them to listen to him**

- Hud said - I am not asking for any payment or reward - my reward will be from the Creator and Lord of the worlds
- Are you people building monuments on every high important places just to satisfy your vanities?
- Are you building amazing palaces and fortresses so that you can live forever?
- Why do you act like TYRANTS and OPPRESSORS whenever you attack people?
- I ask you to listen to me and to fear and respect God
- Respect God who has given you everything that you know
- Respect God who has given you livestock as food and children as descendants
- Respect God who has given you beautiful gardens and fountains
- I really do worry about a day when there shall be great punishment against you
- The AT (Ad) people replied to him - that they did not care about what he was saying - it makes no difference to us - if you lecture us or not
- What you are saying is nothing but an old story and no punishment is going to happen to us
- The AT (Ad) people refused to accept what Hud had said and God destroyed them

**What we can see from this story in the Arabic Koran - is that it mentions a powerful civilisation that lived on**

**earth in the past, who were a people of great stature, who were constructing many amazing great buildings and that they were destroyed because they were tyrants and oppressors. Researchers found this story more simple and realistic, compared to many other stories, regarding what may have happened to end the civilisation of Tartaria.**

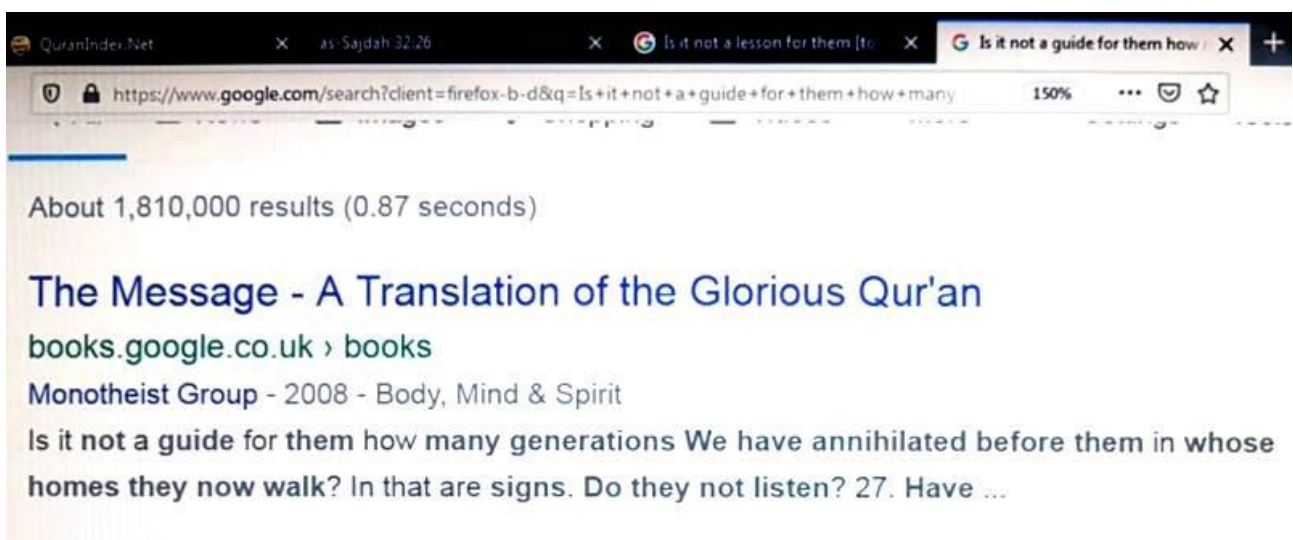

**The Arabic Koran mentions several stories of people who were destroyed in the past and researchers found it strange - that the Arabic Koran was speaking much about the accepting the truth in history and the truth in science. The Arabic Koran was not like most books - it is not long and it is short and is like a message between the Creator (God) and you. Here is an example of some things that researchers found interesting**

**Here it says travel and see history and you will find out the truth what happened to people in the past who did not accept the truth.**

**Here it says God will replace people with new people if they refuse to obey God. The Arabic Koran has several stories on the reset of peoples in the past and replacement of people in the world. Many researchers found this interesting - because many researchers have been investigating resets in humanity and replacements of people.**

**Here was another passage from the Arabic Koran which researchers were shocked by - this passage was**

**literally saying that people today are living in the places and homes of people who were destroyed in the past and that this is sign of evidence. It says - is it not a lesson to see how many peoples that God destroyed in the past - and that we are now walking and living in their dwellings and homes - this is a sign - will we not listen to the truth?**

**Researchers made a summary of what the Arabic Koran was trying to say - it was telling people to travel and study the worlds history carefully and to look at destroyed civilisations and that a sign or evidence of the truth in history - will be found in the places that we live in. The Arabic Koran was practically telling people where to look for the truth in history.**

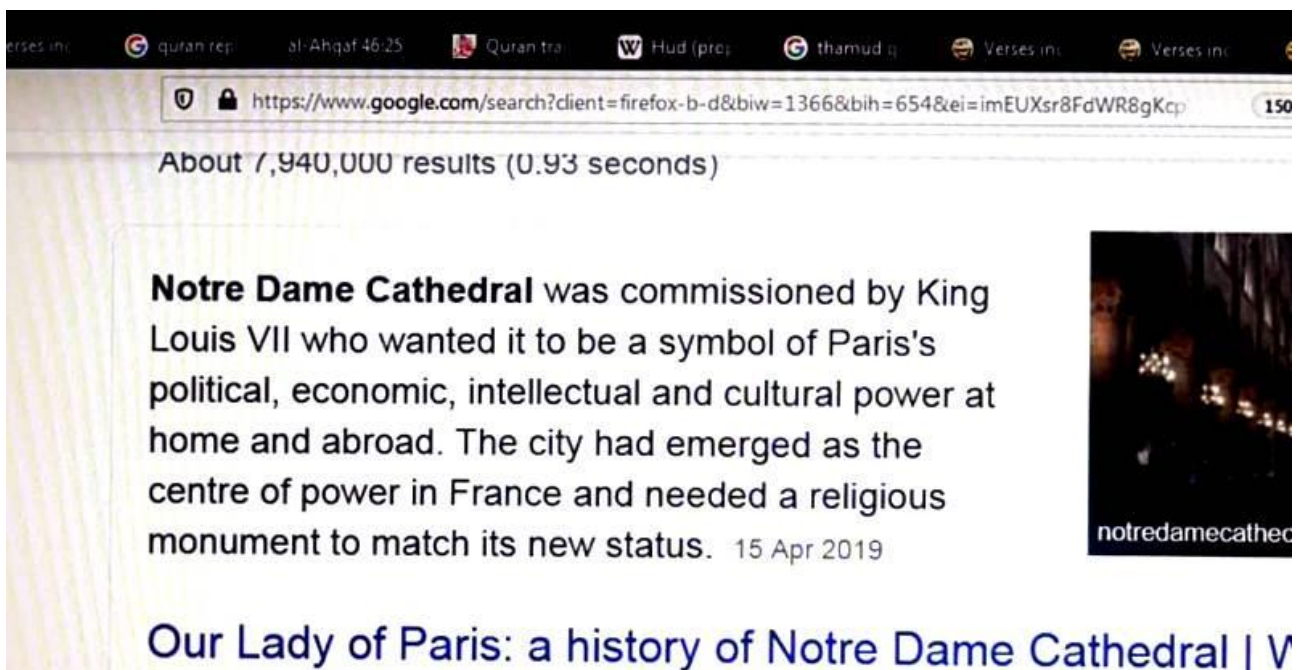

**The basic message of the Arabic Koran was clear and simple compared to every other religious book. It states - that there is a Creator and the Creator loves you and wants you to live an honest life and to speak what is the truth - especially about history and science and not to lie about history or science - that you should search for the truth in science and history and this will show you the evidence that the Creator exists - and that you should live a good life and not be bad to people or oppress them - and to spread the truth when you find it.**

**The Arabic Koran asks you to believe in God - and what is called the unseen or unknown - which is to believe that one day - you will face judgement - after you die -**

**and you will face justice if you have done bad things while you were alive and if you have done good things - then you will be rewarded with a beautiful life after this life. The message in the book was very simple and clear.**

**Researchers noted again and again that many Muslims today are actually part of groups and sects - and they have much literature - apart from the Arabic Koran - written by their group leaders - many of these leaders are parts of political groups and researchers carefully avoided the politics of these people.**

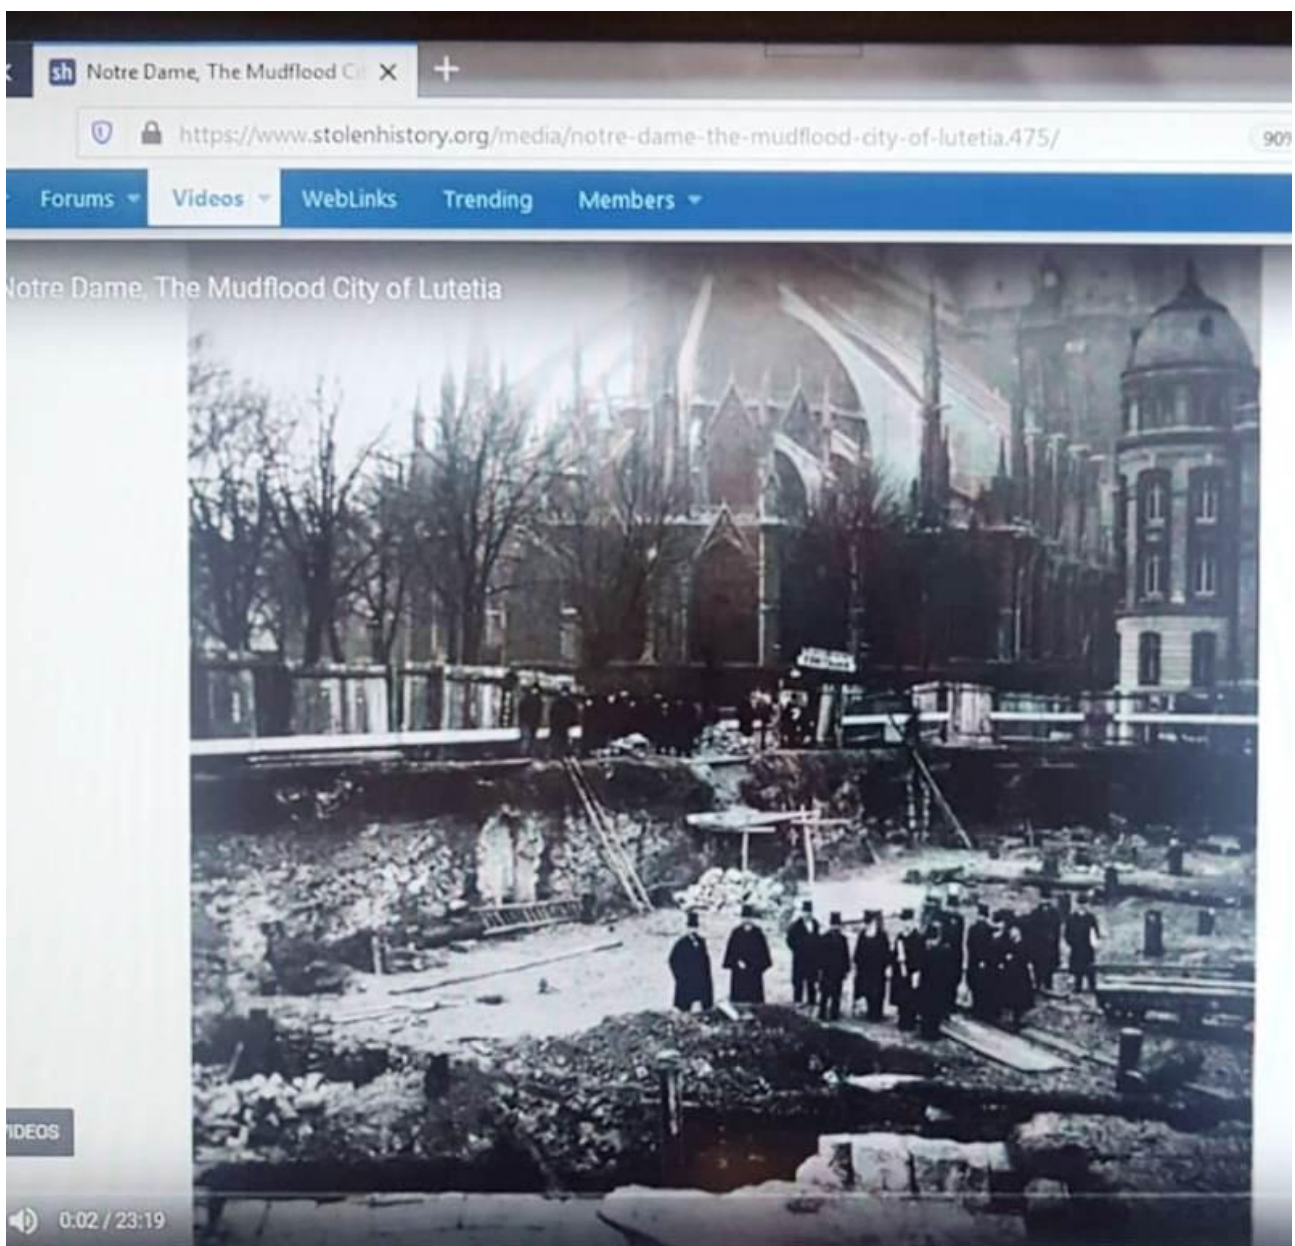

**Researchers looked for the answer to true history in many historical buildings around the world - to see if they can find any serious evidence - about the true history of the world.**

The image is a screenshot of a web browser showing a Google search result. The browser's address bar displays the URL: <https://www.google.com/search?client=firefox-b-d&biw=1366&bih=654&ei=imEUXsr8FdWR8gKcp>. Below the address bar, it indicates "About 7,940,000 results (0.93 seconds)". The search result snippet for "Notre Dame Cathedral" reads: "Notre Dame Cathedral was commissioned by King Louis VII who wanted it to be a symbol of Paris's political, economic, intellectual and cultural power at home and abroad. The city had emerged as the centre of power in France and needed a religious monument to match its new status. 15 Apr 2019". To the right of the text is a small, dark image of the cathedral at night with lights. At the bottom of the screenshot, a blue link is visible: "Our Lady of Paris: a history of Notre Dame Cathedral | V".

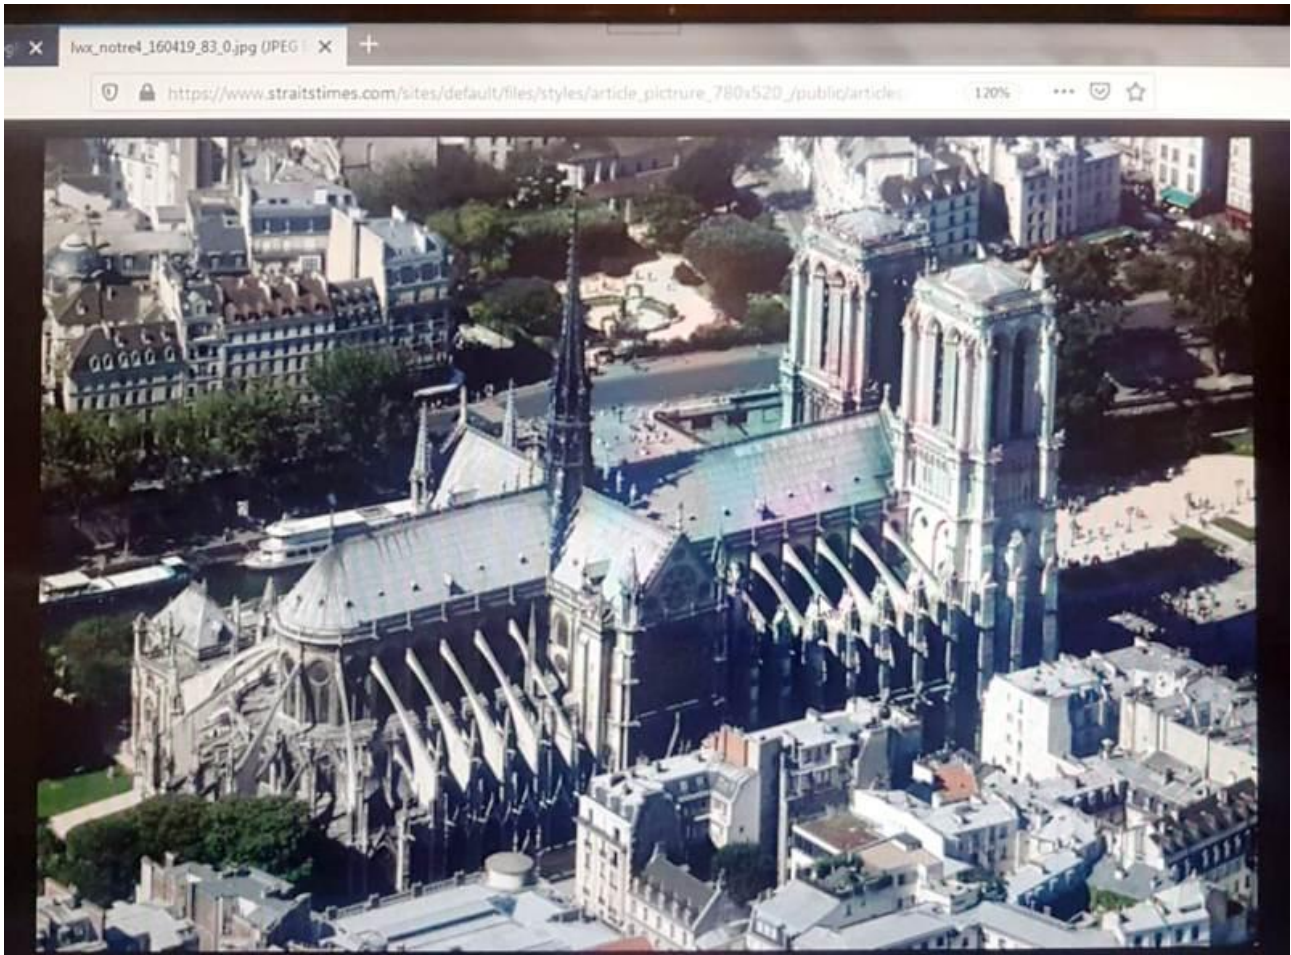

**Notre Dame Cathedral is one of the most important buildings in France today.**

**Below is a photo from supposedly around the 1870s of Cathedral Notre Dame in Paris city in France - a big question researchers are asking from this photo where is the original ground level of the city of Paris?**

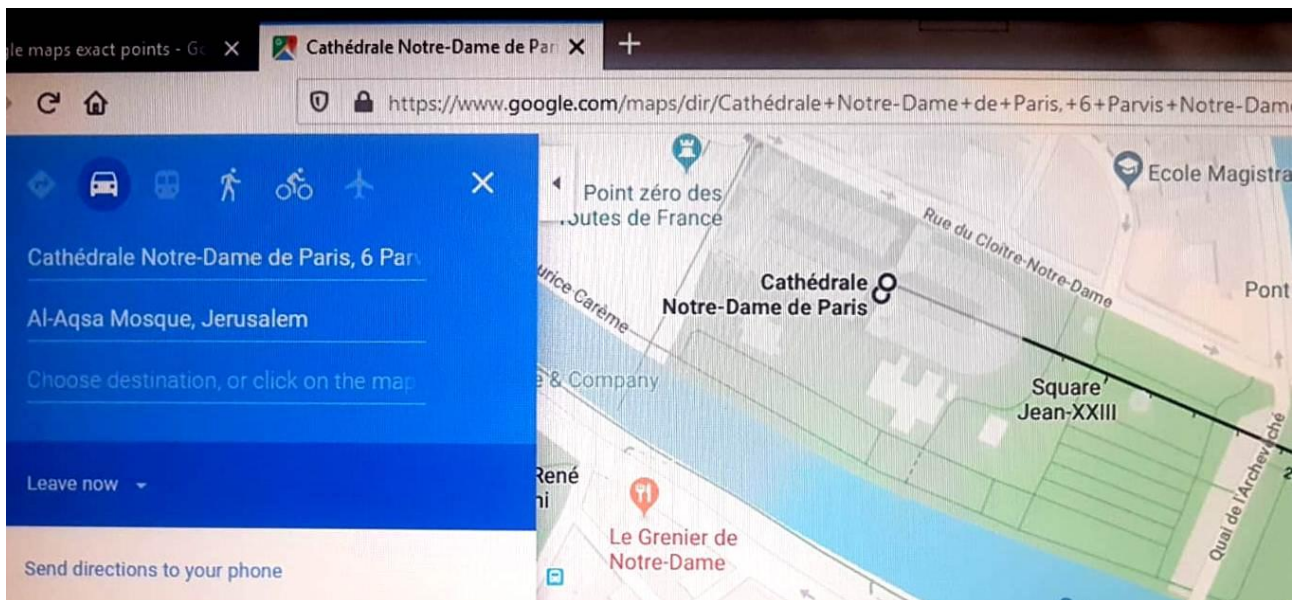

**Researchers did not believe what historians said about the origin of Notre Dame Cathedral and started an investigation.**

**Cathedral Notre Dame - aerial view**

**Cathedral Notre Dame is also mysteriously facing the Al Aqsa Mosque - Temple Mount - Jerusalem - why? Researchers found a common advanced layout - in street designs - and - mathematical alignments - of monuments - in locations around the world - researchers are examining the origins of such advanced technology.**

**We are told this building is a so-called cathedral built for religious purposes. A cathedral is a church that contains - cathedra of a bishop**

**There are many similar buildings around the world - who built them and why and when and how.**

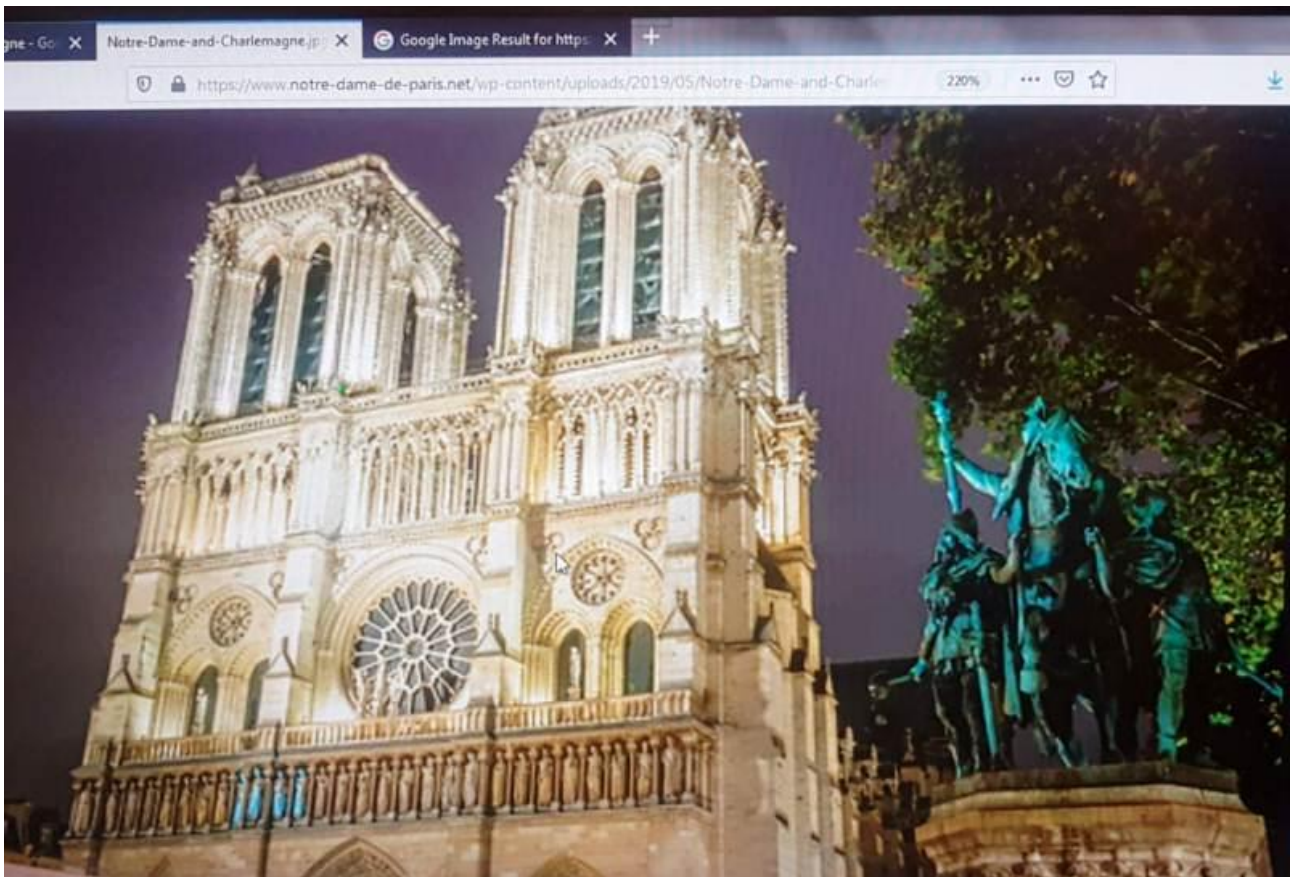

**Researchers are questioning if these buildings are just churches. The building is so amazing and the construction of such buildings - may be difficult even today - how did the constructors make such buildings**

**and when - and what was the original true function of these buildings?**

**Not just churches, researchers say that all the so-called religious buildings throughout the world need to be re-examined. Researchers noted that many of these buildings may not look like how they originally looked - because they have been modified throughout the past.**

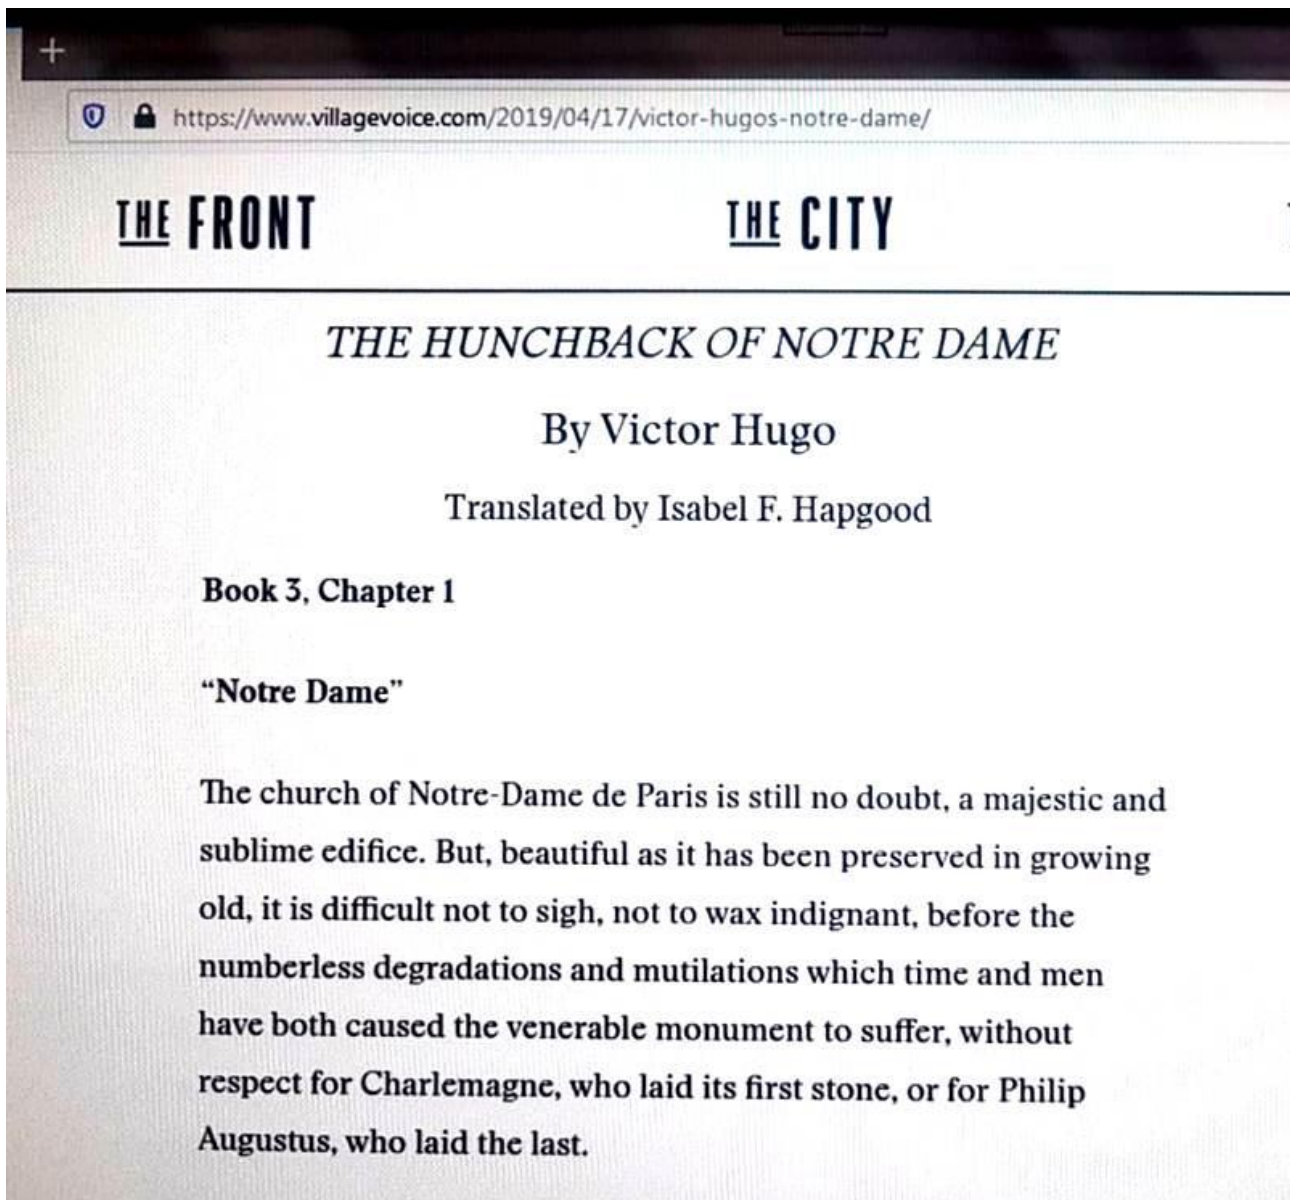

**Below can be seen a statue of Charlemagne at Notre Dame Cathedral - why Charlemagne? And who is this man really? What historians have told us about him is that he was a so-called leader who lived in the mysterious Dark Ages - and because that period in history is dark - we don't have much accurate information about him if any. Almost as if he did not exist - or as if he is a mythical character from the past.**

**Researchers claim that there is a similar problem when studying Jesus Christ and Alexander the Great, and many other historical figures.**

**Either we have don't have much information about the great man called Charlemagne or at one point in the past - there was a deliberate campaign to erase his true historical identity or maybe it was deliberately changed or hidden - for the purpose of politicians or French Nationalists.**

**Victor Hugo says Notre Dame's construction began in Charlemagne's time. Researchers question when did Victor Hugo live - and if that was his real name - and if we really have his original writings - or have they been modified or even created after 1860.**

## **The Hunchback of Notre Dame - by Victor Hugo**

**Researchers ask who was this Charlemagne - and say that it is very important to identify this so-called Charlemagne - because the Notre Dame is a very important building with Tartarian style architecture - and many buildings of similar architecture can be seen around the world.**

**Who really built them or where did the technology come from to build such amazing buildings? Many of them show advanced construction methods, and many may even be difficult to duplicate or construct even today. Also there are many buildings in some countries which are town halls or city halls that look very similar to churches or show similar construction designs. Researchers are asking how did the church acquire such buildings? Did they occupy the buildings after a global disaster or mud flood - and what was the original function of these churches?**

### **Who was Charlemagne?**

**Many people from eastern countries immediately pronounce his name - Sharleyman - and they immediately think of Shuleyman or Suleyman in their history and religions. Suleyman is known as Solomon in English. Researchers began to question if the story of Charlemagne had been copied and modified from the story of King Solomon. Is Charlemagne - King Solomon?**

**What we are told today about King Solomon, is that he was a king who lived in the Ancient World in ancient times in a very small Kingdom named Ancient Israel, located in the Middle East - and he is mentioned in the Old Testament in the Bible. Researchers noted that Notre Dame Cathedral was facing Jerusalem - the supposed location of the Temple of Solomon.**

**Researchers began to question if King Solomon constructed only 1 temple - what if the truth is that King Solomon constructed many temples and buildings worldwide? And what if King Solomon is part of the secret of Tartaria and its amazing buildings that we see around the world? These buildings are seen in Japan and China and India and Europe and the Americas. Historians call them European buildings - what if they are not European but global?**

**Historians say that King Solomon built 1 temple and that he was a local ruler in the middle east with a very small kingdom - but major researchers such as Anatoly Fomenko in Russia (a very famous professor at Moscow State University) - have pointed out that maybe King Solomon was not an Ancient ruler and that maybe he was a more recent and global ruler. What researchers found very strange was the story of King Solomon in the Arabic Koran and the Jewish Talmud.**

## **KORAN - 034.013**

**YUSUFALI: They worked for - King Solomon - as he desired, (making) arches, images, basons as large as reservoirs, and (cooking) cauldrons fixed (in their places): "Work ye, sons of David, with thanks! but few of My servants are grateful!"**

**PICKTHAL: They made for - King Solomon - what he willed: synagogues and statues, basins like wells and boilers built into the ground. Give thanks, O House of David! Few of My bondmen are thankful.**

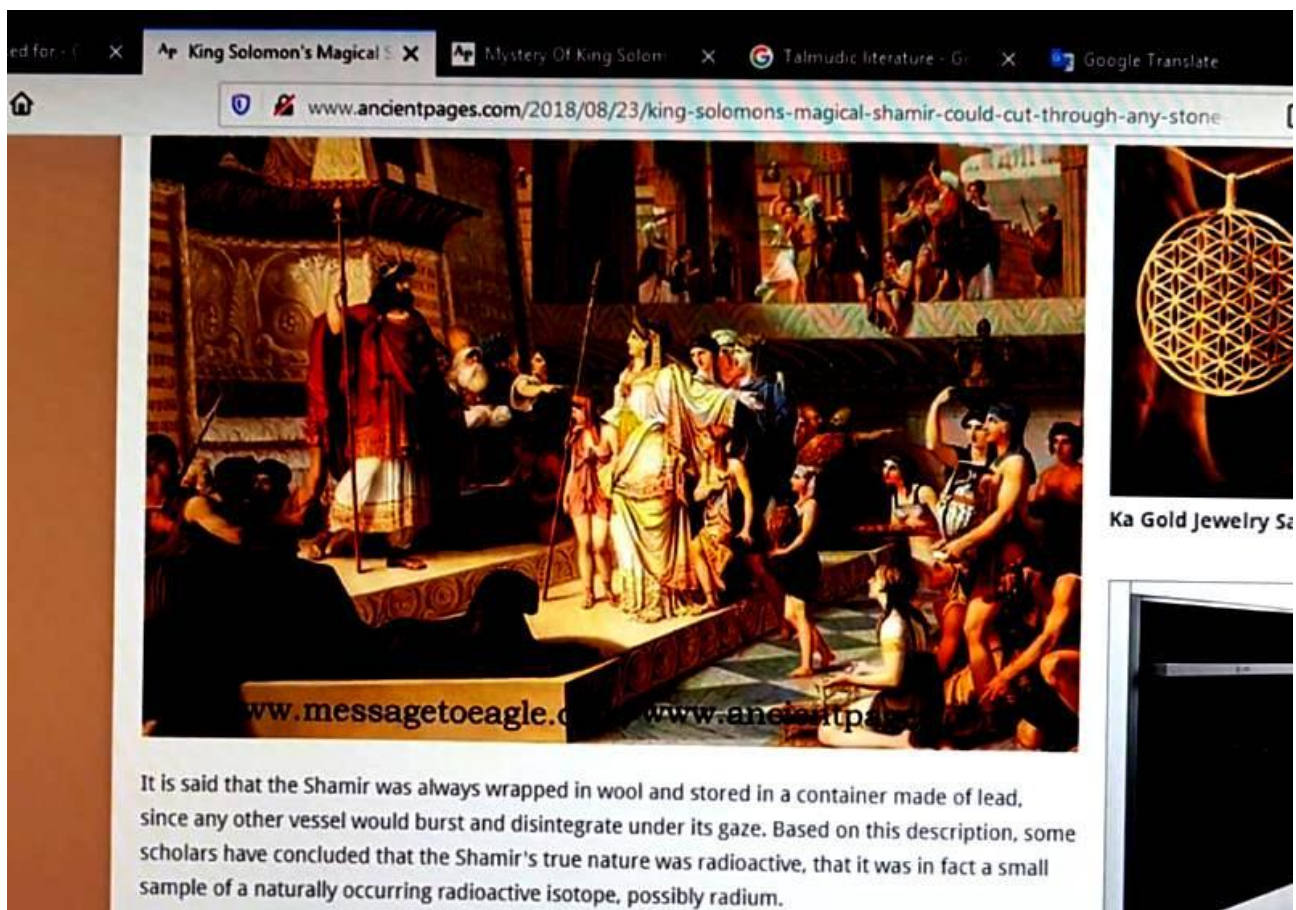

**SHAKIR: They made for - King Solomon - what he pleased of fortresses and images, and bowls (large) as watering-troughs and cooking-pots that will not move from their place; give thanks, O family of David! and very few of My servants are grateful.**

**KHALIFA: They made for - King Solomon - anything he wanted - niches, statues, deep pools, and heavy cooking pots. O family of David, work (righteousness) to show your appreciation. Only a few of My servants are appreciative.**

**King Solomon was constructing amazing fortresses - churches - synagogues - temples according to the Arabic Koran**

**Researchers found a story from Talmudic literature (Talmud is a compilation of historic rabbis discussing or debating what the Torah means). The story was very amazing and stated that a magical creature called Shamir - helped King Solomon build the Temple of Jerusalem. Shamir had the ability to alter stone, iron and diamond, by just looking at them. The story states that King Solomon found out from the demon Ashmedai that Shamir was in the care of the Prince of the Sea - who has given it into the charge of the hoopoe bird.**

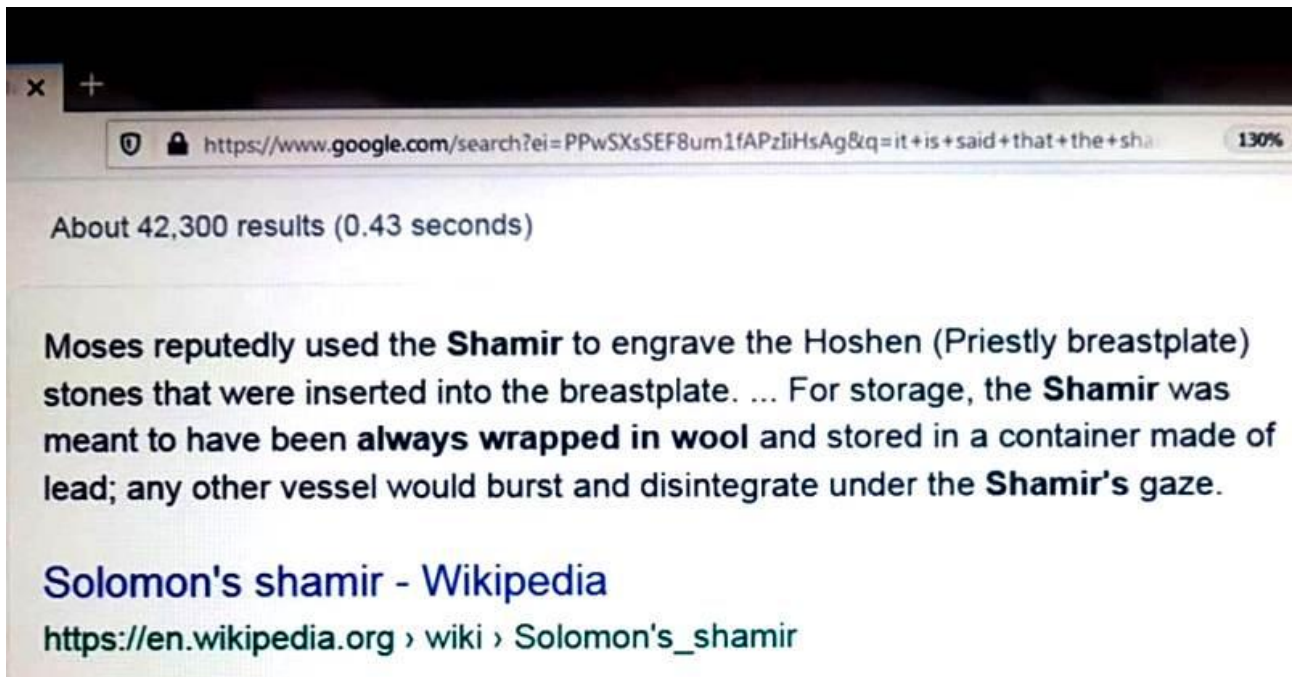

The screenshot shows a web browser with several tabs open: "King Solomon's Magical...", "Mystery Of King Solom...", "Talmudic literature - G...", and "Google Translate". The address bar shows the URL: [www.ancientpages.com/2018/08/23/king-solomons-magical-shamir-could-cut-through-any-stone](http://www.ancientpages.com/2018/08/23/king-solomons-magical-shamir-could-cut-through-any-stone). The main content area features a large painting of King Solomon's Temple under construction, with King Solomon on a throne. To the right is a diagram of a golden sphere with a complex geometric pattern, labeled "Ka Gold Jewelry Sa". Below the painting, there is a text block that reads: "It is said that the Shamir was always wrapped in wool and stored in a container made of lead, since any other vessel would burst and disintegrate under its gaze. Based on this description, some scholars have concluded that the Shamir's true nature was radioactive, that it was in fact a small sample of a naturally occurring radioactive isotope, possibly radium."

**According to the story - stone, wood or metal - was affected immediately when Shamir looked at it. Many researchers say that maybe Shamir was a radioactive**

**creature like any other living being or an electrical creature or maybe even an alien being.**

**Not only King Solomon - but the Prophet Moses supposedly used Shamir also.**

**Regarding the Temple of Solomon - the Book of Kings - in the Torah states that - For the house, while it was under construction, was built of stone made ready at the quarry - and there was neither hammer nor axe nor any tool of iron to be heard in the house while it was being built.**

**No one heard the sound of construction of the Temple of Solomon? Was it built by forces that are not human?**

**The Midrash (commentary of Hebrew scripture) - states that - the stones moved of their own accord and they**

**flew and rose up by themselves, setting themselves in the wall of the Temple and erecting it.**

**The stones rose up and flew by themselves? That is what the Midrash says. What technology was being applied here? Or did Solomon have an Alien force of beings to do his work? Maybe this can explain the technology of many huge stones in places around the world - in many monuments - that historians cannot explain how they were built. Unless if many of the huge stones are fake.**

**Researchers then looked in Africa at the literary work known as the Kebra Negast. Here we can find the story that King Solomon was flying in a heavenly vehicle.**

**Researchers then questioned - are we the first civilisation to fly?**

**Not only Talmudic literature - but the Arabic Koran also mentions some type of alien beings that Solomon communicated with. It states that King Solomon ruled over a land on earth that included human and animals and a type of alien race of beings (called Jinn in Arabic) - some of them possessed what we would call advanced technology - that included teleportation.**

**Teleportation is more advanced than our internet. Our internet transports sounds such as our voice and images such as photos. Teleportation can transport physical objects.**

**027.040**

**YUSUFALI:** Said one who had knowledge of the Book: "I will bring it to thee within the twinkling of an eye!" Then when (Solomon) saw it placed firmly before him, he said: "This is by the Grace of my Lord! - To test me whether I am grateful or ungrateful! And if any is grateful, truly his gratitude is (a gain) for his own soul; but if any is ungrateful, truly my Lord is Free of all Needs, Supreme in Honour!"

**SHAKIR:** One who had the knowledge of the Book said: I will bring it to you in the twinkling of an eye. Then when he saw it settled beside him, he said: This is of the grace of my Lord that He may try me whether I am grateful or ungrateful; and whoever is grateful, he is grateful only for his own soul, and whoever is ungrateful, then surely my Lord is Self-sufficient, Honored.

In this story in the Arabic Koran - it calls this race of alien beings - Jinn in Arabic. There are many modern stories as to what this race is, but from the Arabic Koran we can see that members of this alien race knew about and actually used advanced technology in the past. The Arabic Koran states that one of these alien creatures had knowledge from a certain Book.

According to the Arabic Koran - this race of alien beings - was created from some type of flame - or fire or smokeless fire - flame.

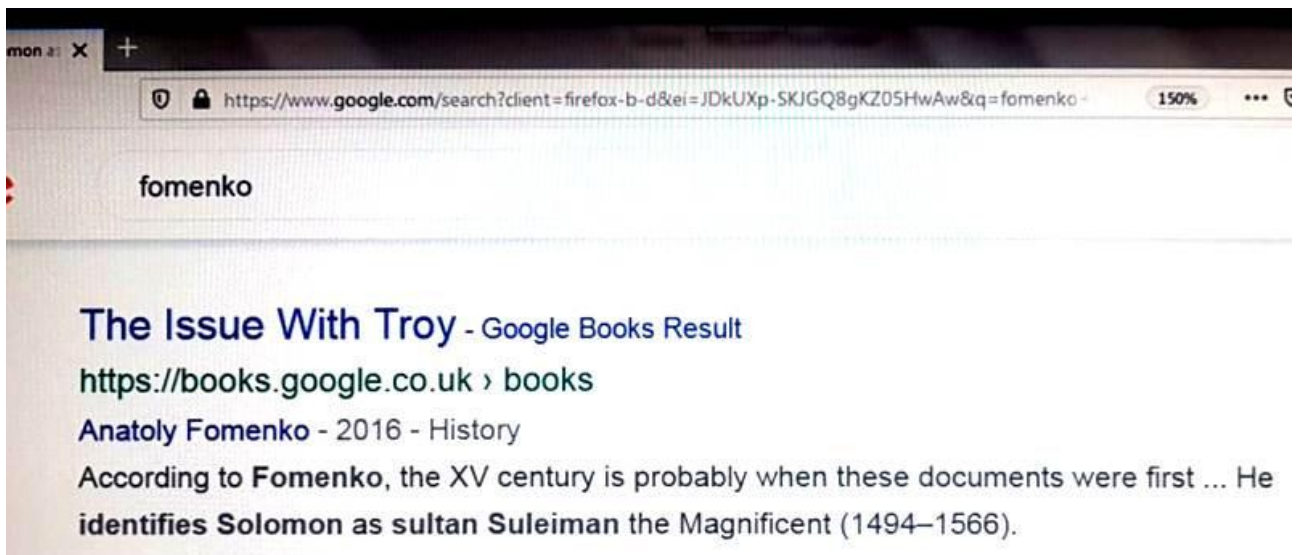

**What we can see is that the Arabic Koran and Jewish sources have a similar story in this case.**

**There is so much to say regarding King Solomon from many other sources regarding his gold and his mining.**

**The Arabic Koran even mentions that King Solomon controlled parts of the weather such as the wind and that he knew the language of various creatures such as birds. The level of advancement and technology available to Solomon seems amazing.**

**The Arabic Koran even states that it was not just King Solomon who had the knowledge and technology of communicating with birds - but his people also, like a shared common knowledge or common technology. Our civilisations today are currently trying to find ways to master the language of animals and open ways of communication with them. Researchers are asking - where did they get such information and technology and how and why is it not available today?**

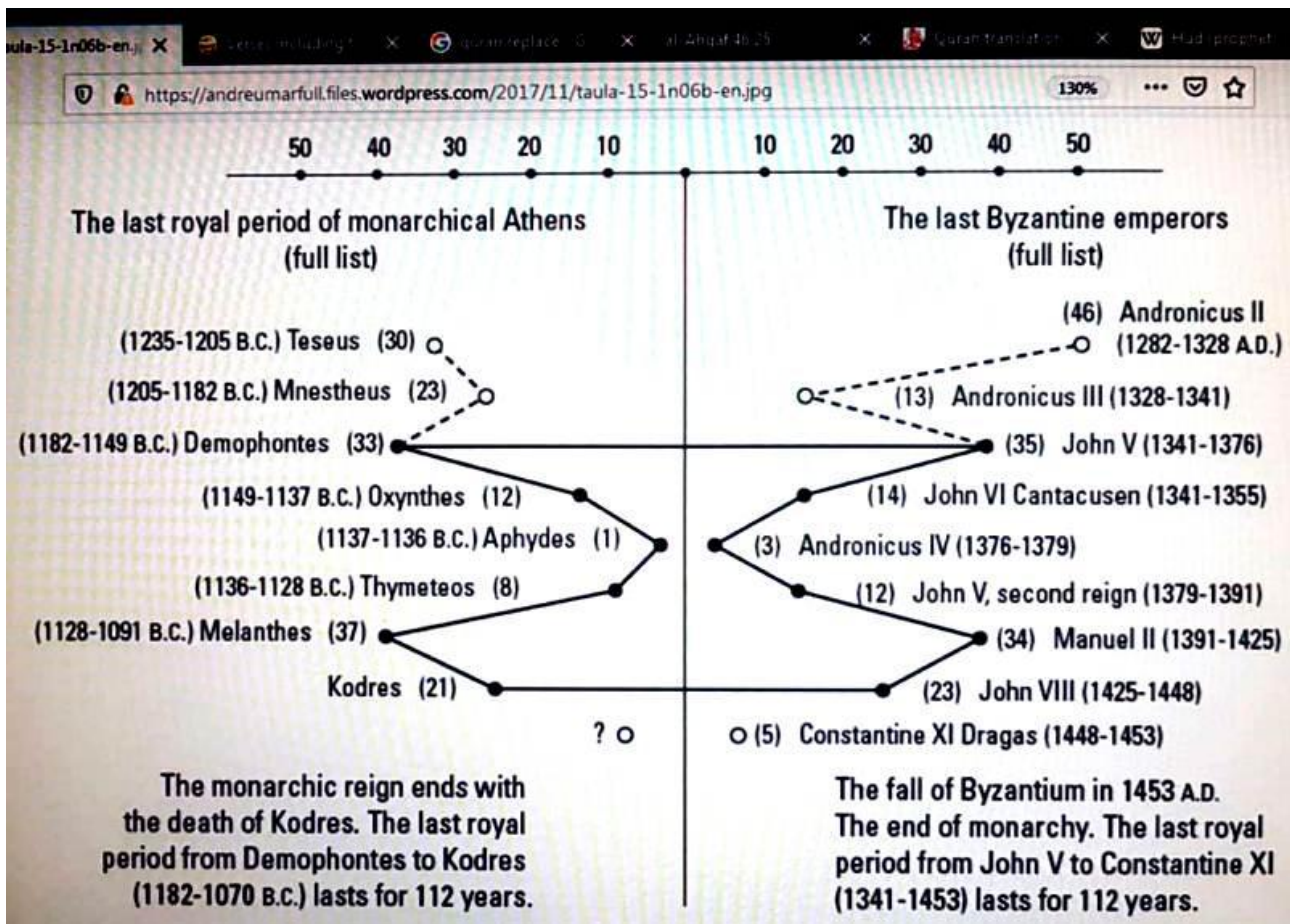

**Let's see what the researcher Anatoly Fomenko has to say from Russia regarding - King Solomon and the Ottoman Sultan Suleiman - who was called the Khan of Khans - which means - the King of Kings (Khan is a so-called Mongolian or Tartarian word which means King in English)**

**Fomenko and many other researchers worldwide - noticed the similarities between King Solomon and the Ottoman Sultan Suleiman and linked them together. This made researchers re-examine the history of the Ottoman Empire.**

**Researchers began to question if King Solomon really lived in Ancient times or was he more recent - and was he just a local king in the Middle East or was he a more global king?**

**Researchers found that Ancient Greece and Ancient Rome and Ancient Egypt - and other so-called Ancient civilisations were false - with fake historical timelines that were copied from each other and many of their monuments were fake too. The so-called Greek and Roman architecture that is seen worldwide - is what researchers now call Tartarian architecture.**

Above is a graph that shows the names of Greek kings and the number of years they ruled and Byzantine Roman kings and the number of years they ruled - side by side on a graph.

The lines show how many years a king ruled, it is longer if he ruled longer. You will notice that the kings of the 2 different kingdoms - Athens and Byzantine Roman capital - that they are practically the same kings - except that their names were changed to match the false history which was created for Greece. This is one example from what the Russian researcher Anatoly Fomenko has shown - that the whole history of Ancient Greece seems to have been made up. Today many so-called Ancient Greek style buildings - that can be seen

**in Greece - are said to have been built by the same fabricated Ancient Greeks - thousands of years ago - and these so-called Ancient Greeks - probably never existed.**

**Fomenko and other researchers have shown that much history of Ancient Greece and Byzantine Rome and even Ottoman Empire and Ancient Persian history - have been copied and duplicated to create false histories.**

**Many researchers have found that many people worldwide are trying to mix their personal opinions into serious research and sometimes it can be biased. Some people who comment on the topic of Tartaria and mud flood related events are Atheists, others are religious Christians and both show some sort of bias when they reach conclusions. Many of these people do not include information that can be found in Jewish or Muslim or African sources, as if history is a game. What researchers pointed out was that buildings globally were buried - not just in Europe or the west - so they started a global investigation.**

**Researchers discovered that mysteriously over a 100 great fires took place in cities across the United States alone between 1760 and 1930. Many researchers are now claiming that the cities were destroyed deliberately or some type of attack occurred to destroy the cities. Many similar fires happened throughout the world at the**

**time and researchers question - why did so many fires happen at that time causing so much destruction?**

**Here is a list of some suspicious fires that researchers have been questioning**

- 1755 - Great Fire of Lisbon, w/ Earthquake and Tsunami**
- 1788 - Great Fire of New Orleans**
- 1794 - Great Fire of New Orleans**
- 1796 - Great Savannah Fire, GA**
- 1802 - Portsmouth City Fire**
- 1805 - Great Fire of Detroit**
- 1808 - Great Fire of Trinidad**
- 1810 - Charleston, SC**
- 1811 - Great fire of Podil**
- 1811 - Great Newburyport fire**
- 1813 - Great Portsmouth Fire**
- 1814 - Great fire of Tirschenreuth, Ger**
- 1815 - Great Fire of Petersburg, Virginia**
- 1817 - Great Sag Harbor Fire**
- 1817 - Great Fire of Saint John's, Newfoundland, CA**
- 1818 - Great Fire of Salzburg, Austria**
- 1819 - Great Schenectady Fire**
- 1820 - Great Savannah Fire, GA**
- 1822 - Great Fire of Canton, China**
- 1824 - Great Fire of Edinburg, GB**
- 1825 - City fire of Saint John, N. B. CA**
- 1826 - Great Fire Kempston, Peterborough, Huntington**
- 1827 - Great Fire of Turku, Finland**
- 1827 - Great Fire of Alexandria, VA, D.C.**

**1828 - Arita, Saga, Japan**  
**1830 - Great Fire of New Orleans**  
**1831 - Great Fire of Raleigh, NC**  
**1831 - Great Fire of Fayetteville, NC**  
**1833 - 1839 – Fires of Charleston, SC – 1833, 1835, 1835, 1835, 1836, 1837, 1837, 1839 - 6 fires**  
**1834 - Great fire of the UK Parliament**  
**1834 - City Fire of Syracuse**  
**1835 - Great Fire of New York, NY**  
**1836 - US Patent Office Fire**  
**1837 - City fire of Saint John, N. B. CA**  
**1837 - Great Fire of Southampton, UK**  
**1838 - Great Fire in School Street, IN**  
**1838 - Great Fire of Charleston, SC**  
**1839 - Great Fire of Mobil, AL – 4 separate fires**  
**1840 - Great Fire of Louisville, KY**  
**1842 - Great Fire of Trondheim, Norway -several fires**  
**1842 – Great Fire of Hamburg, DE**  
**1843 – Great Fire of Kingston, JA**  
**1843 – Great Fire of Tallahassee, FL**  
**1843 – Great Fire of Fall River, MA**  
**1844 – Great Fire of Boston, MA**  
**1844 - Great Fire of Gravesend, UK**  
**1845 – Great Fire of Bridgeport,**  
**1845 – Great Fire of New York, NY**  
**1845 - Great Sag Harbor Fire**  
**1845 – Great Fire Pittsburgh - over 1000 buildings**  
**1845 – La Playa (de Ponce), the city port of Ponce, Puerto Rico fire, wiped out most of the Ponce vicinity**  
**1846 – Great Fire of Saint John’s, Newfoundland, CA**

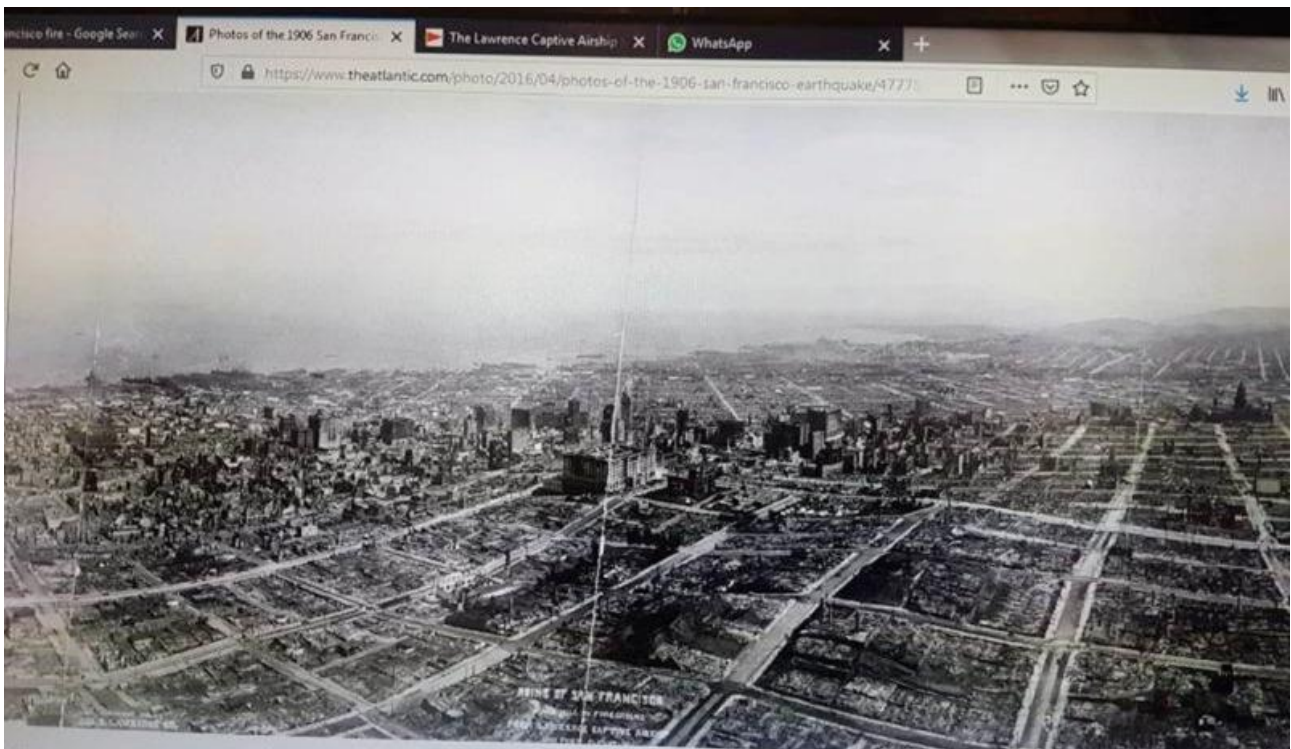

**1846 – Great Fire of Nantucket, MA**  
**1847 – Great Fire of Bucharest, Romania**  
**1848 – Great Fire of Albany, NY**  
**1848 – Medina, Ohio. Destroyed entire business district.**  
**1849 – Great Saint Louis Fire, MO**  
**1849 – First Great Fire of Toronto**  
**1850 - First Great Fire in Philadelphia**  
**1850 - Great Fire of Fredericton**  
**1850 - Great Fire of San Francisco**  
**1851 - Great Fire of San Francisco**  
**1852 – Great Fire of Montreal, CA**  
**1853 - Great Fire at Oswego**  
**1854 - The Great fire of Newcastle and Gateshead**  
**1855 - The Great Fire at Bankside, London**  
**1856 - City Fire of Philadelphia**  
**1857 - First Great Fire in Sandhurst**  
**1858 - Great Fire of Christiania**  
**1861 – Great Charleston Fire, SC**  
**1862 – Troy, New York, 671 buildings destroyed**  
**1863 – Great Fire of Denver, CO**  
**1864 – Great Fire of Brisbane, Queensland, Australia:**  
**1864 – Atlanta, Georgia,**  
**1865 – City Fire of Richmond, Virginia, 1865**  
**1866 – Great Fire of Portland, Maine**  
**1868 – Auerbach in der Oberpfalz, Bavaria. Arson**  
**1870 – Great Fire of Constantinople, Istanbul Turkey**  
**1870 – Fire in Medina, Ohio, almost entire town**  
**1871 – Great Chicago Fire, IL**  
**1871 – Great Peshtigo Fire, Wisconsin**  
**1871 – Great Urbana Fire, OH**

- 1872 – Great Boston Fire of 1872**
- 1873 – Great Fire of Portland, OR**
- 1874 – City Fire of Chicago, destroyed 812 structures**
- 1877 – Saint John, New Brunswick**
- 1878 – The Great Fire of Hong Kong, destroyed 350 to 400 buildings across more than 10 acres of central**
- 1879 – Hakodate fire, Hakodate, Hokkaidō, Japan**
- 1881 – Thumb Fire in Michigan**
- 1881 – Ringtheater fire in Vienna, Austria**
- 1886 – Great Vancouver Fire, British Columbia**
- 1887 - Cannon Falls Fires, MN**
- 1889 – Great Fire of Spokane, WA**
- 1889 – Great Bakersfield Fire -**
- 1889 – Great Fire of Seattle, WA**
- 1889 – The First Great Lynn Fire, Lynn, Massachusetts**
- 1891 – Great Fire of Syracuse**
- 1892 – Great Fire of Saint John's, Newfoundland, CA**
- 1893 – City Fire of Clarksville, Virginia.**
- 1894 - Great Hinckley Fire**
- 1894 – Great Fire in Shanghai over 1,000 buildings**
- 1896 - Great Fire of Paris, Texas**
- 1897 - The Great Fire Windsor, Nova Scotia Canada,**
- 1898 - Great Fire of New Westminster, British Columbia**
- 1898 - Great fire of Park City, Utah**
- 1906 – Great SF Fire and Earthquake**
- 1914 – Great Salem Fire, MA – 1376 bldgs**
- 1918 - Cloquet, Duluth, and Moose Lake Fires**

**Researchers noted that the dates of the fires may not be accurate for every single city - because much history**

**has so much lies. Researchers accept that maybe all the cities did not burn at one time - and that different events may have taken place in different cities or parts of the world at different times.**

**San Francisco - from a height of 1,500 feet in 1906, 41 days after disasters struck it - was this just a so-called great fire and earthquake as we were told or was it something else?**

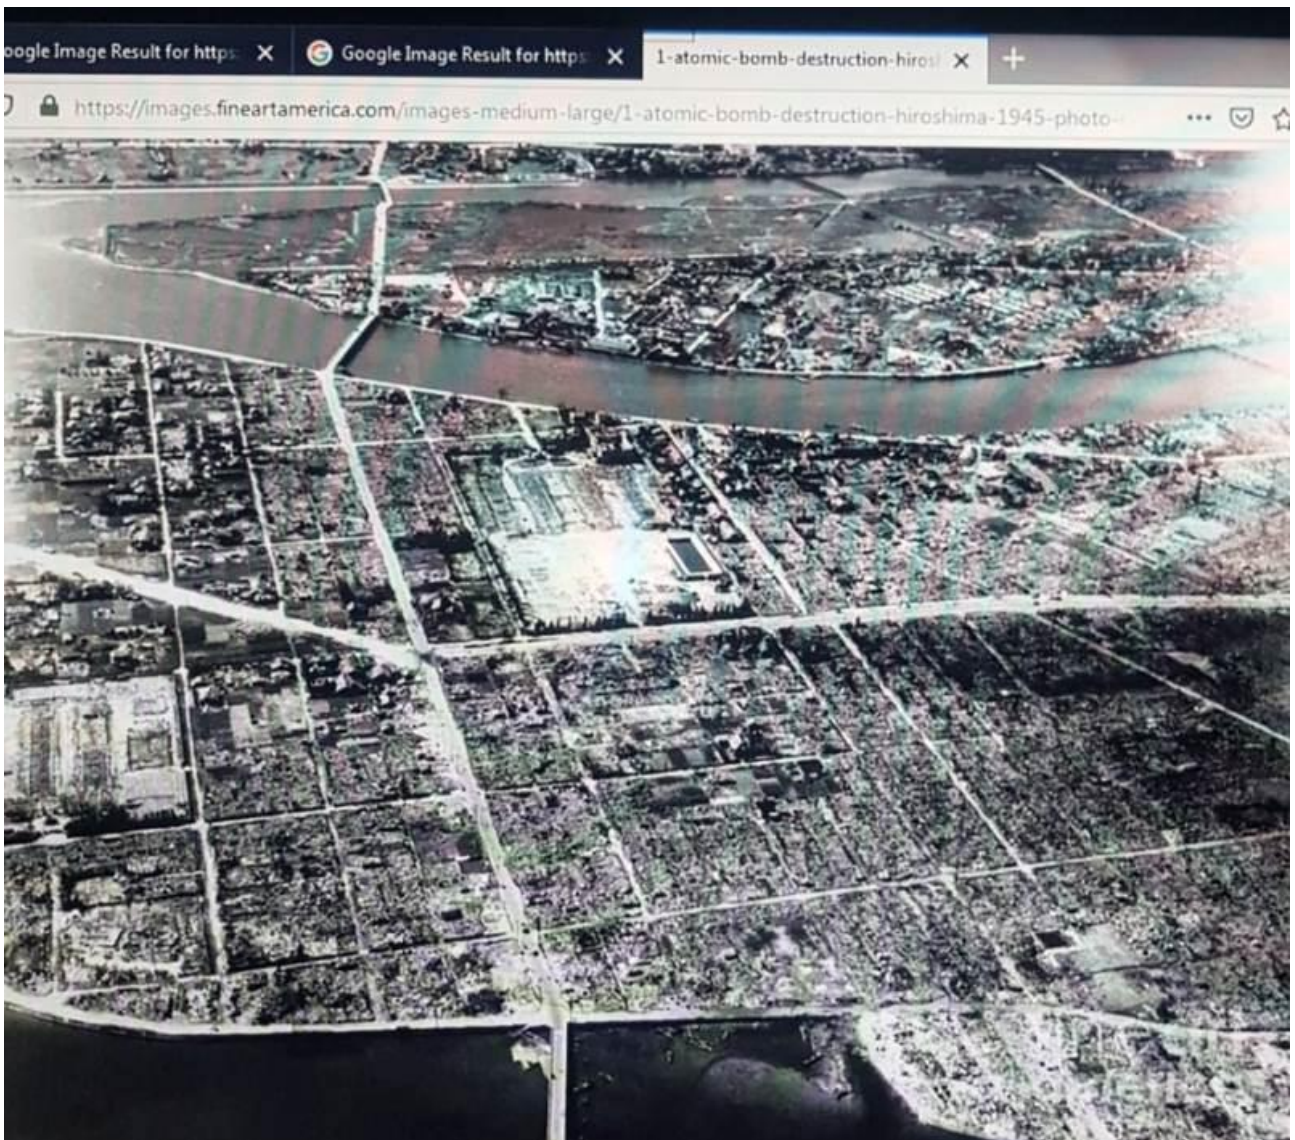

**San Francisco, viewed from the Lawrence Captive Airship on May 29, 1906 - researchers ask was there really a great fire here or was it something else? There is much similarity between what can be seen in San Francisco and other places in the world that may have been bombed.**

**Below is another photo of San Francisco, viewed from the Lawrence Captive Airship 1906**

**Many researchers noted an obvious similarity between San Francisco and the so-called atomic bombing of Hiroshima in Japan - supposedly in 1945**

**Below is a photo of Hiroshima supposedly from that time also**

**Another obvious similarity was the bombing of Osaka city in Japan in 1945 - there was no nuclear bomb in**

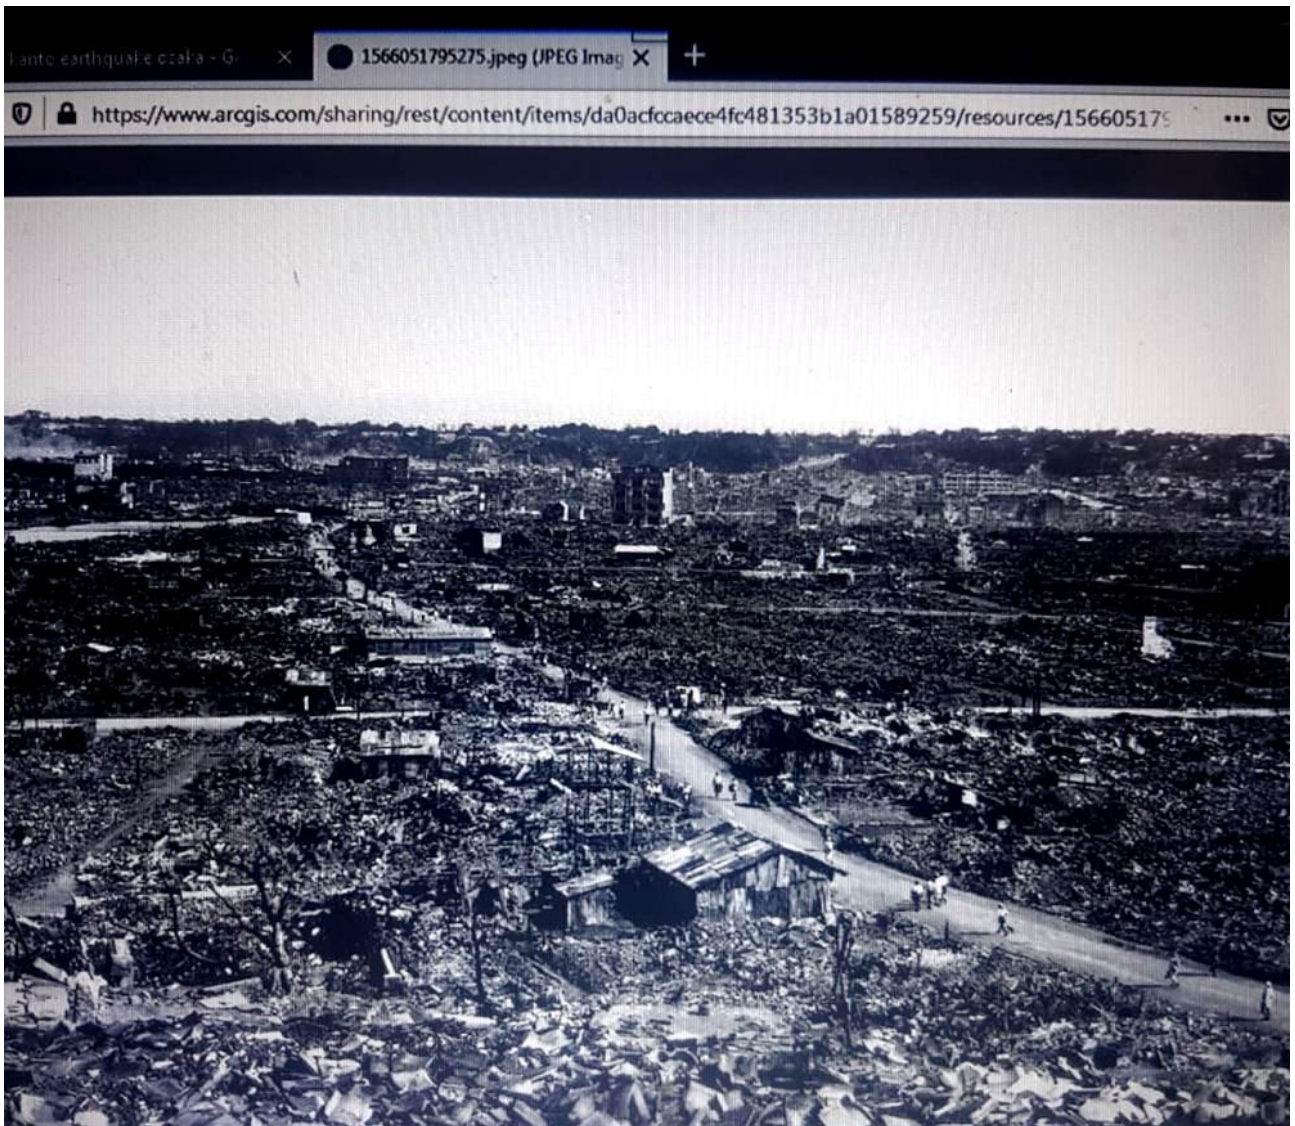

**Osaka city - but researchers noted that there were some similarities**

**Below is a photo of Osaka - supposedly from that time**

**Below is a photo of Tokyo area supposedly after the Great Kanto earthquake in 1923 – there was no bombing and no nuclear bomb but researchers found many similarities with other cities - from other events in other countries. Many towns were supposedly devastated after the earthquake in Japan at the time**

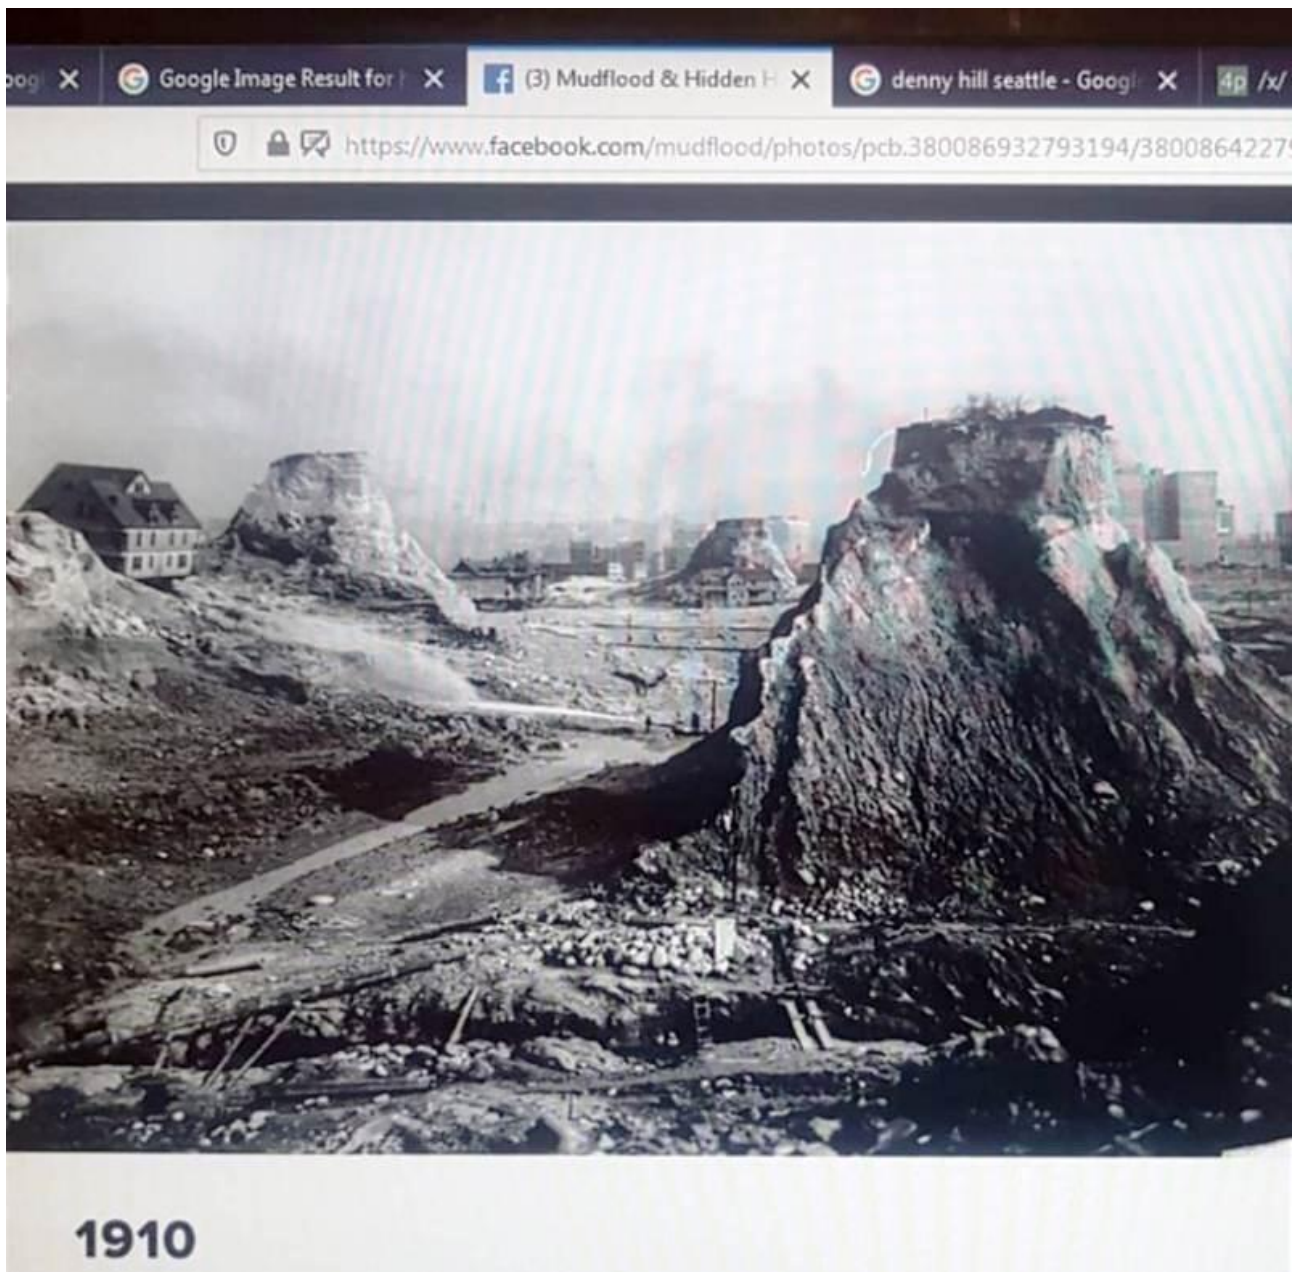

**Bremen city - Germany - was supposedly bombed in 1945 and here again researchers noted much similarity between the other cities.**

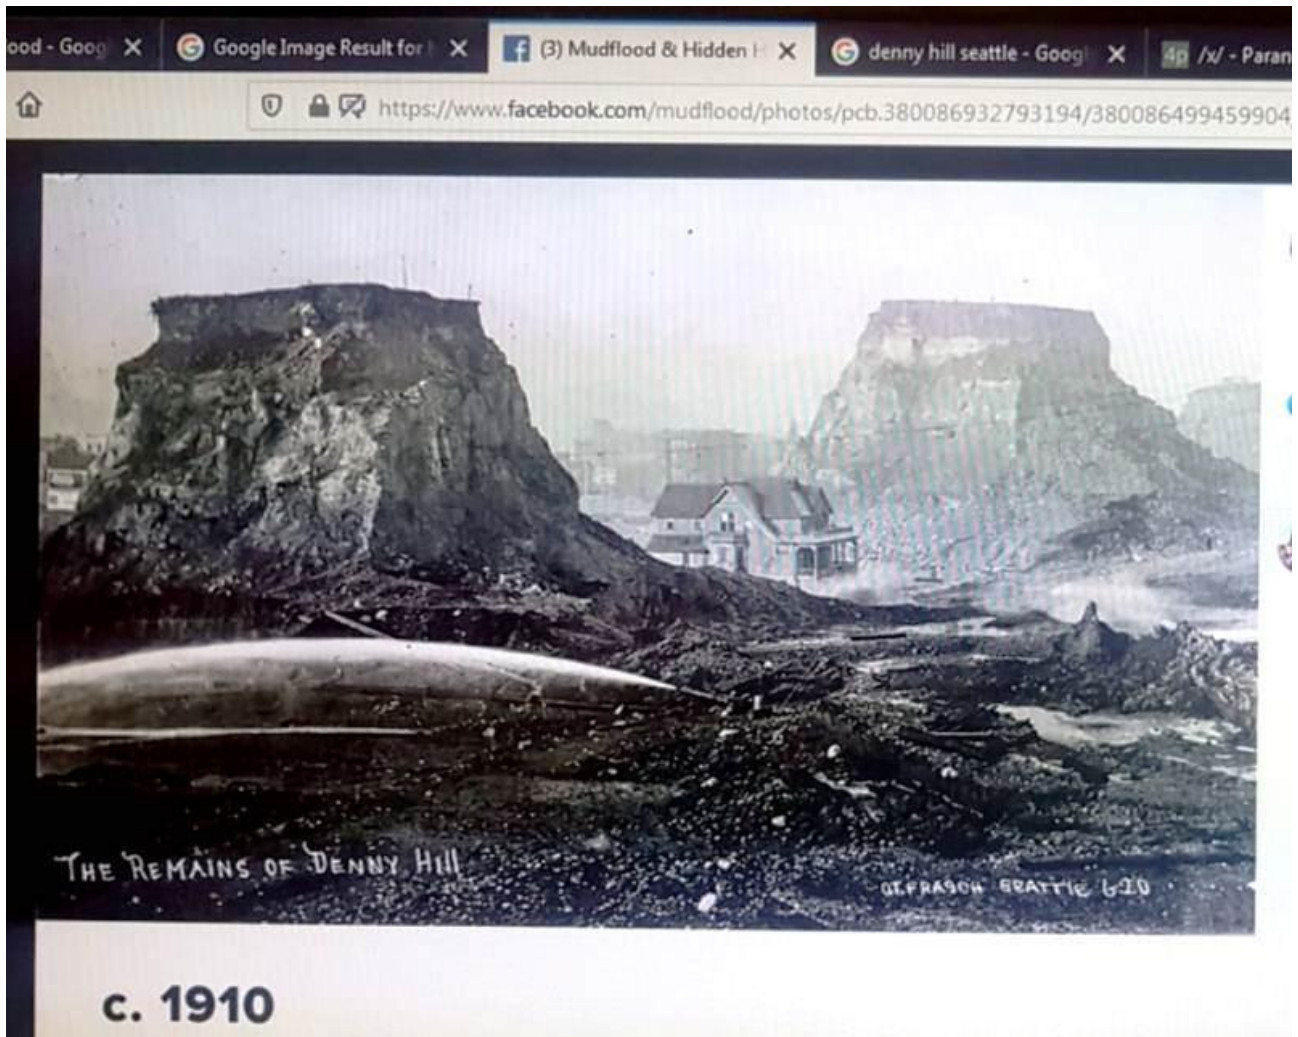

**Above is a photo from Bremen City in 1945**

**Above is a photo Seattle city supposedly around 1910**

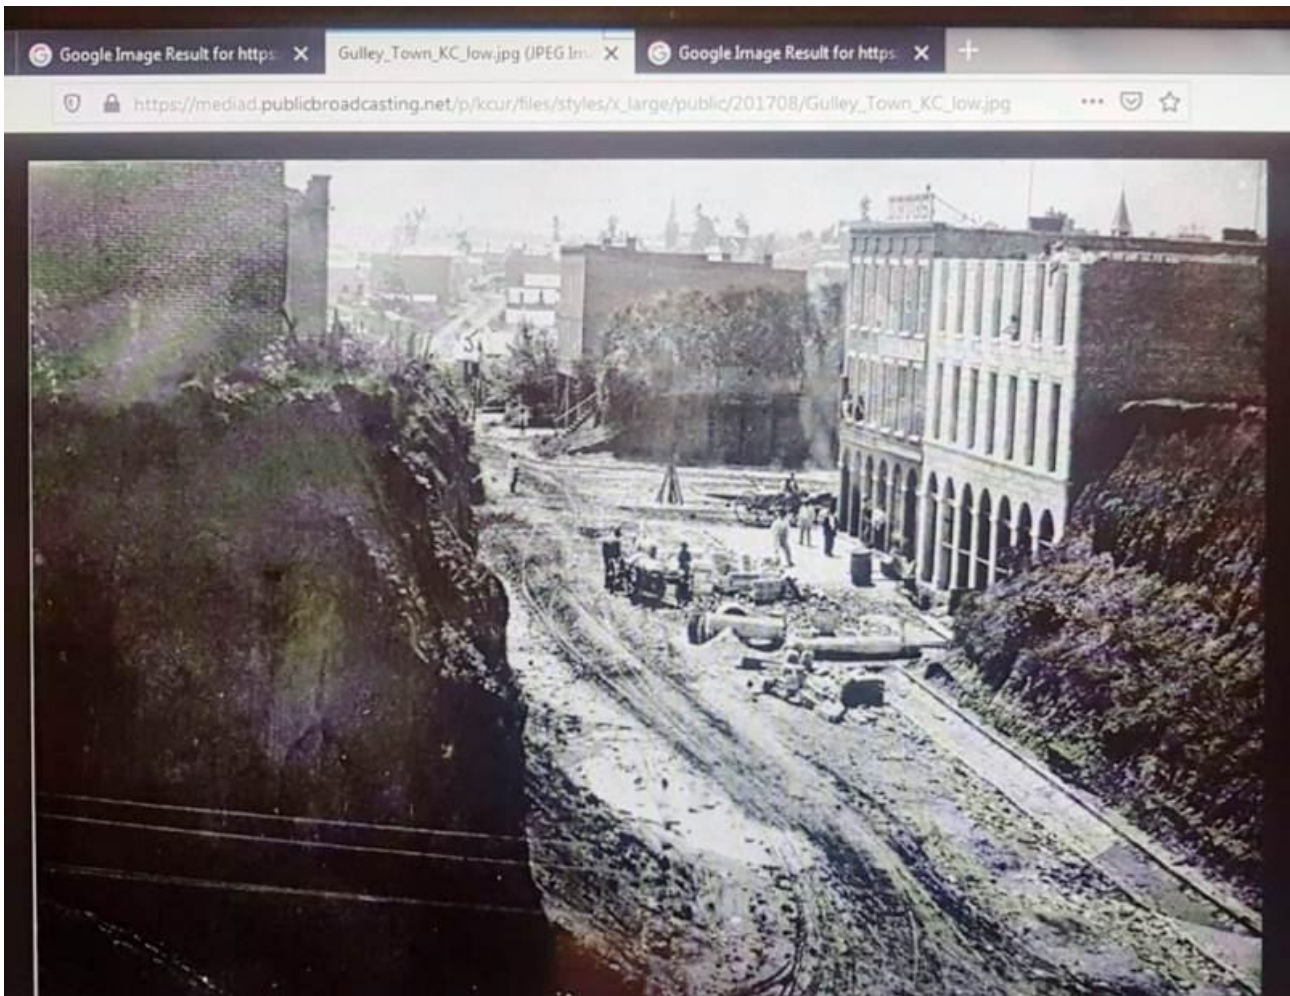

**Researchers found something strange in the history of Seattle city. The city looked like a mess around the year 1900. Photo evidence shows that some major event may have taken place in Seattle around or before that time**

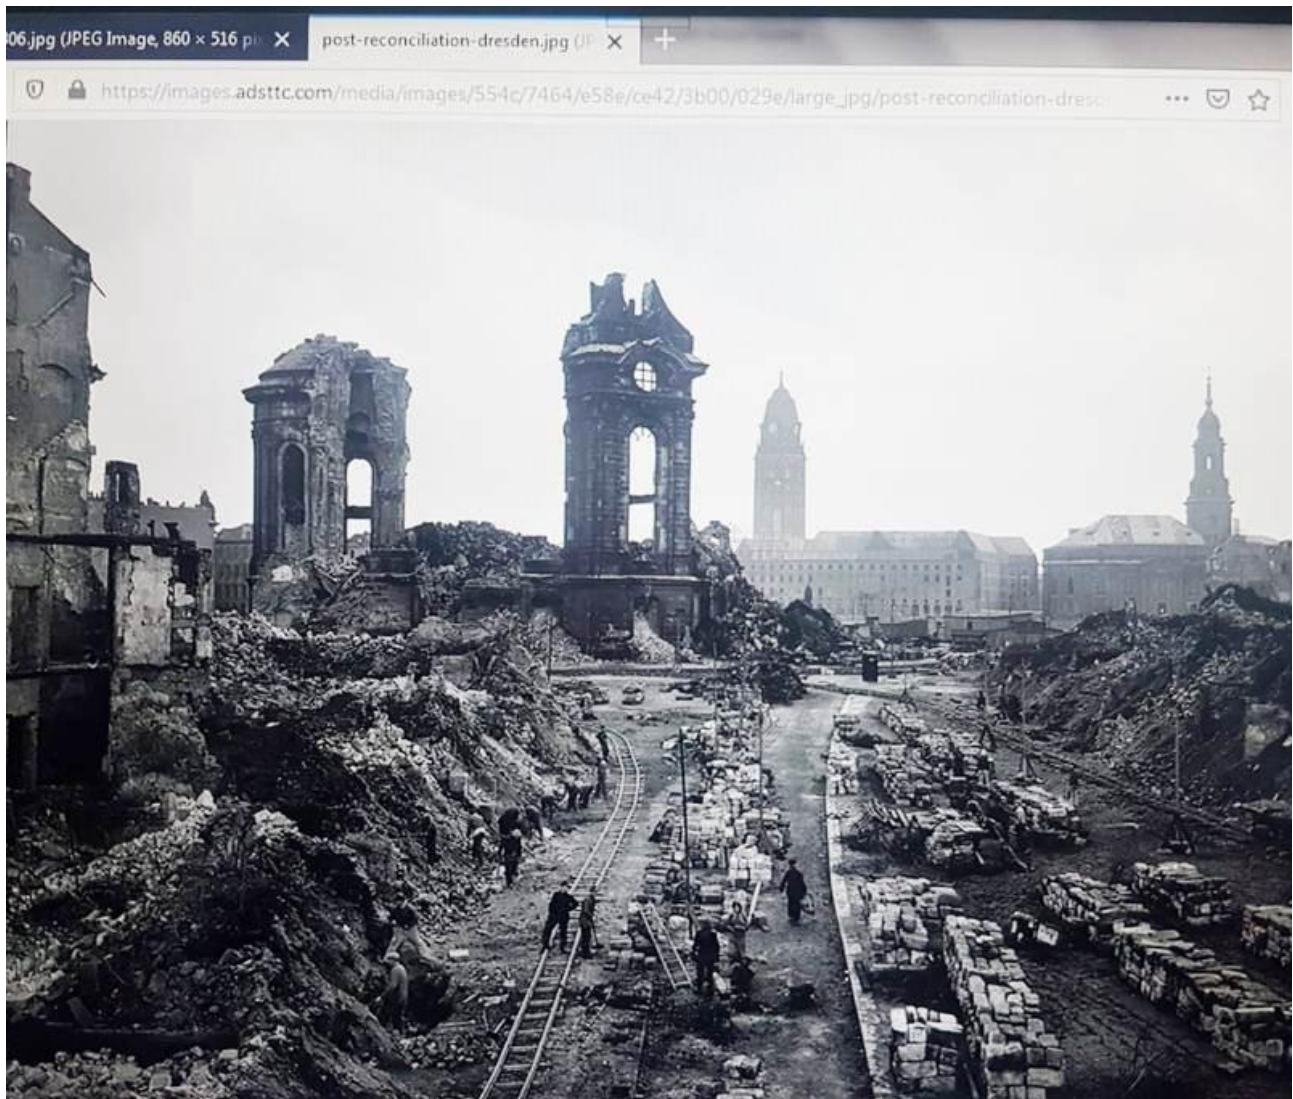

**A lot of mud can be seen in the photo above around Denny Hill - Seattle, and researchers are questioning why. Researchers are questioning the dates of the photos and also question when did Seattle become like this and how.**

**Not just in Seattle - but similar things could be seen in other cities around that time.**

**Below is photo from Kansas City - United States of America - Delaware St - around 1860**

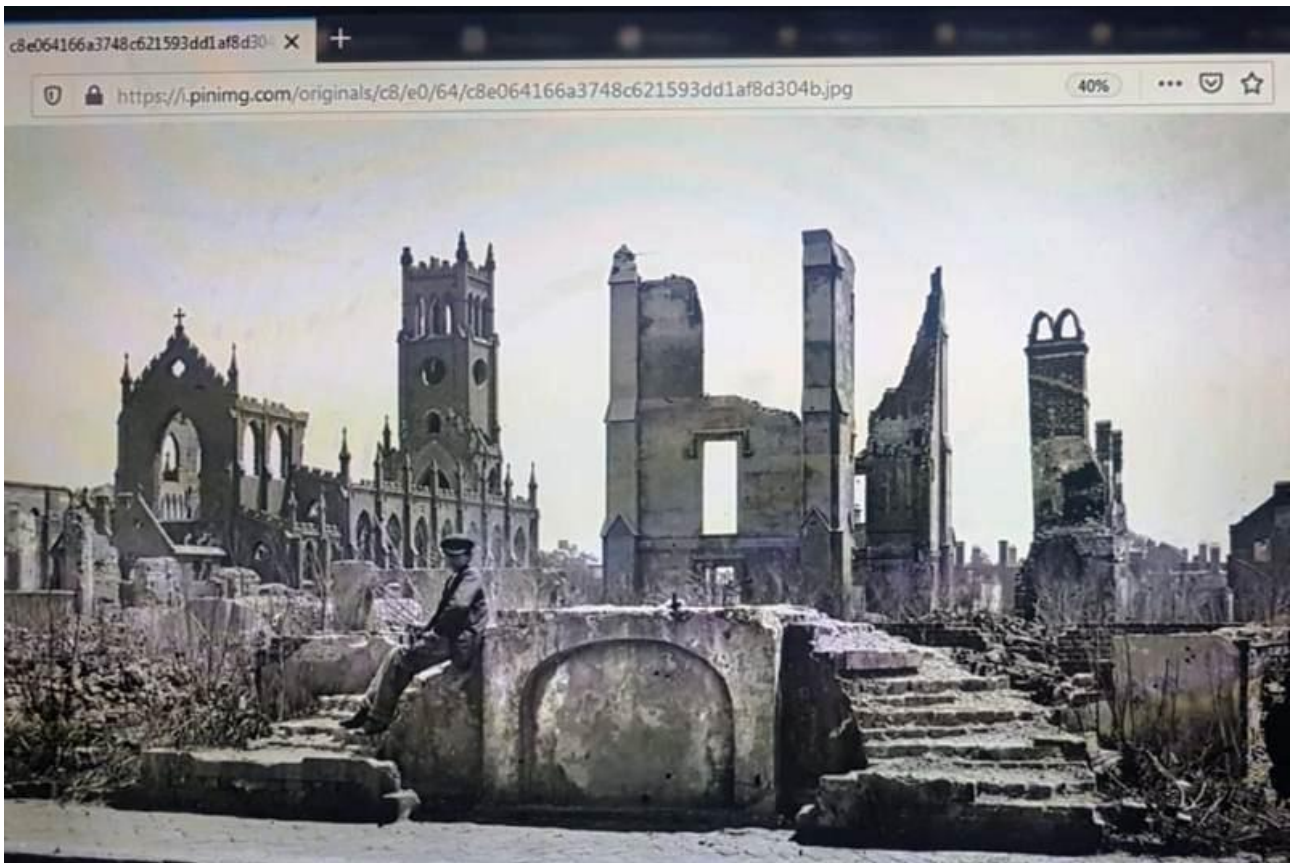

**Researchers noted that mountains of mud could be seen surrounding the buildings and a cleaning operation was taking place - what caused this and where did so much mud come from? Did an event or events take place that caused such a mess?**

**A similarity can be seen in the photo above - from Dresden city in 1952 after the Second World War**

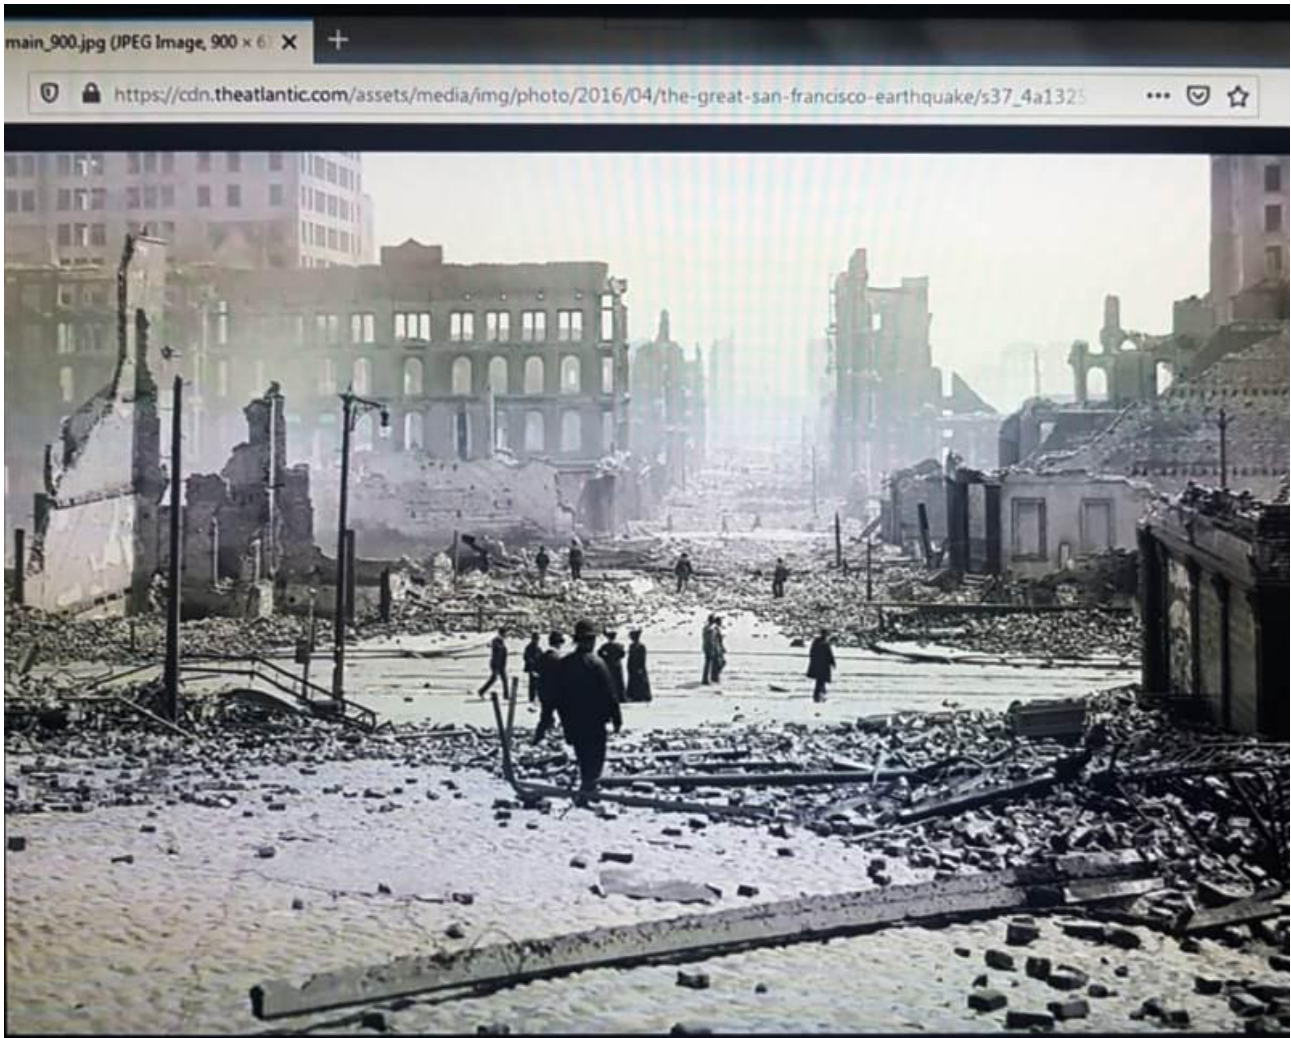

**Charleston city - South Carolina, United States of America - the place was seriously damaged around 1865 - history states that this is because of the American Civil War - parts of the city was bombed and destroyed and researchers are asking questions such as - was it really a civil war or was the war about something else?**

**Above is a photo of Charleston - South Carolina - 1865**

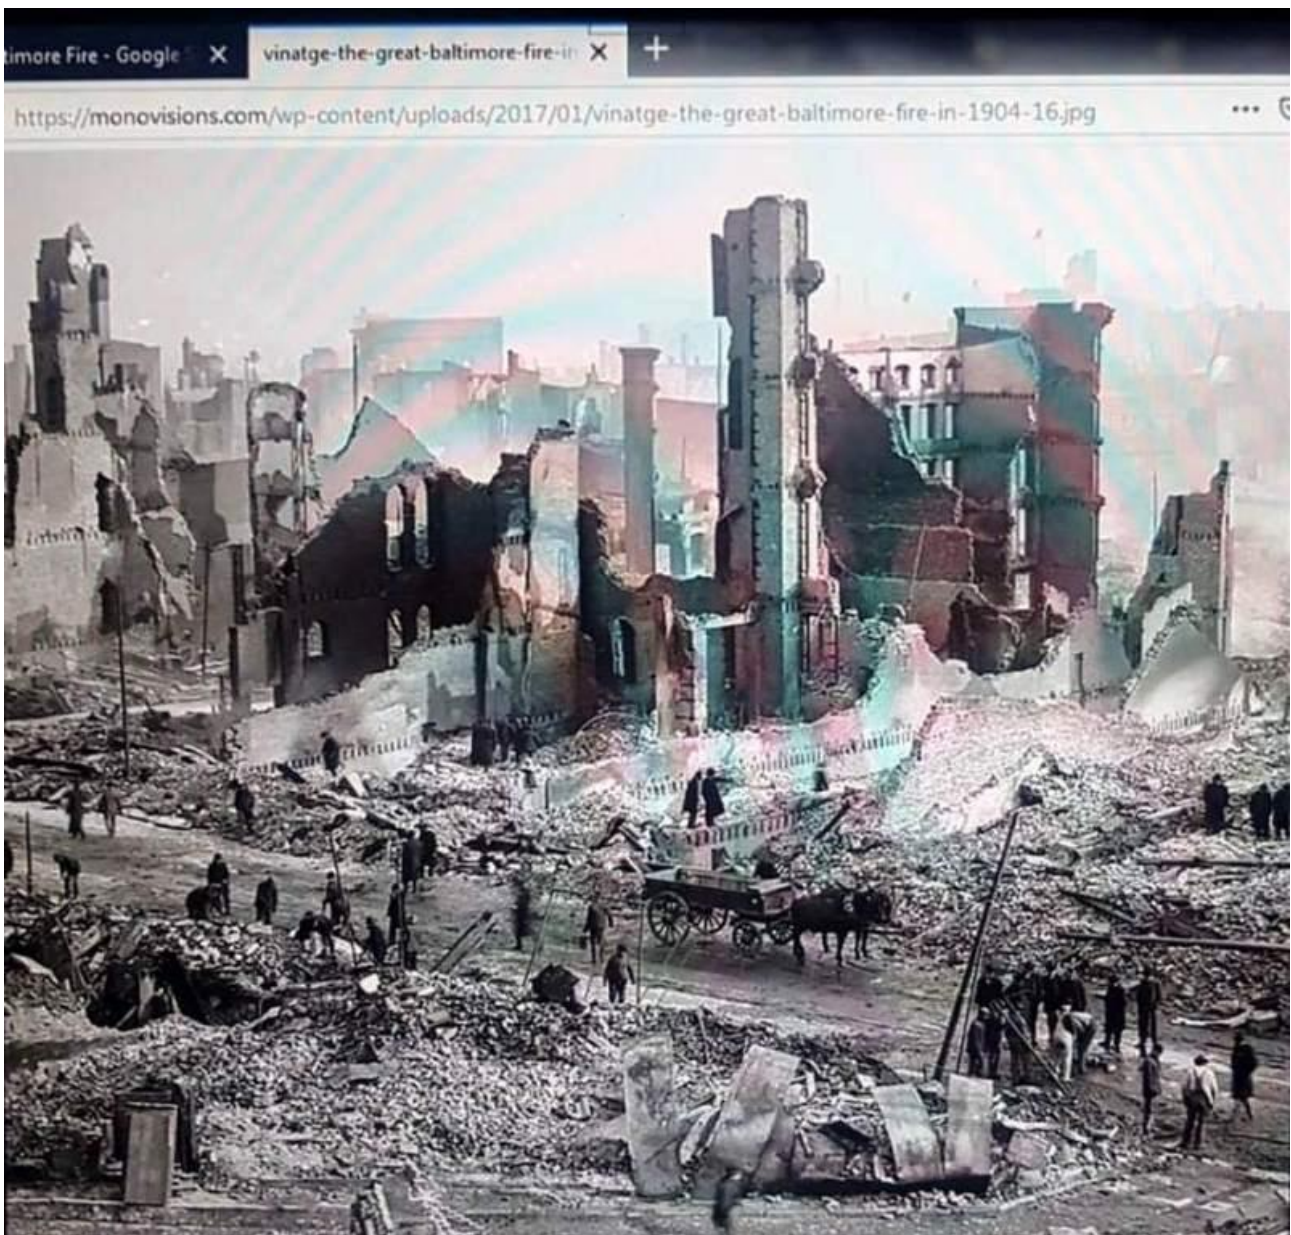

**Above is a photo from Coventry U.K. - after being bombed by Nazi Germany in 1940**

**Above is a photo from San Francisco 1906 after the great fire - what researchers have pointed out is that there is a great similarity between the so-called great fires and so-called bombings. Researchers are questioning - if it was actually bombing and not great fires or a type of electrical weapon - and also they are questioning what was the civil war really about and who was it between? Many of the photos of the great fires - show similarities with so-called bombing and not fires.**

## The Great Baltimore Fire, supposedly in 1904

**Researchers question the Great Baltimore Fire of 1904 - What caused it? When did it really happen? Do all the photos of the time show devastation from that time or - is some of the damage from before - or even after? The walls show strange diagonal lines and cuts similar to what is seen in the photos of Coventry city in England and San Francisco. The walls seem to show no**

evidence of colouring from a fire also. Researchers are questioning as to what really happened in many of these places.

global attack X +

**2. Lack of distinctive fire damage signature on the collapsed structure**  
*Today it looks like this*

**3. Presence of the bizarre diagonal wall cuts**

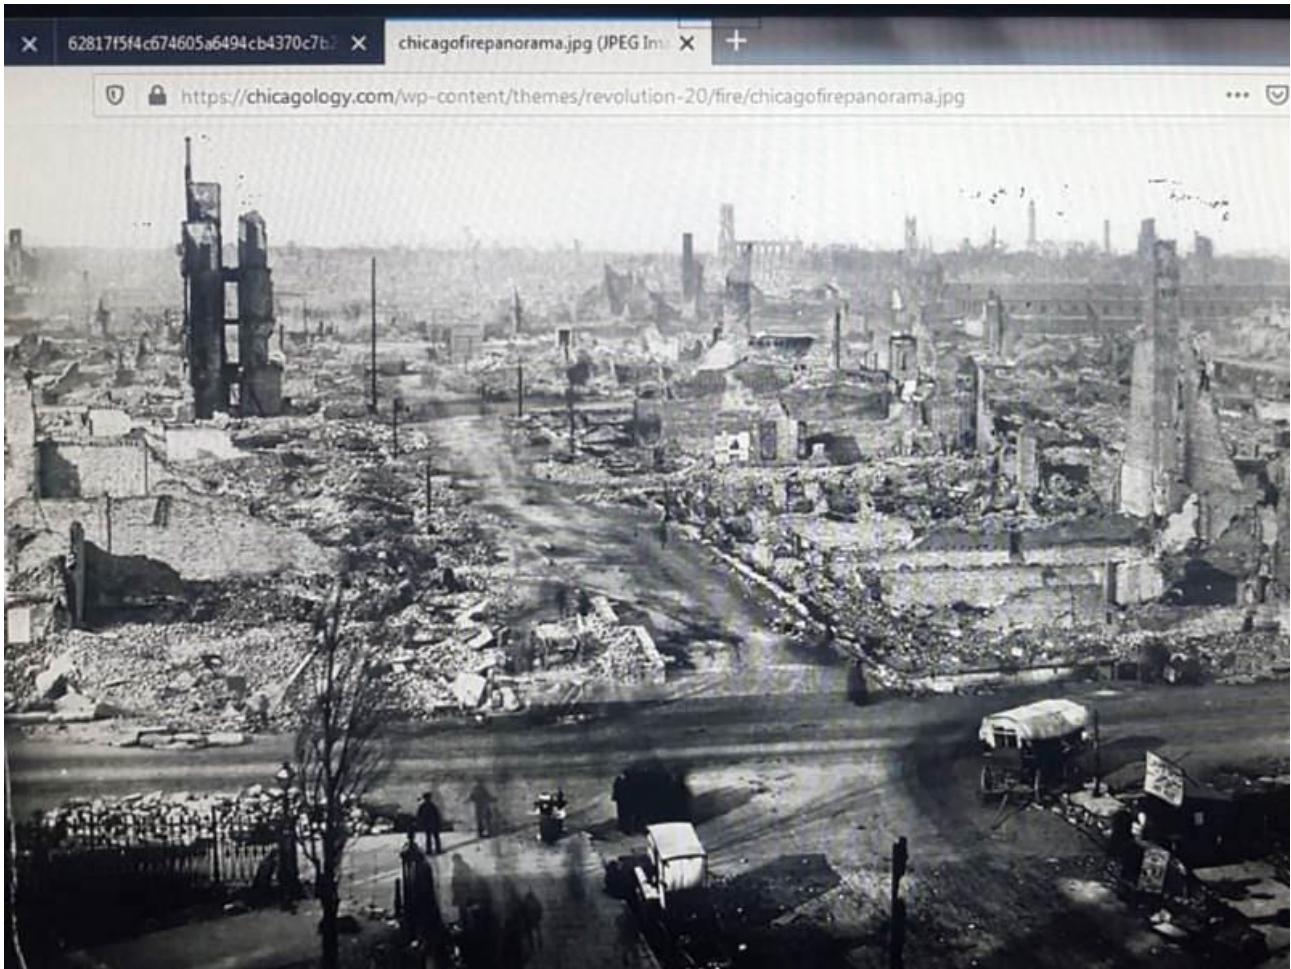

**4. Trees and wooden utility poles did not really burn**

Researchers state that the amount of devastation seen in the photos is unbelievable - and when similar fires break out in today's third world cities - the fires do not spread so much or cause so much damage. Why is it that so many so-called fires took place and did so much extra damage at that time? And many of these buildings were built with solid stone - so the damage that we see

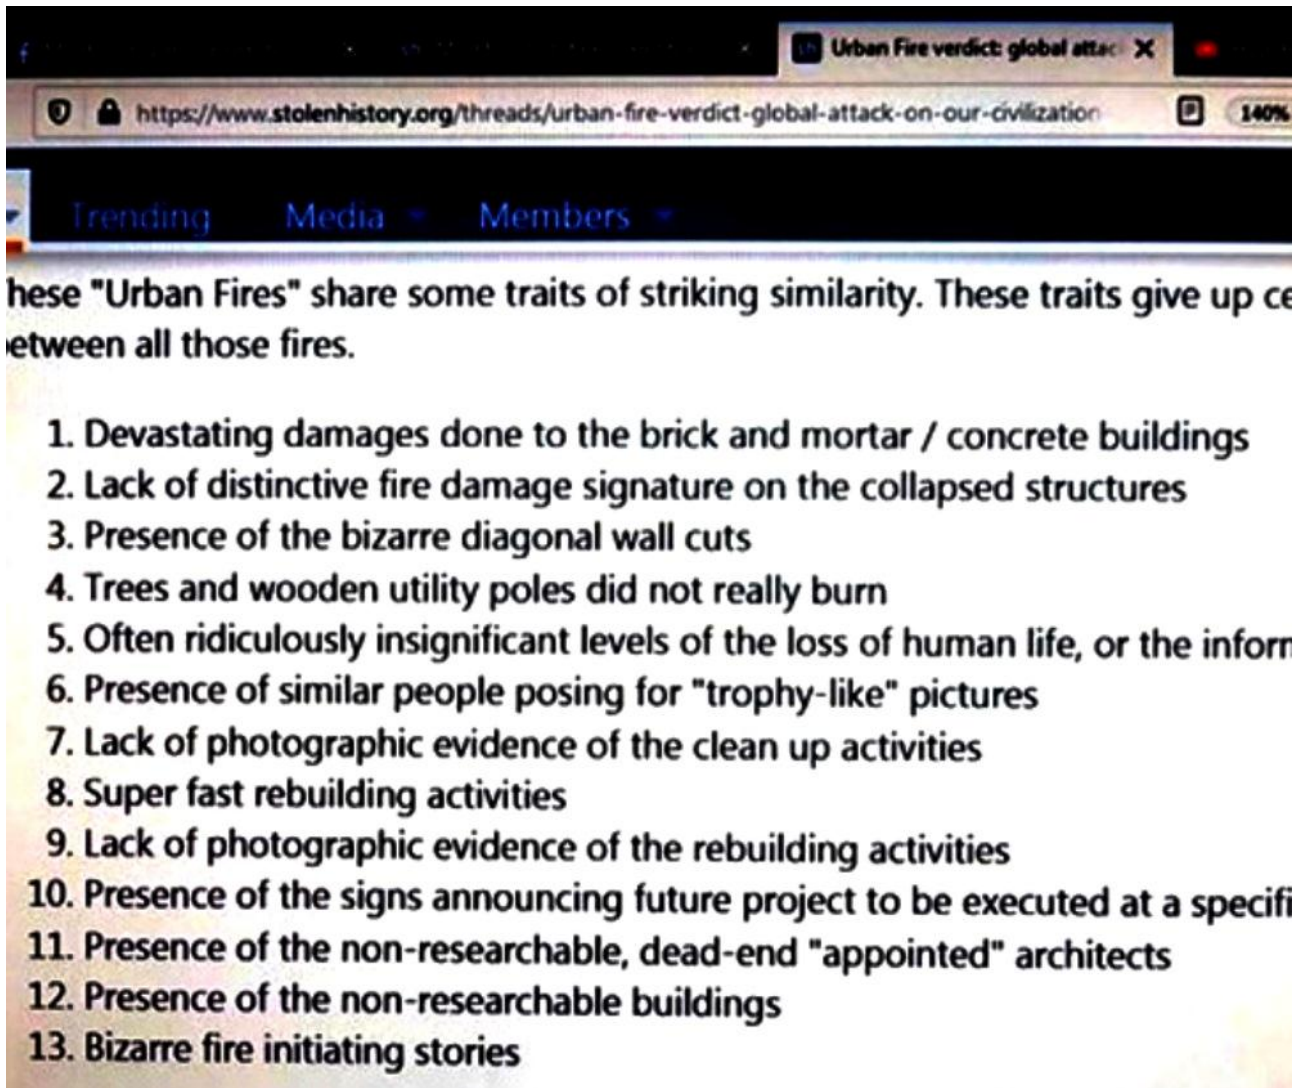

**as a result of a so-called fire - is actually more than what a fire can do.**

**Below is a photo from the Great Chicago Fire of 1871**

**What was puzzling to researchers is how so many strong stone buildings got damaged so badly during the Baltimore and Chicago fires - and in other similar fires at the time in the United States of America. Many researchers have noticed that many of the walls that remained standing after the so-called fires and bombings and earthquakes - showed strange diagonal wall cuttings - that are not seen in modern fires - researchers are investigating if electrical weapons were**

**used to destroy these buildings and not fires or bombs. Some people are speculating if a war took place with an alien or unknown force that caused such damage - researchers are looking into their claims.**

The screenshot shows a web browser window with the address bar displaying <https://www.stolenhistory.org/threads/urban-fire-verdict-global-attack-on-our-civilization>. The page content includes a navigation bar with 'Trending', 'Media', and 'Members' links. Below the navigation bar, the text reads: 'These "Urban Fires" share some traits of striking similarity. These traits give up clues between all those fires.'

1. Devastating damages done to the brick and mortar / concrete buildings
2. Lack of distinctive fire damage signature on the collapsed structures
3. Presence of the bizarre diagonal wall cuts
4. Trees and wooden utility poles did not really burn
5. Often ridiculously insignificant levels of the loss of human life, or the information
6. Presence of similar people posing for "trophy-like" pictures
7. Lack of photographic evidence of the clean up activities
8. Super fast rebuilding activities
9. Lack of photographic evidence of the rebuilding activities
10. Presence of the signs announcing future project to be executed at a specific
11. Presence of the non-researchable, dead-end "appointed" architects
12. Presence of the non-researchable buildings
13. Bizarre fire initiating stories

**Many researchers claim that these fires were part of a war to wipe out the remains of a past civilisation - or that a war took place - that history does not mention - and the American Civil War was part of that war.**

**If you add together all the damage from the so-called civil war of the United States as well as all the fires in all**

**the cities supposedly between 1770 and 1930 - it is as if a total destruction of the land had taken place, or a total destruction of a previous civilisation had taken place.**

**Researchers are questioning that if they were fires - were they done deliberately and systematically?**

**Below is a photo of the great Boston fire of 1872**

**Below is a photo from the great Seattle fire 1889**

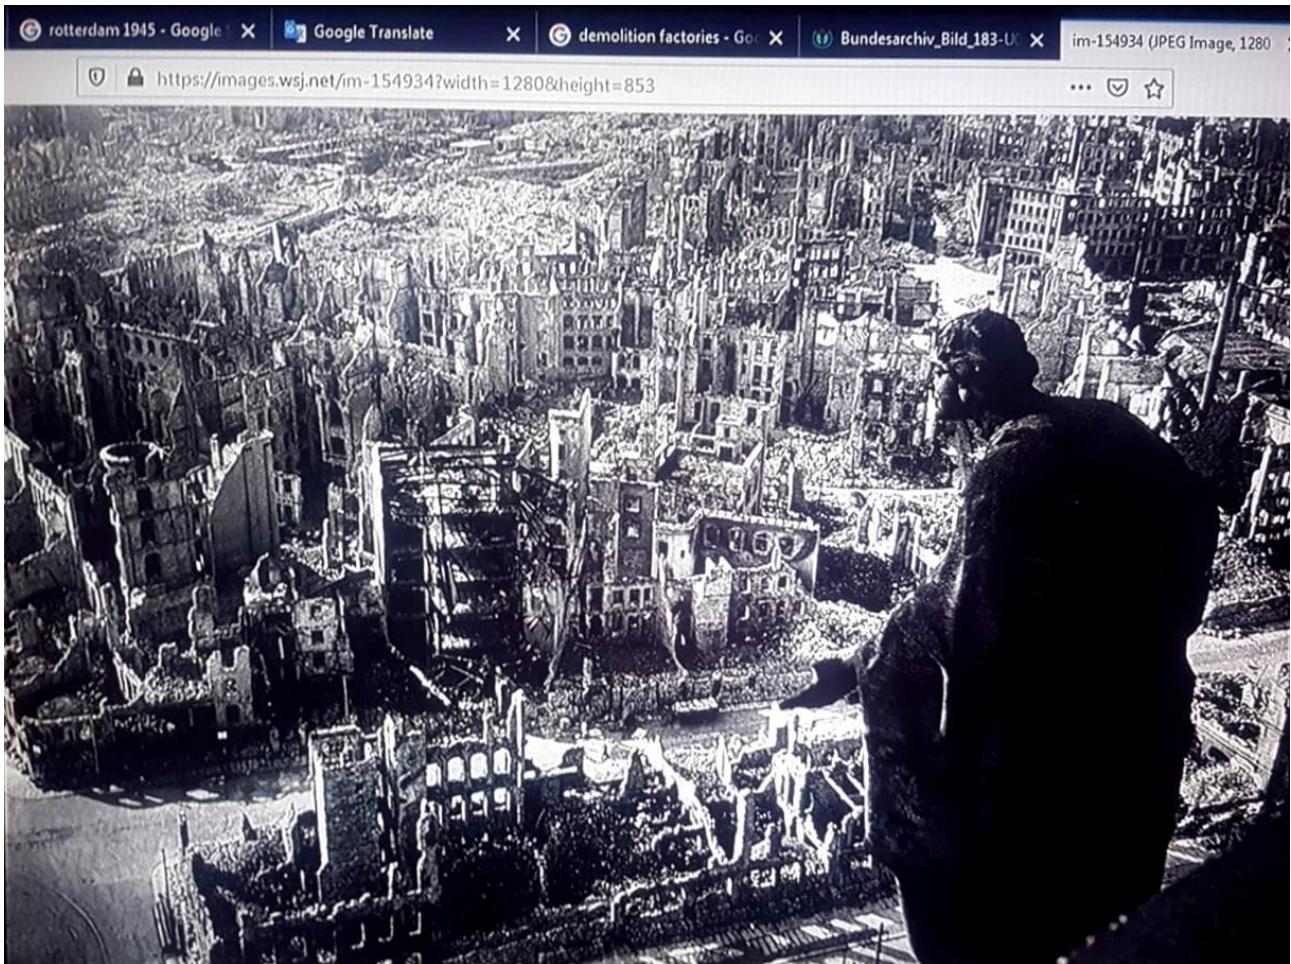

**Considering all the damage in Europe and Asia and America - from the wars and the fires between 1850 and 1950 - many researchers are examining if many of the cities and buildings were targeted deliberately - in order to wipe out the remains of a previous civilisation - that civilisation is what many researchers call Tartaria.**

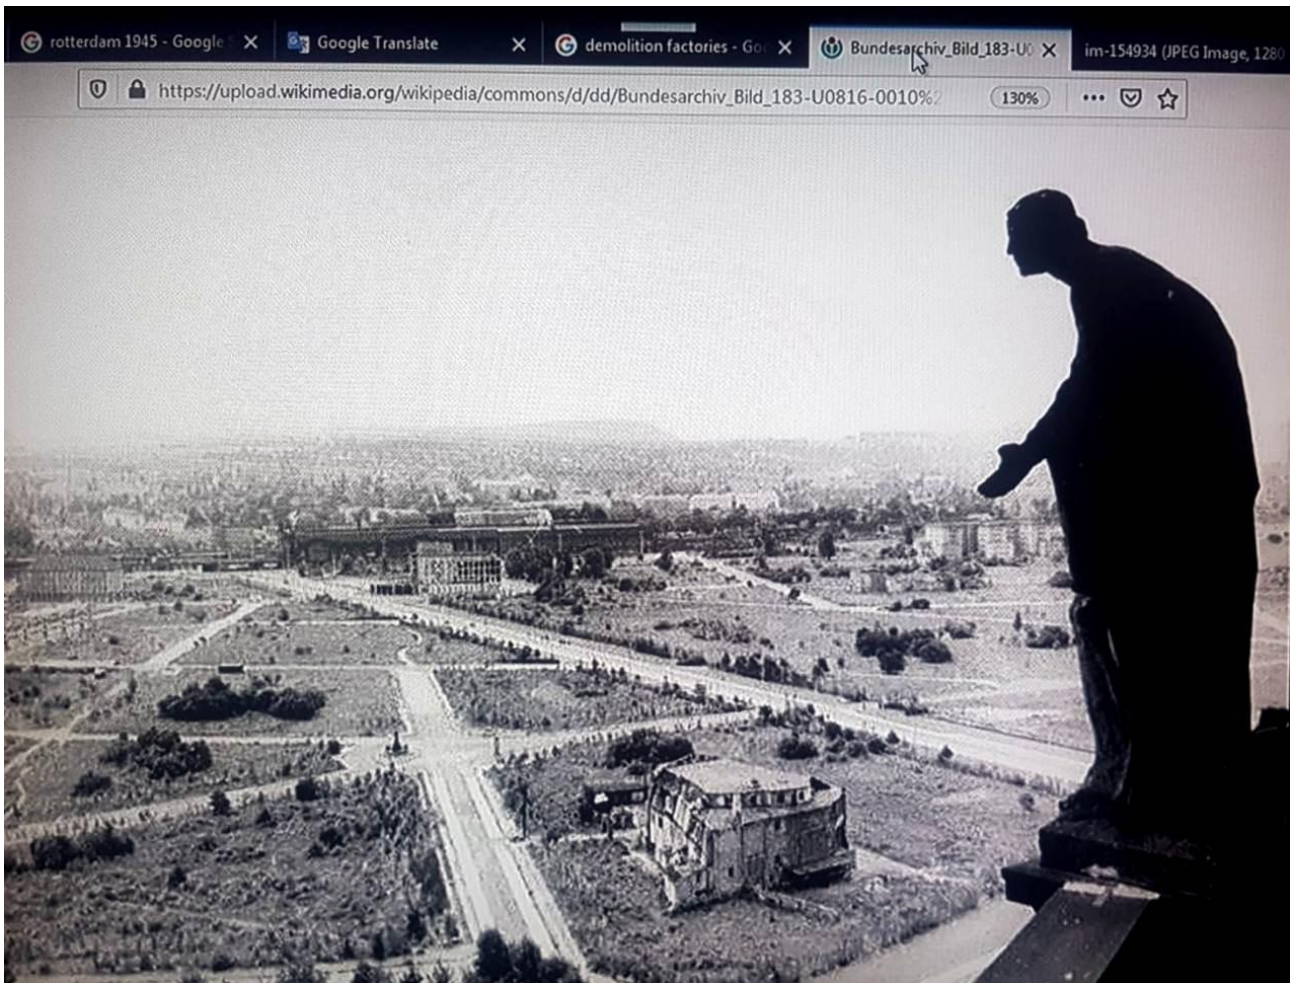

**One thing that is known - is that a huge number of classical and cultural buildings were targeted deliberately and destroyed in many of the wars - and some researchers think that this was planned and organised.**

**A lot of photoshop and photo modification can be seen in many photos. Many of the people in many of the photos also seemed to be part of the editing, as well as many of the electric wires or poles. This made researchers question the dating of all the photos and question when were the cities actually destroyed and**

**how. Researchers began to question what really happened in the American Civil War and the First World War and the Second World War. Who was really fighting who and why were they really fighting and when did these things really happen.**

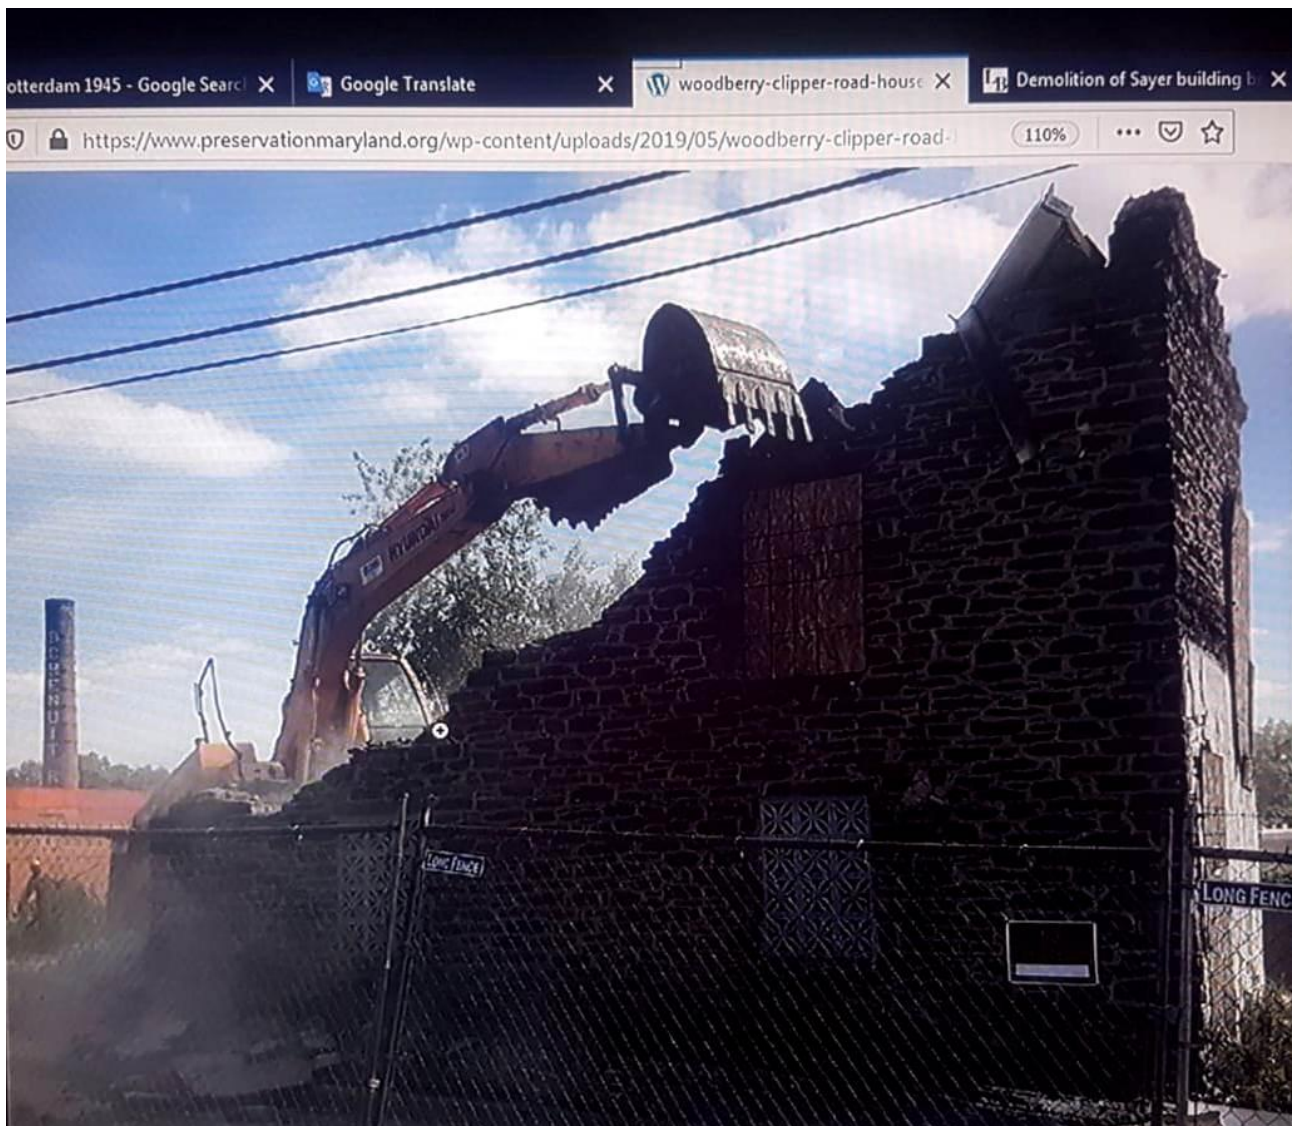

**The above photo shows what the city of Dresden supposedly looked like in 1945. Many researchers are investigating if the image had been edited or modified.**

**The photo above shows Dresden in 1949 and many researchers believe that the first image was a fake and photoshop. Researchers know that many photos are fake and have been edited and modified and are still investigating this matter.**

**Many researchers also believe that much of the damage in the cities around the world may have been caused by demolition and had nothing to do with a war. Many buildings showed no evidence of bombing or a fire.**

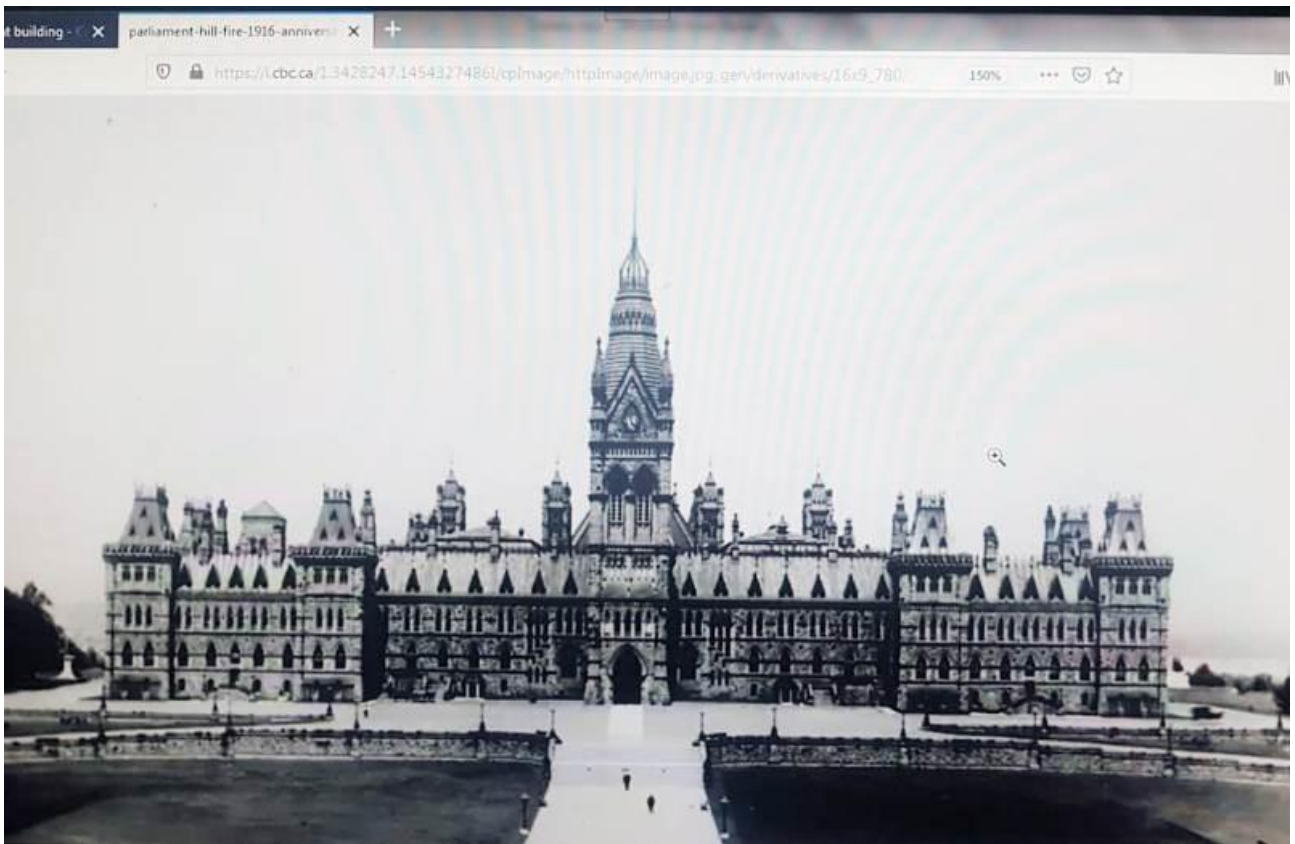

**The photo above shows an example of a building being demolished. Researchers noticed similar diagonal lines in many of the other photos**

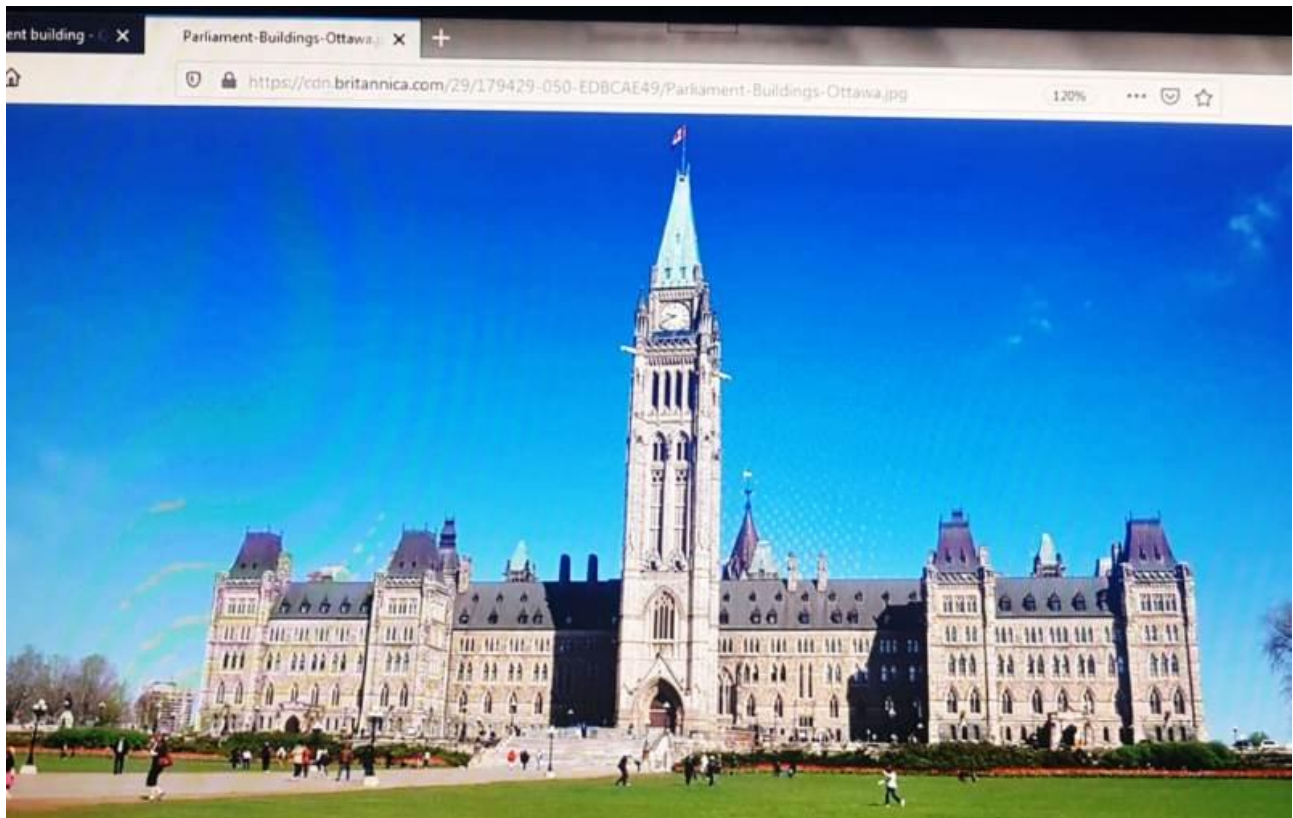

**Many researchers are investigating if many of the cities destroyed between 1850 and 1960 were actually going through the process of demolition and not war. War could have been a pretext to remove the people from many of these areas without having to pay them any compensation.**

**Another thing many researchers found was that many of the older buildings were mysteriously damaged between 1860 and 1960 and then had to be modified because they were damaged - many researchers are investigating if the buildings were deliberately damaged - in order to modify them - and hide their original appearance - in order to hide their history.**

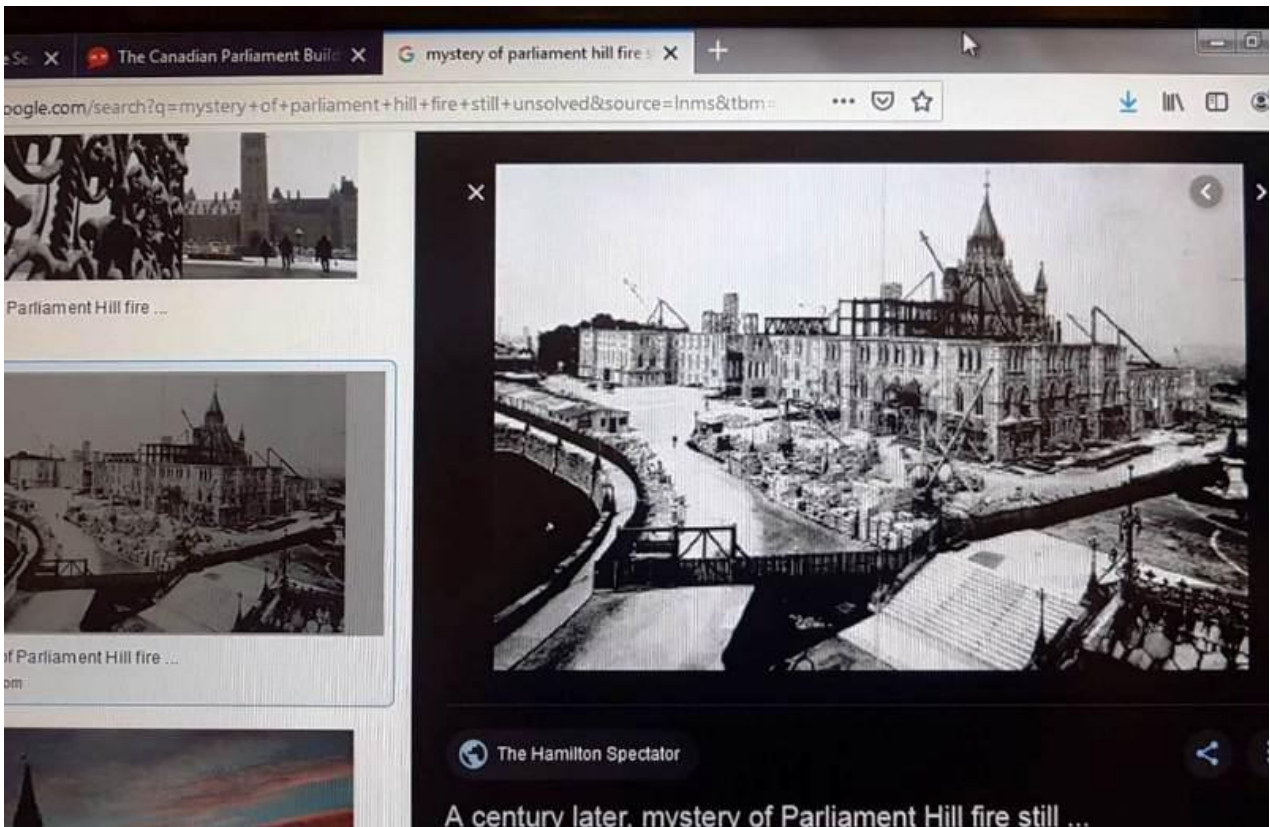

**Researcher's show that a perfect example of a building that may have been a Tartarian building - which has clearly been modified - is today used as the Canadian parliament building - below is a photo showing what the building looked like before it was modified**

**And this is what it looks like today - big difference**

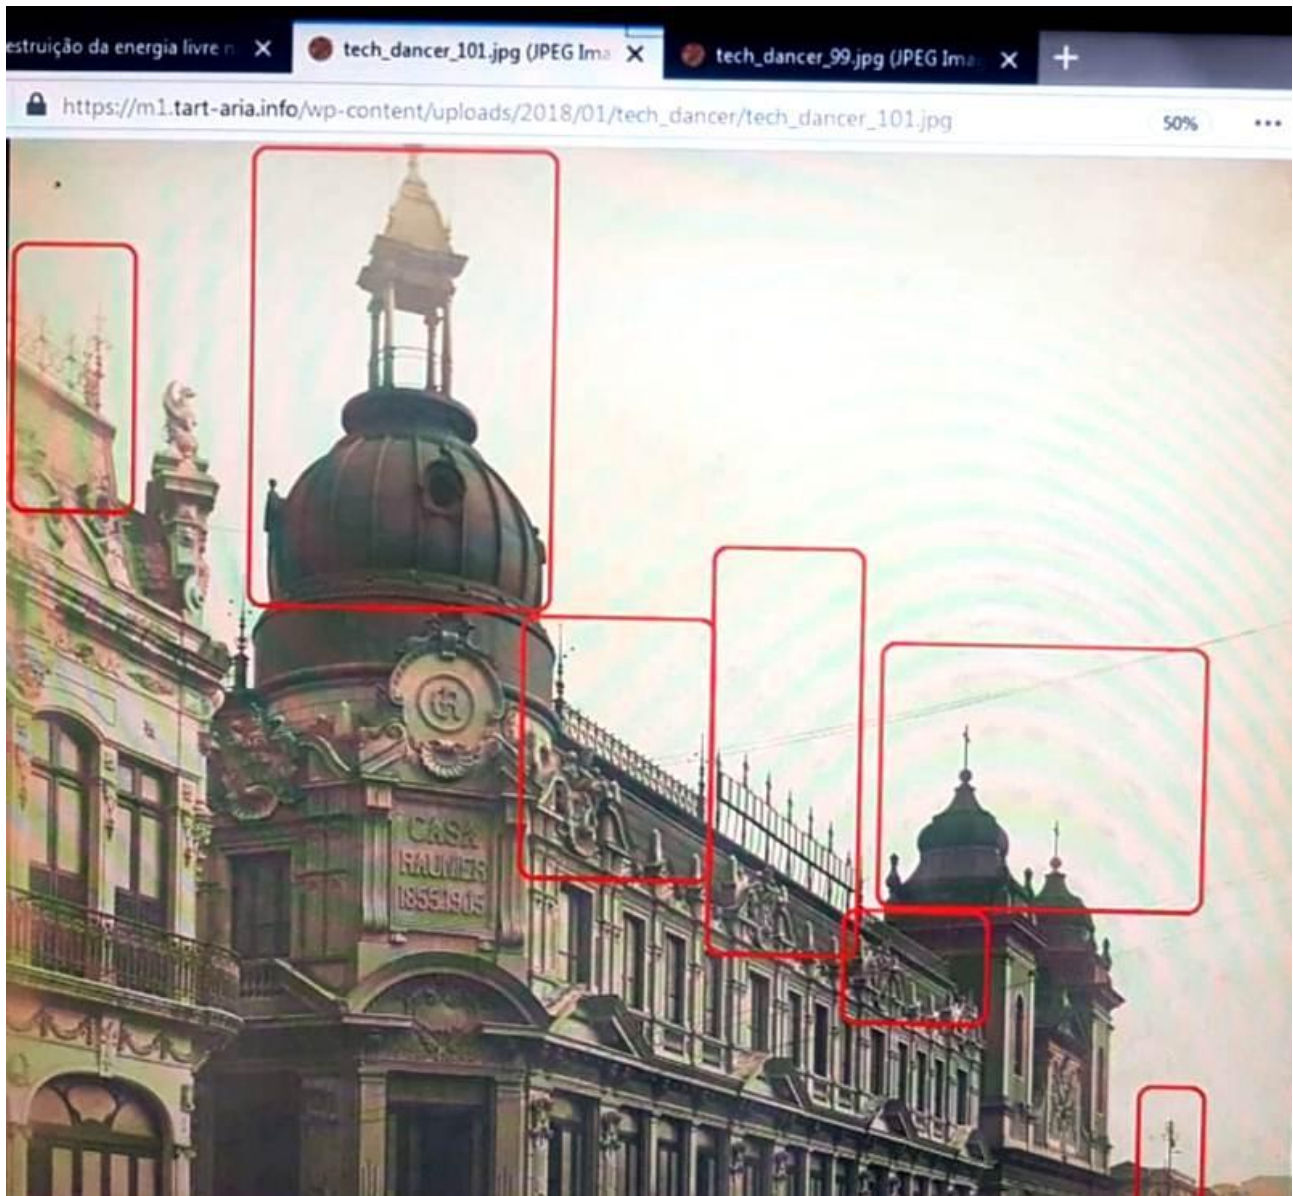

**The history of Canada today states that the parliament building suffered a mysterious fire - which no one knows about or understands - looking at the photo below - it can see how much modification took place - the building in the background with a tower is a separate building.**

**Researchers are questioning if the fire on the Canadian parliament building was done deliberately to damage the building - so that the building could be changed - in order to hide something from the past.**

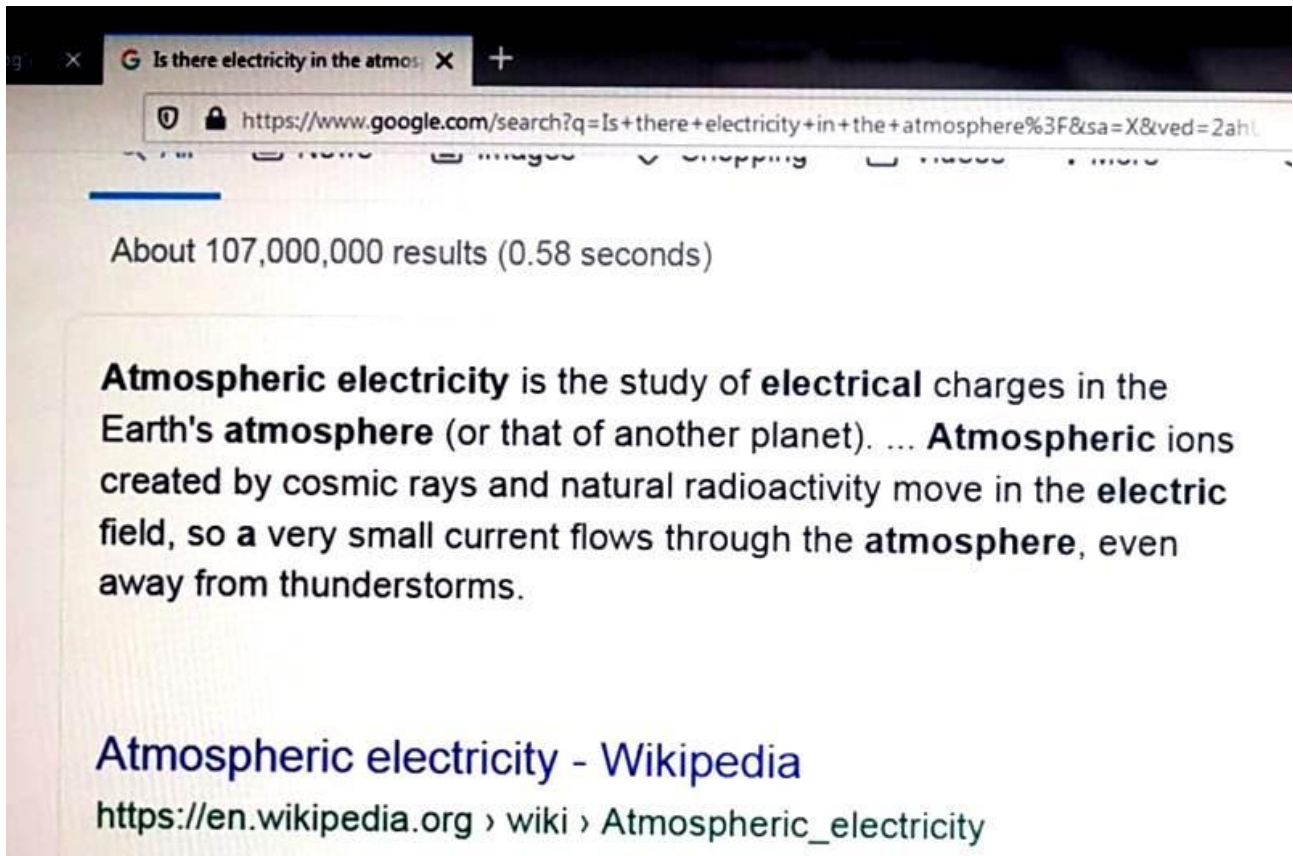

**Many researchers have started questioning the dates of the construction of many buildings around the world - if world history is a lie and many buildings are half buried - then the dates of construction are also a lie.**

**Researchers have discovered that many buildings do not have any real evidence to show when they were actually constructed and many photos from the past show evidence of photoshop and also many construction photos - may not even be construction at all - but building modification photos.**

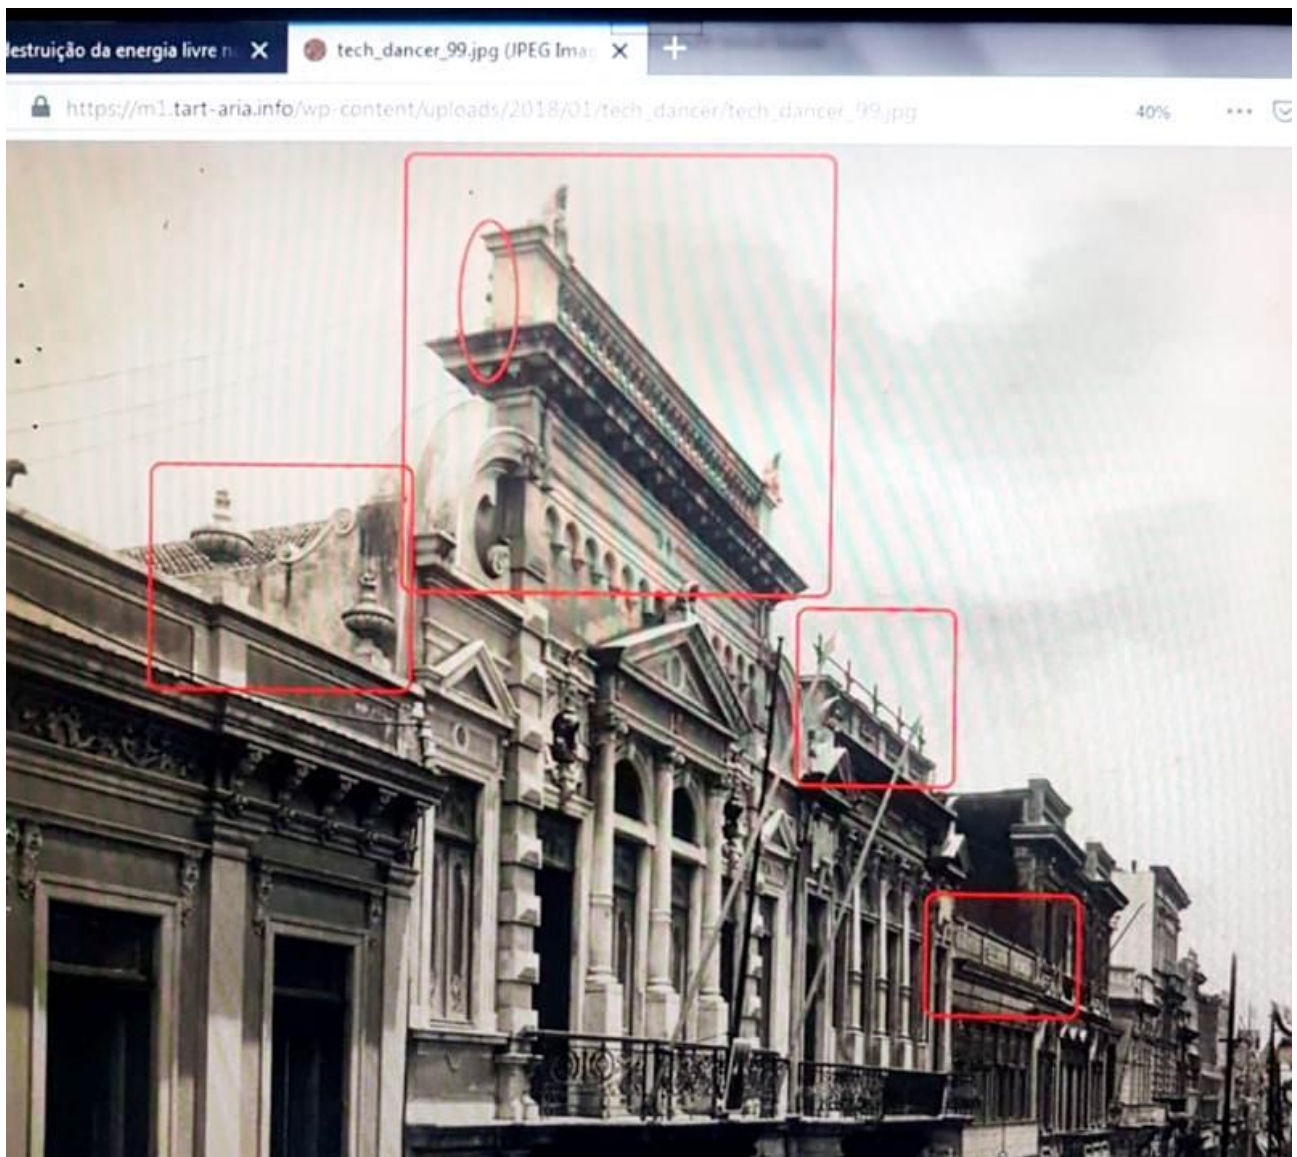

**Above is a photo of Uruguaiana Street from Rio de Janeiro - Brazil - 1907**

**In the picture above is an example of what some researchers are claiming to be objects on top of Tartarian style buildings - that may have produced or distributed some type of energy from the atmosphere. Such objects can be seen in buildings around the world.**

**It is known that the atmosphere has energy and many researchers are examining if people in the past used this energy or not.**

**Below is another photo of Uruguaiana Street from Rio de Janeiro - Brazil - 1907**

**Many of the objects on top of the buildings were made of copper - and copper is an electrical conductor - and is used in - power generation - power transmission - power distribution - telecommunications - electronics circuitry - etc. Copper is sometimes used for protection against lightning - but researchers questioned if that was the only use for the many objects that were seen above such buildings.**

**A man named Nikolai Tesla was talking about demonstrating wireless electricity to people who didn't**

know about it in the 1890's. It is said that he and other people at the time - were amongst the first to test and show such types of devices - but researchers believe that Tesla and others were not inventing, and believe that the technology was already available in the past

**Photo above - Nathan Stubblefield supposedly demonstrating mobile phones in Philadelphia USA 1901  
- Nikola Tesla was there at that event.**

**Researchers found much evidence to show that Tesla and other people in history were probably actors that were used to create a fake history for the world to hide more advanced technology from the past.**

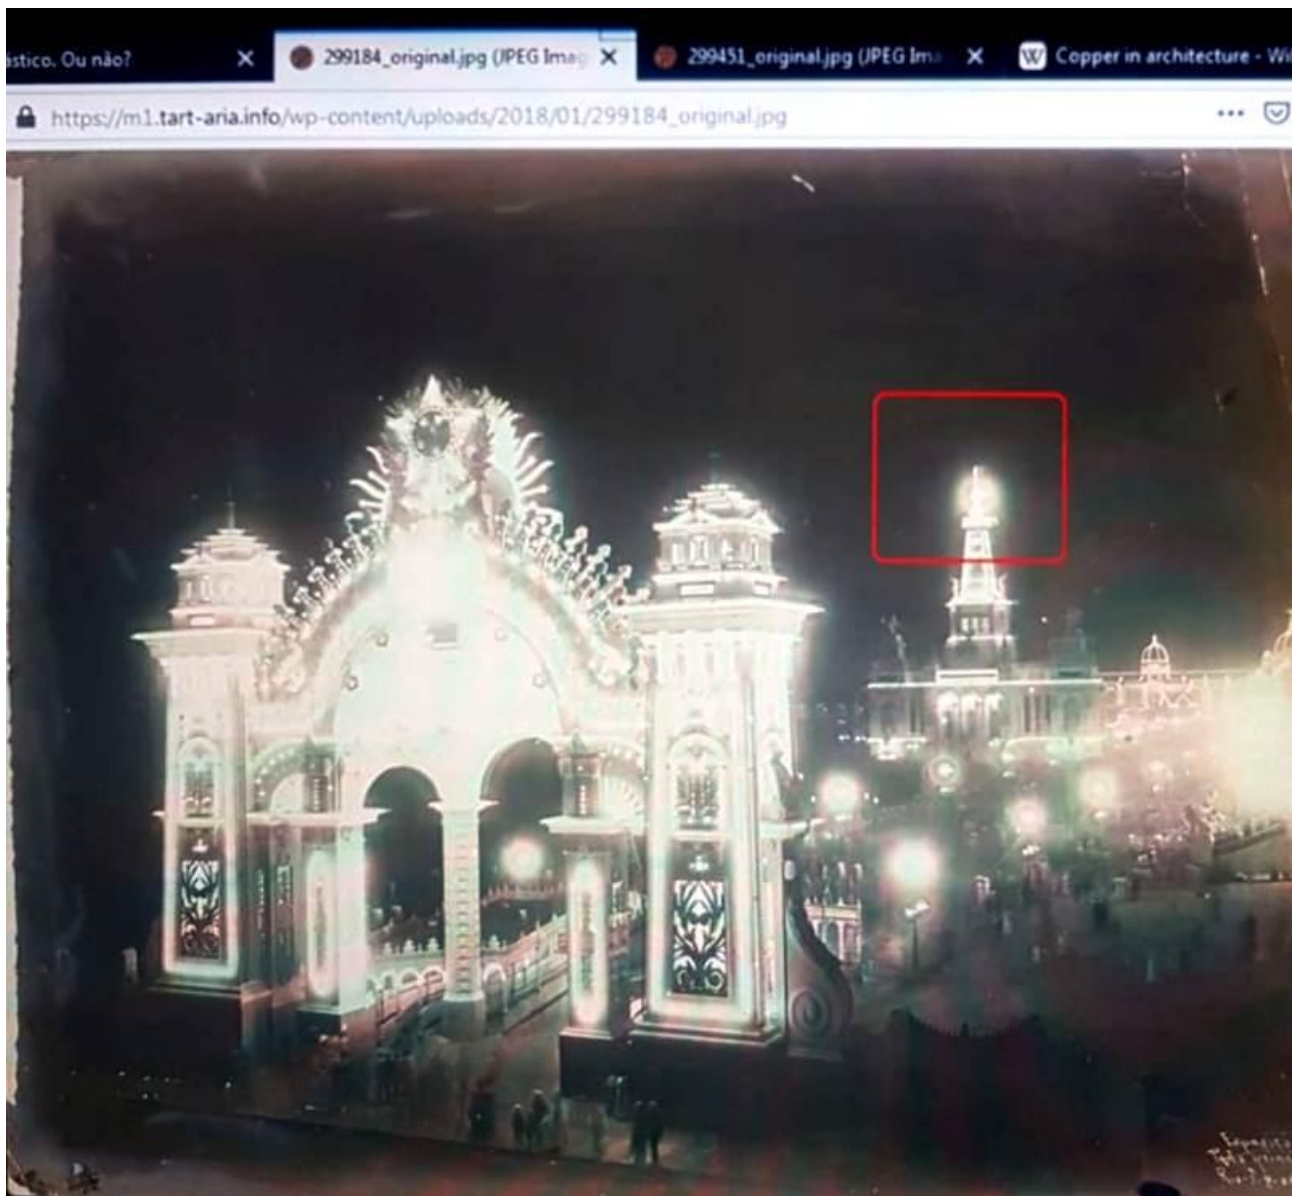

**Researchers found much evidence that showed that the history of science and discovery was falsified to hide true history.**

**Many researchers point out that wireless energy and atmospheric energy - may have been used before 1900 and this may be seen from the many strange poles and objects on the roofs of buildings and in other places.**

**The photo above is from Sao Paolo Brazil 1920 - showing wireless poles - there were others still around in the city at that time which led researchers to question what the poles were being used for and how the poles functioned. Today we are using wireless electricity - what if people in the past also used wireless electricity?**

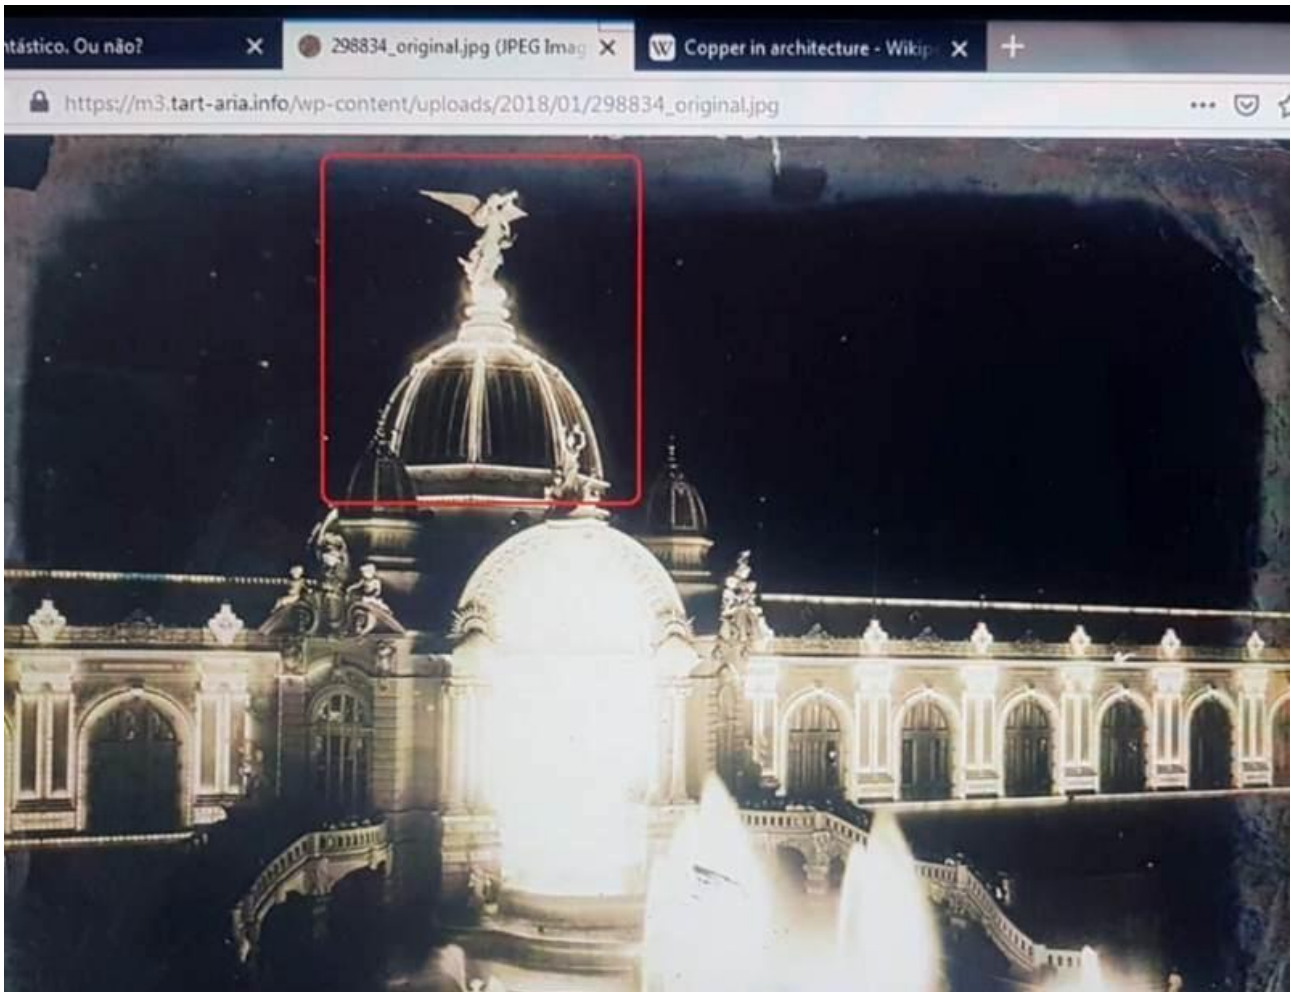

**Regarding atmospheric energy - researchers are investigating what may be evidence of atmospheric energy being applied over a hundred years ago throughout the world.**

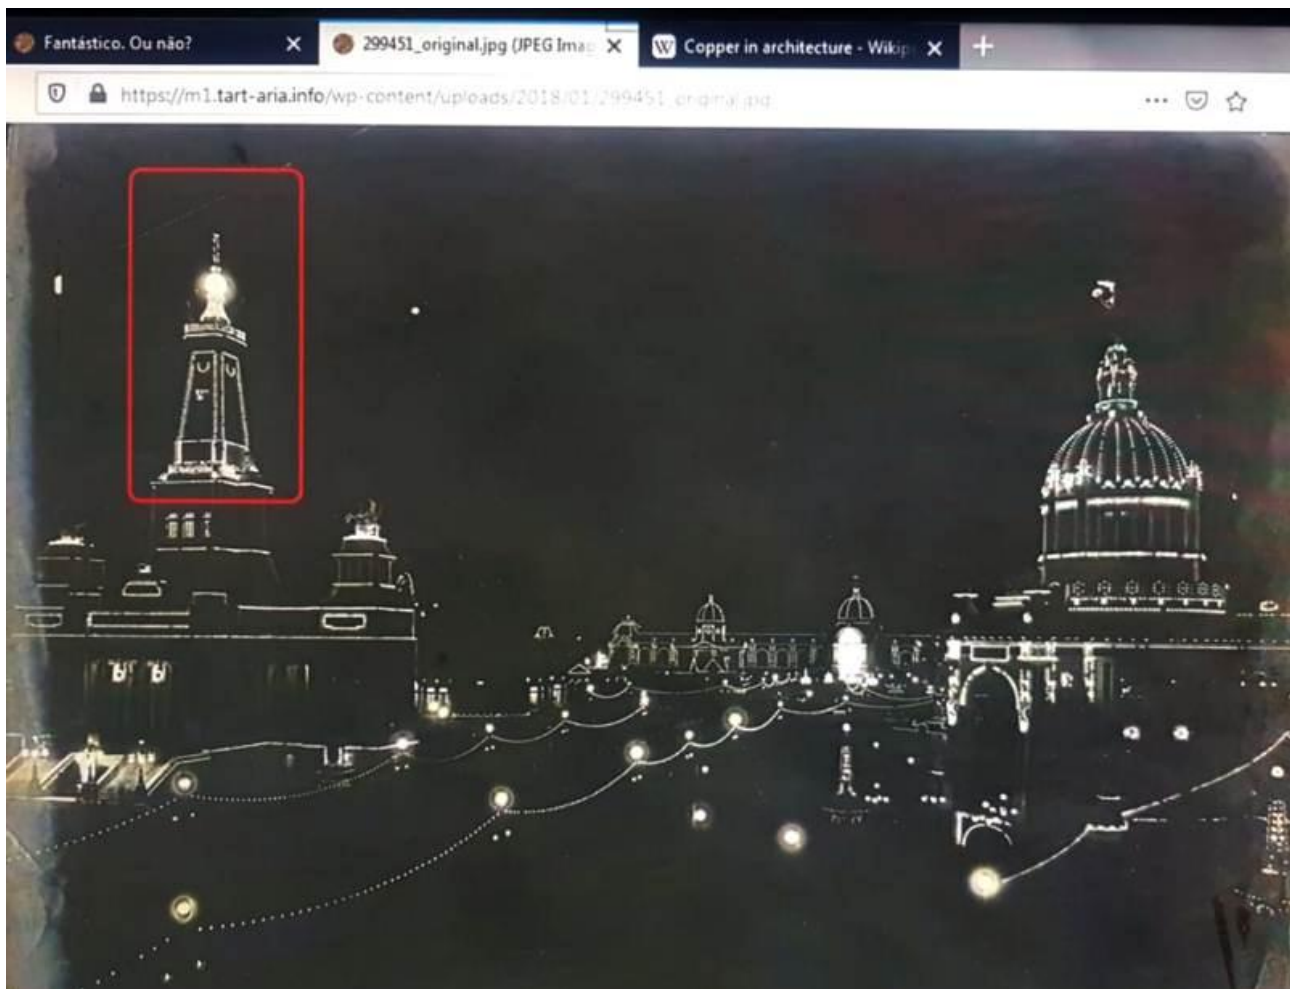

## **Praia Vermelha, Rio de Janeiro in 1908**

**Researchers point to the full design of the buildings such as the gates - and the metal types of objects around the gates - and the many poles and metal objects on the roofs of the buildings - researchers are investigating if these objects were part of an electrical system for the buildings and not just so-called decoration as many people believe it to be.**

**In the photo above and in the 2 photos below - we can see objects on the buildings roofs - shining like bulbs - in many buildings around the world - we see similar objects on their roofs - what are they really and what is their true function?**

**Praia Vermelha, Rio de Janeiro in 1908**

**Because of the evidence from such photos from buildings around the world - researchers are seriously questioning - why these objects were giving out light? What was this technology and how long was it used for and when was it originally discovered? The answer may be very simple but it is being investigated.**

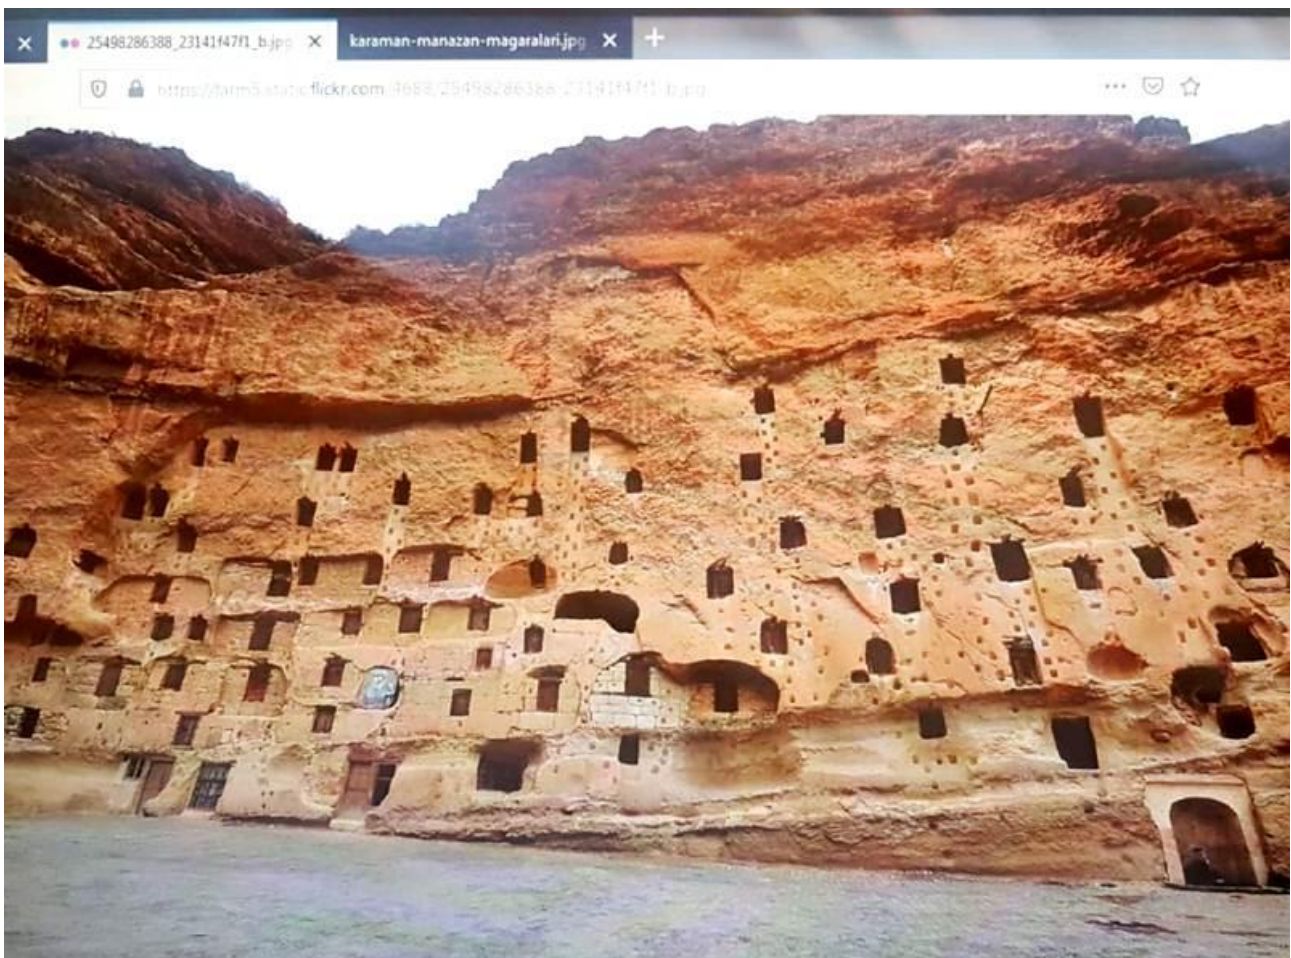

**Here are the same buildings from Praia Vermelha, Rio de Janeiro at daytime - it can be seen that there are lights on the street but the objects on top of the buildings do not look like light bulbs at all. Researchers are investigating such things - as to what they were and how they functioned.**

**Researchers found something strange about the world's people around a hundred years ago - or around the year 1900. What they discovered was that a large percentage of the world population was living in cave type homes or in holes in the mountain or in the ground.**

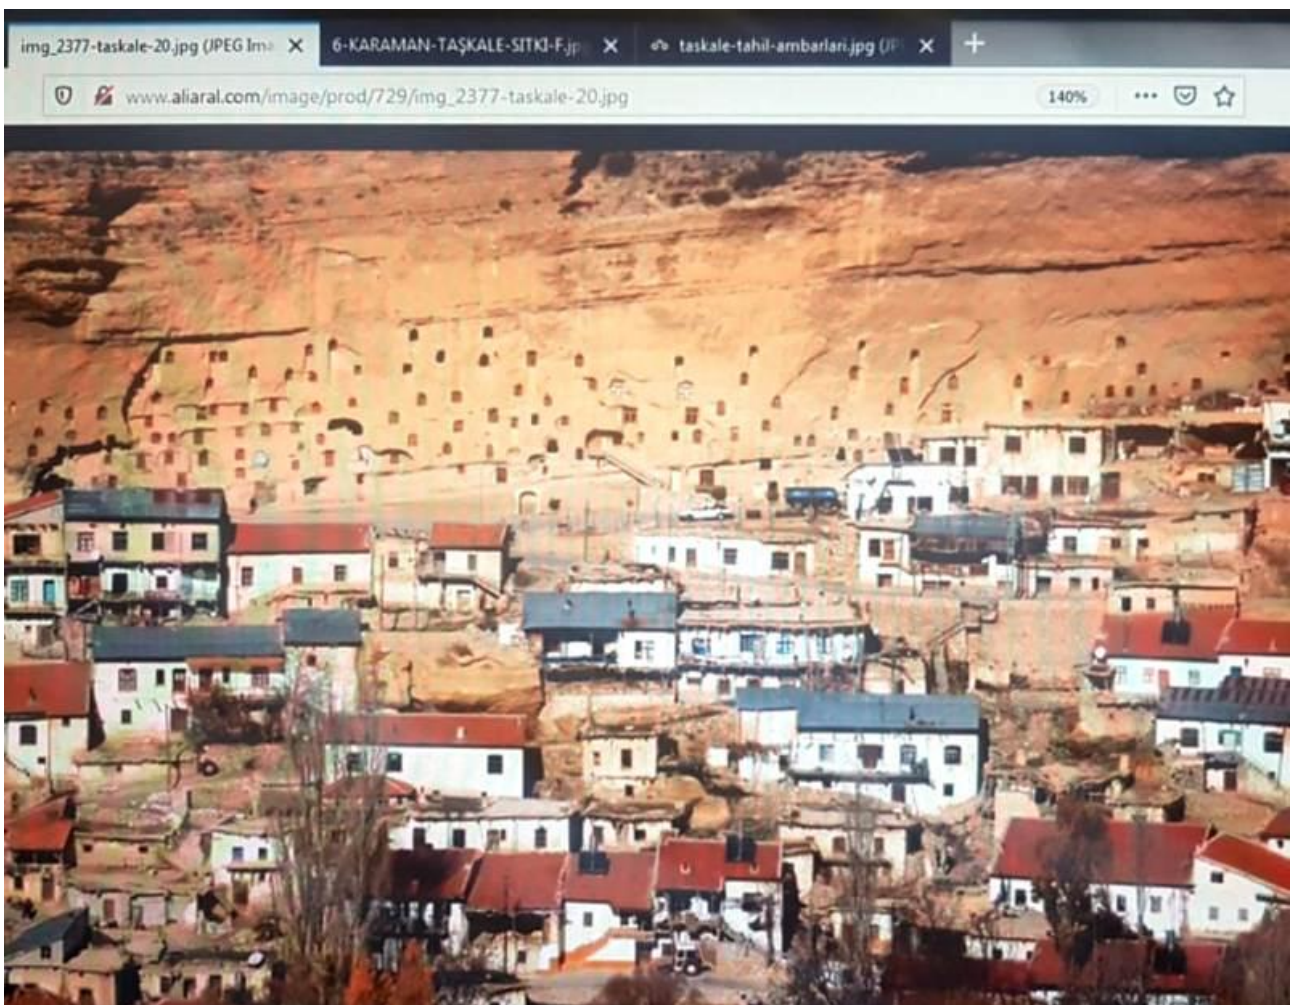

**Researchers are asking how long did they live like this? When did it start and what made them live like this? Did any type of event or events in the past - destroy their civilisation that forced them to live in such ways?**

### **Taskale Karaman, southern Turkey**

**Many people are still living today in such mountain homes and in hills around the world - and researchers have shown that some mountains such as these - may have originally been buildings - but they may have got buried by a mud flood type event or some other form of disaster and became a mountain or a hill.**

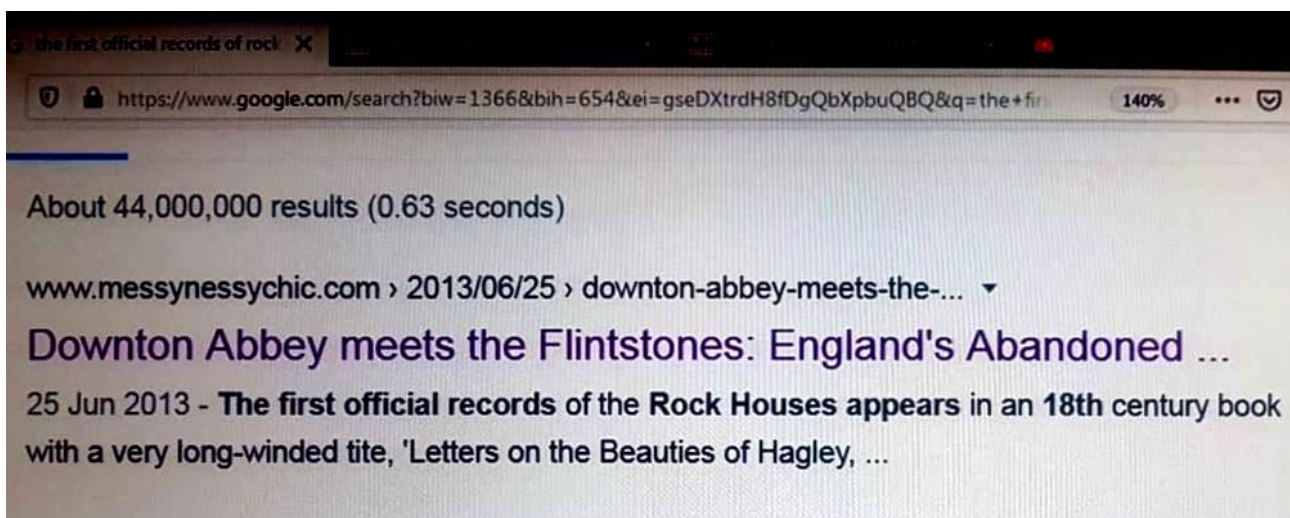

**Many similar places can be seen throughout the world. A major reason for why people left these places today is due to the rapid urbanisation process in many parts of the world in recent times.**

**Above are modern homes in Taskale Karaman, southern Turkey. Not everybody went to bigger cities - many just moved into houses nearby which were built on ground level - just outside their mountain or cave home.**

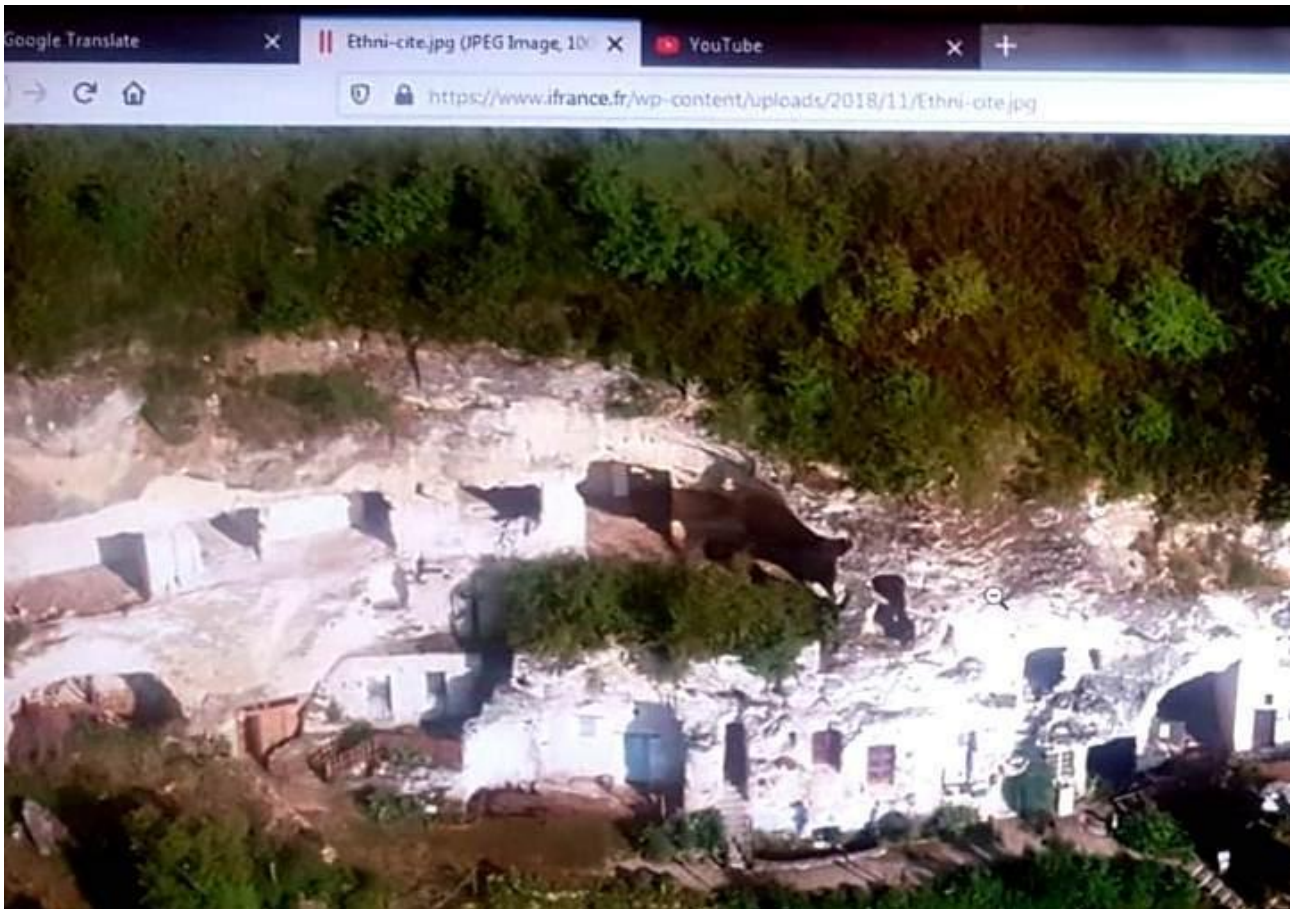

**Researchers noted that not much is written about these cave homes in history**

**For example in England – the first mention of these rock – cave homes - was probably only in the last 200 years. This made researchers ask the question – did people go to live in cave homes recently in the last few hundred years?**

**The photo below shows examples of cave homes in France – many people were still living in them - only a hundred years ago – and many of the caves actually resemble buildings that are buried. What researchers then noticed was that – not just cities – but the actual full continent of Europe and the rest of world may have**

**been buried underground. There are so many underground buildings or so called caves and tunnels in rural areas - throughout the world - and there is much evidence to show that the ground level has changed throughout the world in the last few hundred years – not just in cities – but in the countryside also.**

**Many cave homes clearly did not look like caves – but looked like actual buildings - that were damaged and buried below the ground.**

**Millions of Cave homes are in China for example. Accurate data is unavailable when it comes to China - estimates of cave home populations are as high as a 100 million or even more today.**

**This is not clear in China - because many of the young and middle aged people leave their grandparents in the cave home - and they work most of the year in big cities in sweat shop type factories - and they return to their cave home 1 or 2 times a year.**

**Data shows that over a 100 000 000 - a hundred million people today live in hillside caves - or mountain side holes - in China - and many of their young population are working in city areas in factories and return home a few times a year - so the figure can be as high as 200 million people or even more.**

# 30 MILLION LIVE IN CAVES IN CHINA

DTELO - MAY 24, 2012

SHARE ON: [f](#) [t](#) [g+](#) [t](#) [v](#)

**The locations of where and how to build these homes are selected carefully, research has shown that some type of ritual or examination is performed when they select the hole or cave, a form of testing to see if the hole or cave is stable and safe - before making a home there.**

**Researchers were surprised that people still live like this in huge numbers in China. An estimated 10% or 20% of people in China may now have a standard of living that is catching up to western economic standards, but according to many economists, the majority of China is unfortunately still living in what would be classed as third world standards.**

**Shanxi - China 1928**

**In Sichuan and Gansu - and many places in China - many holes and caves can be seen like this - where people were still living recently until the 1990's - and many people went to live and work in cities as economic development increased in China.**

**Because China was very poor compared to many other countries in the world - a larger percentage of China still lived in holes and caves in 1980 and 1990. Researchers found that a lot more people lived in caves and holes in China in the year 1900 - maybe upto half the population or even more.**

**Because China is still economically a lot more behind most western nations - millions of people who could not afford to go to cities - lived in homes built beside their caves.**

**There are many similar caves and holes around the world - that people may have been living in - around the year 1900. Some historians say that this is a so-called tradition and has been going on for centuries. Is that really so? Researchers believe that this is not an ancient or old tradition - but believe that maybe people went to live in such places because a disaster or event took place in their civilisation that forced them to live in such ways.**

**From the evidence seen by researchers of the buried buildings around the world - and cities buried underground - many researchers have stated that after great disasters happened around the world - the people who survived - had no choice where to live and went to live either underground in holes or in caves. Researchers are investigating if many of these holes or caves - were originally part of older existing buildings.**

**Researchers state that as the conditions of the surface of the earth became safer, people moved out of the holes and went to towns and cities or built homes near their cave or hole. Researchers reject the idea that people have been living in such holes for thousands of years.**

**Researchers point out that in places like China - why many people still live in holes today - is because of the economy on the surface of that land. As China grows economically and develops, more and more people are leaving the holes and caves and are now living in urban areas.**

**Researchers are investigating why people lived like this - it can be seen in many parts of the world. Could there be another reason also - were these people oppressed by previous civilisations - and they were forced to live like this due to tyranny and oppression?**

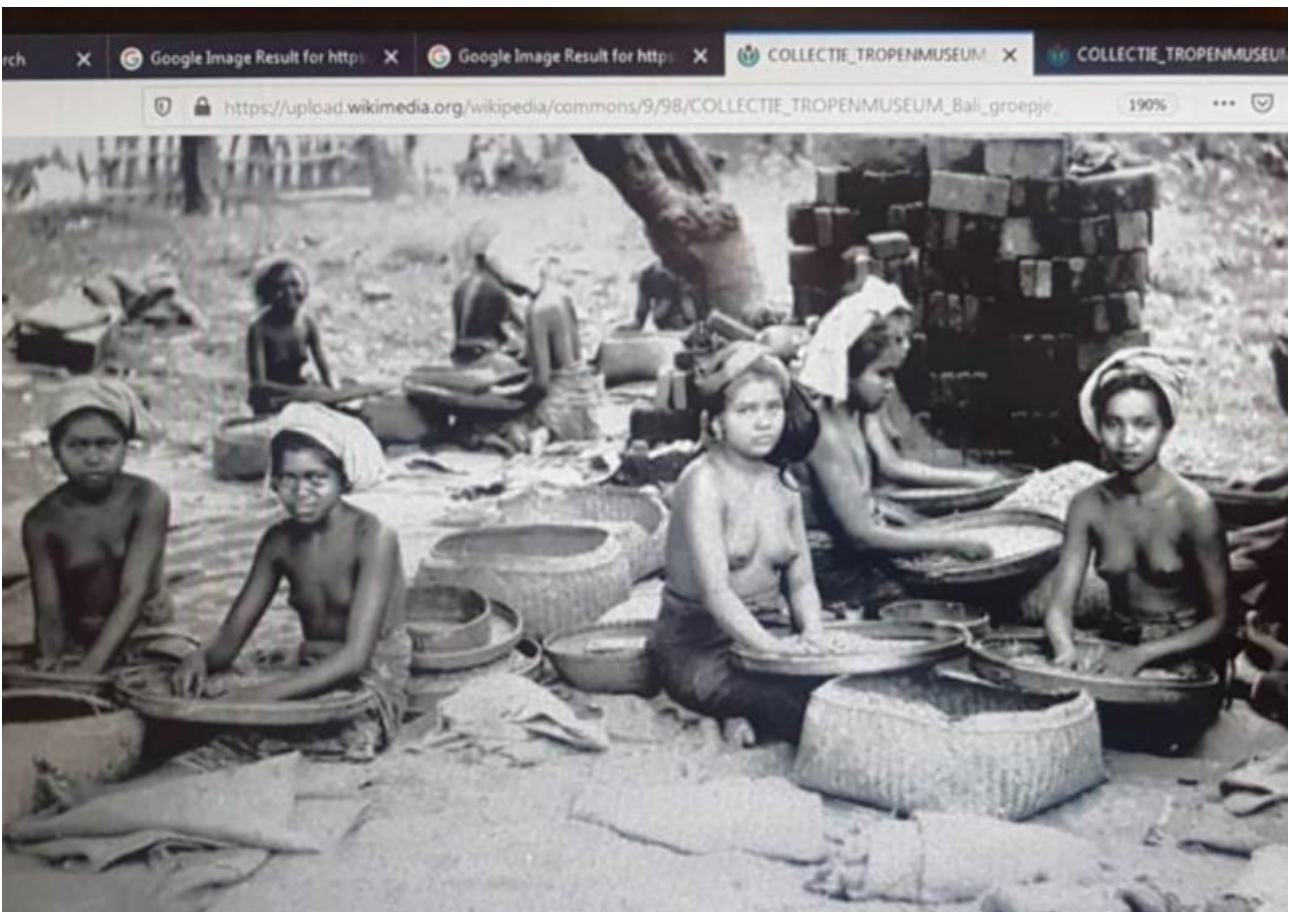

## Mesa Verde cave homes Colorado – United States of America

Researchers found another strange thing about the world's people around a hundred years ago - or around the year 1900. What they discovered was that a large

**percentage of the world's population was half naked or even naked all over the world - without much form of clothing. Researchers are asking how long did people live like this? When did it start and what made them live like this? Did any type of event or events in the past - destroy their civilisation that forced them to live in such ways? Or were they forced to live like this due to tyranny and oppression?**

### **Indonesia around 1900**

**Many people were naked and many were half dressed with cloth wrapped around their body. Many of the cloths were mass produced in factories in Europe or America or Japan and some were made locally.**

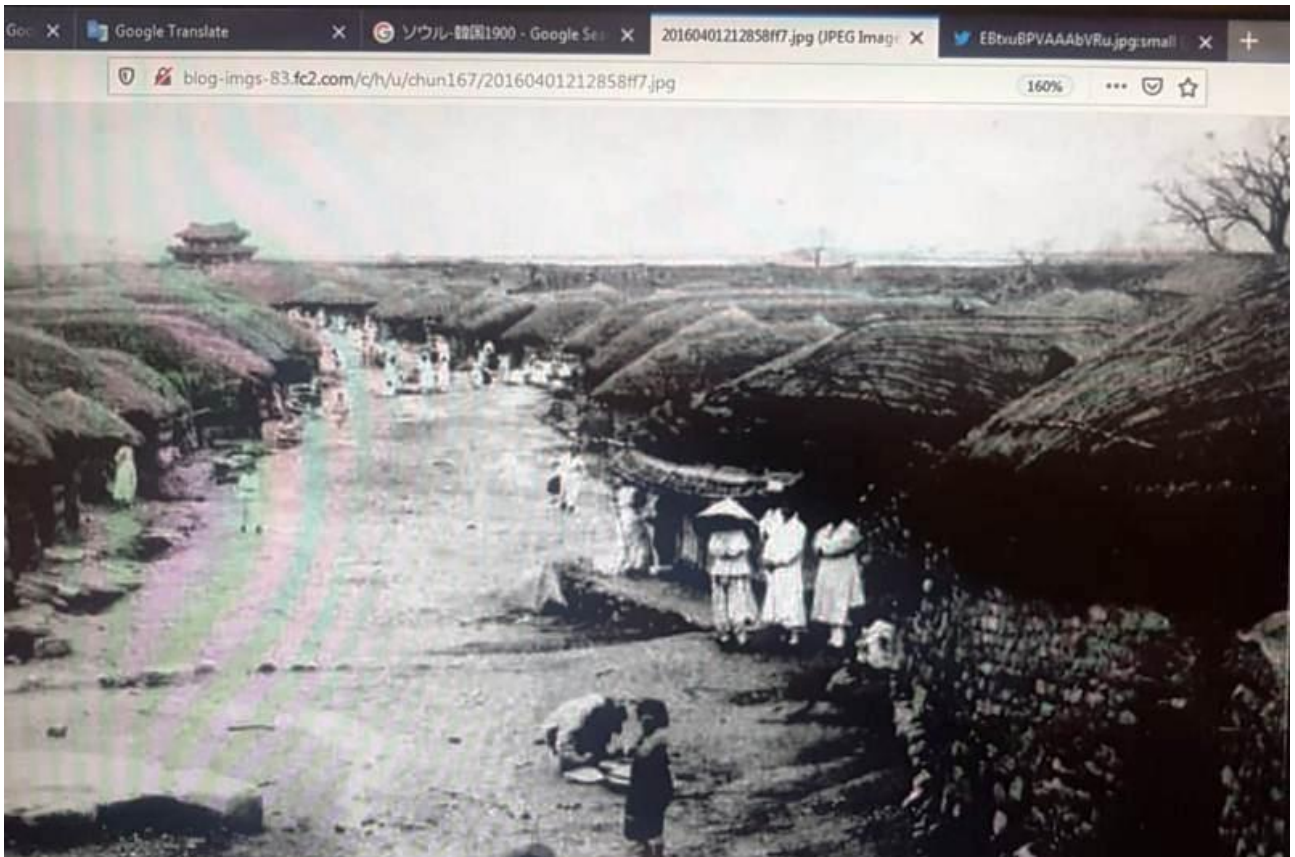

## Taiwan in 1900, not Thailand

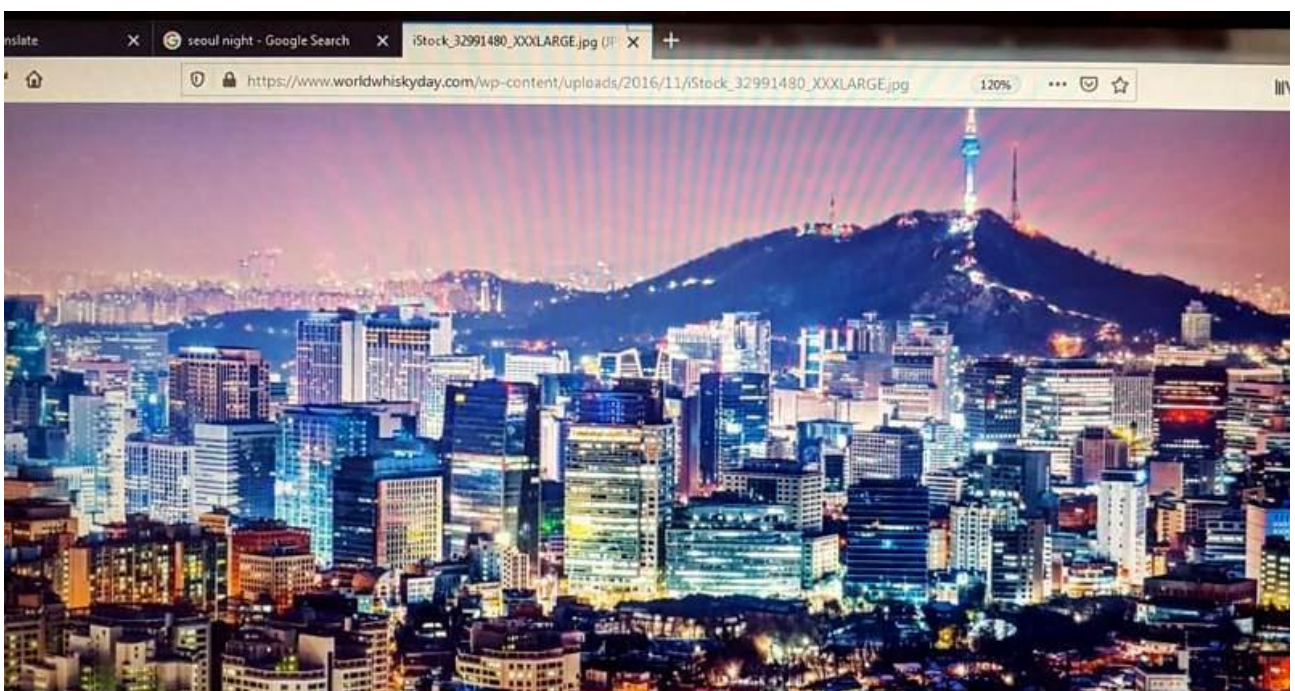

Below is an example of Taiwan today

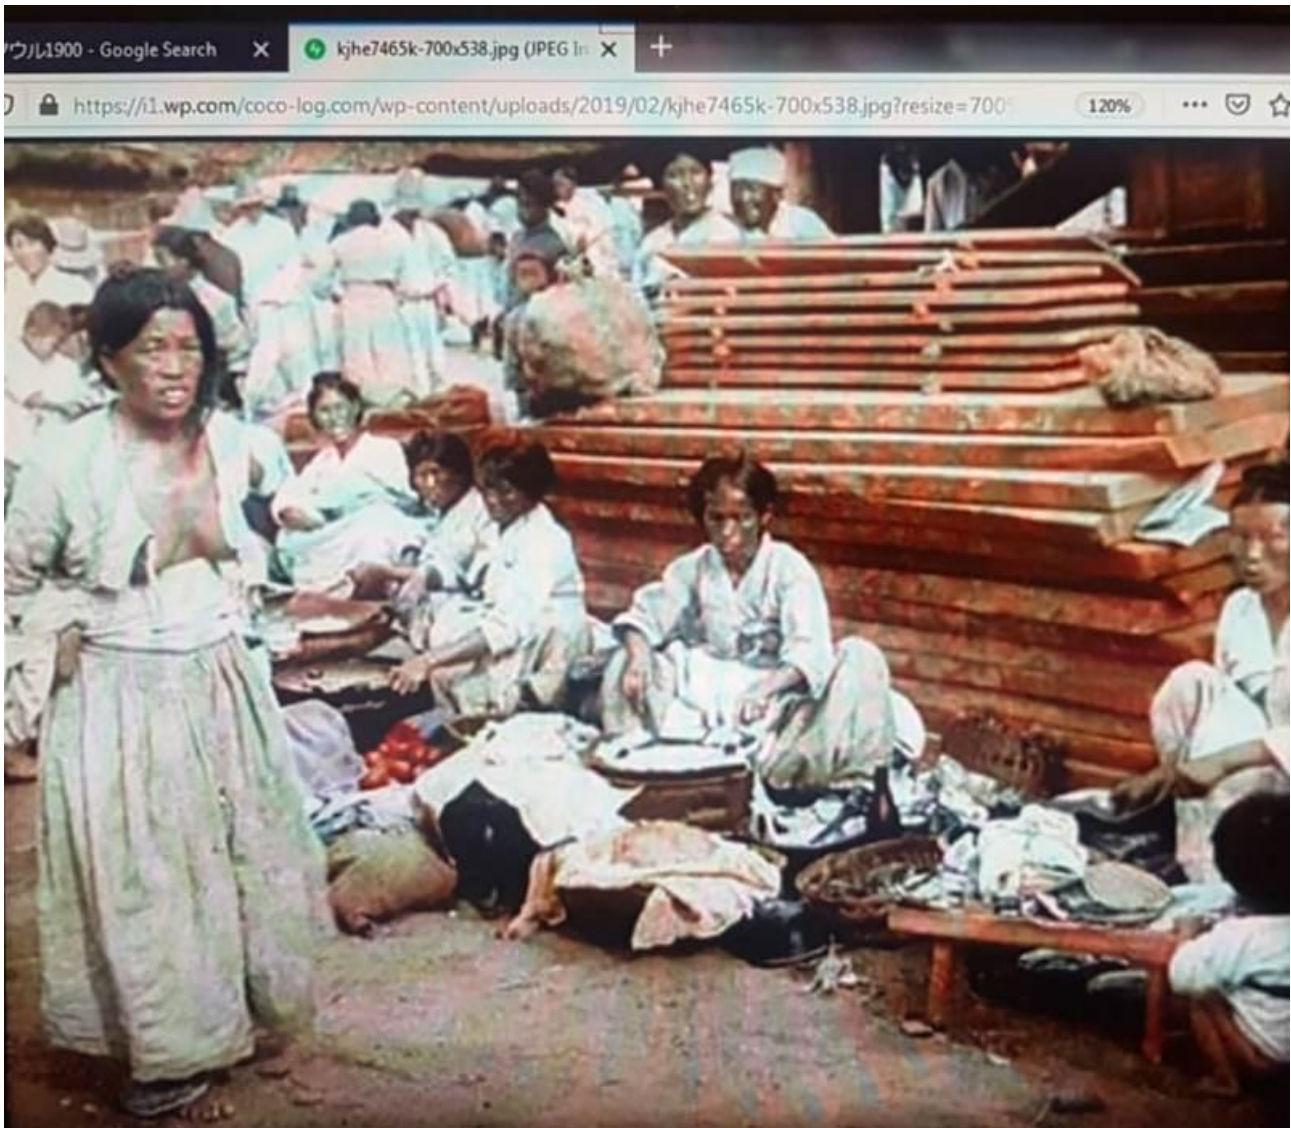

# Seoul - South Korea c1900 - how many city people lived

# Seoul -South Korea today

## Typical life in Seoul, South Korea around 1900

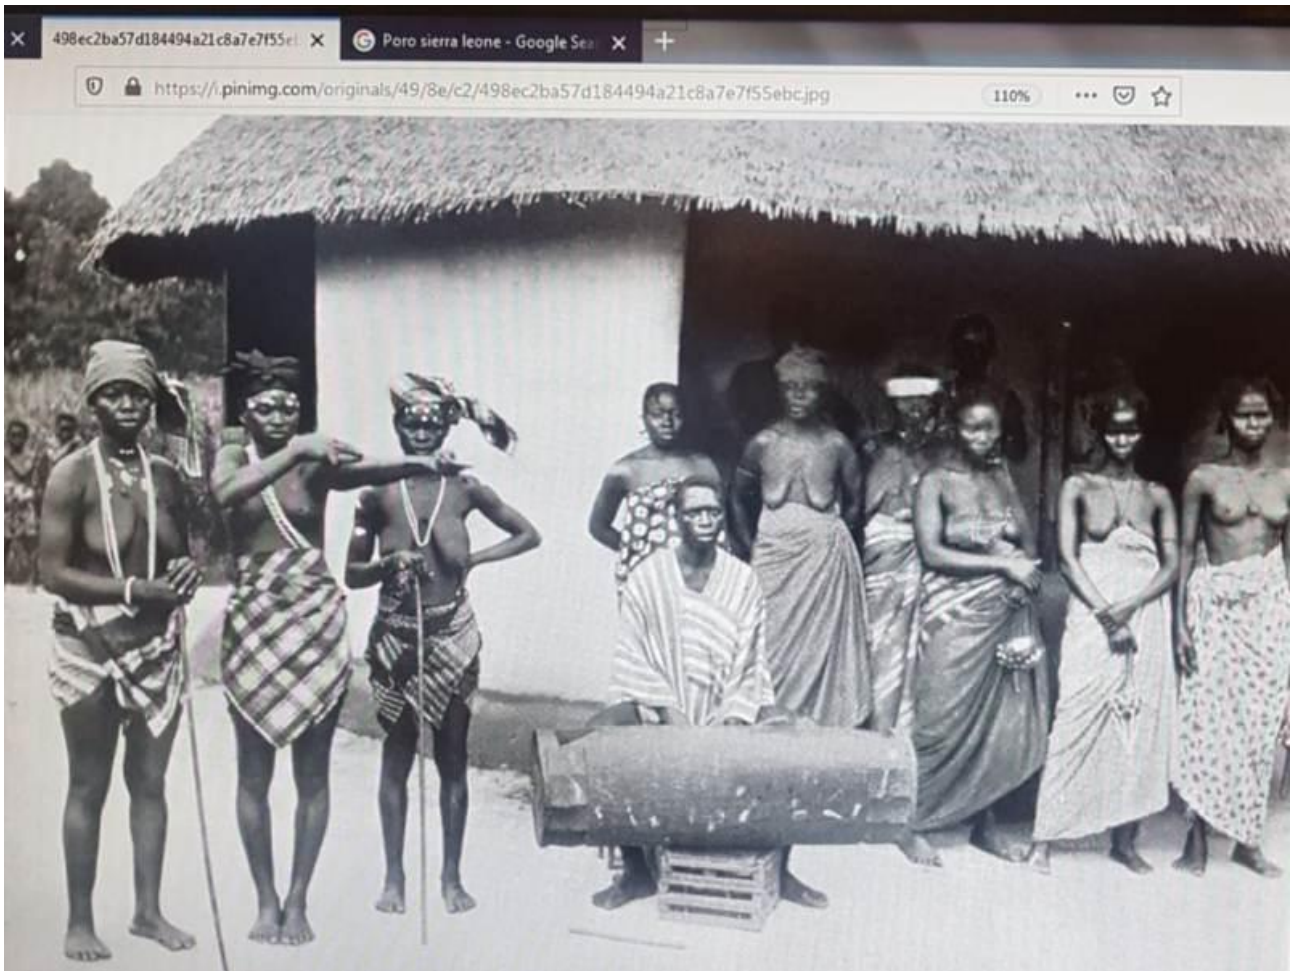

**Much of the white cloth that people are wearing at that time was mass produced in industrialised nations such as England and Japan at that time and some made locally.**

**Researchers are questioning what these people were wearing before the white cloth made in machines was available to them. Since this was around 1900 - we have**

**to question what were they wearing before? And did they wear these clothes because they wanted to or were they forced to wear clothes? The lady in the photo above does not seem to be dressed properly.**

## **Sierra Leone, Africa, 1900**

**Much of the cloth wrapped round the bodies of the people in the photo here was made in industrialised nations in Europe, and some of produced locally**

**As you can see - this is a global question - why does half the world look naked a hundred years ago? Was it**

**always like this? Why are they living like this? Did something happen or did they choose to live like this?**

**Madura, South India, around 1900 to 1930**

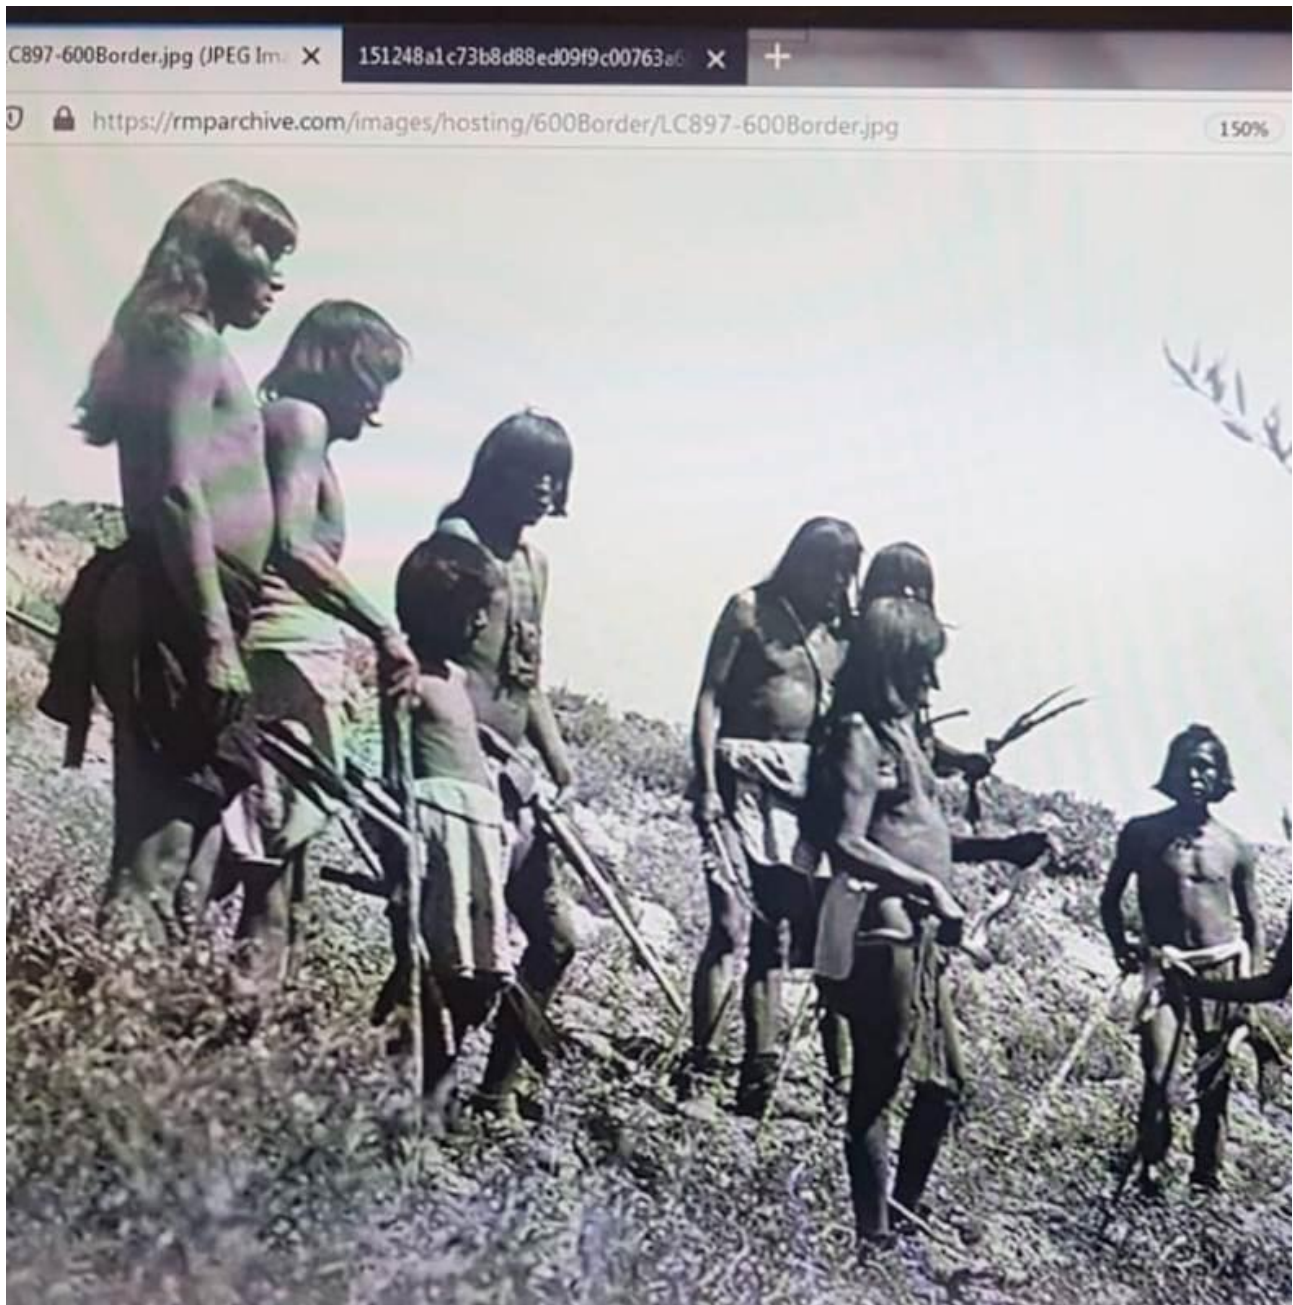

**Most Indians were village people at the time and dressed in similar conditions or worse in many villages.**

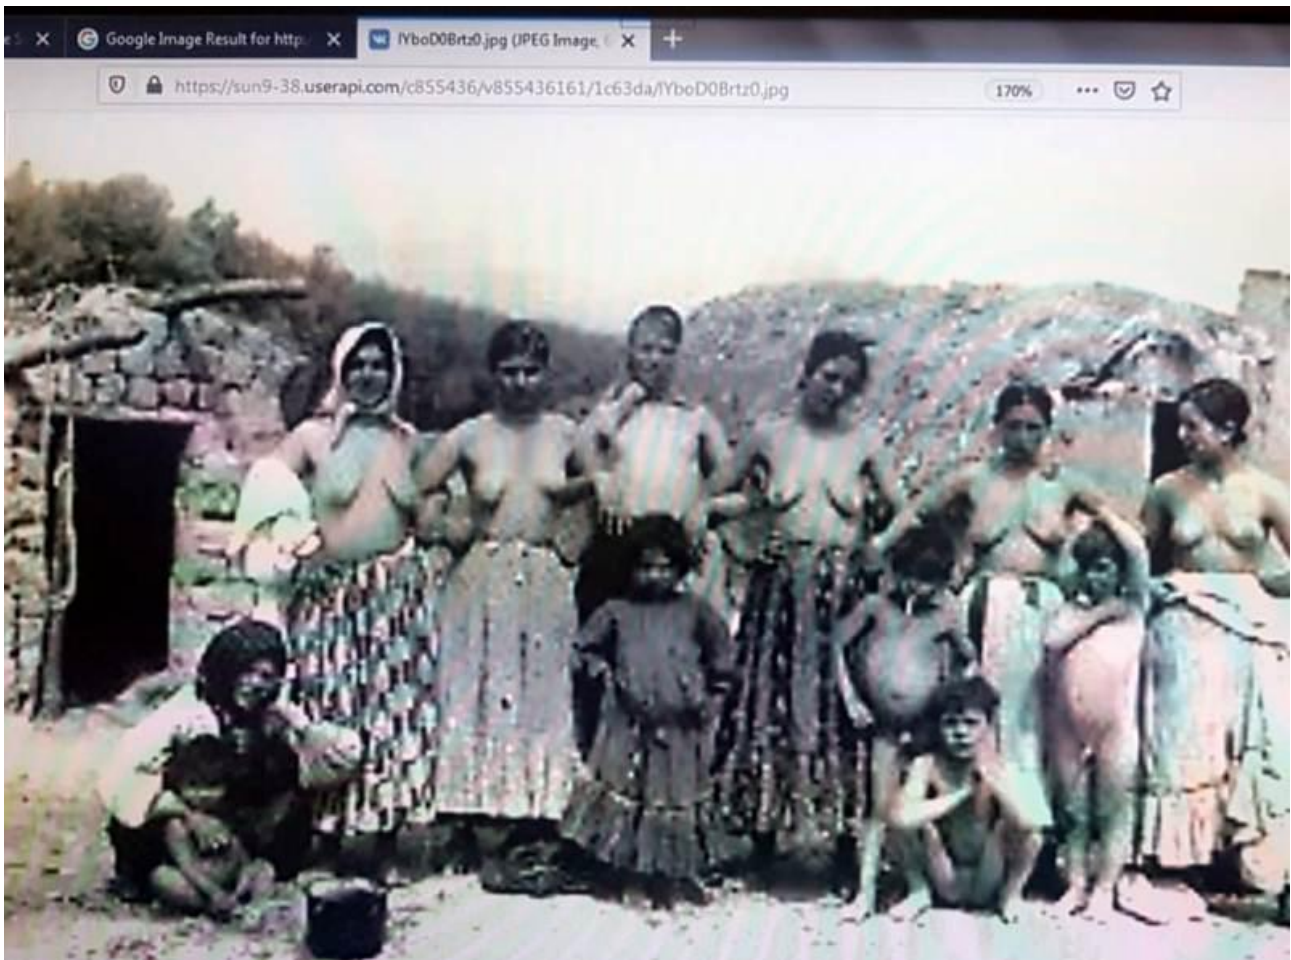

**As you can see - they are wearing the common white cloth at the time - manufactured in big cities in India or**

from countries like England and Japan and USA = this white cloth is in most photos from that time.

## Hopi Americans - 1907

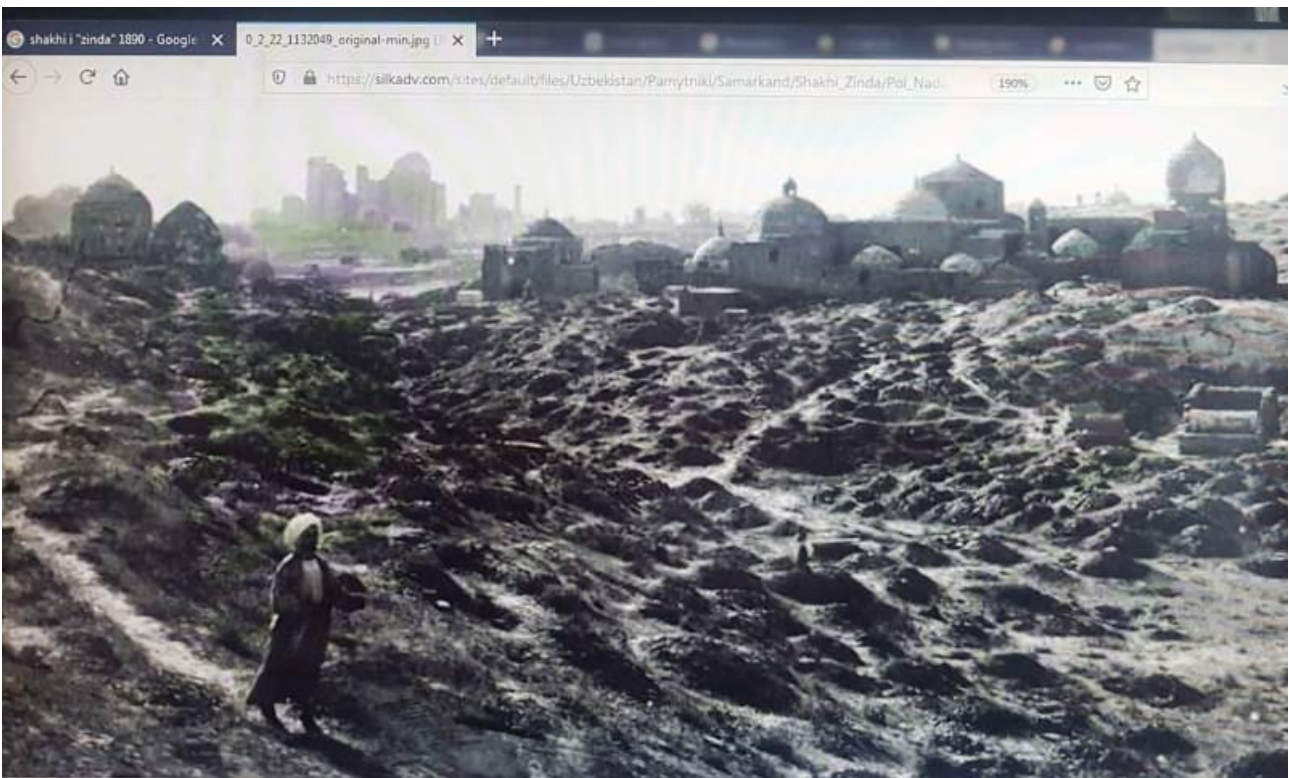

## **Hungary, Europe around 1915 - 20**

**These last few pictures show parts of the world where people are almost half naked and many people were actually fully naked at the time. Researchers are questioning if they were naked before 1800 and 1700 - and also questioning if the rest of the world was naked before 1800? Or was this a result of the destruction of a civilisation - which may have forced many people of the world to go backwards? Or were these people oppressed and forced to live like this by previous civilisations? Or was it because of religion? Most Christians and Muslims and Jewish people in 1900 were**

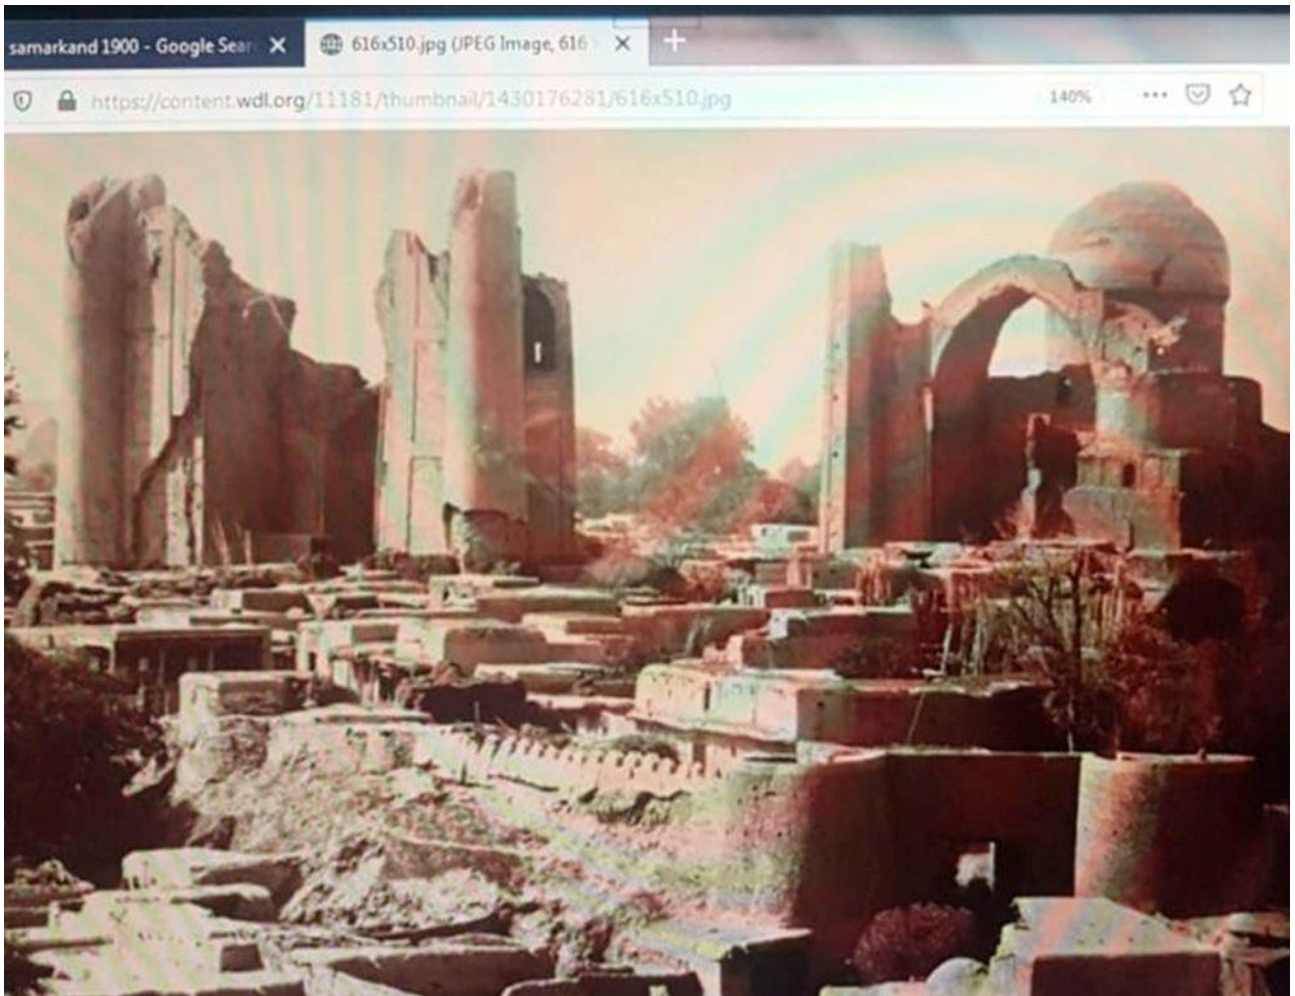

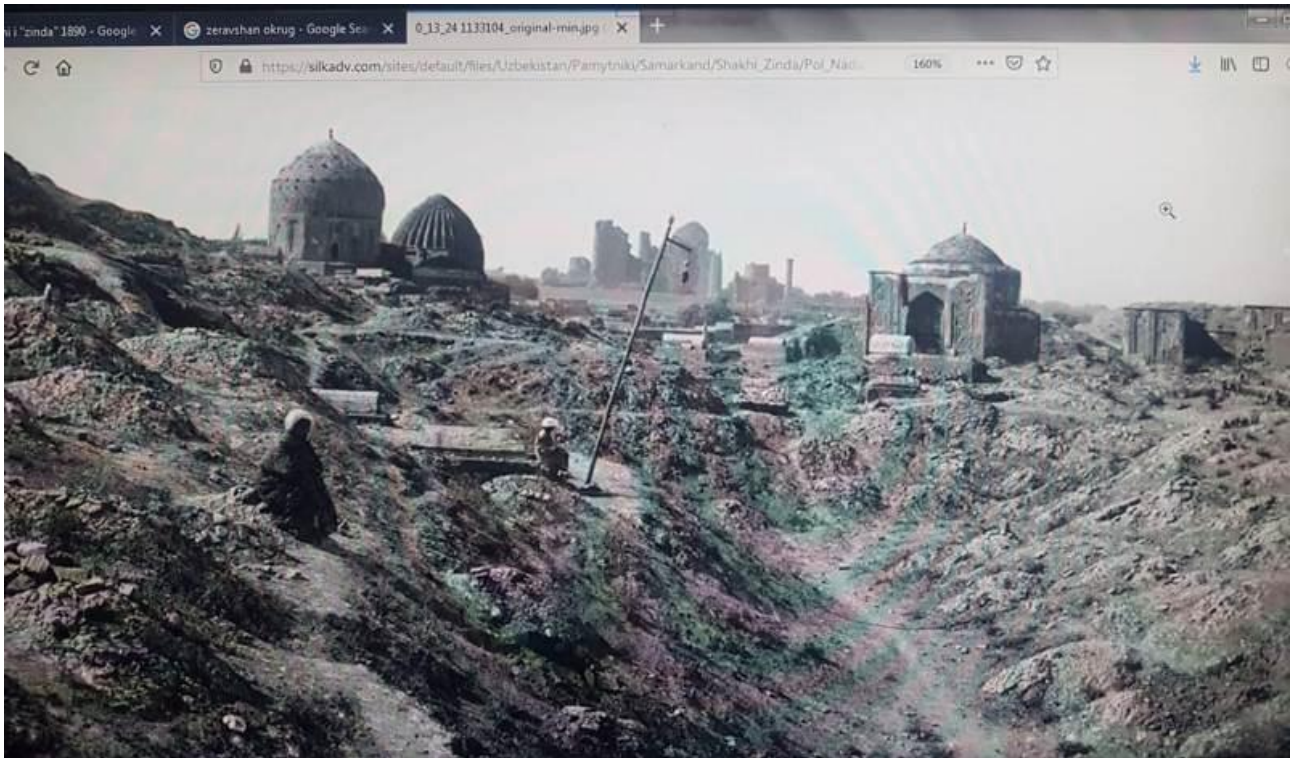

**dressed in clothes - was that because of religion?  
Researchers are investigating such matters.**

**Looking for true history - researchers decided to look  
all over the world - and not just in the western world.**

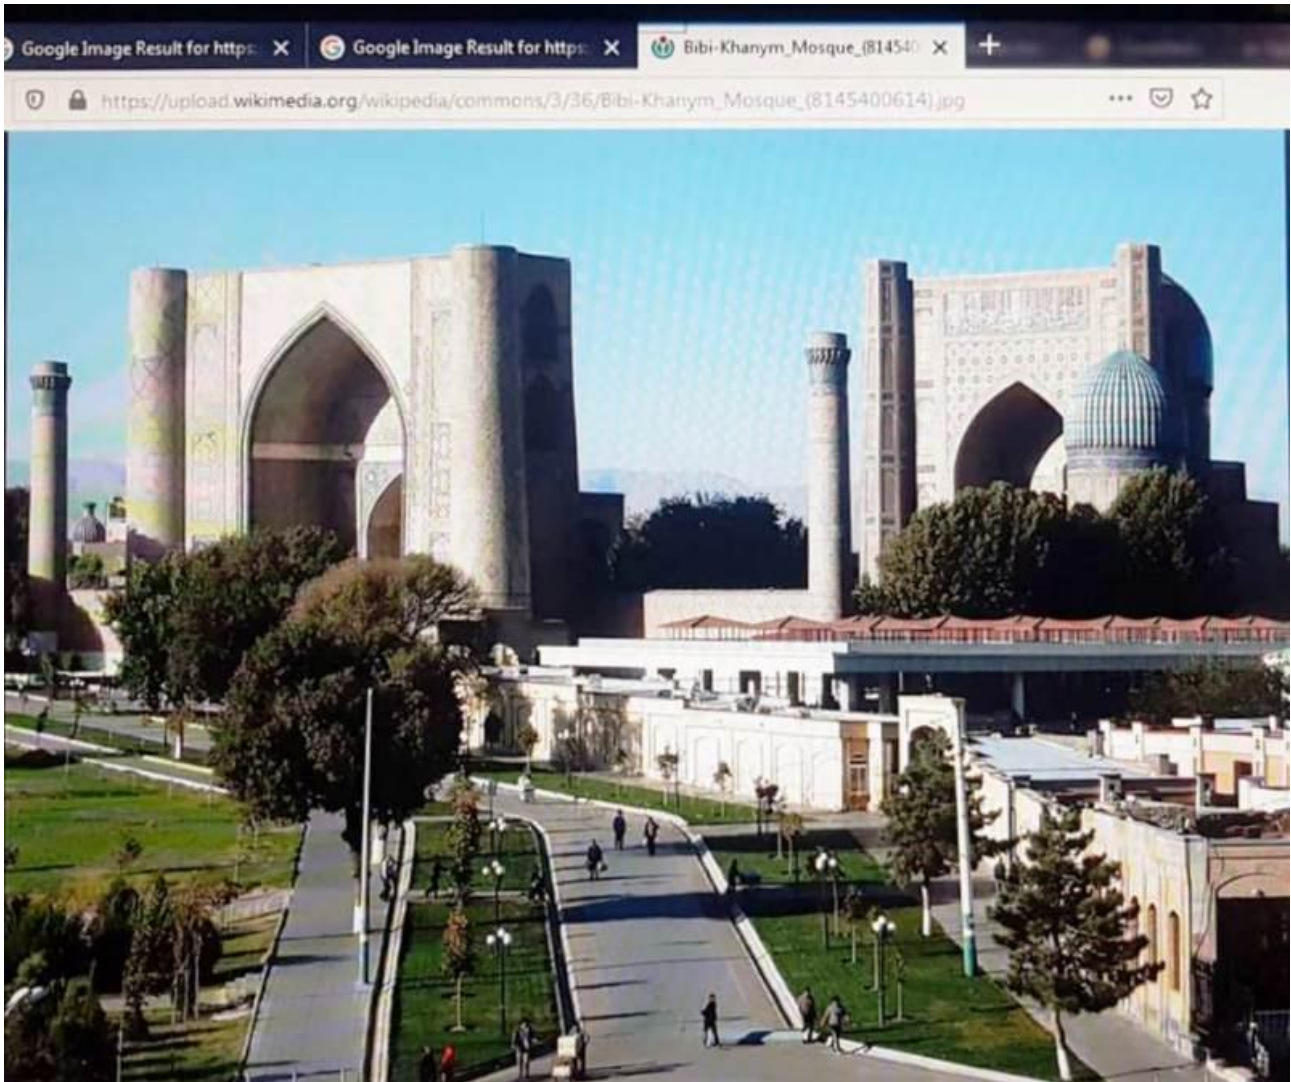

**The photos below shows - Samarkand, Uzbekistan,  
Central Asia - 1890. The photo evidence shows that a  
serious disaster or war had taken place there. The place  
looks like a huge mess.**

**Researchers point out that from the photos it can be  
seen that a type of mud flood may have taken place  
here - and there is serious damage to the buildings  
indicating a war may have taken place also.**

**Below is a photo showing the same city and what it looks like today - after the city was cleaned up and restored - note how small the people look compared to the old buildings.**

**Samarkand city is in Central Asia and many parts of the region today are like a desert. Researchers noted the huge size of the buildings and started to question - who built them and how and when - and when was the city really destroyed and how?**

**Researchers found a problem when it came to Saharan Africa and the Middle East and Central Asia. Their lands show much desert region today - but some maps from a few centuries ago show that there were many cities - in Central Asian and the Sahara region - and the Sahara region today is a desert region - what could have happened in the last 200 - 500 years - that may have turned the region into a desert? Or are the historical maps fakes?**

**Above is a seventeenth century world map known as -  
1606 -26 Nova Blaeu**

**Some of the maps of the past - only around 300 years ago - show the Sahara region in Africa with cities and rivers. What researchers did note from many of the maps around that time - is that they showed large parts**

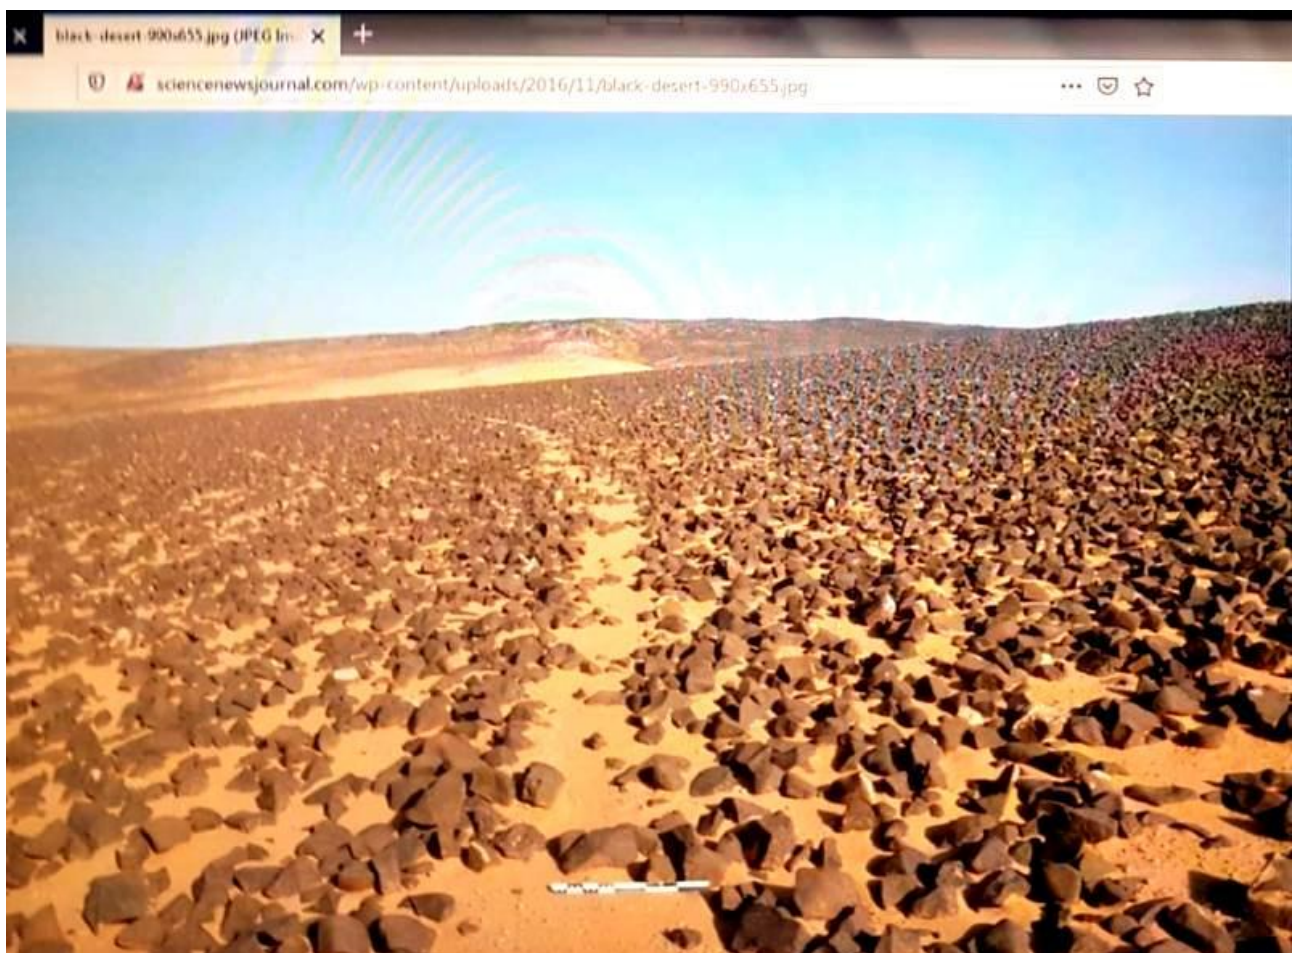

of North America covered in white colour - as if the land may have been covered in ice.

Researchers are investigating if it was a lot of ice and that if it did melt - it would have a global impact in the form of a flood - and that may be an answer as to why many buildings are half buried all over the world - and also may be an answer as to why many people of the world seemed to have gone backwards. Some researchers are examining myths related to alien forces - that may have attacked the world and caused the ground level to have risen in many places - other researchers are examining religious documents to see if they can find any clues to what may have happened.

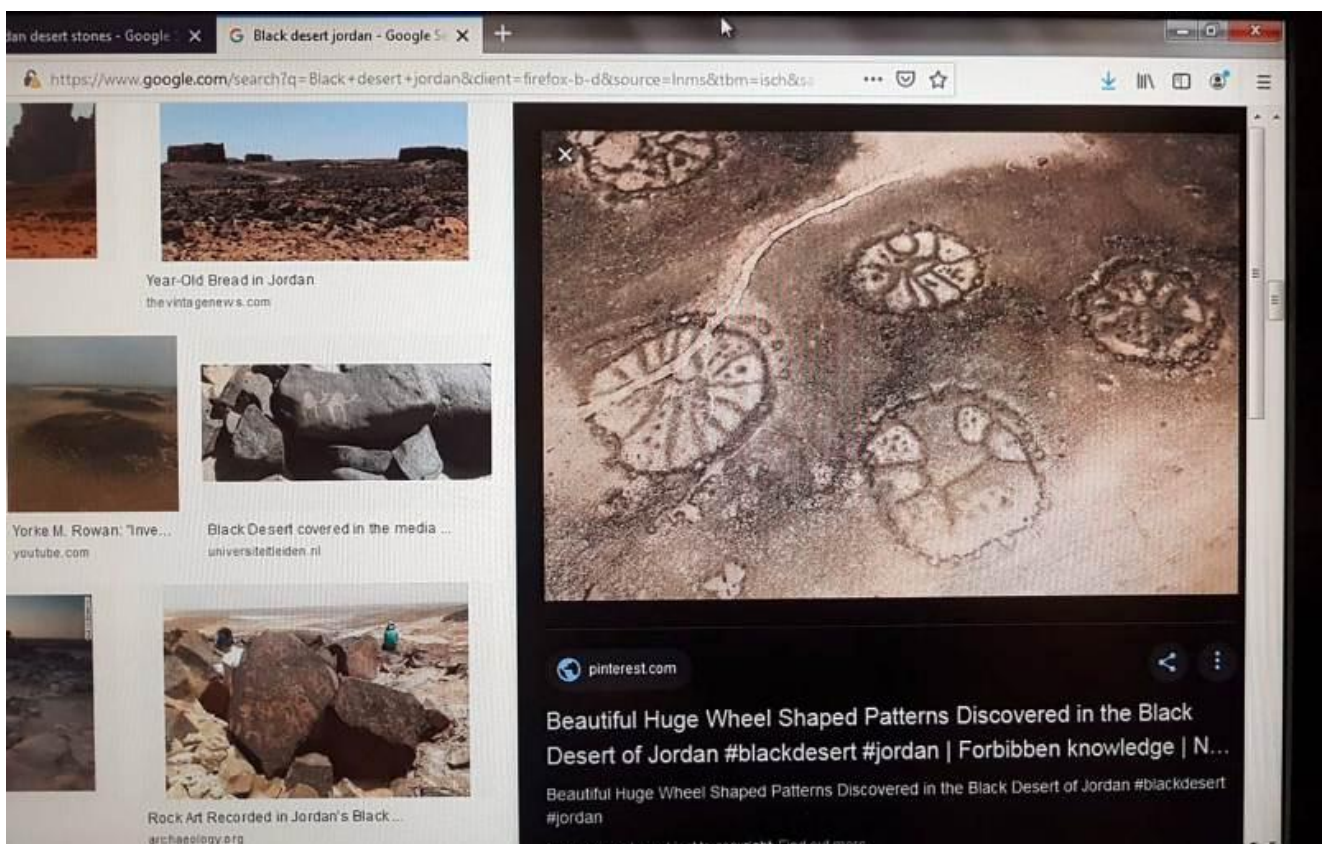

**The Black Desert is in Jordan and Syria and Saudi Arabia - throughout this desert region are mysterious black stones for many square kilometres, the stones are not that huge but are big - probably the size of 1 or 2 feet in many cases and they are evenly spread out (many are smaller in size) - in most cases the stones are not piling up on top of each other - as if someone put them there deliberately there by design - spread out.**

**The stones can even be seen on hills and on the slopes of hills evenly spread out - below is a photo example of the region**

**The story of the stones in the Black Desert does not end there - researchers found that the stones from the air make mysterious shapes and patterns - that no one understand and no one can explain. Such designs are called Geoglyphs and can be seen throughout the world in many shapes and forms - there are many of them throughout the world.**

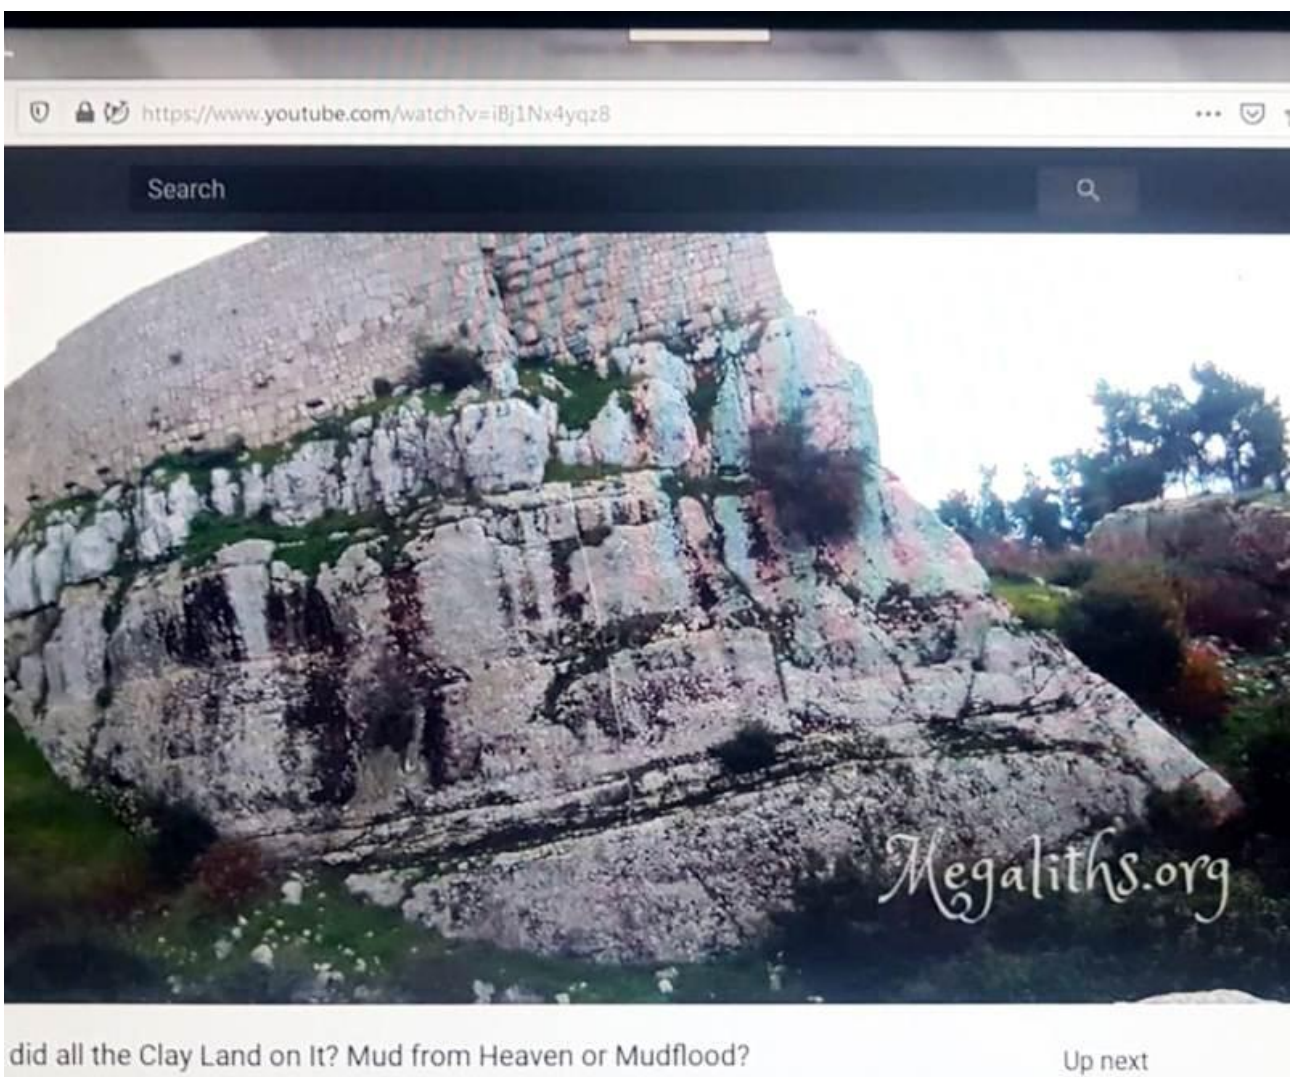

**Some researchers claim that the patterns and designs may have been created by an unknown force and others think that they may have been faked - if that is the case - then we still have the serious problem of what the stones are doing there and how they were placed there - to be spread out evenly over many kilometres of land.**

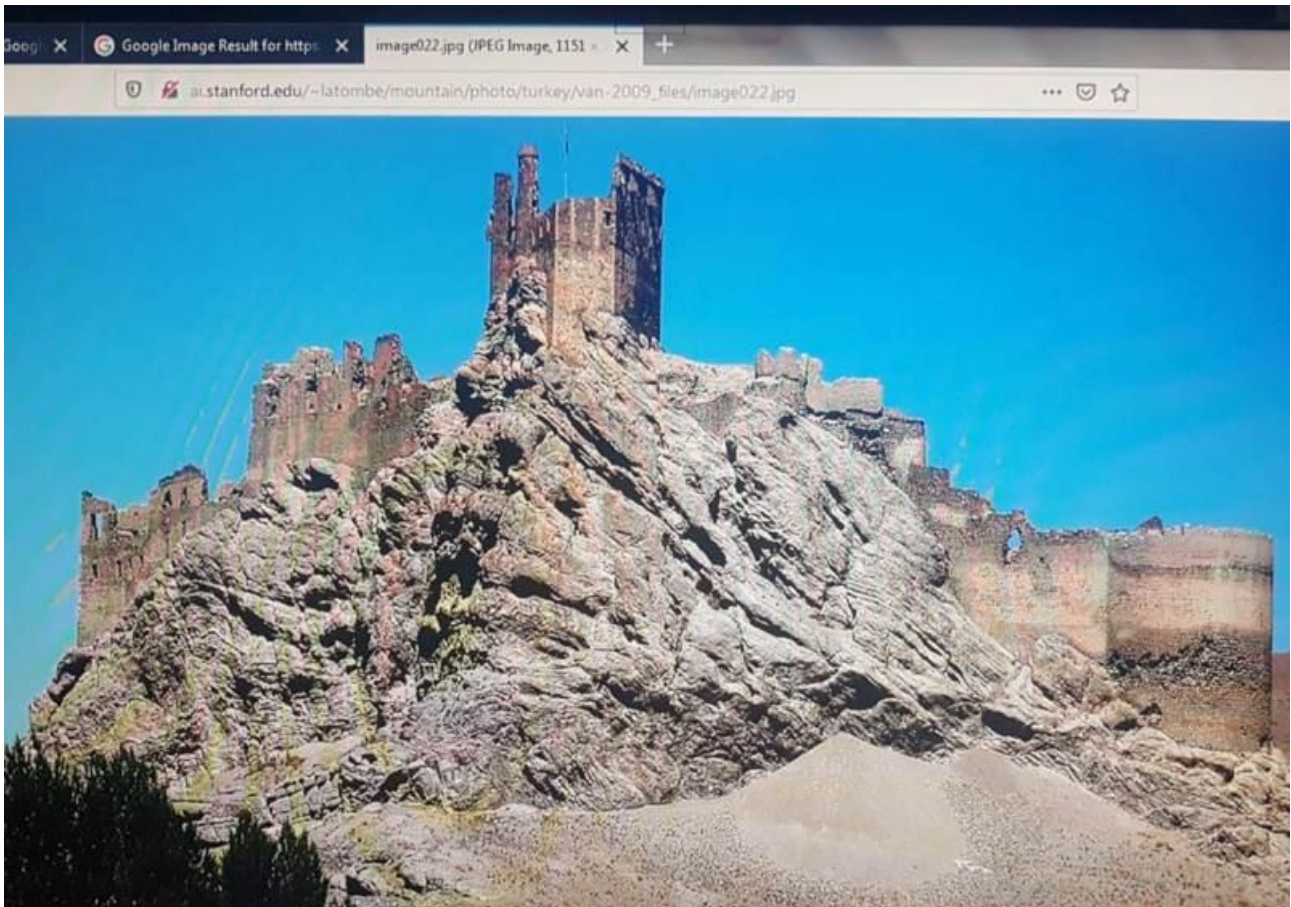

**Geoglyphs are not something small - they are worldwide and there are many of them - researchers are examining them - and question how they were formed - and ask if there is evidence of advanced technology being applied to put the stones all over the place.**

**Ajloun Castle, Jordan is in the photo below - researchers have pointed out that there is mud-clay that is over the walls of the castle as if it was thrown onto the building and they are questioning what may have happened there.**

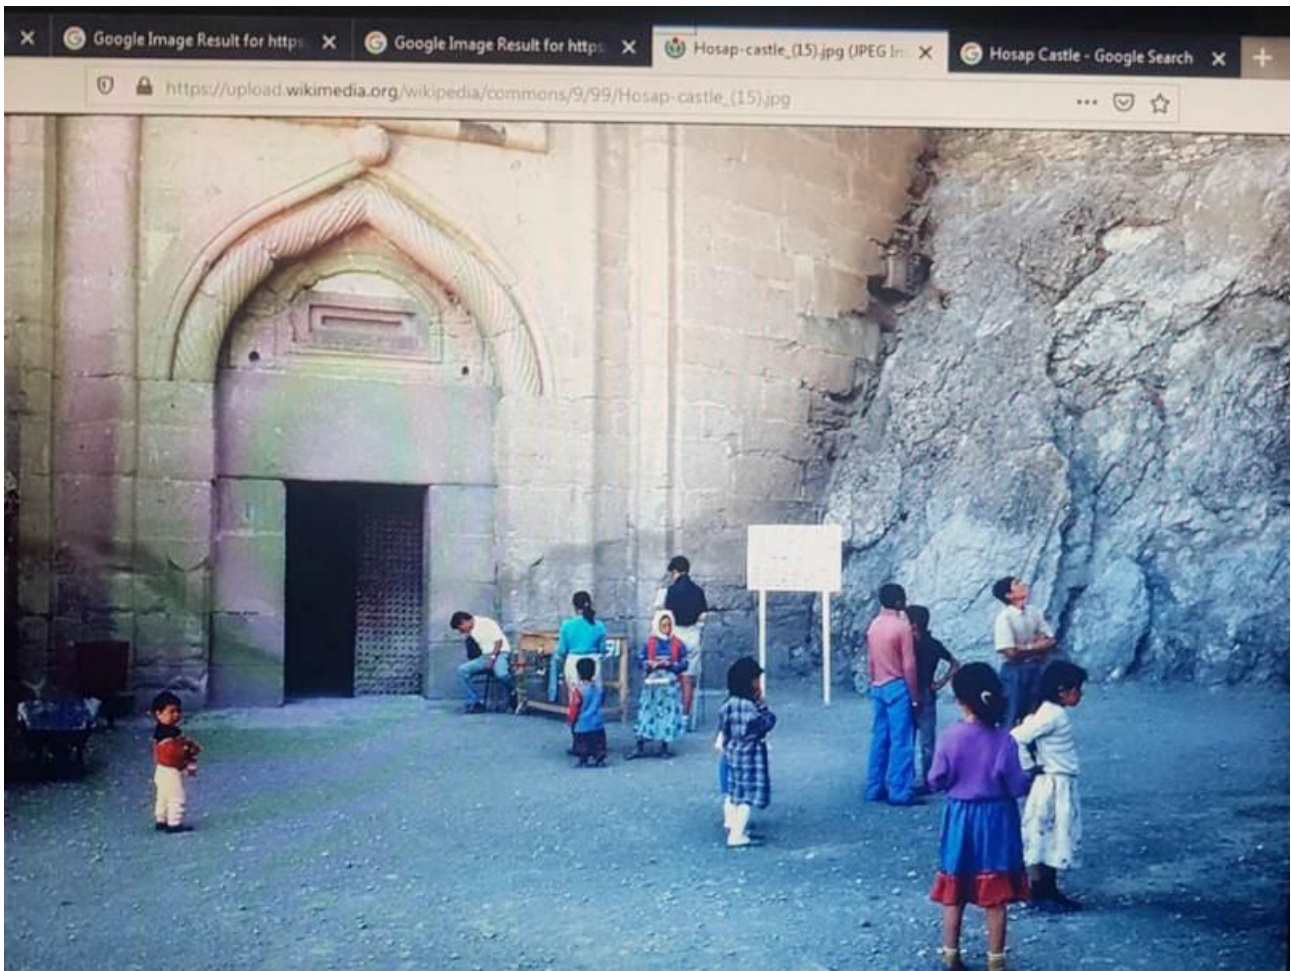

## Hosap Castle, Van district, Eastern Turkey

**A similar situation is seen in this castle, it can be seen that some type of mud or clay was thrown at the castle walls - and under the clay - the original walls can be seen - researchers asked what type of force or technology was used to do this and who did it? Castle ruins throughout the world show similar mud on their walls. What force could have done this and why and when - these are the questions researchers are asking.**

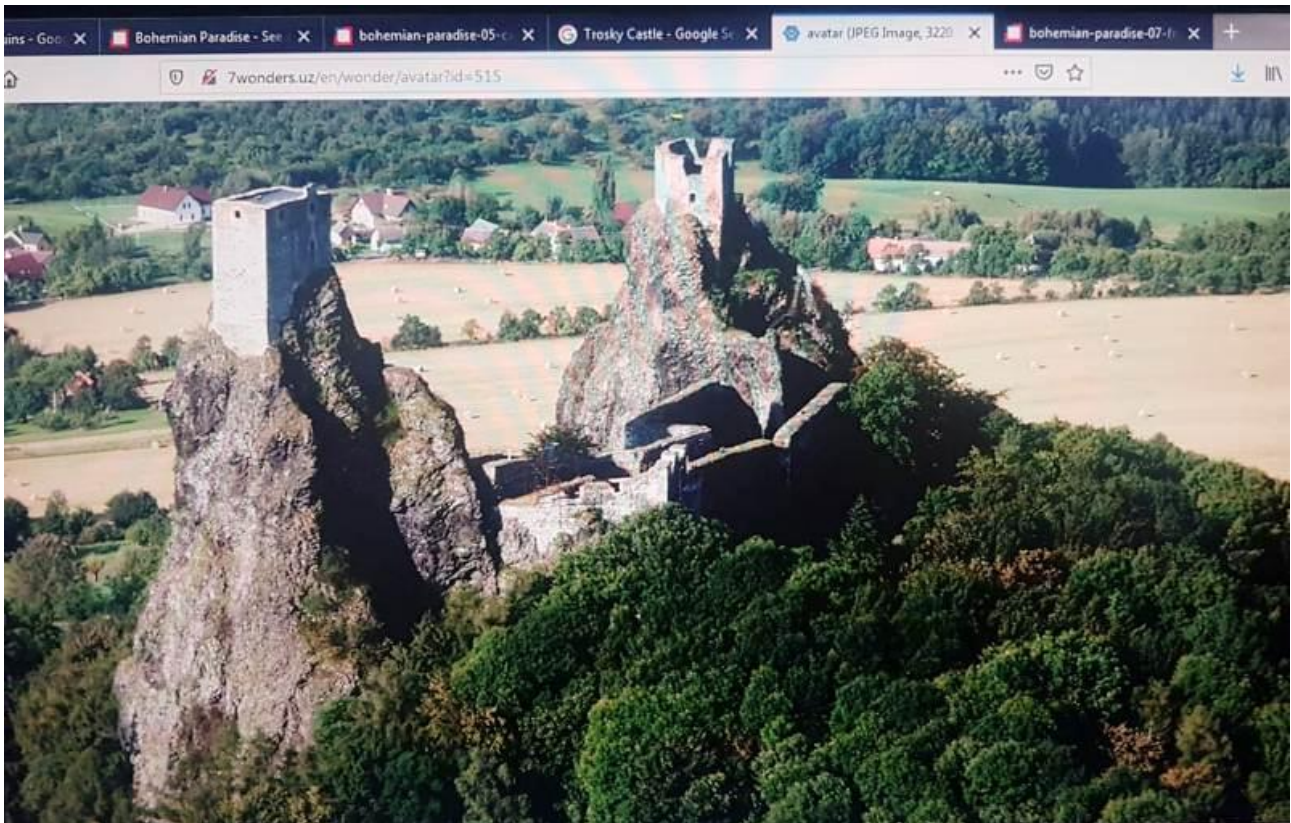

**Below is the entrance to Hosap Castle**

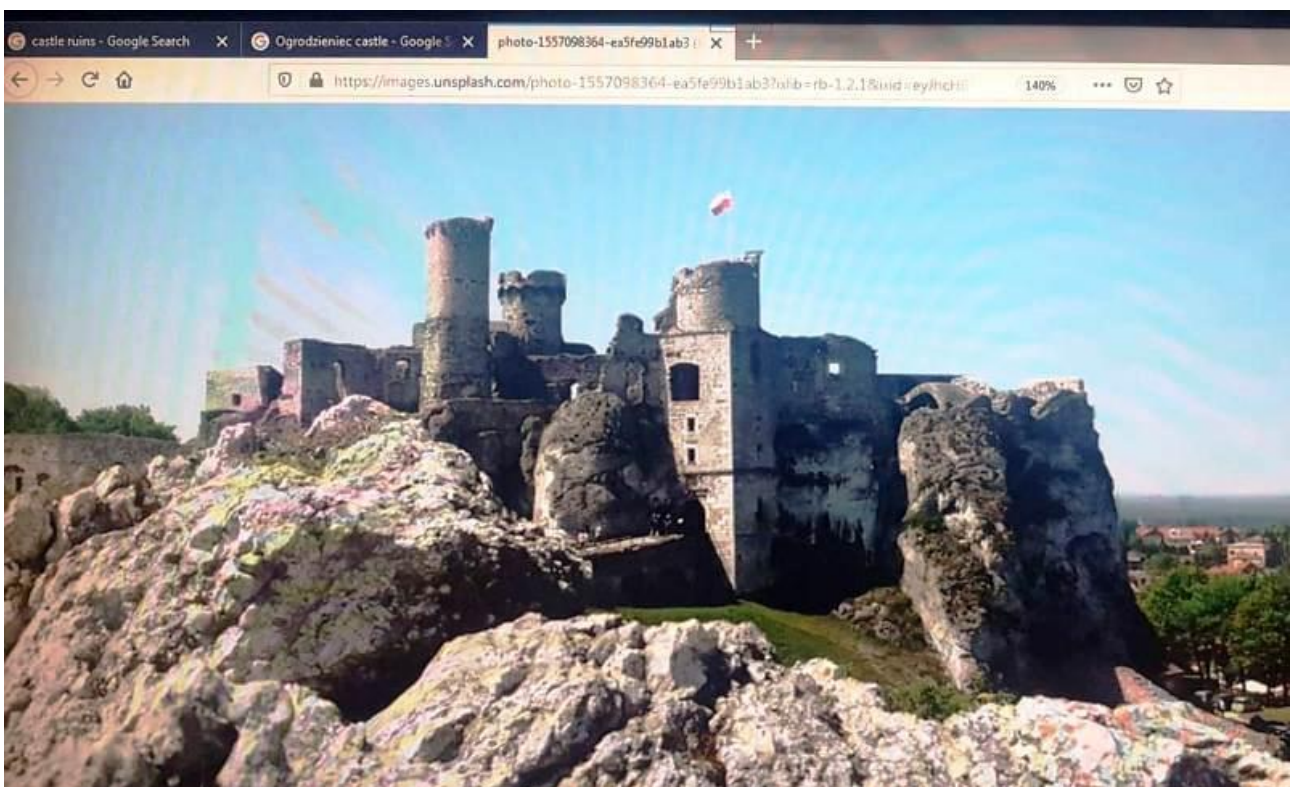

**Many castles and similar types of buildings around the world - have so much mud-clay - as if someone had thrown it from the air and the mud-clay has actually filled the inside of some these castles. Researchers noted that many castles have been cleaned up and repaired and restored in the last 100 years also.**

**Researchers are asking if it was an attack - and was it from the air? And what type of machine would carry mud-clay for an attack? Or was it an electrical weapon that could create mud-clay and throw it upon the target? Or a type of attack from outside our world or a natural disaster - a mud flood type of event?**

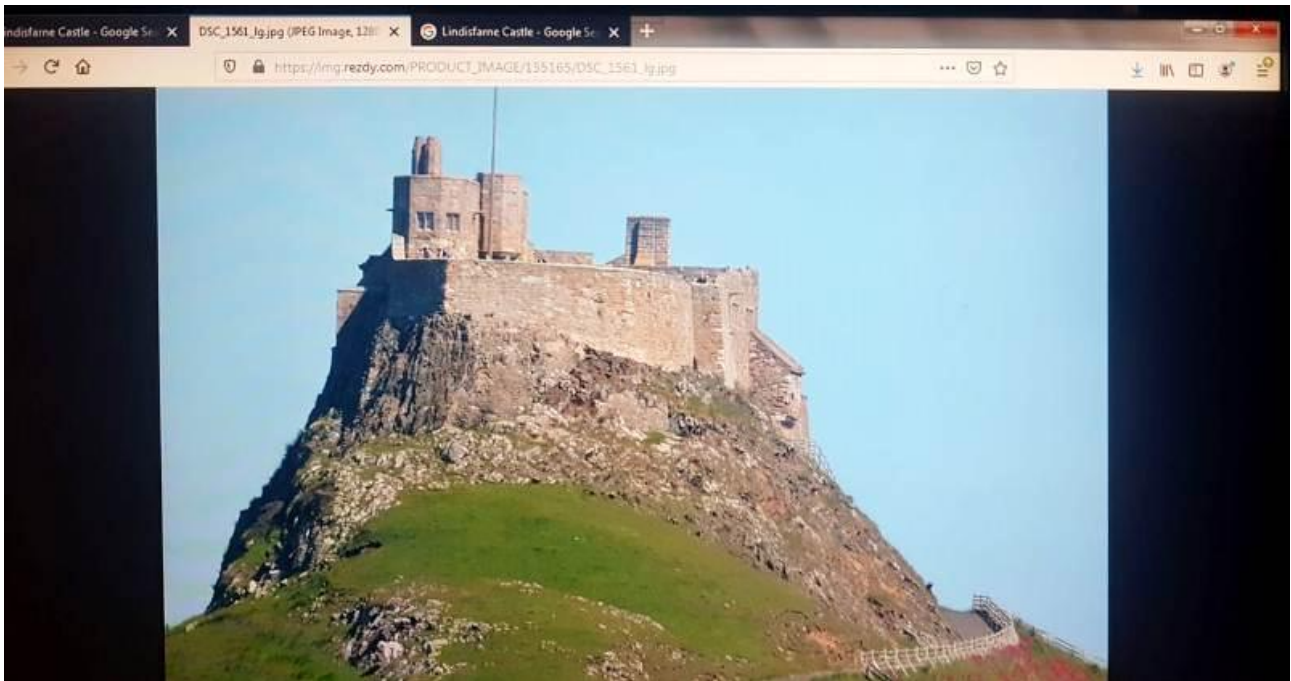

## Trosky Castle - Czech Republic

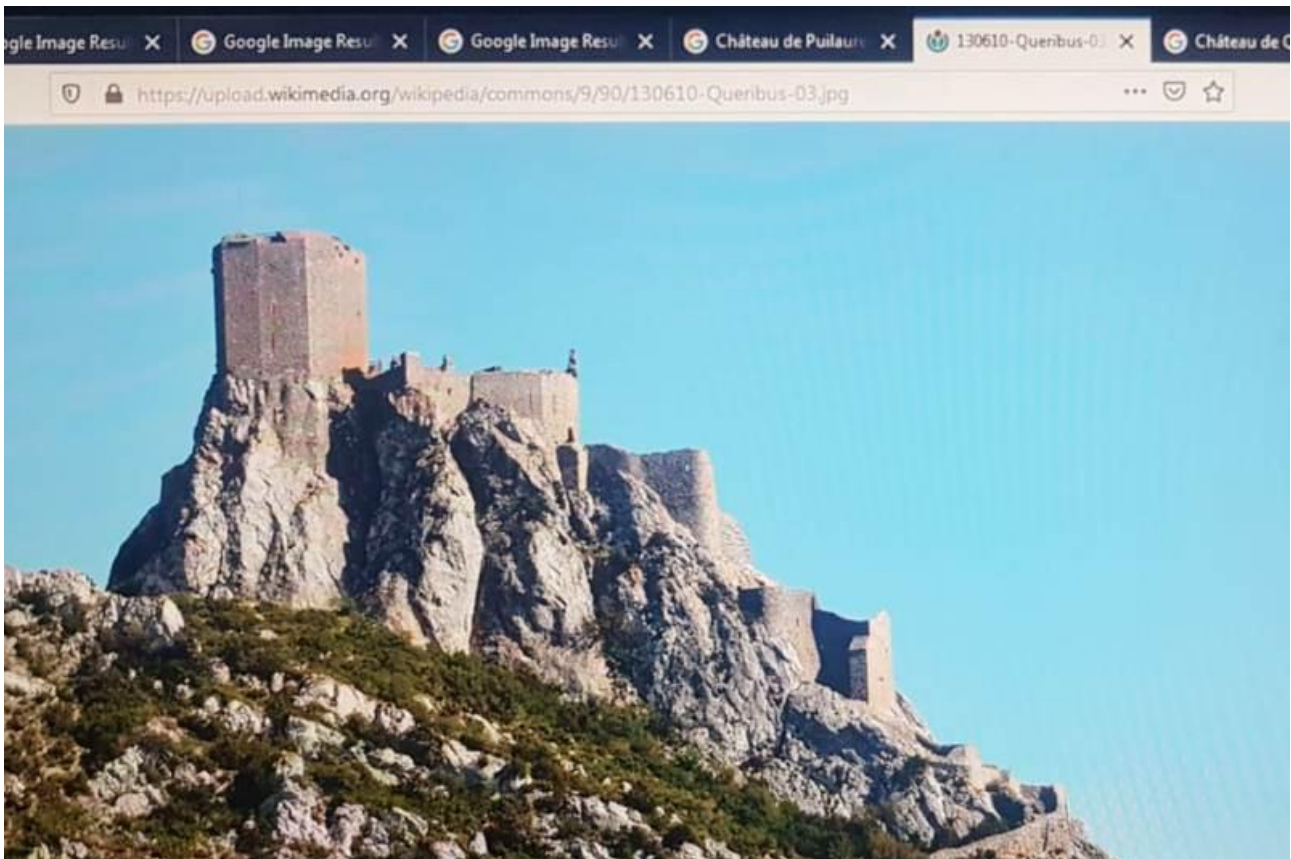

## Ogrodzieniec Castle - Poland

## Lindisfarne Castle - Holy Island - England

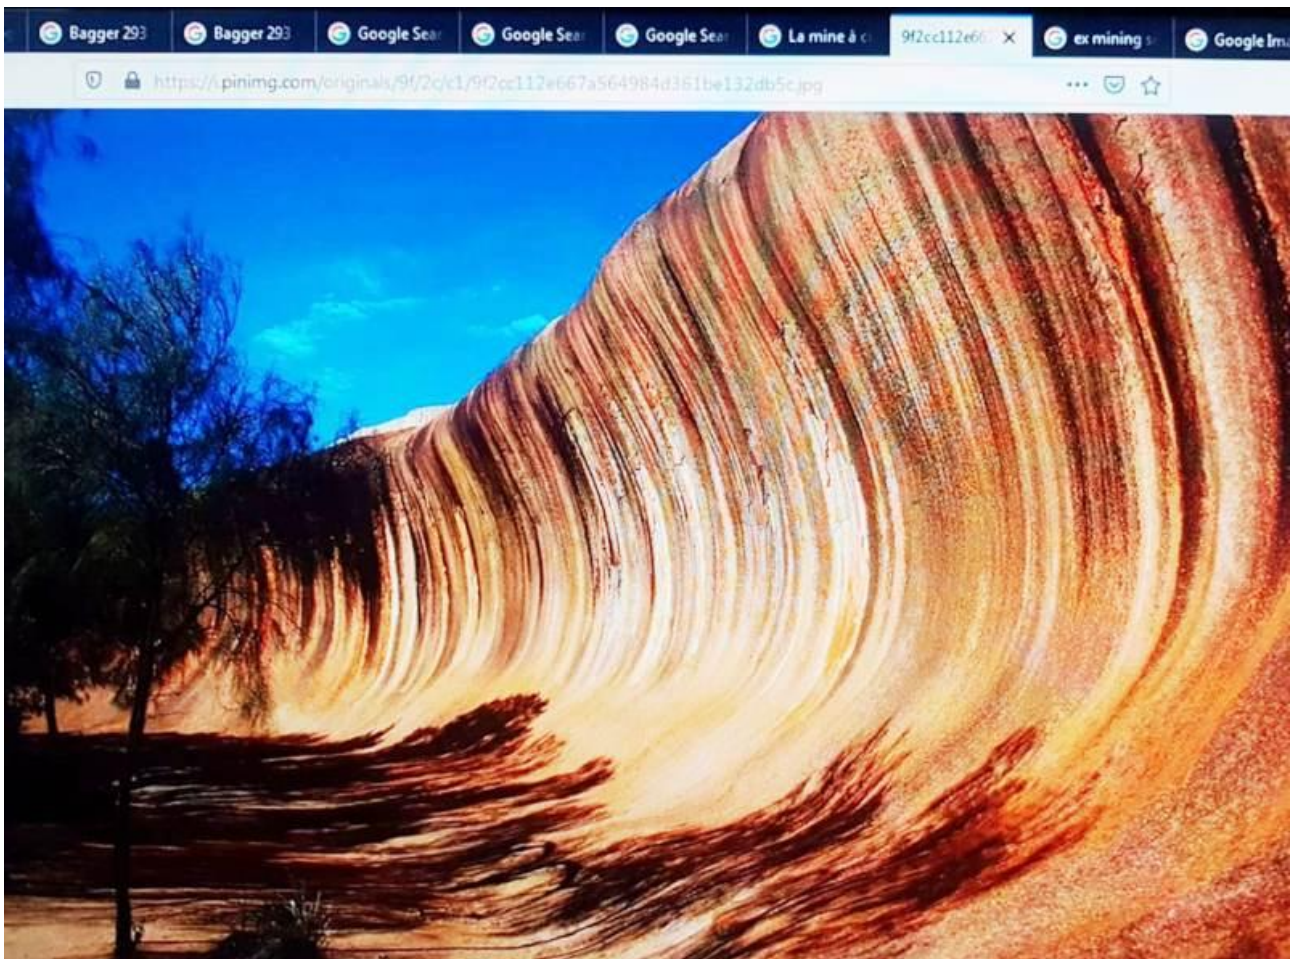

## Château de Quéribus - France

**Another option that researchers are considering - that maybe the clay was actually part of the outer building and has melted. Did the world suffer from a climate event that melted much ice and caused a flood and also caused many buildings to melt on the outside? Was it one event or several unrelated events – in different periods of history? Or did an attack cause it?**

**Wave Rock – Australia – is in the photo below - is Wave Rock - actually natural beauty?**

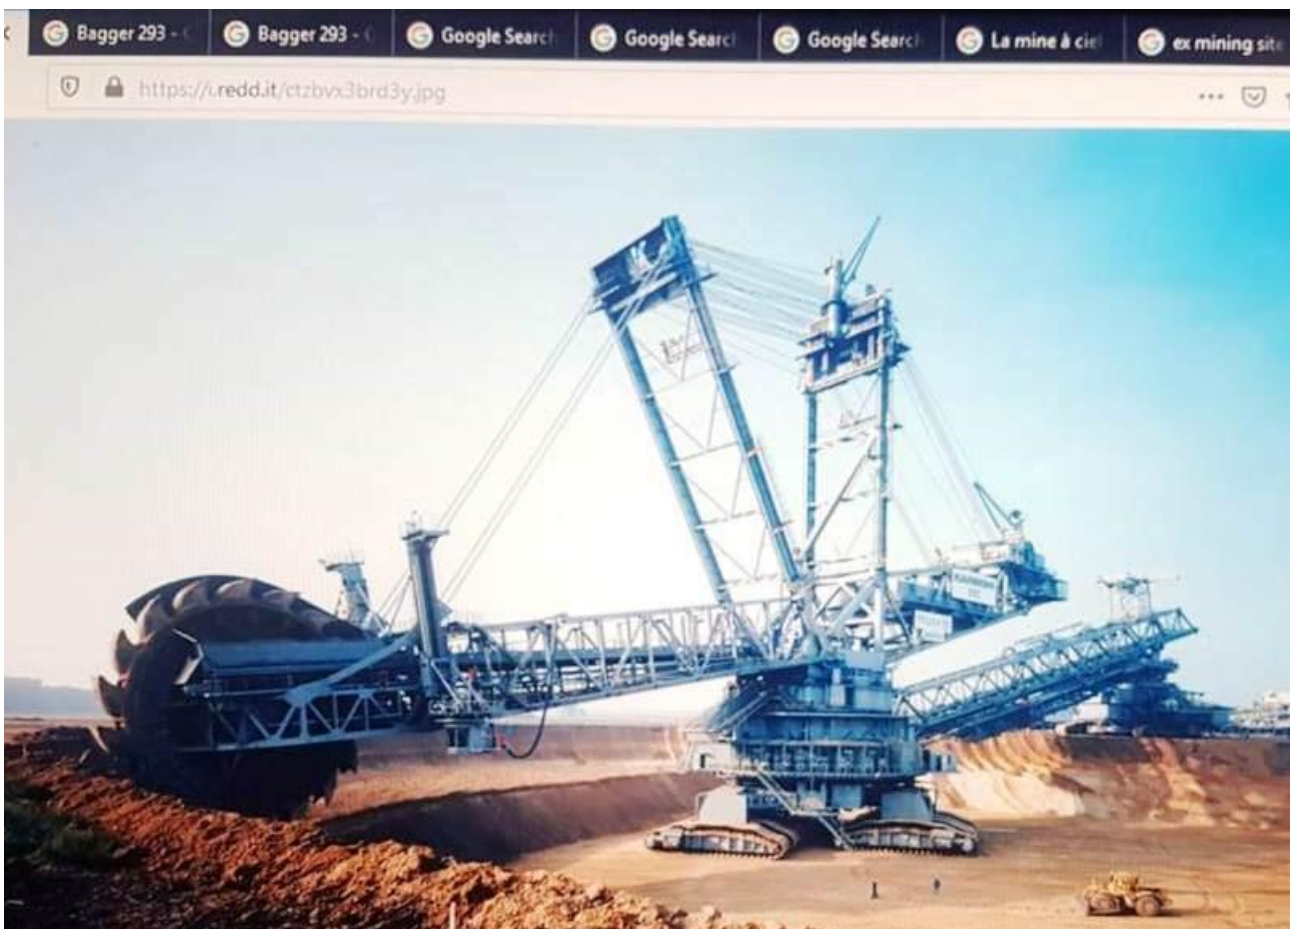

**Many of the world's natural beauty - or what we regard as natural landscape - may probably not be natural**

**formations at all - but the result of formations after mining a few centuries ago.**

**Researchers have compared many natural sites around the world with existing mines - and found that many of the supposed natural sites - are identical to modern mining sites.**

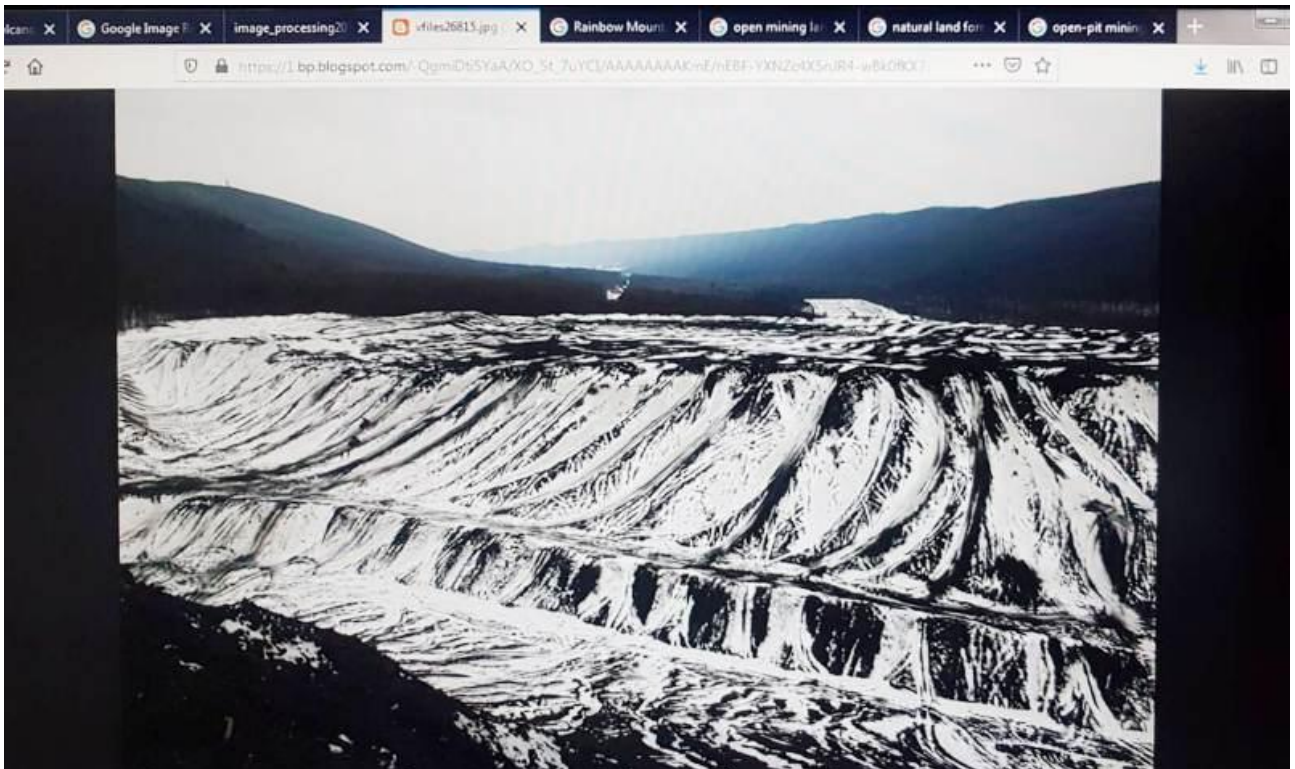

**In the photo below we can see a huge machine making marks in the landscape because of mining – and many mining sites around the world look like Wave Rock in Australia - after mining.**

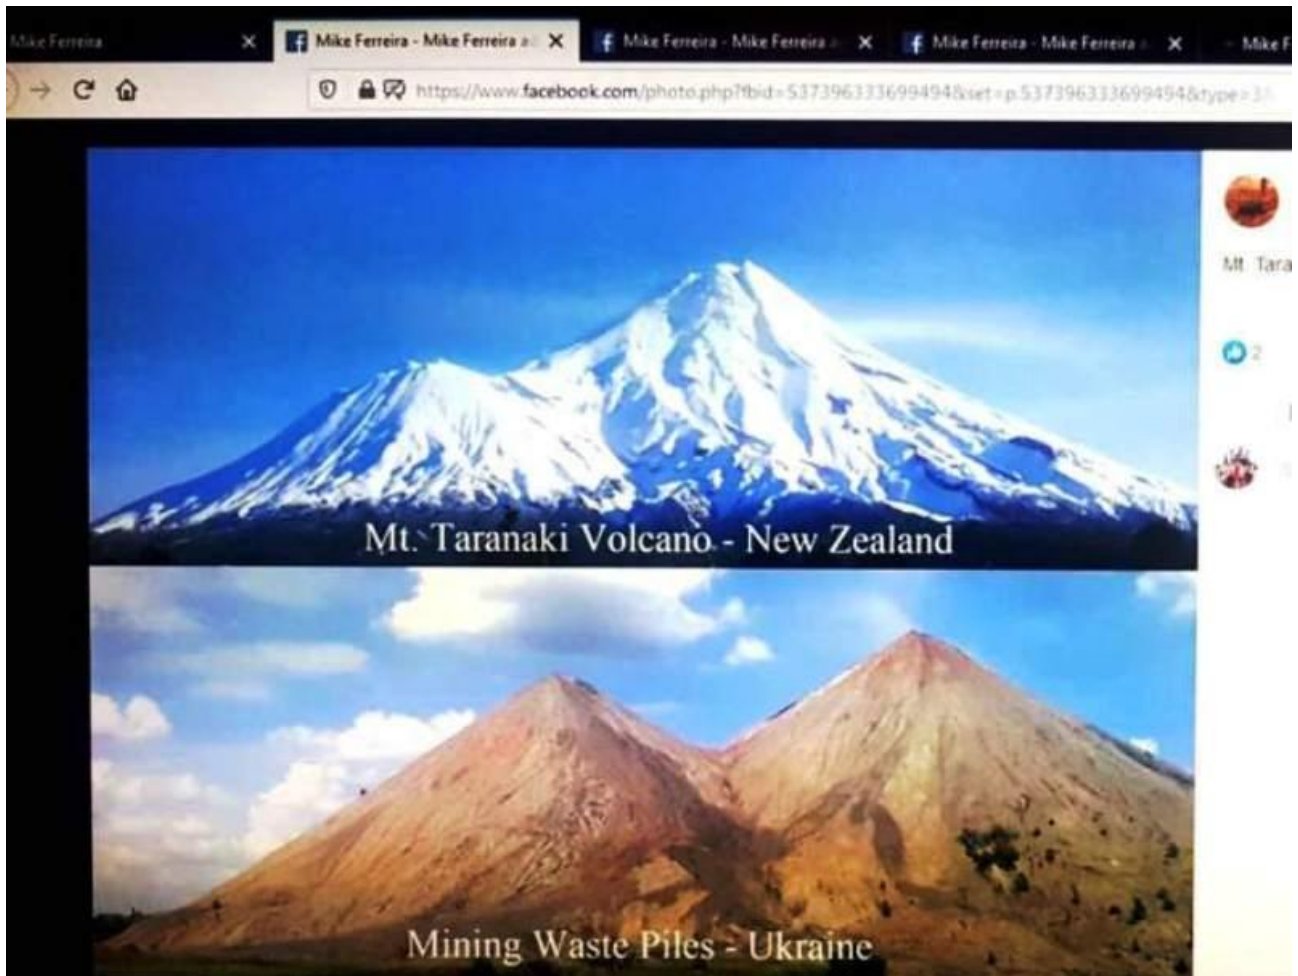

**Hverfjall volcano area - Northern Iceland**

**Researchers noted that many volcanoes around the world looked very similar to modern mining site remains – below are the remains of coal mine slag heap - Treverton - Pennsylvania - United States of America**

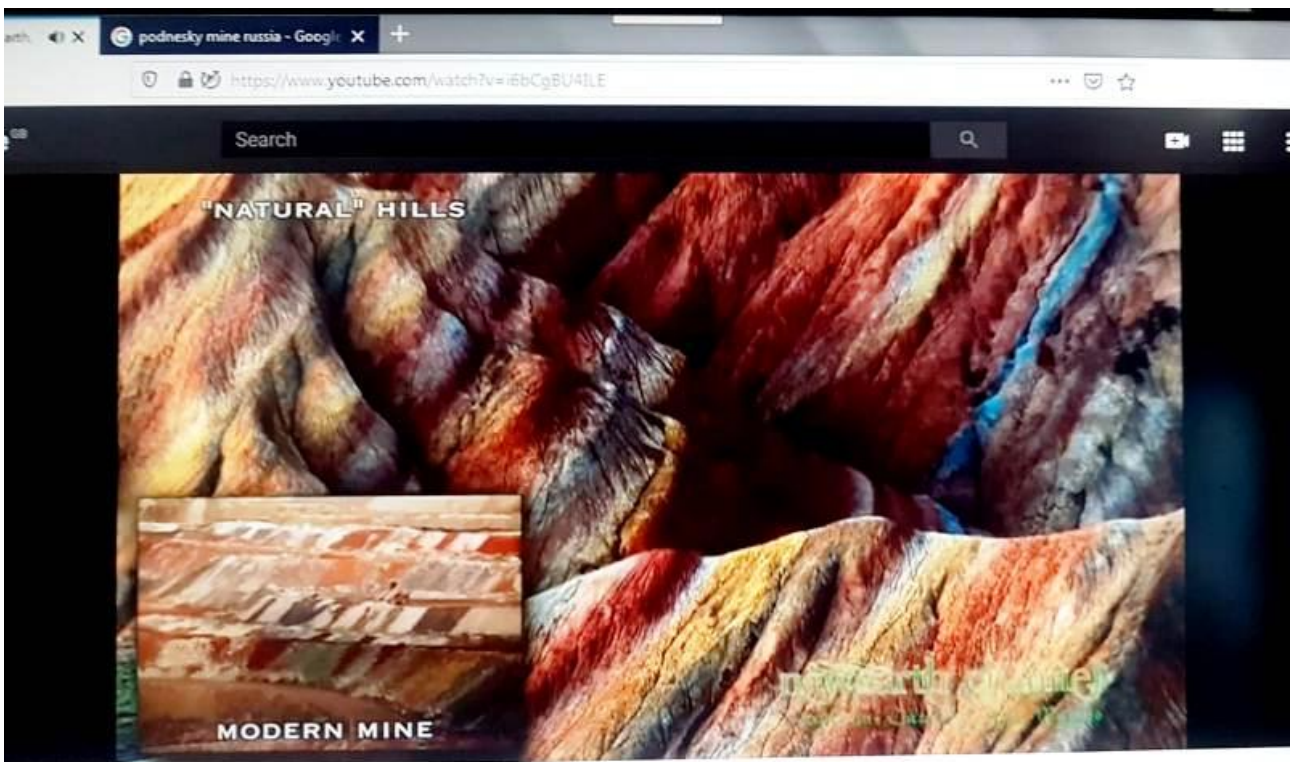

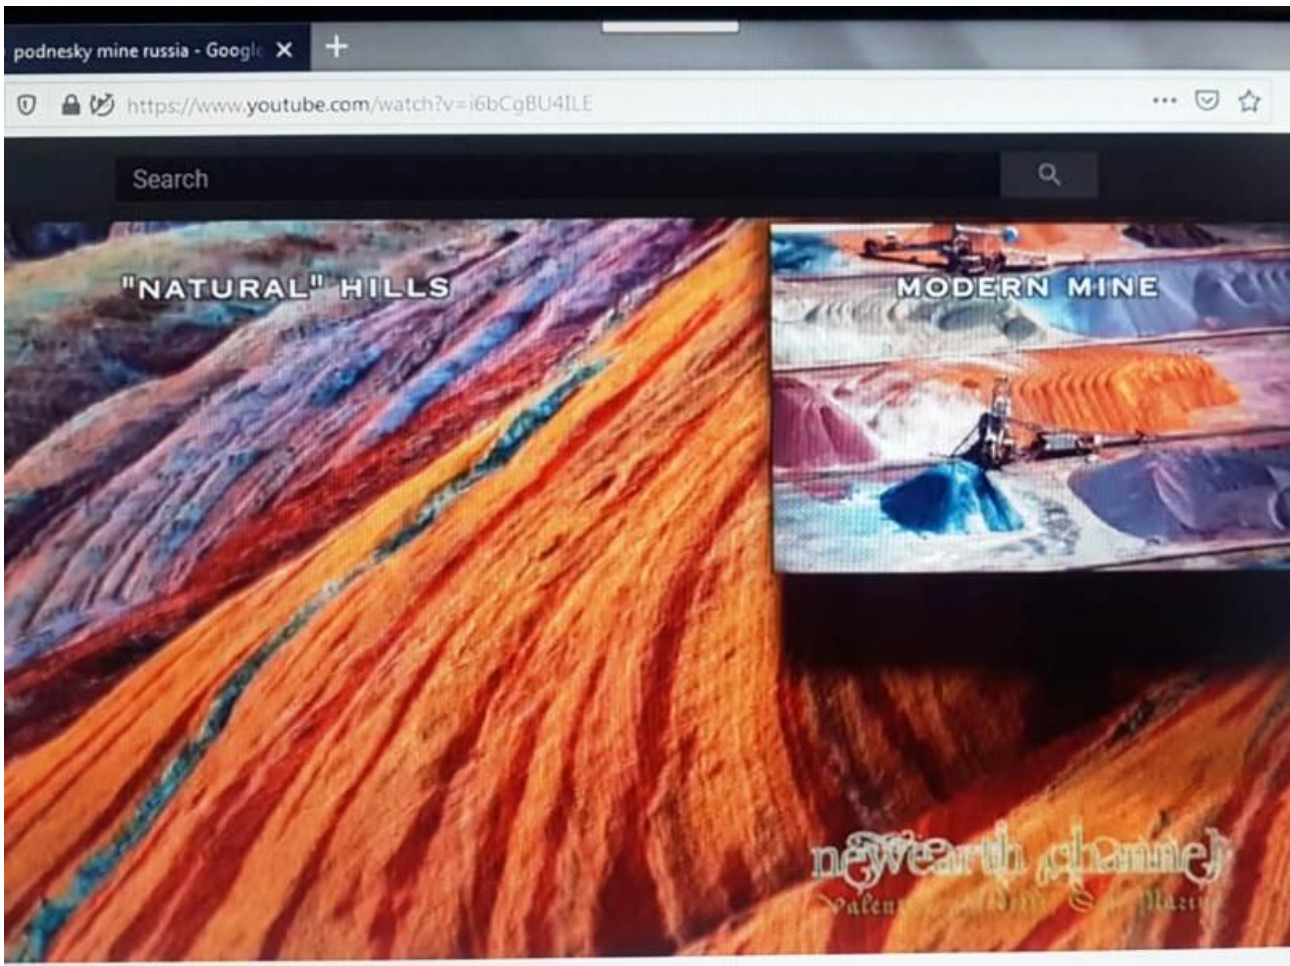

**Researchers have pointed out the huge similarity between mining landscape remains and supposed natural land formations - that are supposedly thousands of years old - such as volcanoes.**

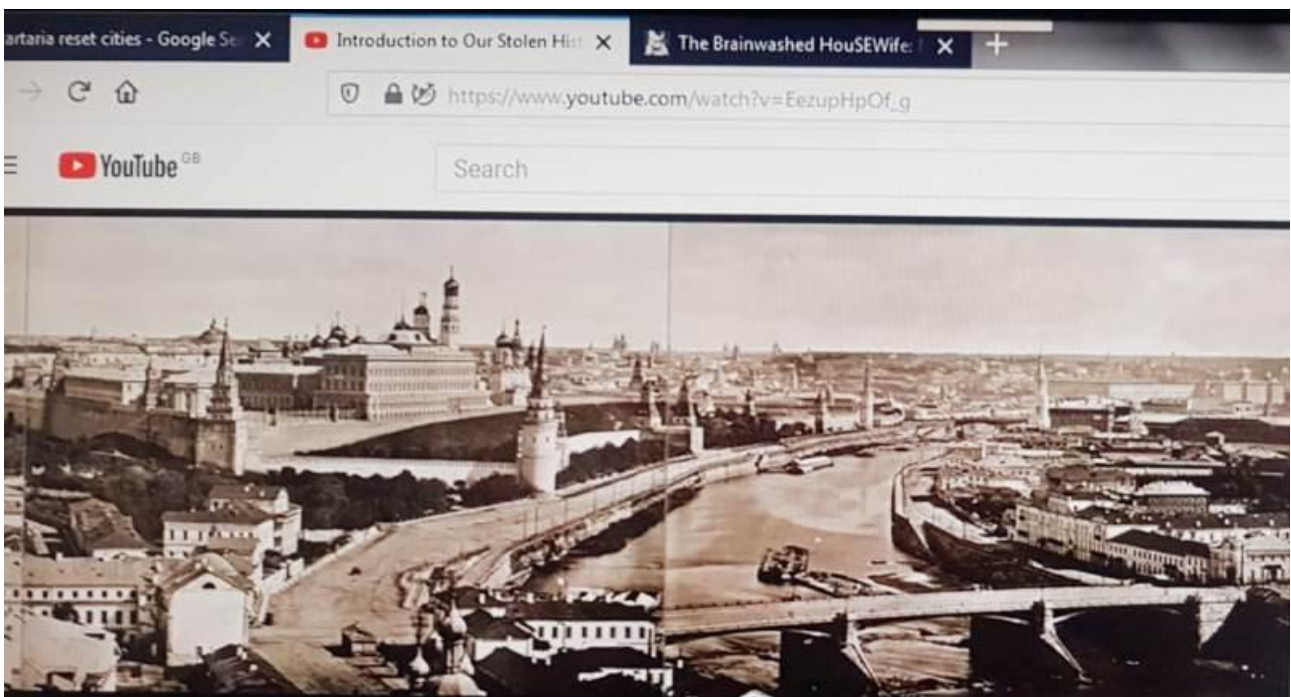

**Researchers are now investigating if these so-called natural formations - are the remains of industrial mining formations from the past.**

**Researchers are pointing out that we are not the only civilisation that needed the minerals of the earth and looking at the vast amount of remains from buildings of previous civilisations - it is normal to understand that previous civilisations also did mining on a large scale.**

**So the earth's landscape is probably not as natural as we think. Just by studying the alleged natural beauties - researchers have pointed out the similarity between the landscapes of mining - and alleged natural formations.**

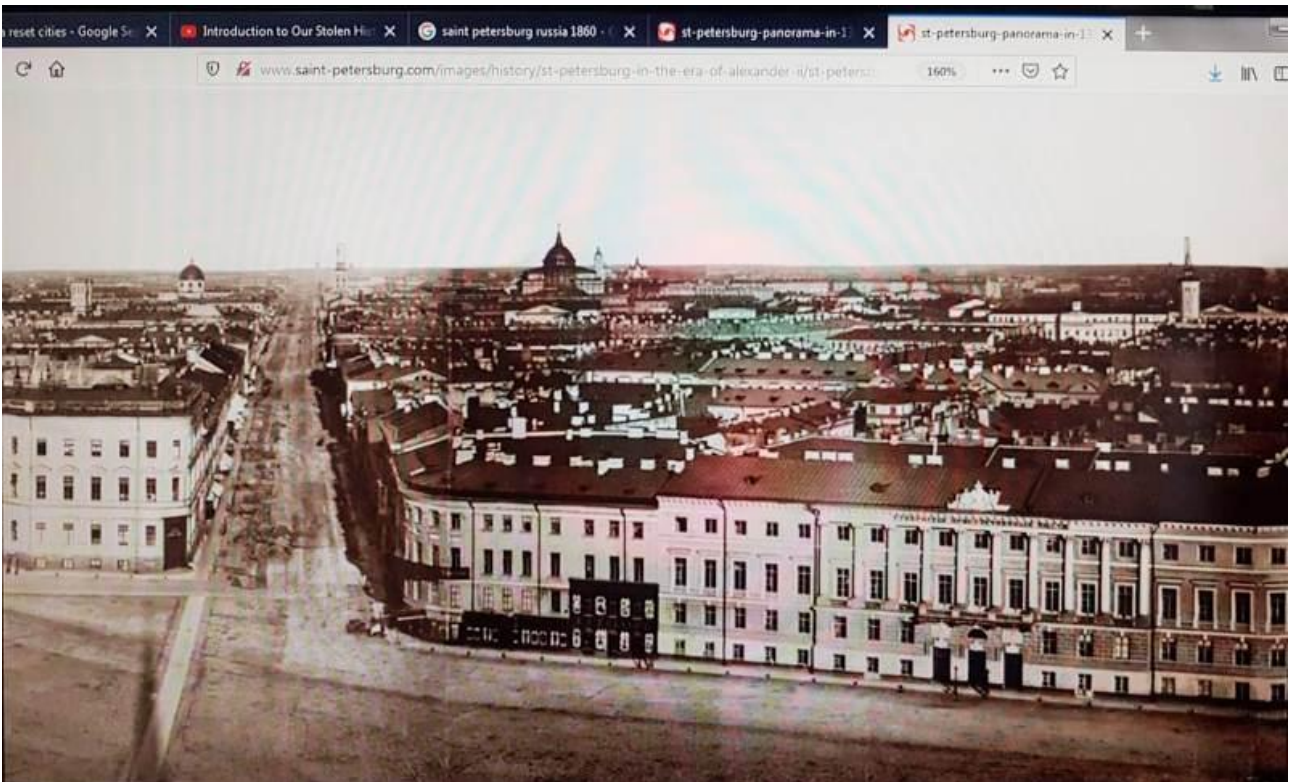

### **Moscow city - Russia - 1860s**

**Researchers have been examining many photos from around the world in the 1860s - and they pointed out that in many of the photos - many cities around the world look like ghost towns. They noticed the lack of**

**people or signs of life and lack of rubbish or smoke coming out of the buildings in many of the photos.**

**Saint Petersburg in Russia around this time looked very empty compared to the size of the city**

**There could be many explanations for it - and one the explanations was that many of the cities could have just been built brand new or the existing populations could have died as a result of a disaster or an event such as a mud flood - researchers are investigating this now.**

**Moscow city has many buildings buried or half buried underground and many of the buildings of that time were a lot bigger in size compared to human height today - this can be seen from the evidence of the size of the doors and the height of the ceilings. In Saint**

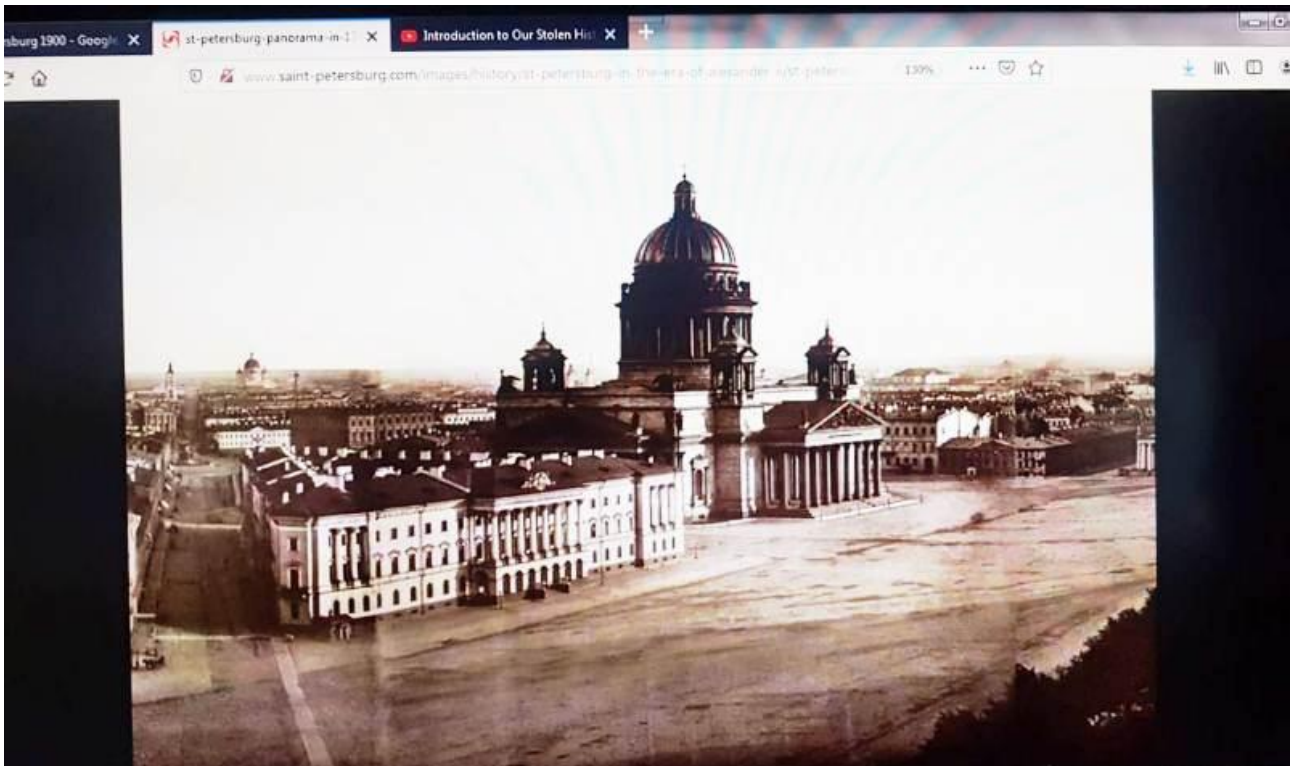

**Petersburg city also - many of the buildings are large in size and many buildings are half buried.**

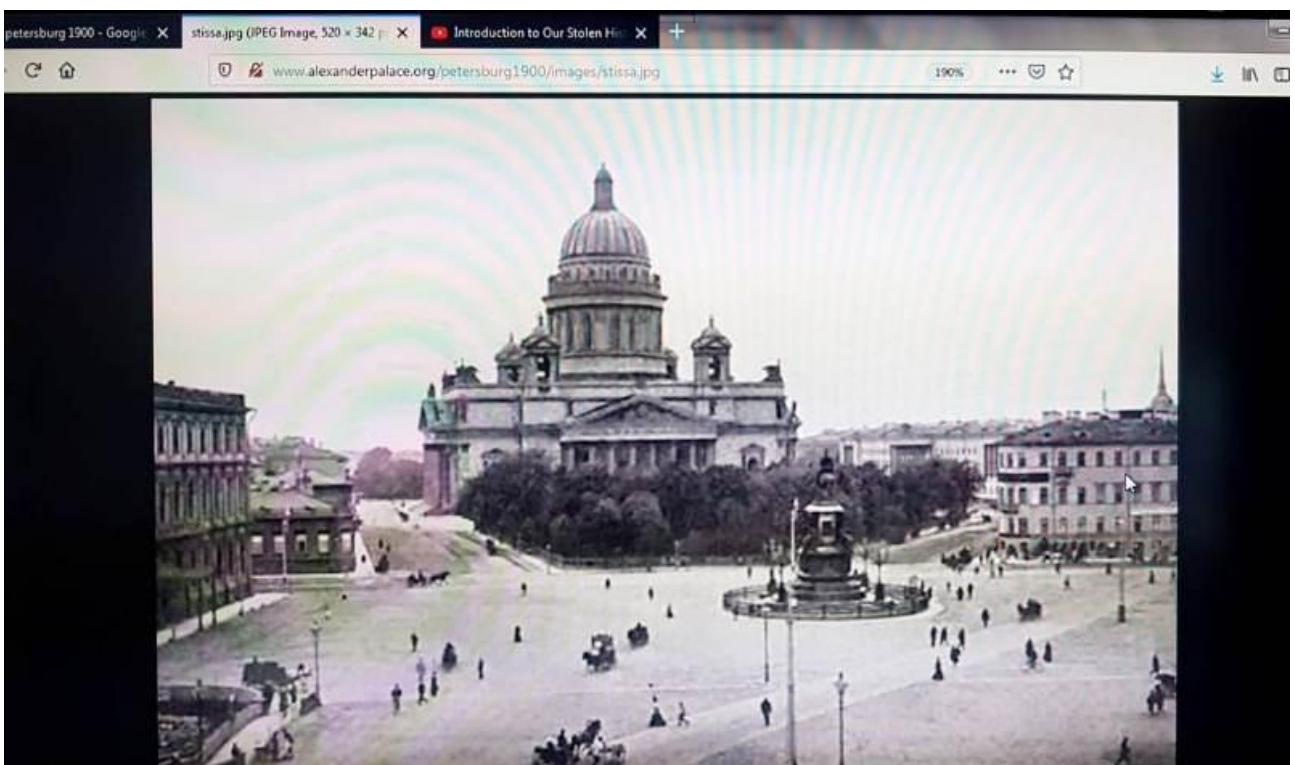

**Many researchers have claimed that maybe some of the places were brand new and just built or rebuilt. For example Paris is buried up to a certain extent and the underground city may be the original - and a new city was built on top of the buried city and many of the older buildings which were taller - survived above today's ground level.**

**Researchers believe that maybe several disasters or events took place in the past - that forced people to live in the countryside and many people went underground to live in holes and caves - and others were probably living in buildings that got buried beneath many of these cities. Maybe this could be a reason why we see - a lack of much people in some of the photos.**

## St Isaacs Cathedral area 1860 - Saint Petersburg

More people can be seen by the year 1900

## Helsinki Finland 1865

**Researchers examined many cities in Europe and found less people around the time of 1860 and a lot more near the year 1900 - the cities were very big but empty compared to their size. Researchers are examining if it is the photo quality - that may show the lack of people.**

**All these subjects regarding world history has now become known to researchers as the subject of Tartaria. Researchers have concluded that history is a lie and are now trying to understand true history.**

**Good luck if you wish to know more about these subjects. Below are books about these topics**

Tartaria - Fake Monuments  
Tartaria - Hitler  
Tartaria - History is a Lie
