Introduction

Do we live in the Matrix?

WHAT IF I TOLD YOU THAT: -

Everything in the world is a big lie

Many researchers have found evidence, which shows that the world that we live in, - has been invaded and taken over by an unknown power. This unknown power is hiding from us, and it is a very secretive power, - and it has thousands of people working for it - all over the world

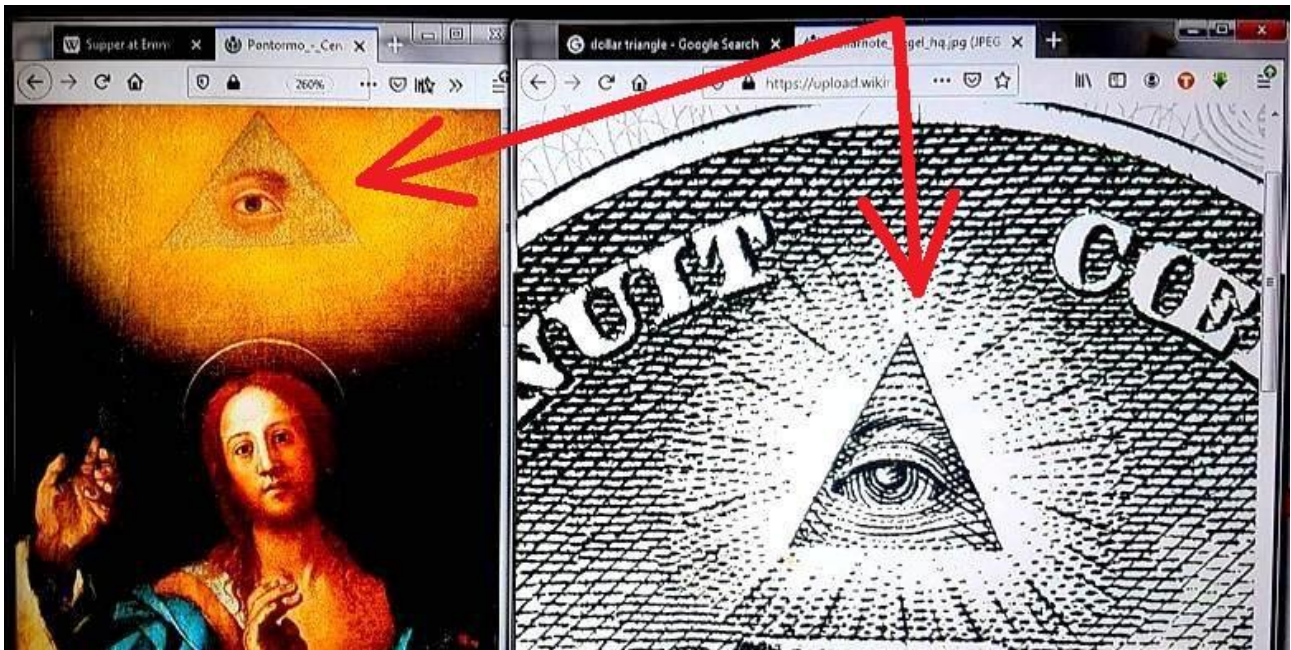

Researchers have found evidence which shows that much of what is happening in the world - has all been planned by an unknown secretive power many centuries ago. Evidence shows that this unknown power has taken over most parts of the world. It has not yet completely dominated our world and is doing everything it can to totally dominate humanity in every possible way. The war still continues

David Ewing Jr has travelled to over 2500 cities and places worldwide and has done much historical research over 20 years and has great knowledge of world history

Tartaria - the Matrix

Do we live in the Matrix?

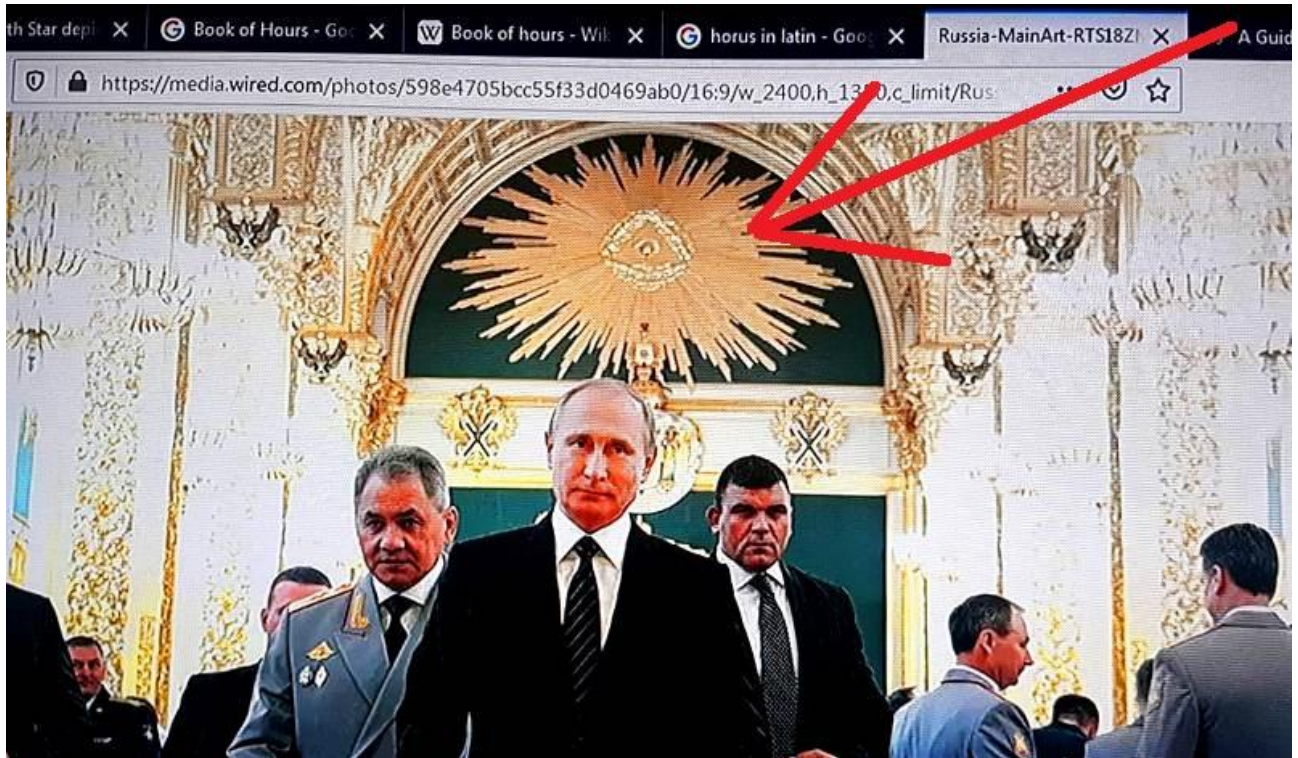

Is everything in the world a big lie?

In the 2 pictures above - we see the symbol of an eye which is surrounded by a triangle or pyramid, and the pyramid is surrounded by light or sunlight

The first picture shows Jesus Christ and is from the painting known as: "Supper at Emmaus" by Pontormo in 1525. The second picture is from the American dollar.

Many researchers have found that the dating of this painting has been falsified, but that is another long story

The photo above shows President Putin at the Kremlin in Moscow and the same symbols can be seen

These symbols are very common around the world, and are used by many organisations and by many people. These organisations and people, are connected to the ruling powers, and many of them are keeping secrets away from the common people of the world

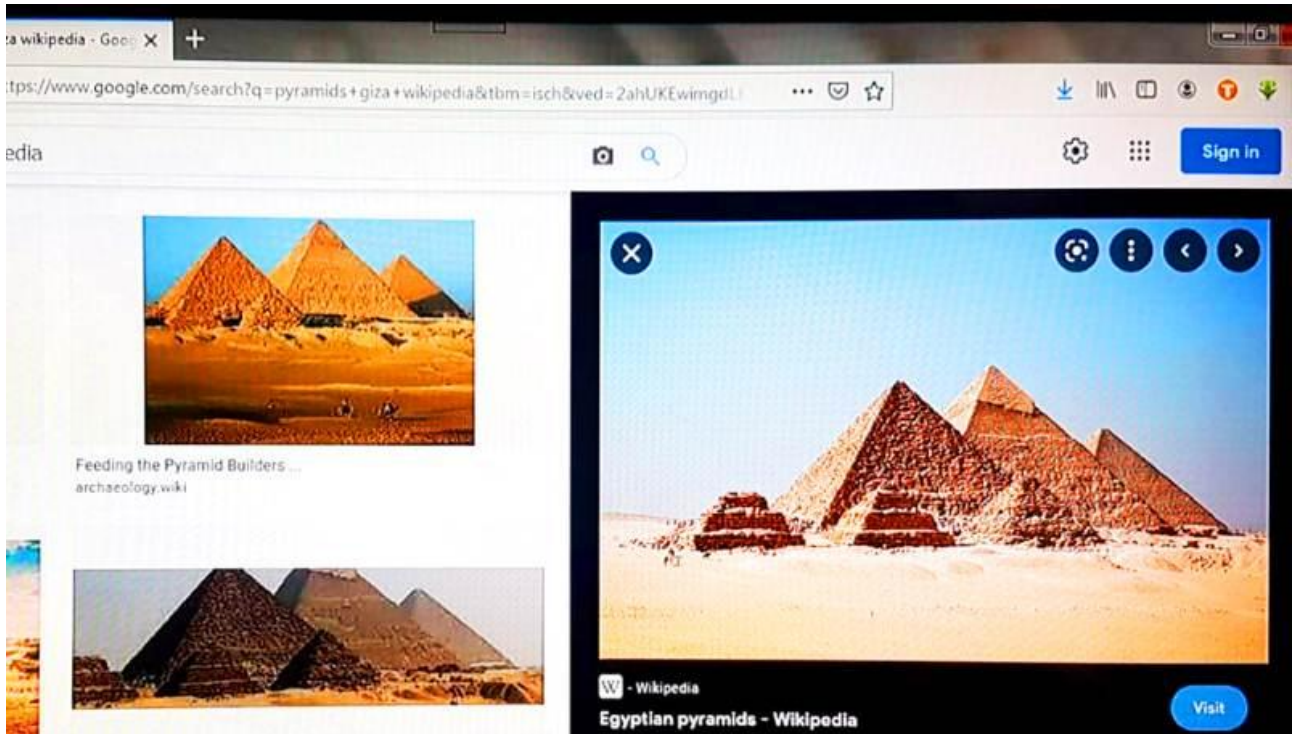

What are these secrets?

What are they hiding?

These symbols are clearly representing the new global power that wants to rule the world

Who and what is this power?

Why do they use the triangle or pyramid as a symbol?

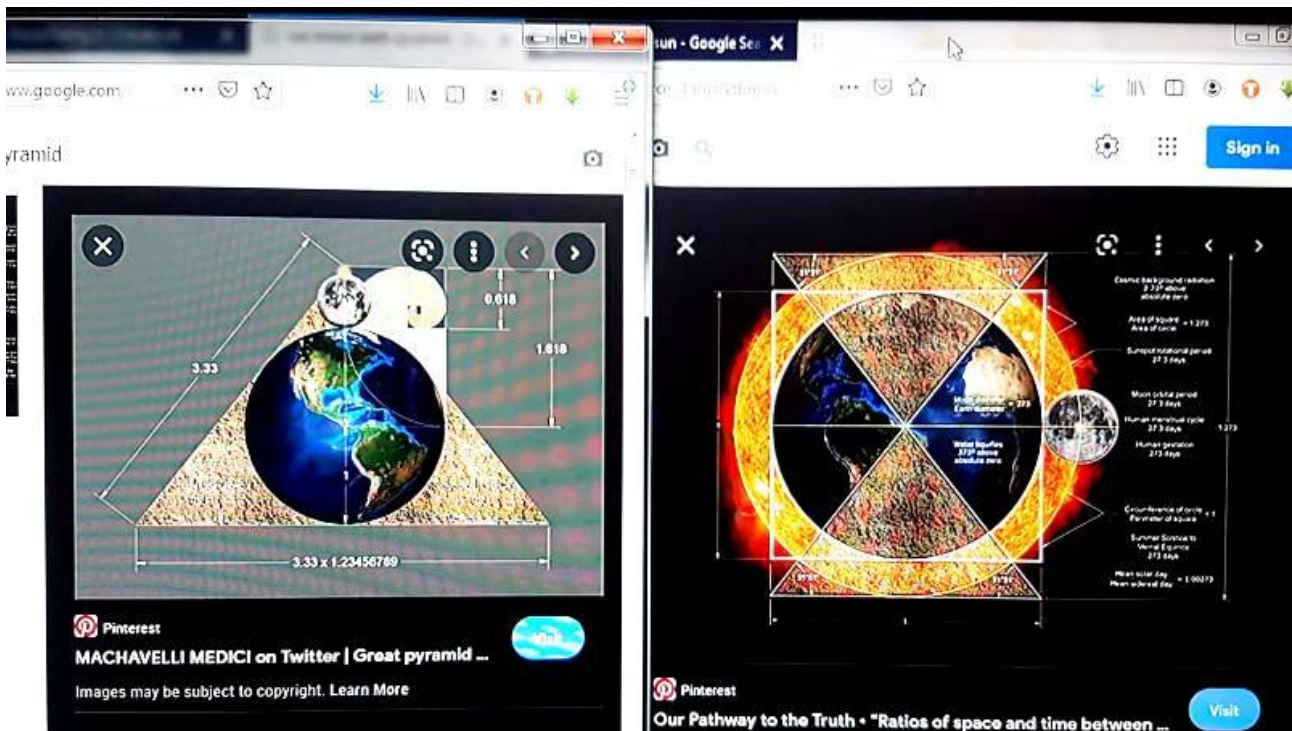

The most famous pyramids or triangles in the world are in Ancient Egypt. There are 3 famous big pyramids found in Giza, Egypt. The biggest pyramid or triangle is known as the “Great Pyramid at Giza”.

Historians that work for the people in power, say that the pyramids in Ancient Egypt are “ancient masonry structures”, and that most of them were built as tombs, connected to life after death.

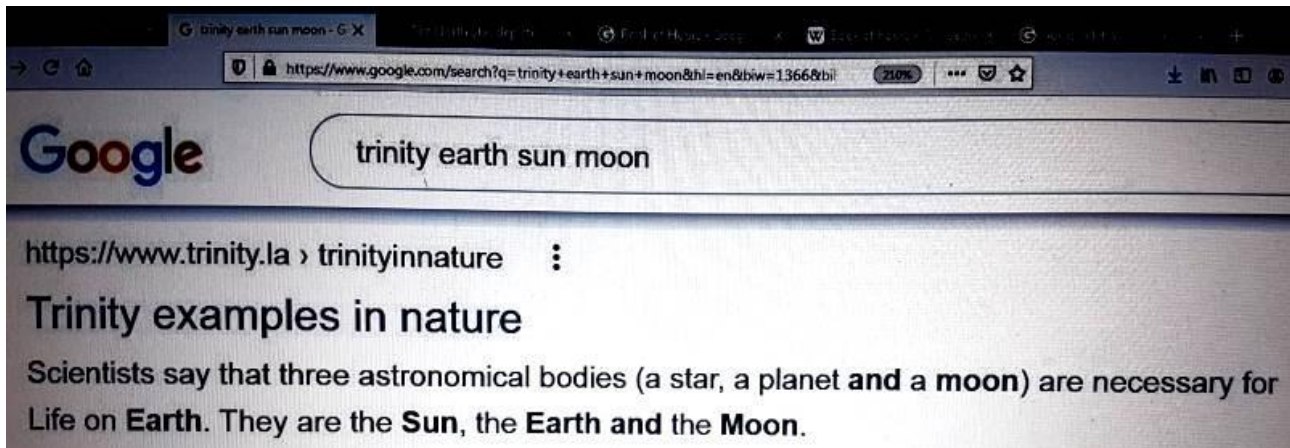

Researchers such as Anatoly Fomenko (a very famous professor at Moscow State University) and others have shown evidence that the history of Ancient Egypt was nothing but a lie

The photo above shows an example of diagrams that hundreds of researchers have shown around the world. Many researchers have found amazing mathematical designs which show a relationship between the sun, the moon and the earth, - and the “Great Pyramid at Giza”.

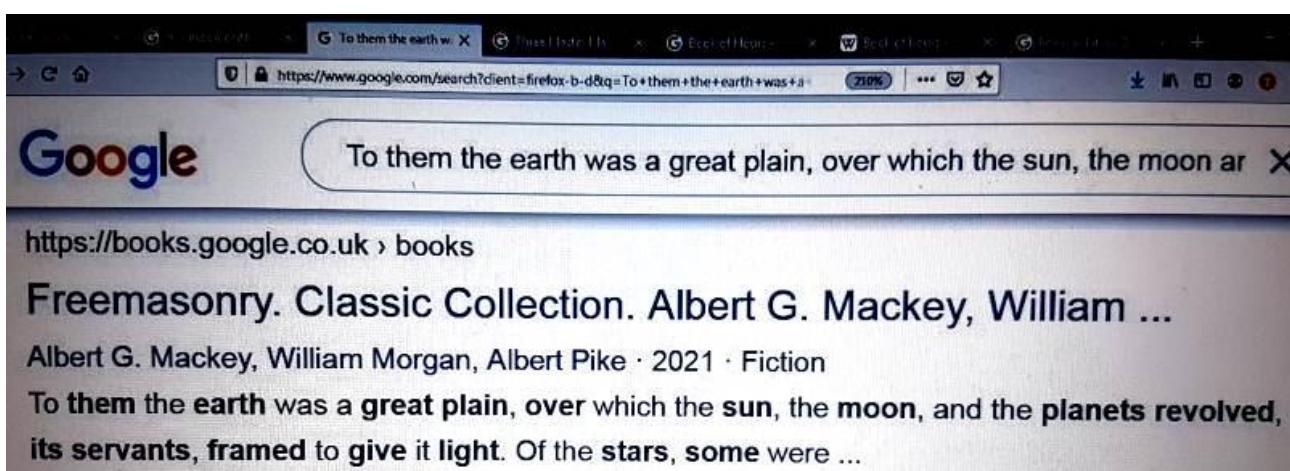

A lot of the mathematics is based on modern mathematical systems and not ancient systems. Also, a

lot of the mathematics is based on information that scientists have given. These scientists are working for the people in power. Researchers have found that a lot of their historical and scientific data was full of lies

It is easy to understand that 3 major things are needed for human survival. The Sun and the Moon and the Earth

These three, - are often known as a natural trinity

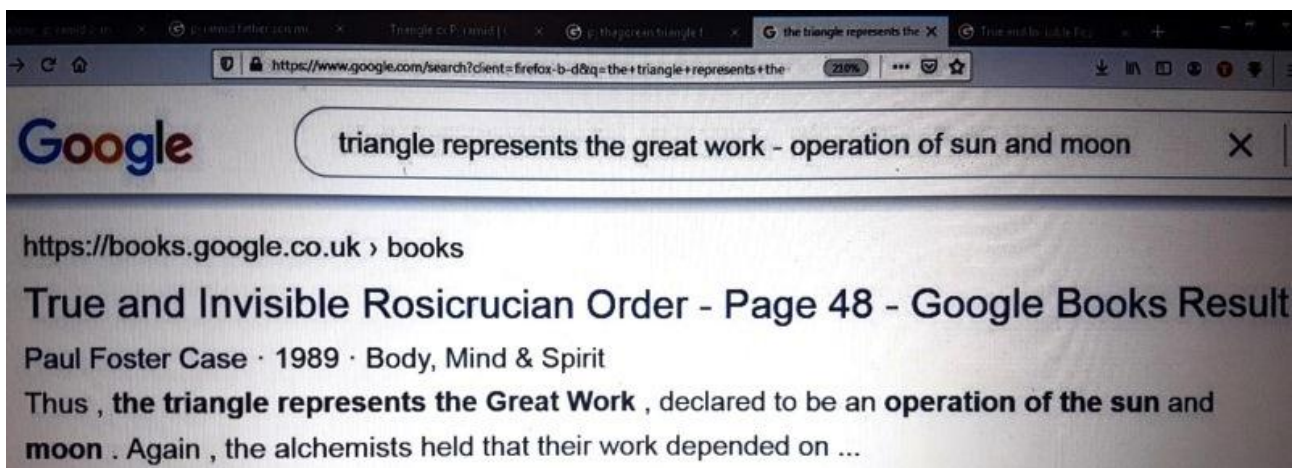

The Sun and the Moon and the Earth are the main symbols that are used in many organisations around the world. These organisations include the

Rosicrucians and the Freemasons and many Christian organisations and the ruling powers

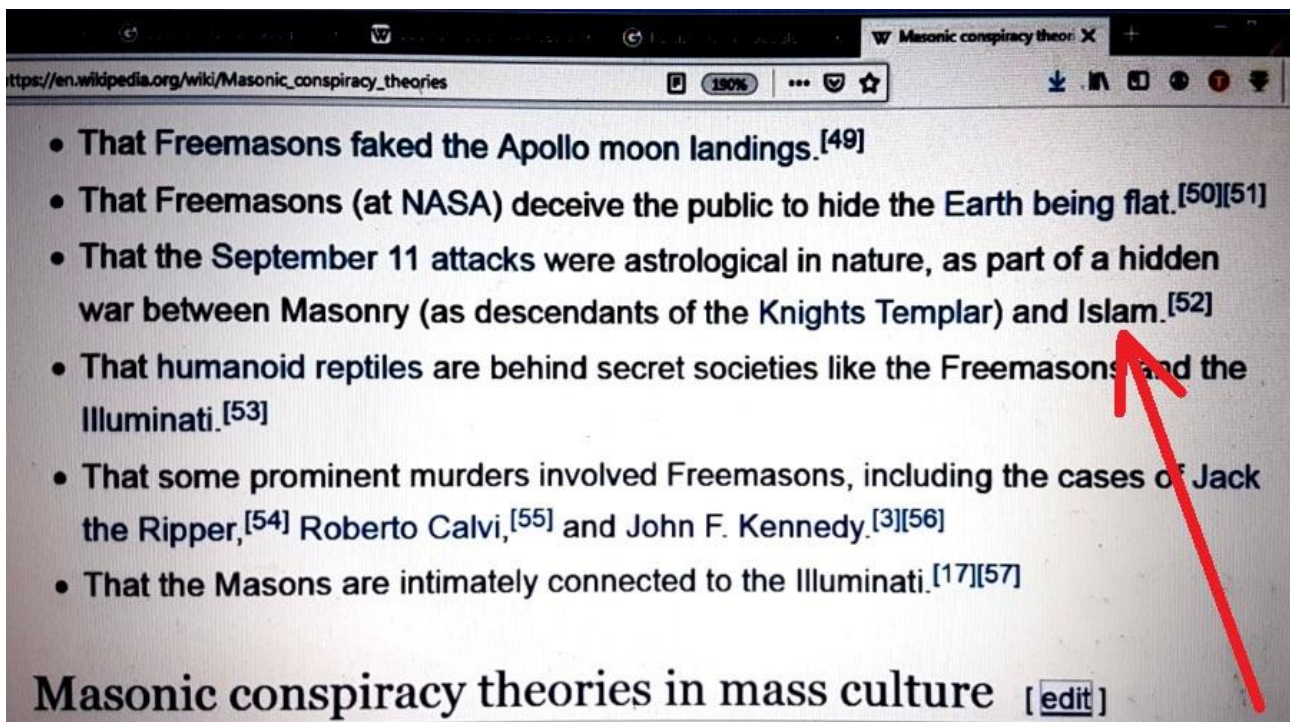

Organisations that are linked to the Kabbalah, point out that there is a natural human trinity on earth: - generally known as the Father and the Mother and the Son

For many secret organisations, the triangle is said to represent: - “the Great Work”. An example of such great work is known as the “Great Pyramid at Giza”. This “Great Work” is said to be an operation of the sun and the moon, over the earth

There are thousands of reports by private researchers around the world, which have shown much evidence to show that organisations such as the Rosicrucians and the Freemasons, - are connected to the Illuminati, or the ruling powers. Many researchers have presented much evidence to show that modern history is a lie and that the world today is controlled by the ruling powers

Thousands of researchers have written many articles and have made many videos to show that much of world history was a lie. Millions of people around the world do not believe what historians and the ruling powers tell the world. These people are called conspiracy theorists.

Historians and the media and the ruling powers say that they are the good people, and that they are honest, -

**and everyone else, such as the conspiracy theorists: -
are mad or wrong or are liars**

The biggest suspicious event that most researchers point to in recent world history: - was the attack on the World Trade Center complex in New York City, on September 11, 2001. Many researchers who investigated the subject, clearly noticed that there was a secret war going on between the people in power and Islam

Islam...? Why Islam?

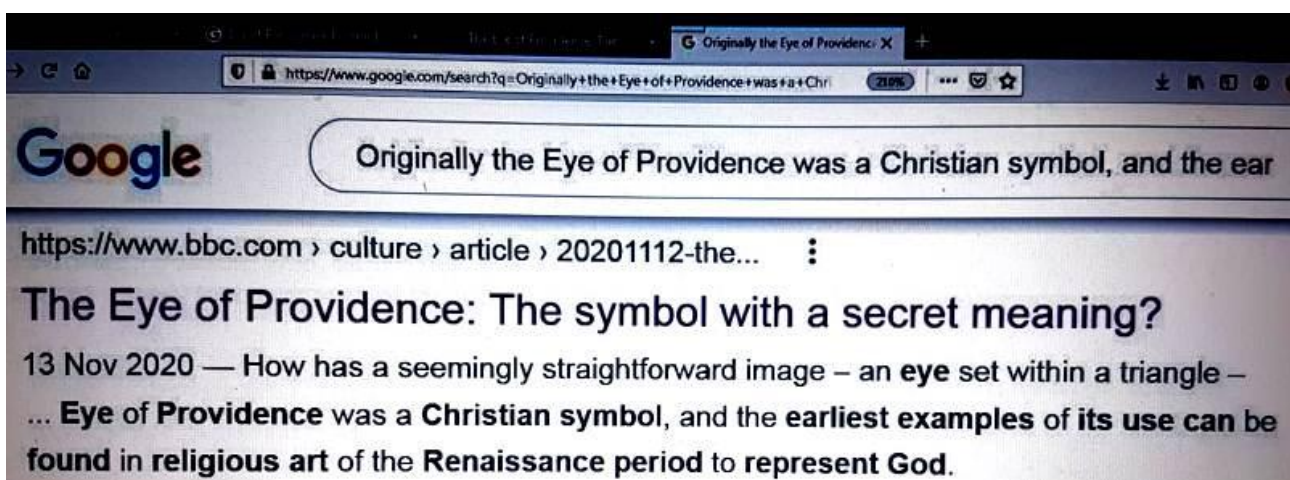

Many people think that the Freemasons and other organisations are the descendants of the Knight Templar. But, many researchers have found evidence which shows that the Freemasons and other organisations: - are not descendants of the Knights Templar, but descendants of the enemies of the Knights Templar, - but that story is too long to mention here

A serious question that researchers asked was: - why was the symbol of the eye and the pyramid and the sun found in Christianity?

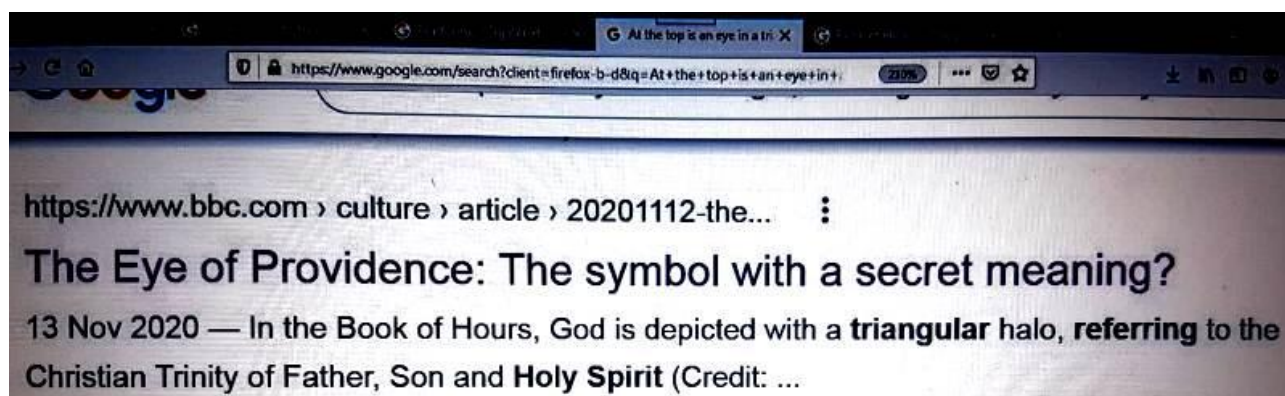

A lot of evidence has been found, - which shows that Christianity was created during the Middle Ages and the Renaissance. Professor Anatoly Fomenko has shown much evidence which shows that Jesus Christ lived in the 11th or 12th century, - and that Christianity was created after this time. This means that Jesus Christ lived around 800 or 900 years ago, - and not 2000 years ago

Professor Anatoly Fomenko has also shown evidence that the Book of Revelation in the Bible was not old, and was written around 500 years ago in the 15th century

Historians, who work for the ruling powers, have told the world that the eye inside the triangle or pyramid was a Christian symbol that is used to represent God. This symbol only started to be used during the Renaissance.

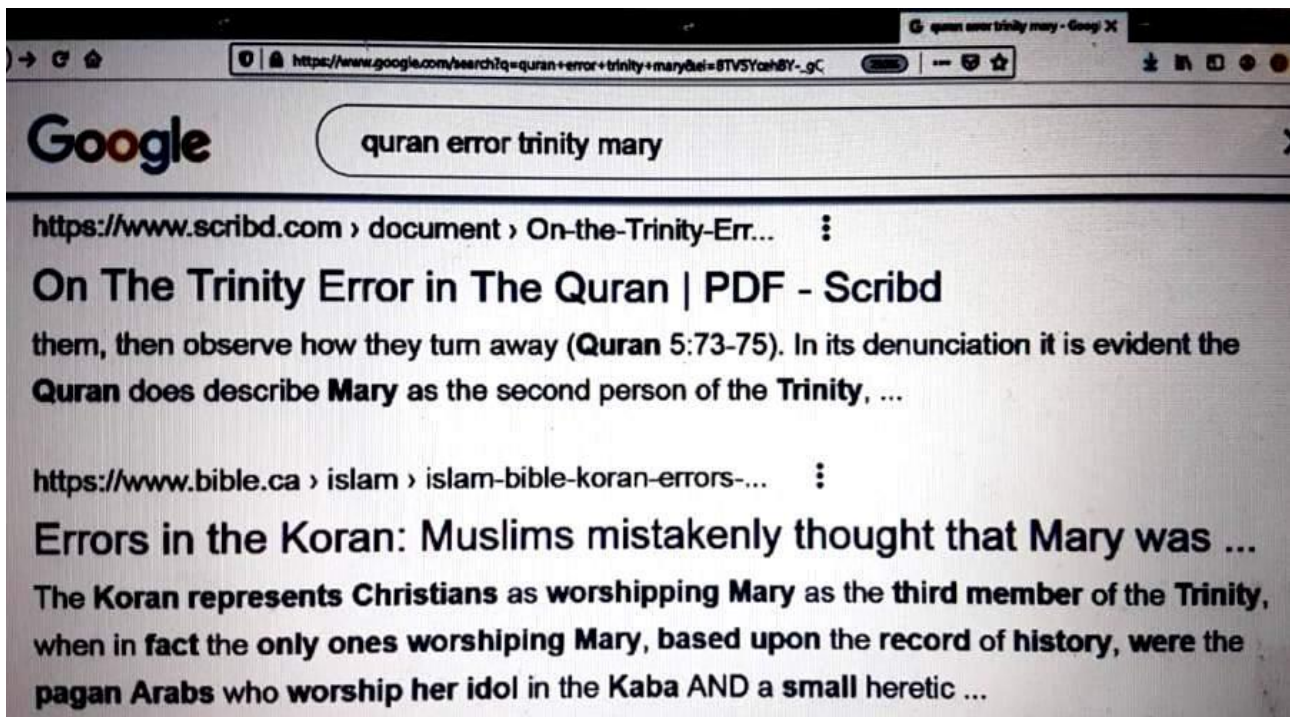

What “god” did this eye represent?

Historians have told the world that the triangle seen in Christian art and Christian Churches represents the Trinity: - the Father, the Son and the Holy Spirit. The symbol to represent the God of the Christian faith during the Renaissance was a triangle with light around it. For example, - this triangle can be seen in the “Book of Hours”

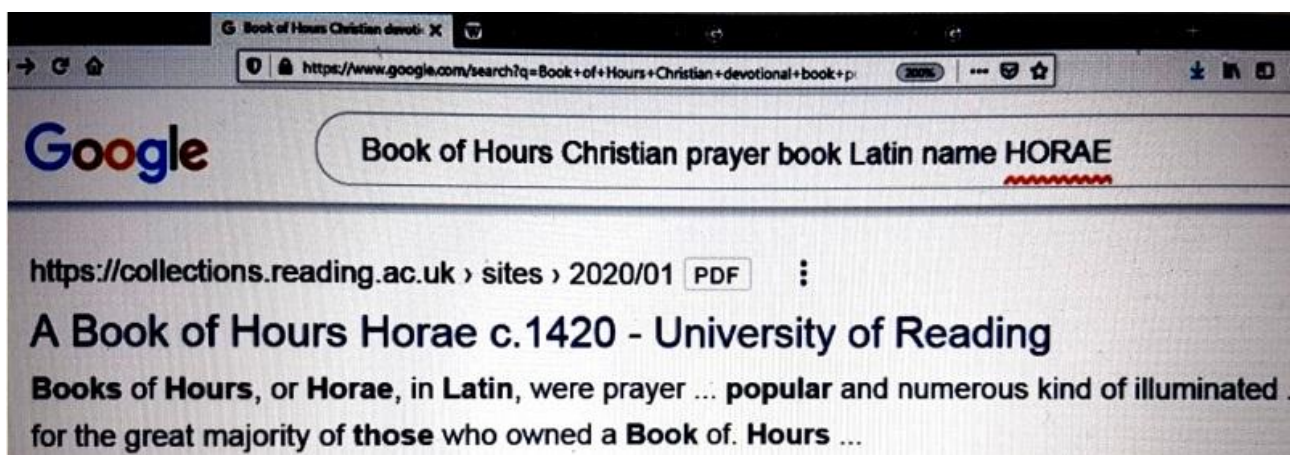

**Was the “Book of Hours” really a book for Christians?
Was the Christian religion really about Jesus Christ, or -
are they telling lies?**

The trinity or the triangle or pyramid, was clearly a major symbol of Christianity in the past, and is also a major symbol today

Islam was clearly at war with the followers of the Trinity or the triangle in the past. It is also clearly at war with the ruling powers today. The main book of Islam is called the Arabic Koran

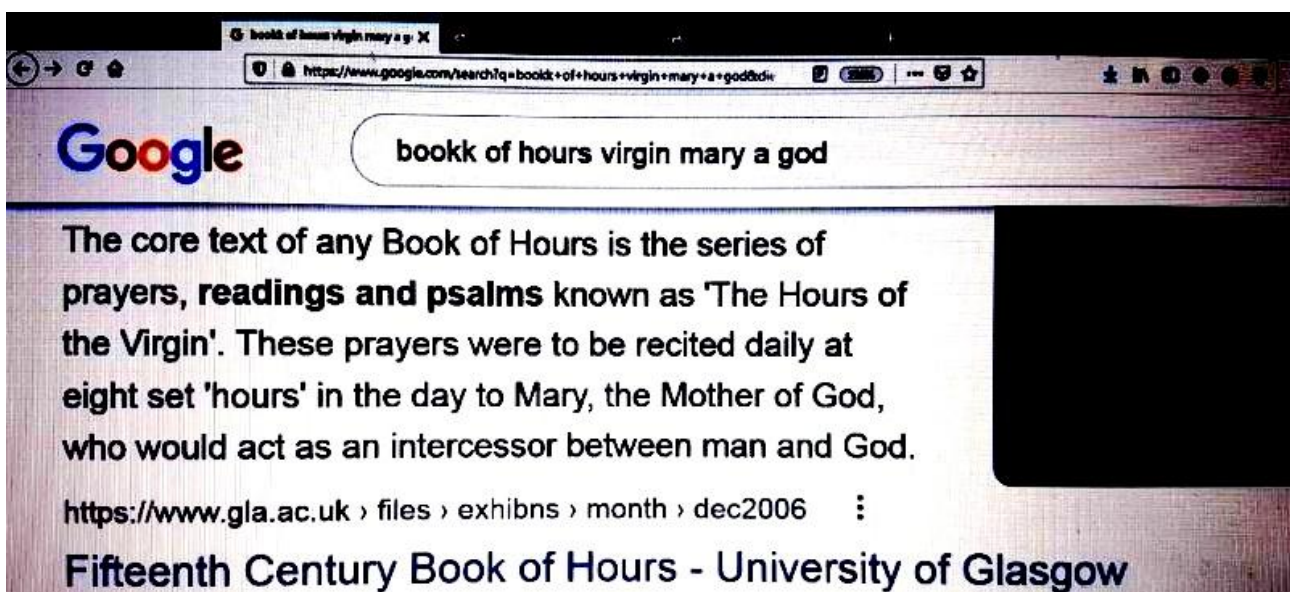

The Arabic Koran says that Christians in the past prayed to God and to Jesus Christ and to the Virgin Mary. Many historians and the media and Church organisations today, - have said that this is an error and that the Arabic Koran was wrong

The “Book of Hours” was originally written in Latin by monks who worked for the Churches. The Churches worked for the ruling powers of that time. The “Book of Hours” was originally for monks and nuns and other people, - who were under the control of the official Churches.

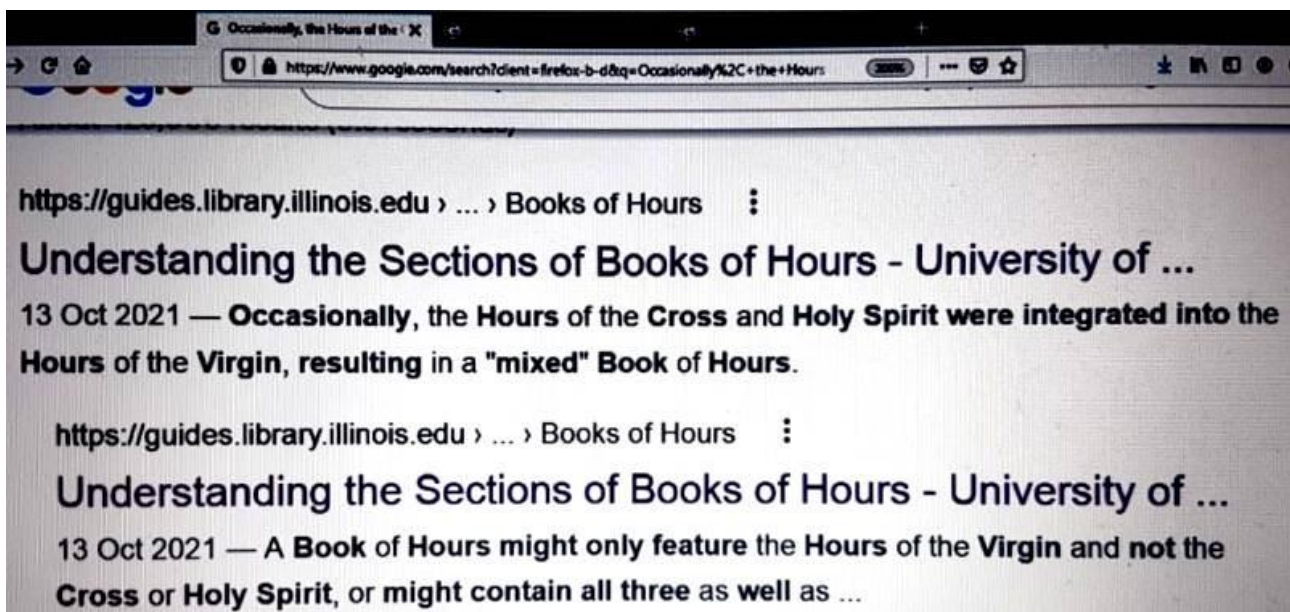

The Book of Hours was known as the “Hora or Horae”

The “Book of Hours” was created during the Middle Ages, and was amongst the most important and most widely used books, amongst the followers of the officially controlled Churches in Western Europe during and after the Renaissance. Many of these followers were forced into Christianity, but that story is too long to mention here

The heart of the “Book of Hours” focuses on the Virgin Mary. Prayers were ordered by Churches to be said

directly to the Virgin Mary, who they called the Mother of God

The Catholic Church and its allies controlled most of official Christianity in Europe at the time. These Churches at that time prayed to:

**God - God the Father
Jesus Christ - God the Son
Virgin Mary - the Mother of God**

They were the 3 most important characters in the Churches at the time. Evidence shows that the Cross and the Holy Spirit were not as important as:

God the Father, Jesus Christ and the Virgin Mary

The original 3 characters that Christians prayed to, was clearly: - God the Father, Jesus Christ and the Virgin Mary. The Cross and the Holy Spirit slowly entered into

the prayers of official Christian Churches. How did they enter the Christian religious system and when and why, is a very serious question

The evidence shows that the Arabic Koran spoke the truth at the time regarding: God the Father, Jesus Christ and the Virgin Mary. The Arabic Koran was correct to say that they were praying to the Virgin Mary. Historians and the media and Church organisations who deny this today are nothing but liars. Why were they lying...?

The “Book of Hours” was clearly amongst the most important Christian books during the Middle Ages. It was clear from the evidence found in these books that the Virgin Mary and Jesus Christ and God, were the 3 major characters that people prayed to at the time. This was clearly the original triad or trinity: - the Father and the Son and the Mother

The triangle symbol was clearly used in the past by the people who wanted to rule the world, and these people were clearly the creators of the official Christian Churches at the time. For example: - one of these important masters is known as the Vatican.

The triangle symbol is still here today, and is used by the people who want to rule and totally dominate the world

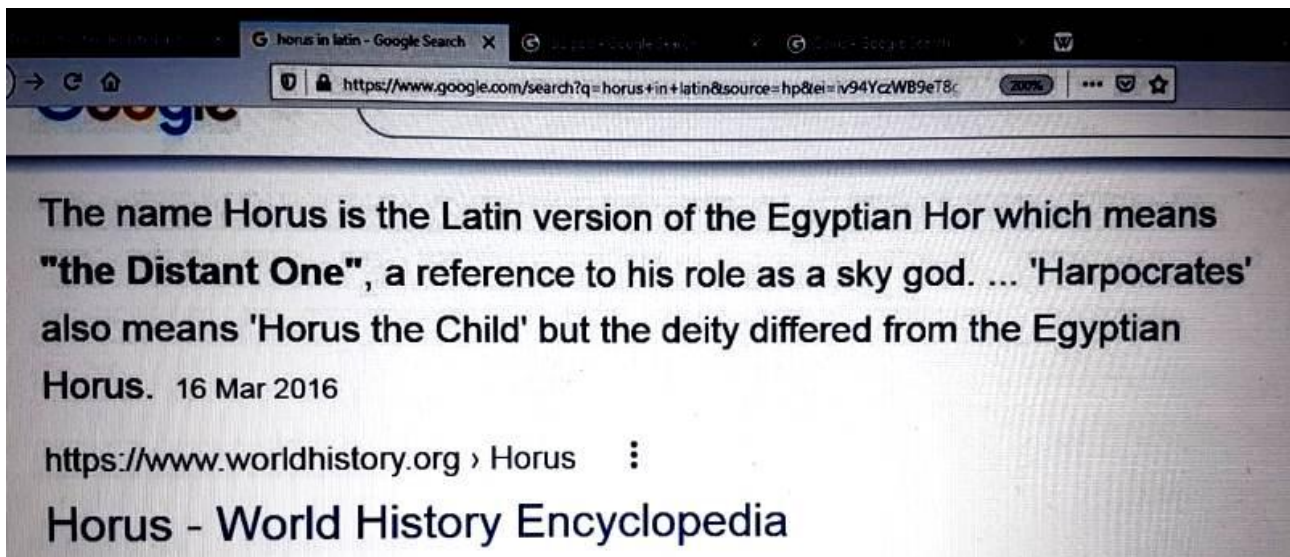

Many people noticed similarities between Christianity and Ancient Egypt

For example: - the pyramid or triangle of Christianity - the Great Pyramid of Giza

What was the relationship between Ancient Egypt and Christianity and American Dollar?

The “Book of Hours” was originally written in Latin and was called the book of “Hora or Horae”. Was this really a Christian book? What is Christianity? Was it really about Jesus Christ?

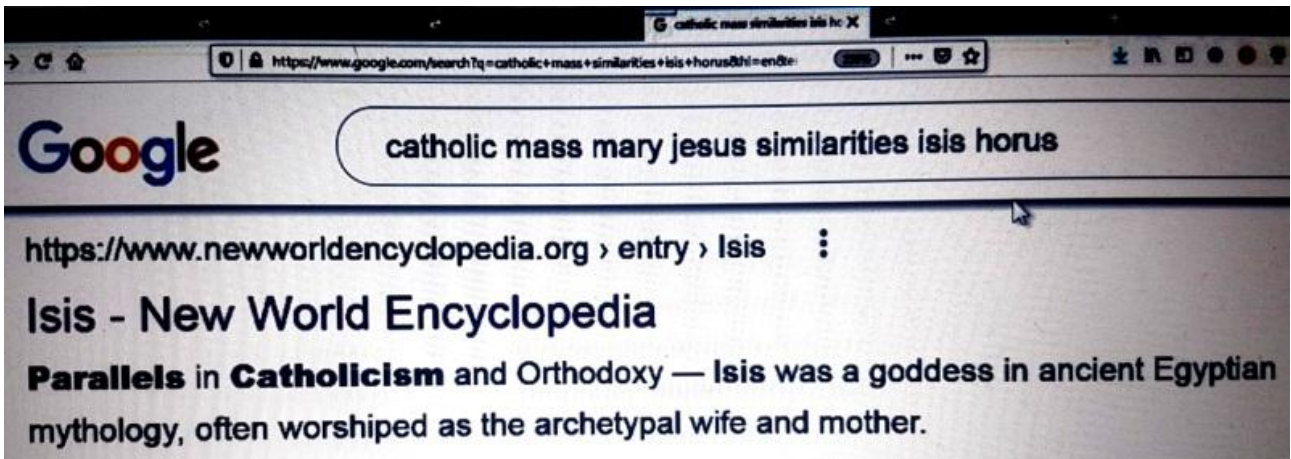

The Ancient Egyptians had an important character who they called Horus. Horus is the Latin word for the Ancient Egyptian word “Hor”. Researchers noticed the similarities between the words:

Horus and Hours

Hor and Hora and Horae

They were clearly: - similar words that were pronounced differently, by different people. Their meaning was given by the people in power. These people include the priests, who worked for the Churches and the city governors and historians

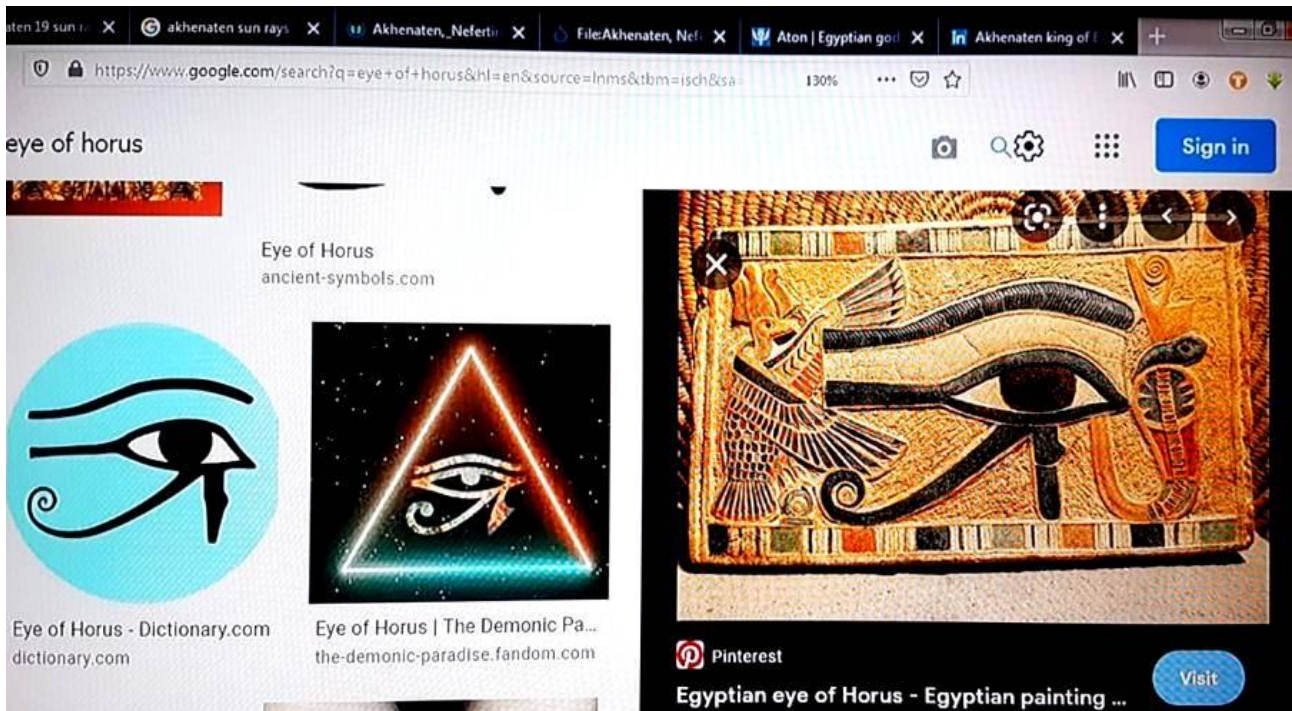

Was the “Book of Hours”, the Book of Horus?

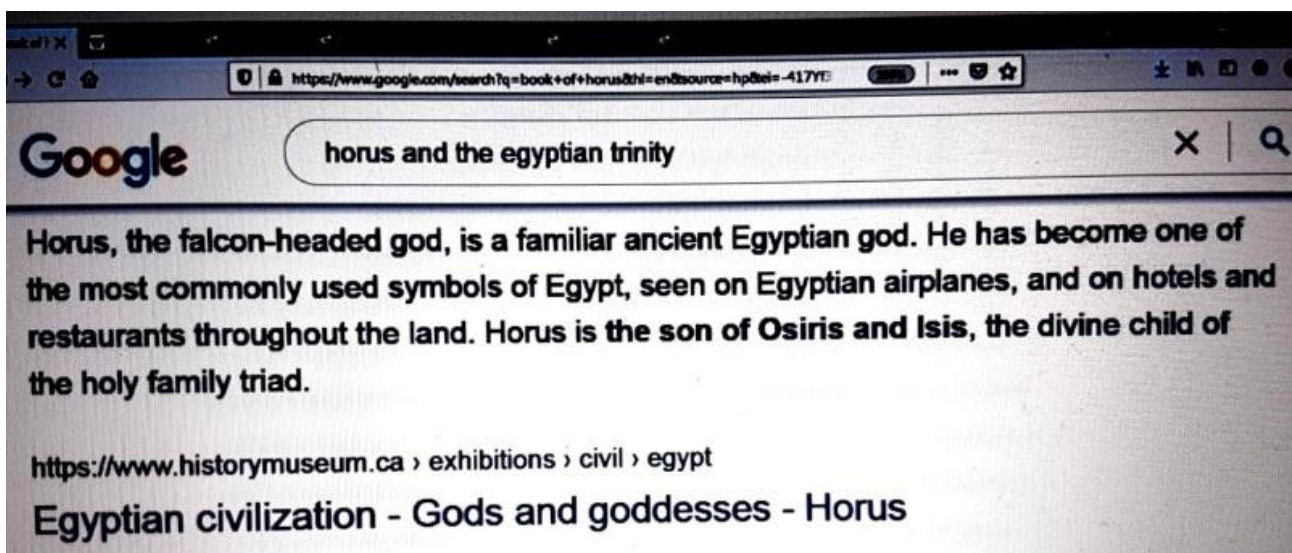

It is well known and documented that original “official” Christianity, that was controlled by the Catholic Church in the Middle Ages, was very similar to the cult of Isis and Horus which is found in Ancient Egypt

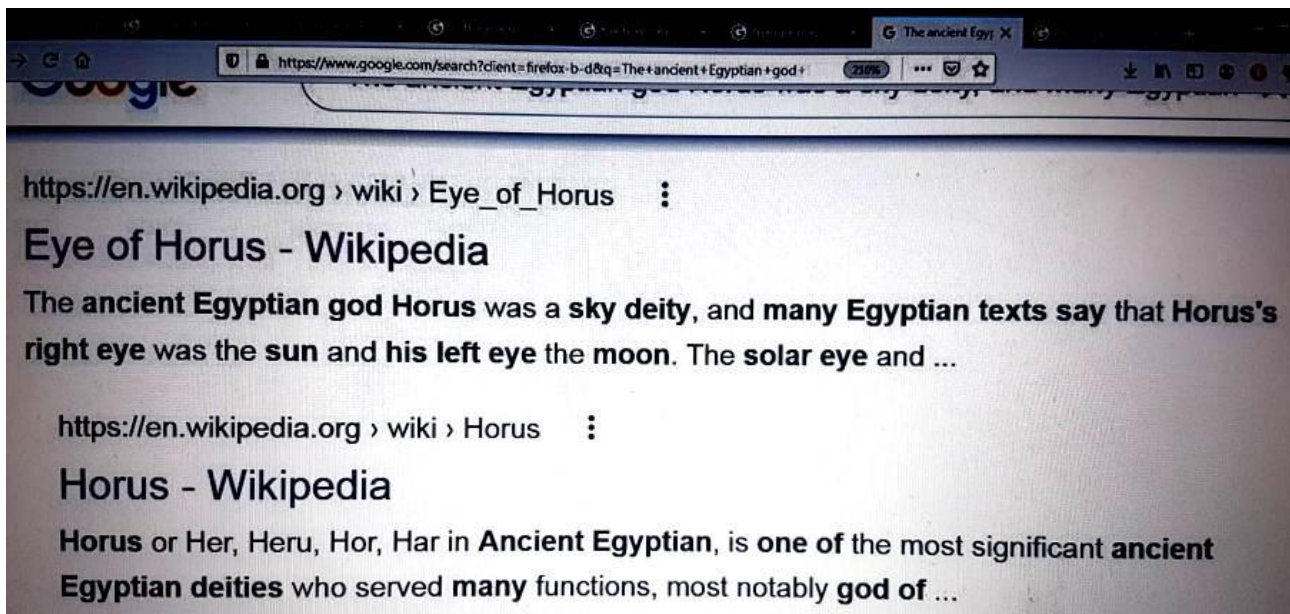

In the photo above we see Horus and his mother Isis and Jesus Christ and his mother the Virgin Mary. Researchers noticed that there was a very great similarity between them

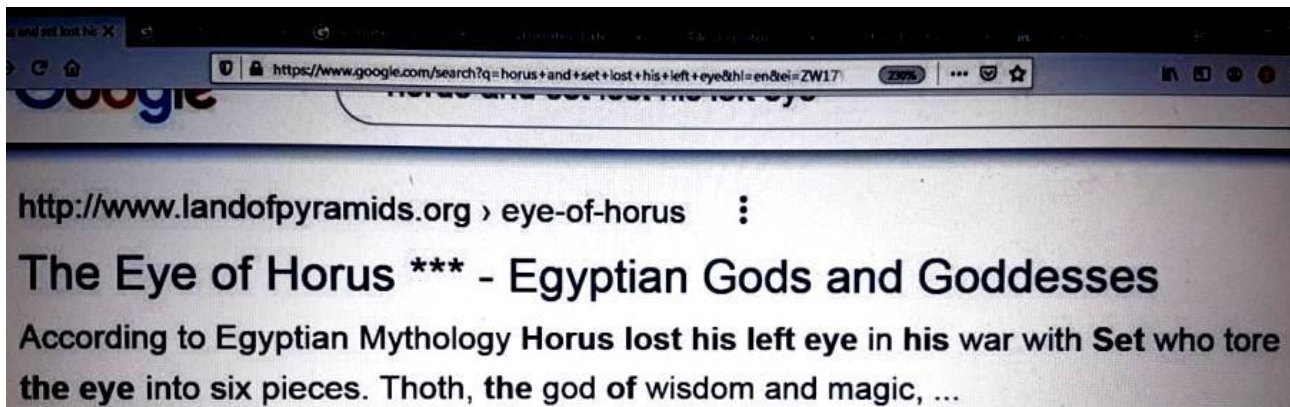

The photo above shows an example of the symbol which is known as the “Eye of Horus” today

According to historians, Horus was the son of Isis and Osiris and was part of a triad of gods or the Egyptian trinity: - the Father and the Mother and the Son

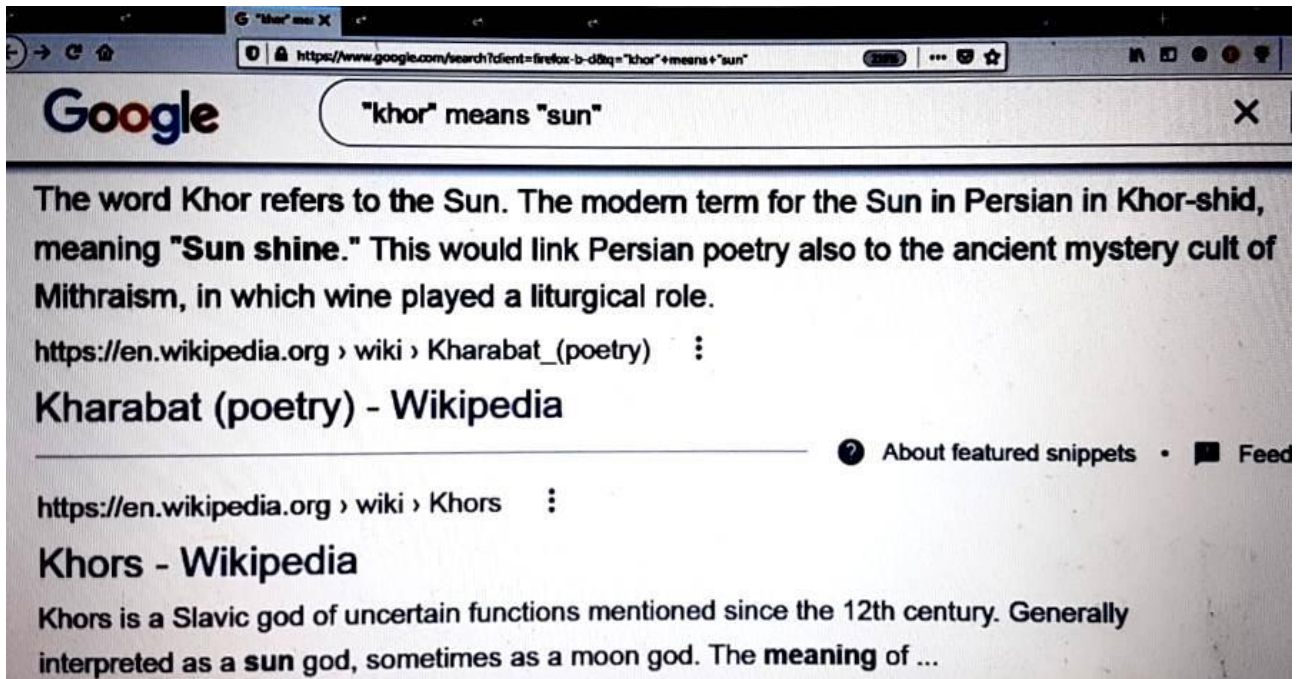

Horus or Hor, - is said to be the god of the sky. His right eye is said to represent the sun, - and his left eye is said to represent the moon. This is what historians generally say

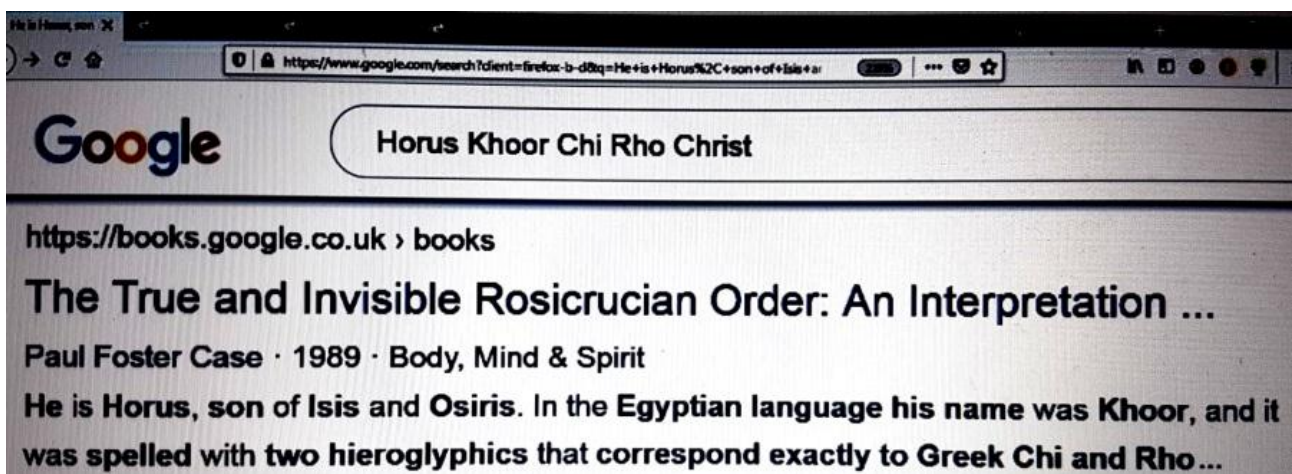

Historians generally say that Horus had one eye that was working. He lost his left eye in a struggle with Set or Seth. Researchers noticed the similarity between Set and Satan

The right eye of Horus represented the sun. This is why many people decorate the Eye of Horus with sunlight around it

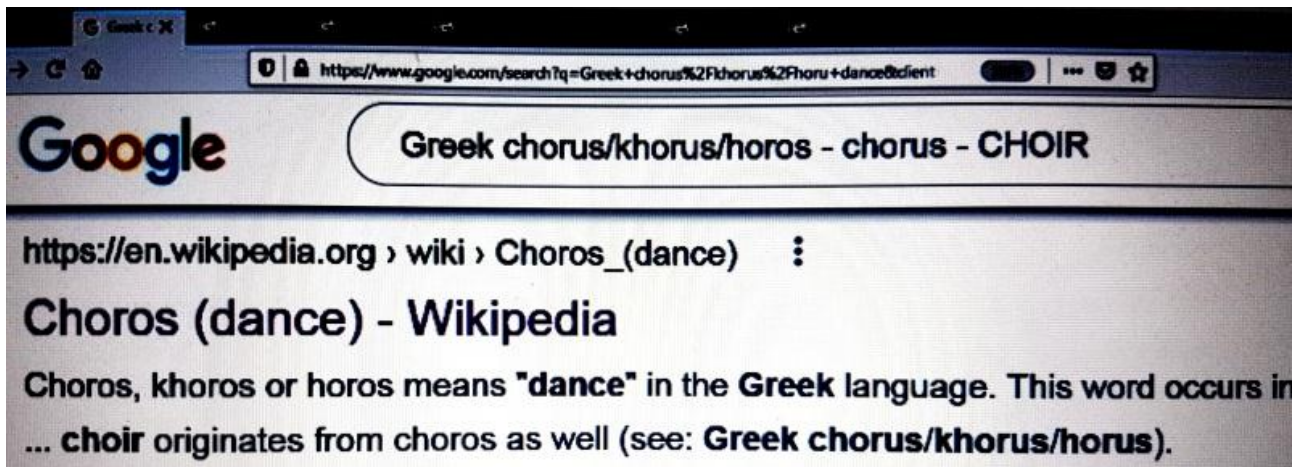

In many languages in Europe and Asia, - such as Persian and Slavic, - the word Khor - Khors - Khorus referred to: - the sun

The name for Horus in the Egyptian language is often pronounced as Khor or Khor or Khorus

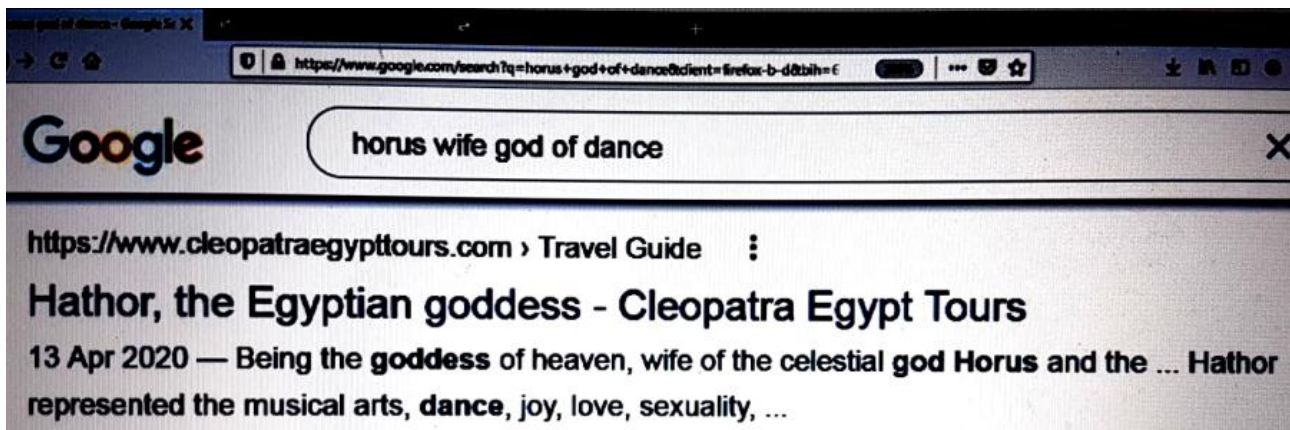

Jesus the son of Mary was known as the Christ (Chorust) to the official Church and this name was very similar to “Khorus”. This is pronounced differently by people in different parts of the world.

It is normal for people to pronounce words in different ways. Some people have an American accent and some people have a Chinese accent. Not everyone in the world is the same

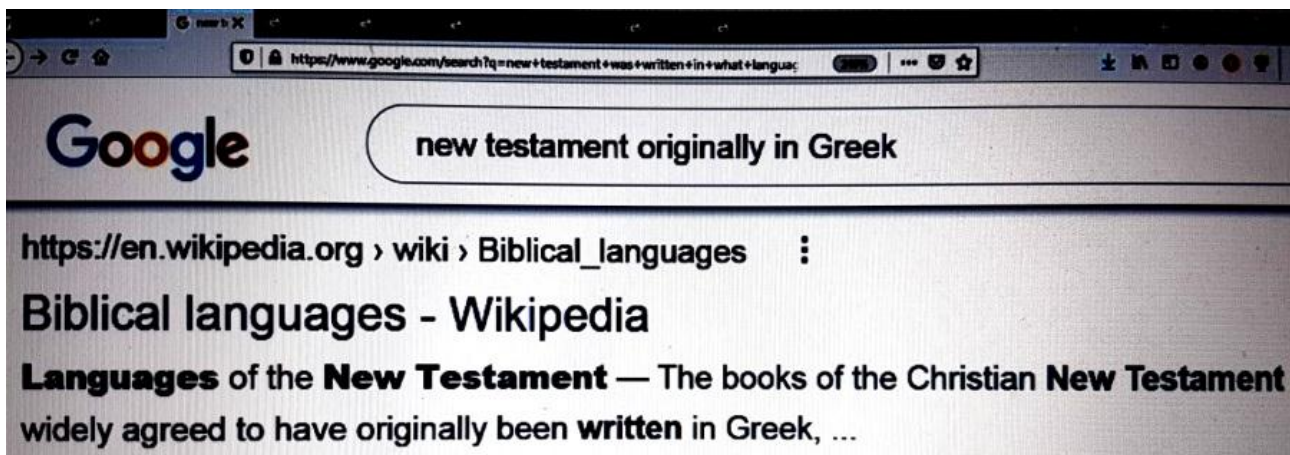

The Greek word Choros or Chorus or Khoros or Coros or Horos or Horus - generally means to dance. The word is pronounced differently by different people

The word “choir” also came from this word

A major part of Horus was his wife called Hathor, who was the goddess of dance and music

The similarity between the Greek Choros - Cross - Horos and Horus was clear. This is no surprise, because evidence has clearly shown that the New Testament was originally written in Greek

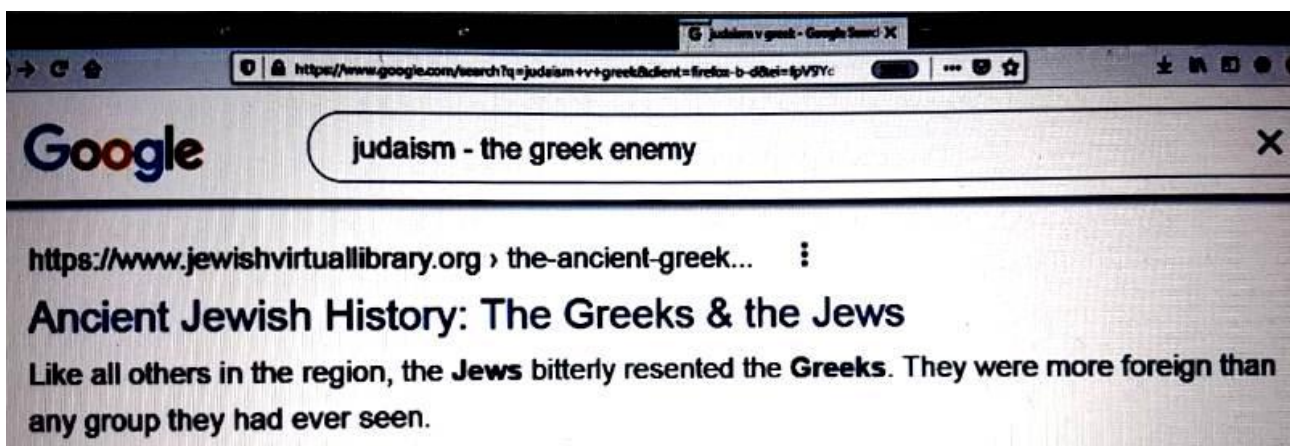

Jesus Christ was not Greek, nor did he speak Greek, nor did go to Greece.

Imagine if all the books about Adolf Hitler are written in Chinese.

**Hitler was not Chinese and he did not speak Chinese
and he did not go to China**

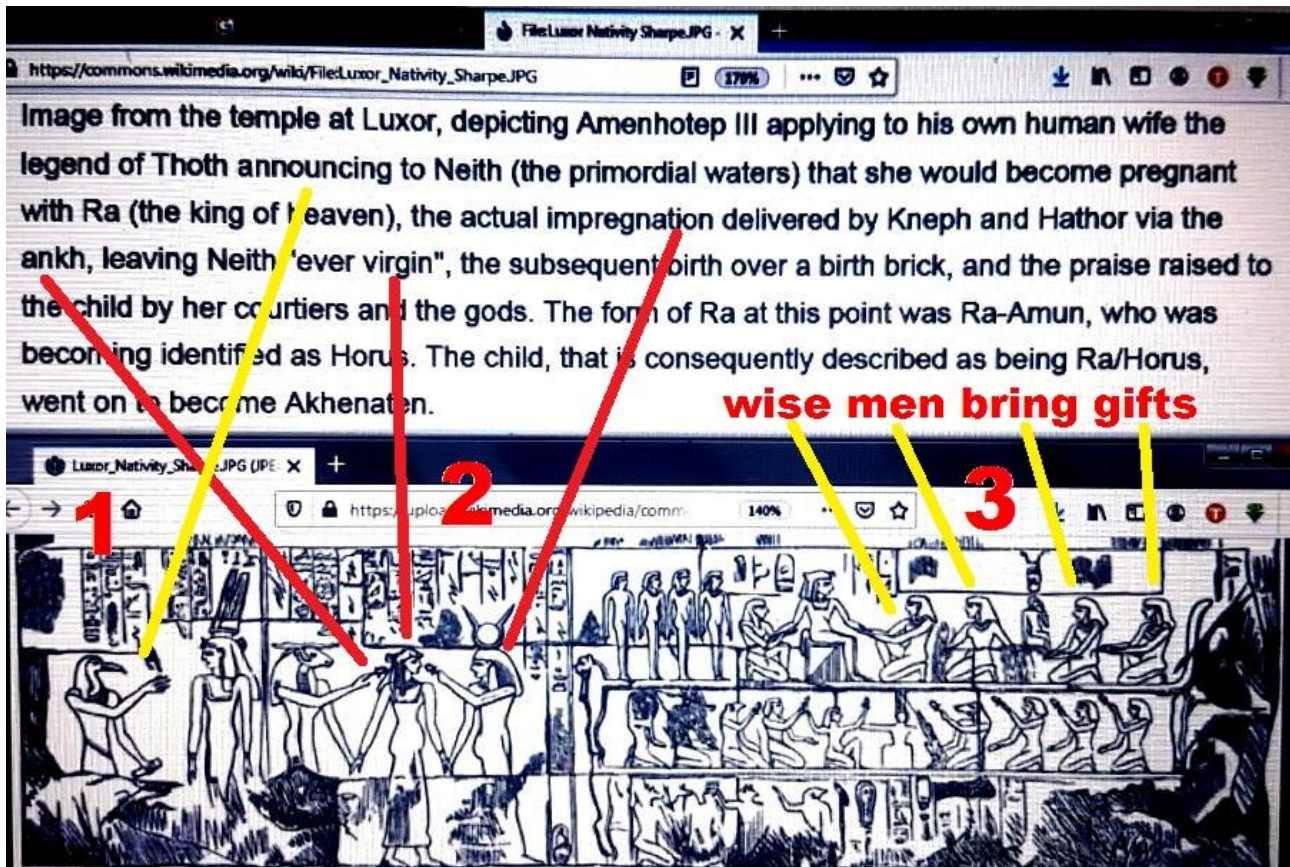

**But mysteriously, almost all the books about Jesus
Christ were originally written in the Greek language**

**If all the books about Adolf Hitler are written in Chinese,
then the world will know something is wrong. It would
be crazy and a big joke. But many people still do not
realise that something is wrong with the history of
Jesus Christ and the history of Christianity.**

**The original books about Jesus Christ were written in
the Greek language. According to historians, the
Greeks were the biggest enemy, to the people who
believed in "1" God. And the New Testament, the books
about Jesus Christ, were written in the language of the
enemy**

**Imagine if the history of America is written in Chinese.
Imagine if every book in America is written in Chinese.
Anyone with a brain will know that something is wrong**

The photo above shows an image from the Temple at Luxor in Egypt, and this shows the story of the virgin birth of Horus or Khorus or Chorus

Description of the image from the Temple at Luxor:

- 1 - announcement of the virgin birth**
- 2 - impregnation of the virgin holding ankh or crosses**
- 3 - wise men or kings bringing gifts**

Historians say that the story of the virgin birth is found in Luxor, Egypt, 1500 years before Jesus Christ was born. Historians and the world media and Christianity, have deceived the world. Millions of people now think that Christianity was copied from Ancient Egypt.

We have a serious problem. What is the story of the virgin birth doing in the deserts of Egypt, before Christ was born? Was this story really thousands of years old? Or were historians telling lies? Who are these historians?

Historians in Egypt worked for the powerful European empires. They have told the world that Egypt is ancient and is thousands of years old.

The colonial empires invaded Egypt in the 19th century. Many of the archaeologists and historians, who went to Egypt, were working for the British and French colonial empires. These empires were involved in rape and murder and theft and slavery and torture. The empires

were not looking for history, they wanted power and control.

Many historians and archaeologists who went to Egypt were involved in slavery and the torture of women and children, but that story is too long to mention here. The photo above shows women and children that were beaten and tortured to work by European historians and archaeologists in Egypt.

Many of the children were stolen from their families, or their families were forced into poverty by the colonial European masters and they had to give up their children to survive

Today these European people are called heroes and archaeologists and historians. In schools and universities, we are told to accept and believe their

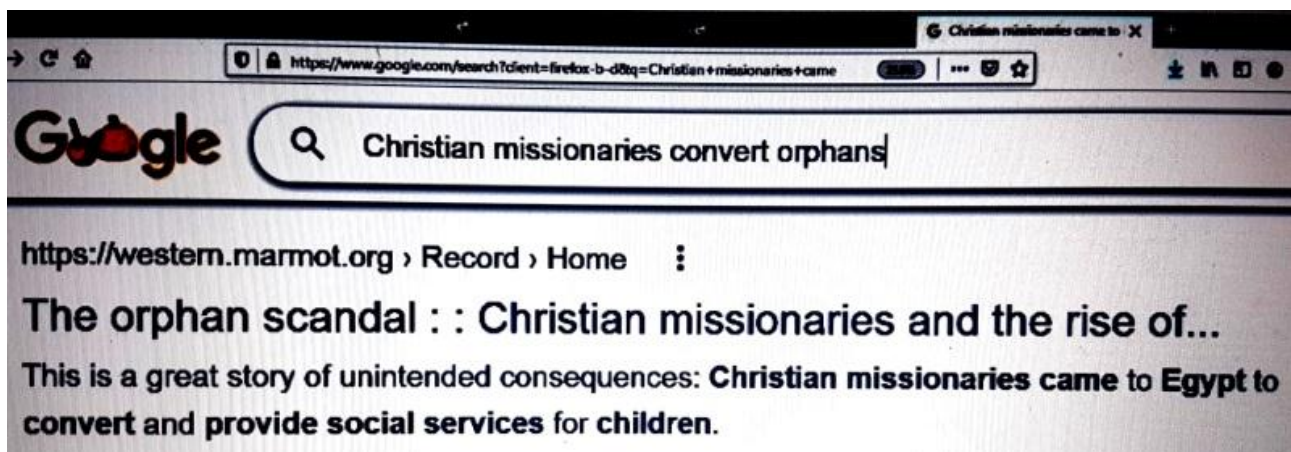

discoveries. This is called great history and great archaeology. Researchers called this: - rubbish

When historians and archaeologists are attacking and torturing women and children - to find world history - it means something is seriously wrong. When historians are working for empires that were killing and torturing people, then something is seriously wrong

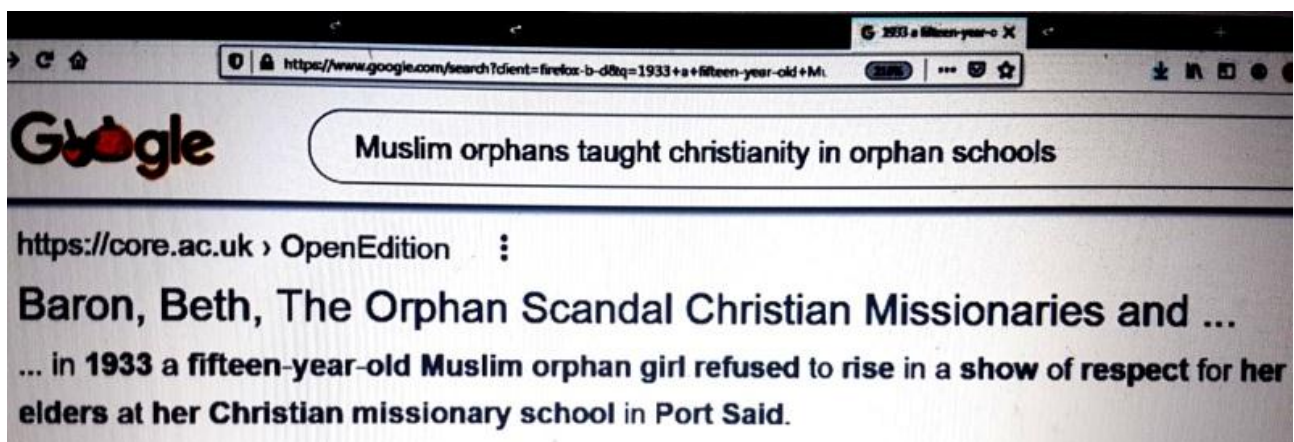

How can we believe these people? It is clearly stupid to believe these people

Who were these historians and archaeologists? Who were these people who attacked and tortured women and children? Who were these people that forced women and children into slavery?

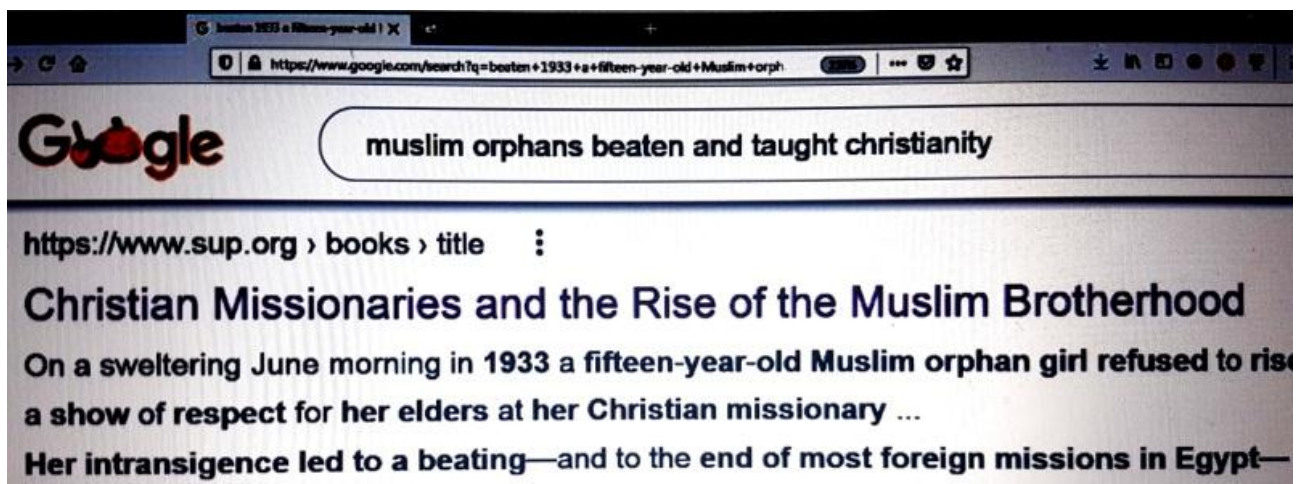

They were working for the ruling powers. They were financed by the European empires. How can we believe what they told the world? This is clearly not history, and - even a child can see this.

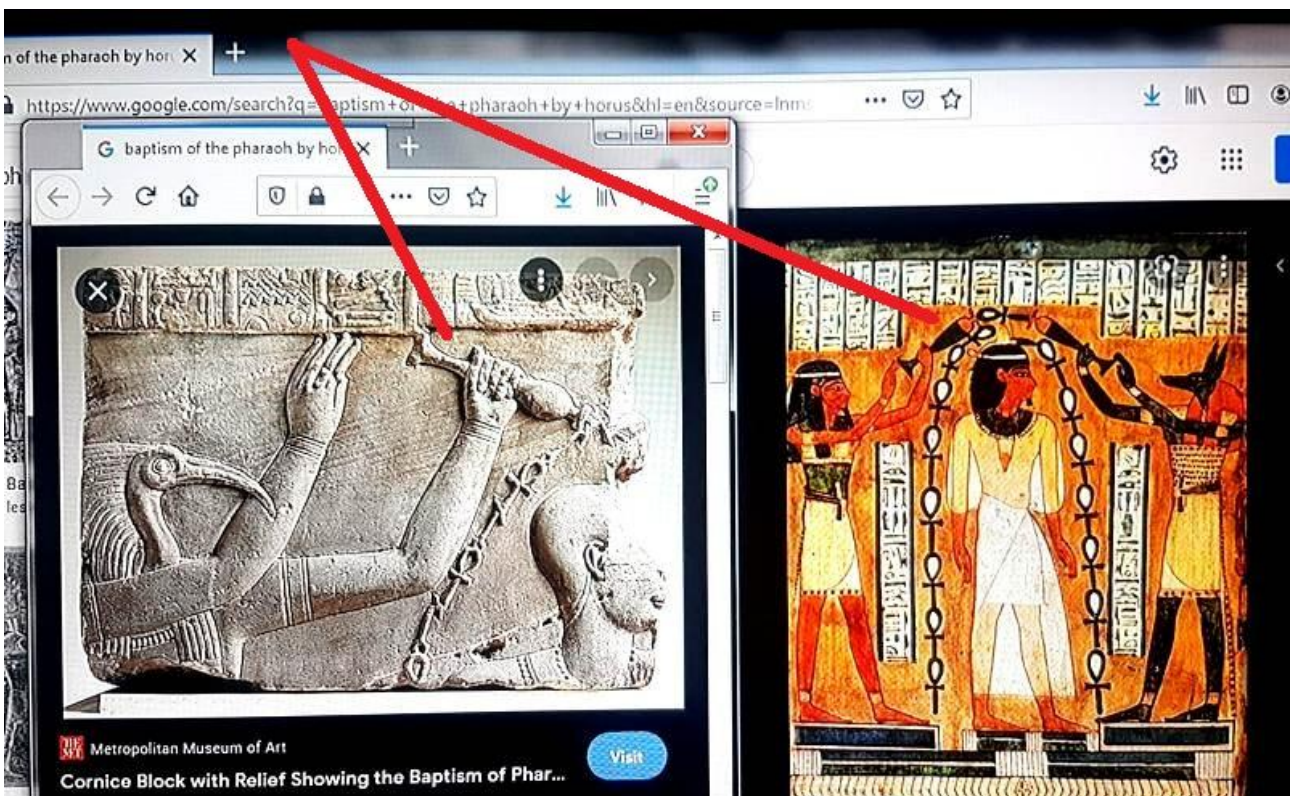

Many of these children are called orphans by historians. They were sent to schools that were controlled and organised by the European empires. Many of these children then became Christians and this is why Egypt has many modern Christians. These people are told that they have been Christians for almost 2000 years. Historians say that colonial Christian schools were created to provide social services for orphans

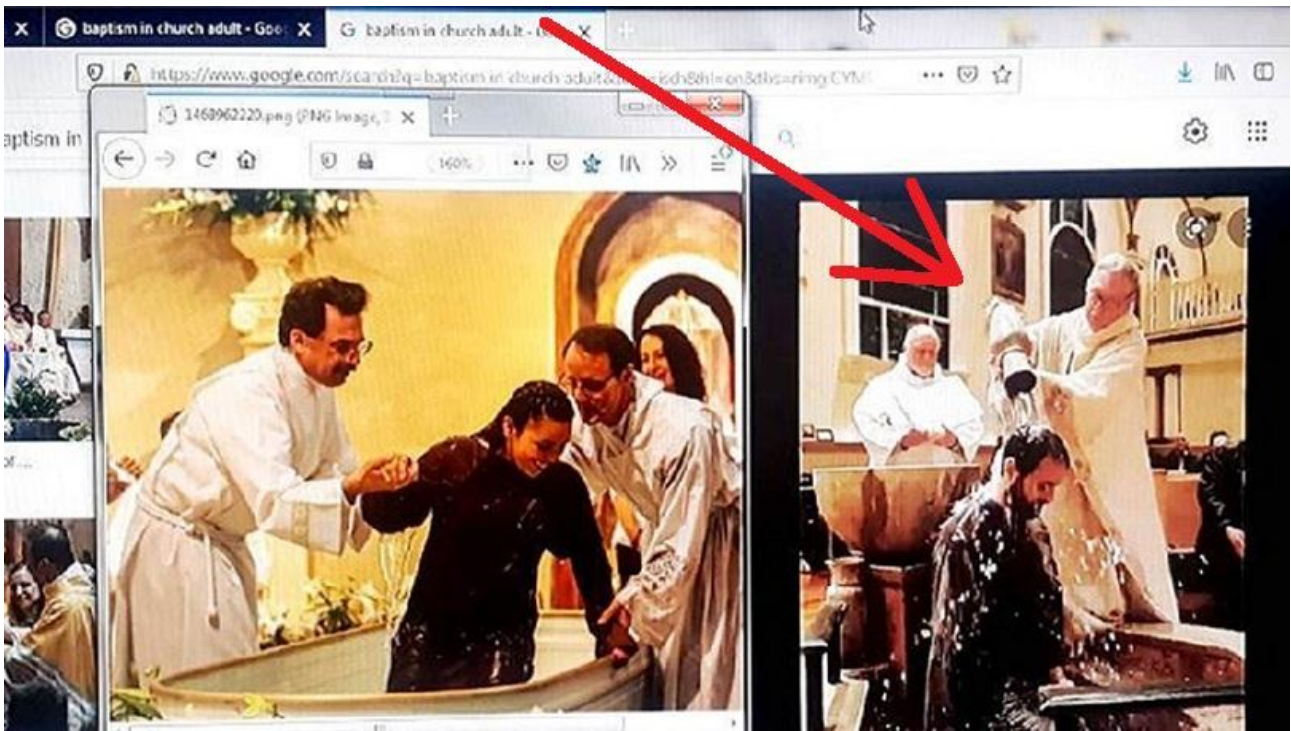

By the 1940's and 50's, the Egyptians soon realised what was going on. Children were being stolen and were being converted to Christianity. A similar thing was taking place all over the world on colonial lands

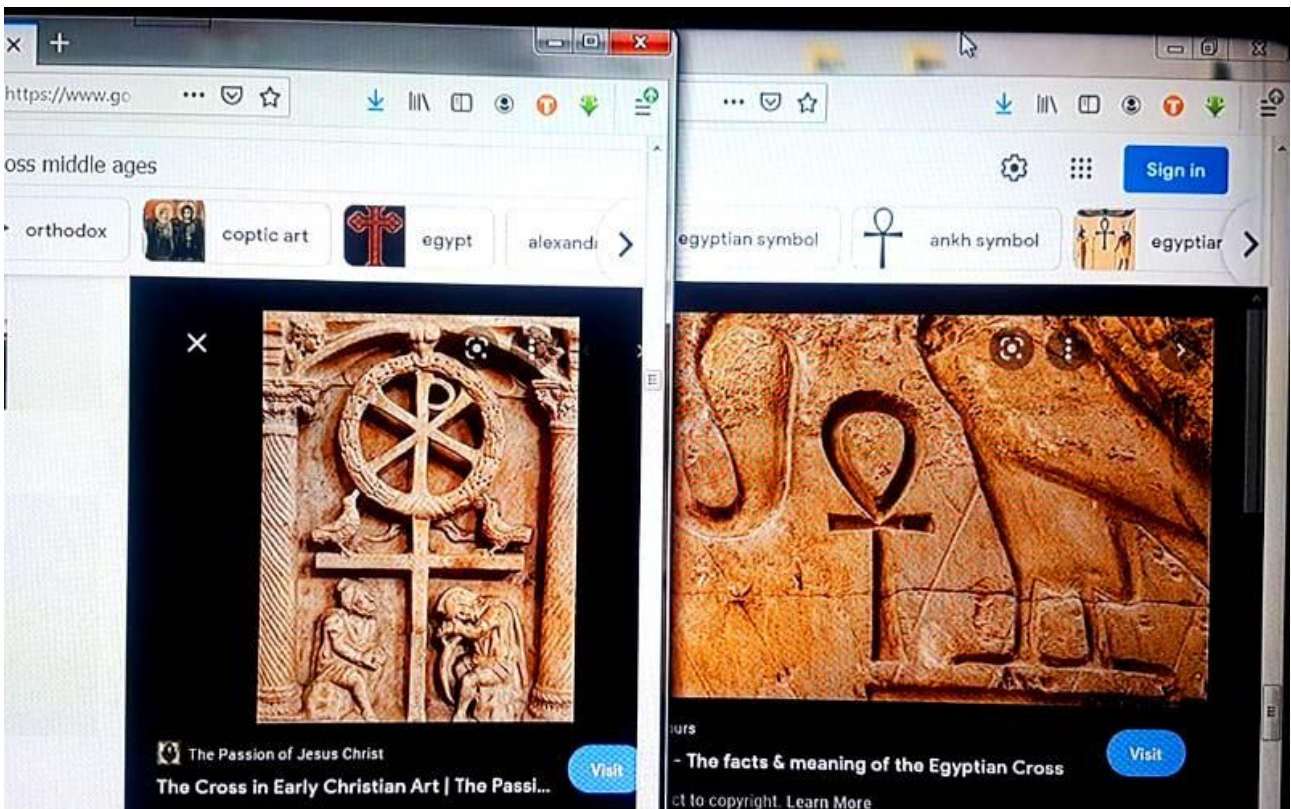

Children were being beaten and tortured in these colonial Christian schools. Historians call this: welfare and social services. The objective of these schools was to teach the children: - new world religions and new world history. Similar schools opened all around the world, but that story is too long to mention here

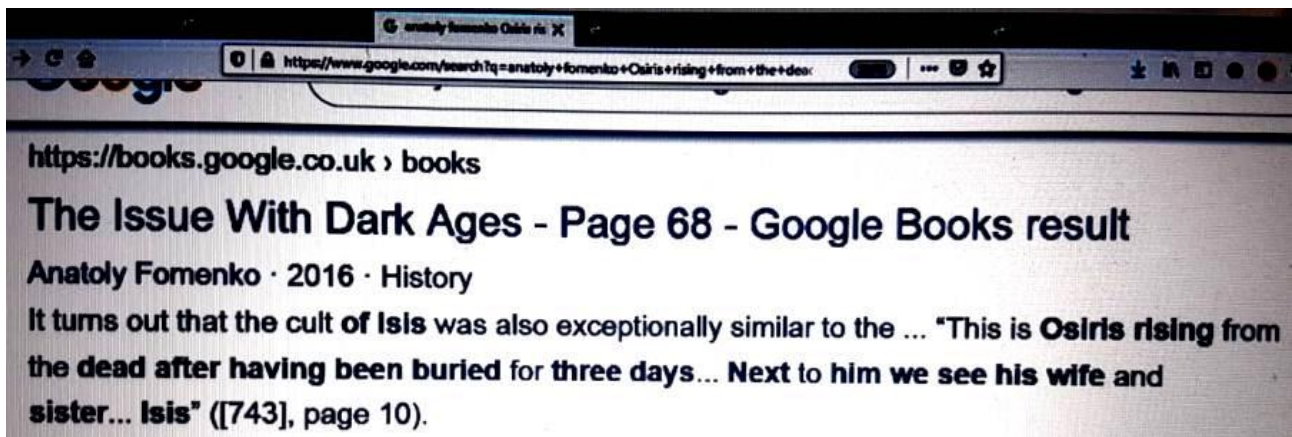

The photo above shows an example of ritual washing in Ancient Egypt. Holy water was poured out over a person's body, and this water was shown in the shape of crosses - or the Egyptian ankh

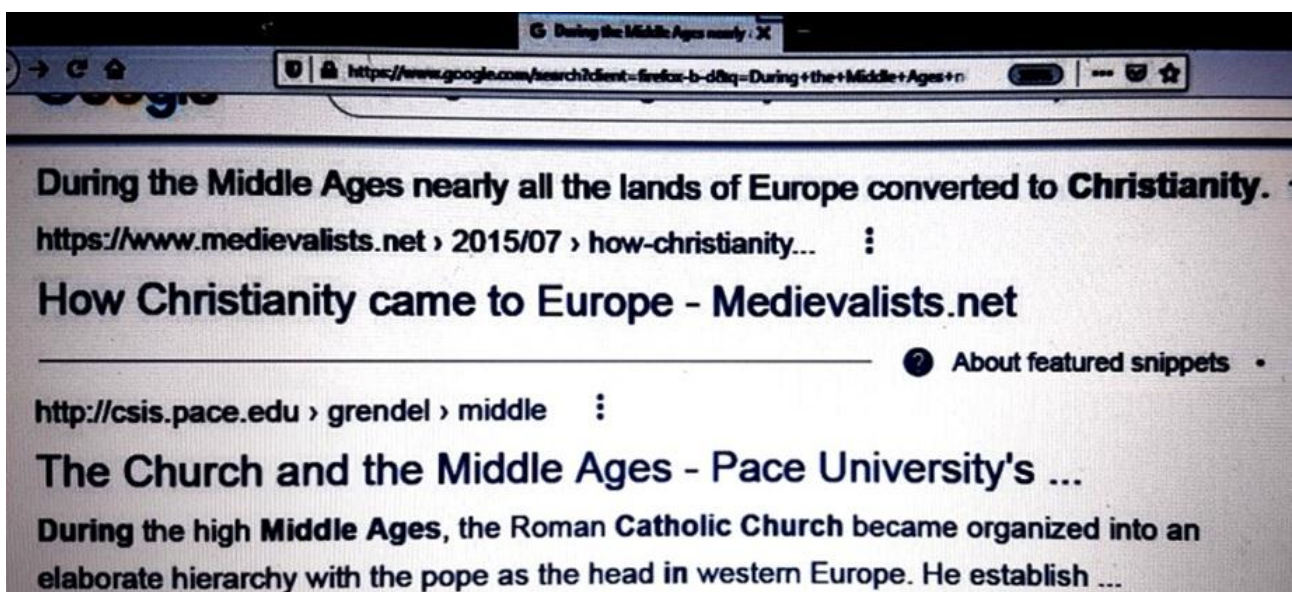

Millions of people around the world noticed the similarity found in Christianity and the ritual washing in Ancient Egypt. In Christianity this is usually done with crosses and is known as baptism

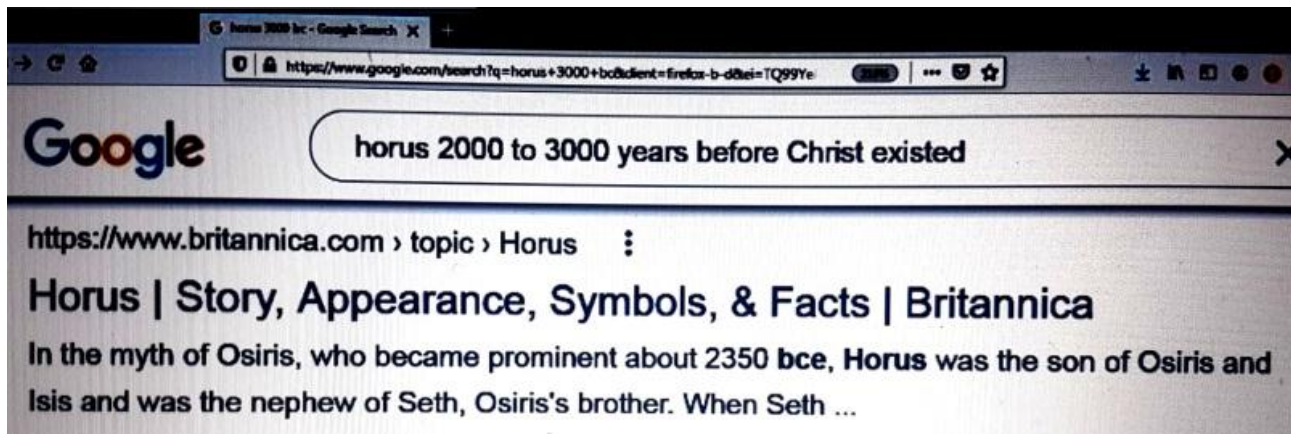

Many early crosses used by many official Christian Churches in the Mediterranean region were similar to the Ancient Egyptian ankh (cross), - often they were decorated in different ways. The photo above shows an example of a cross in Italy and the Egyptian ankh

The Resurrection - Jesus Christ rising from the dead after 3 days was similar to the story of Osiris the father of Horus. Osiris rose from the dead, after 3 days, and Isis (the mother of Horus) was beside him

According to historians, Europe “mysteriously” became Christian during the Middle Ages and the Catholic Church and other official Churches, mysteriously became powerful and very organised during the Middle Ages

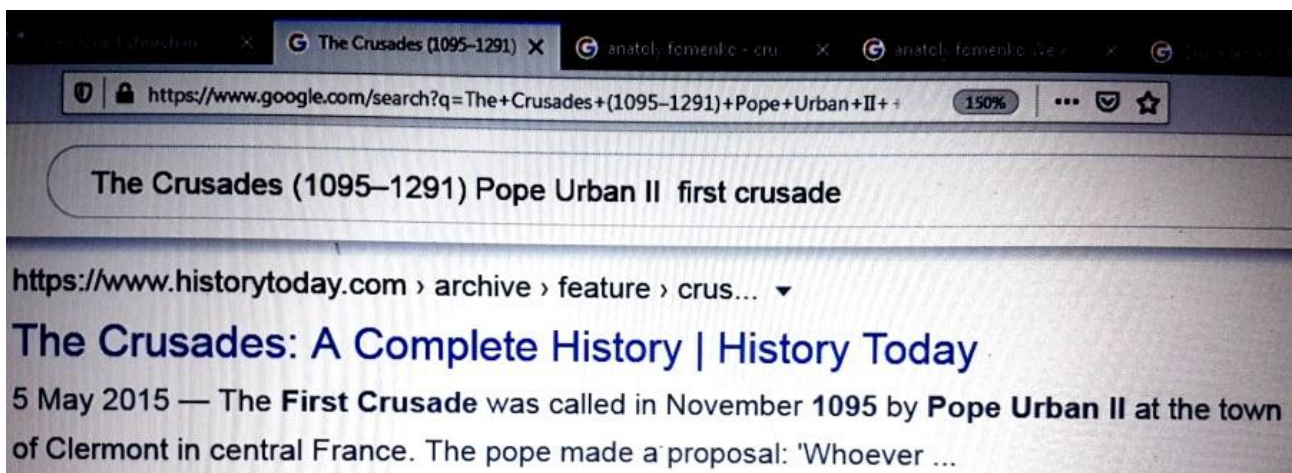

Historians that are working for the people in power, - are telling the people of the world that the story of Horus or Khorus or Chorus started in Ancient Egypt, 3000 years before Jesus Christ existed. Historians say the story of Horus and Osiris and Isis was famous around 2500 years ago before Christianity was formed.

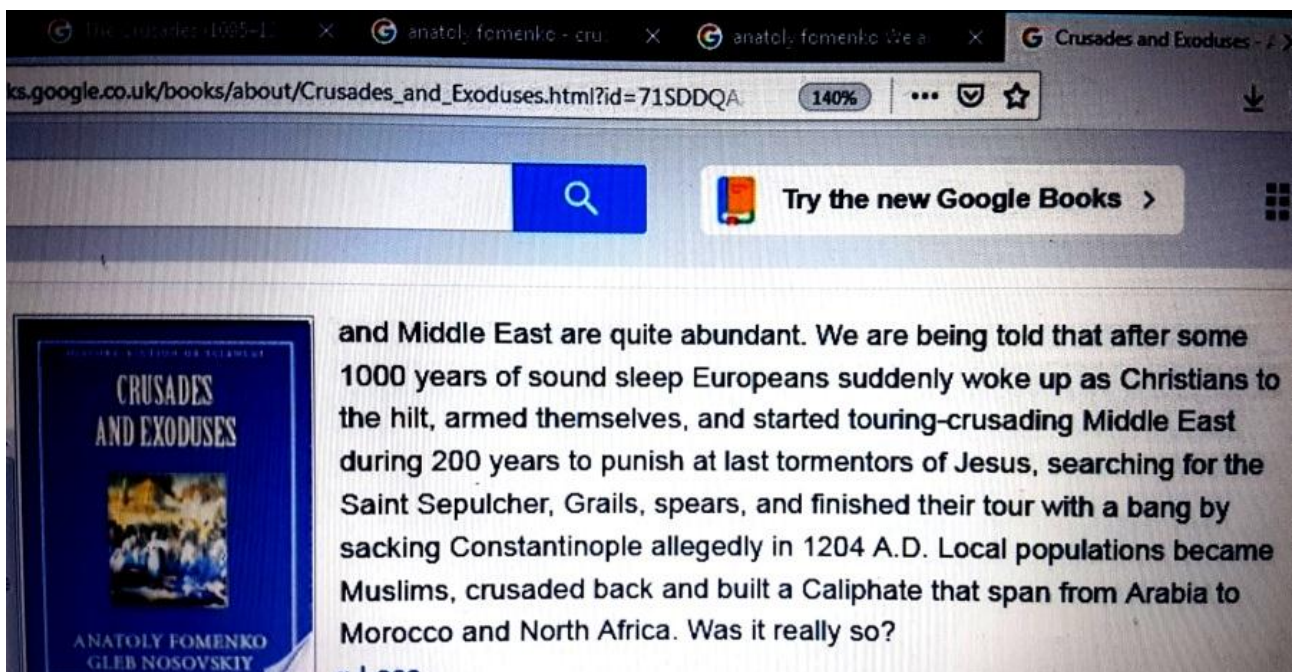

Historians are telling the people of the world that Christianity mysteriously became powerful in Europe during the Middle Ages, 4000 years after the story of Horus or Khorus or Chorus. Historians are telling the world that it is mysterious why: “Horus - Khorus - Chorus - the Cross and Christ”, - they have similarities

This is same like saying that a big religion in the world will mysteriously be created based on President

Vladimir Putin or President Donald Trump - 4000 years after today. This story sounded like rubbish

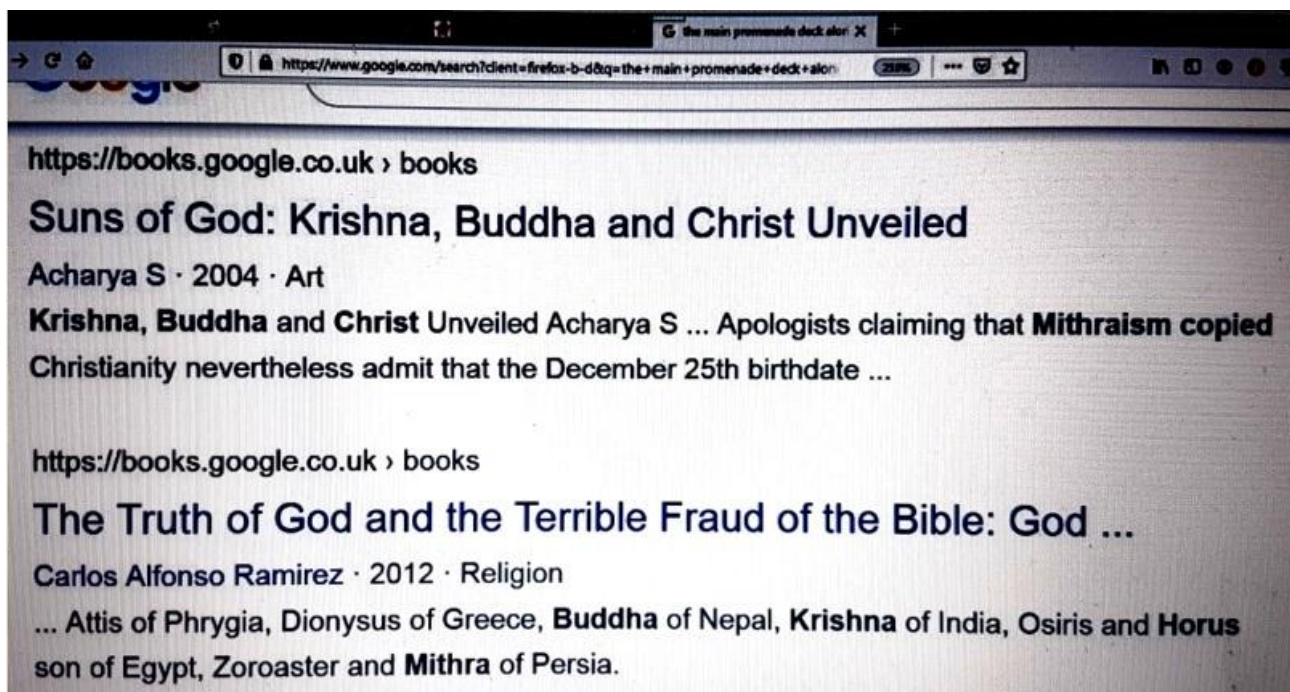

Historians say that the Church and its allies created the First Crusade in the 11th century - 1095, - against the Original Muslims

The people of the world are told by historians that Jesus Christ was murdered and crucified 2000 years ago, and that 1000 years after the death of Jesus Christ,

the Europeans wake up after they were sleeping. They were sleeping for 1000 years. Wow! They then woke up and went to fight and started Crusades. They fought in Europe and went to the Middle East, many of them walking for hundreds of miles in the Middle Ages. At last they went to take revenge for the murder of Jesus Christ, 1000 years later. The people they found in the Middle East were mysteriously Muslims, - who were mysteriously the Original Christians, and these Muslims mysteriously built an international global empire called the Caliphate so fast from east to west

The Europeans forgot to start the crusades for 1000 years. What a joke. Even a child will know that this history is a scam and a joke. Imagine waiting 1000 years for the bus or train to come. These people were waiting 1000 years, - according to historians. The story sounded like rubbish

Many researchers have found many similarities between Jesus Christ, Buddha, Krishna, Horus, Zoroaster, Mithra, Dionysus and many other characters around the world. Researchers also found a great relationship between these characters and the worship of the sun god

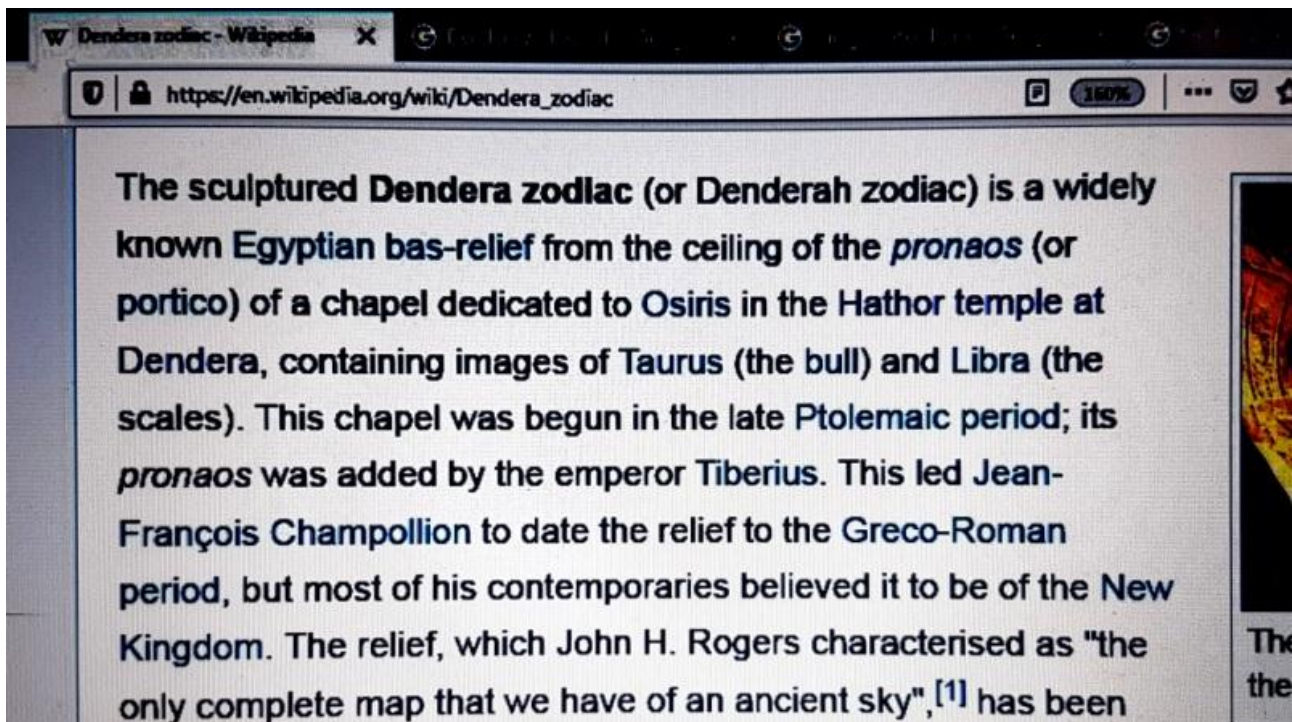

Many historians now say that the story of Jesus Christ and the Virgin Mary was copied from the story of Horus and his mother Isis. Is this really true?

The photo above shows the eye of Horus at the Temple of Hathor. The Temple of Hathor is found at the Dendera Temple Complex in Egypt. Hathor is the wife of Horus

Historians generally say that the Temple of Hathor is over 2000 years old

Historians say that a famous historical zodiac was found on the ceiling of a chapel that was dedicated to Osiris (who was a god, the father of Horus) at the Temple of Hathor. This Zodiac is known as the Dendera Zodiac. Historians say that it is probably the only complete ancient map of the sky. Is it really ancient?

Researchers such as Anatoly Fomenko made a careful investigation of the Dendera Zodiac and came to the conclusion that the zodiac was not thousands of years old - but corresponds to either the 11th or the 13th century AD - which is 700 to 900 years ago

Photo above - a close look at the Dendera Zodiac

From the top moving clockwise - you can see:

- Sagittarius - Yellow**
- Capricorn - Green**
- Aquarius - Blue**
- Pisces - Light Blue**
- Aries - Red**
- Taurus - Yellow**
- Gemini - Green**
- Cancer - Light Blue**
- Leo - Blue**
- Virgo - Red**
- Libra - Light Blue**

Scorpio - Pink

This was thousands of years ago? This Zodiac shows the sky, with almost identical representations for the constellations, as we see it today. The planets, are seen in the zodiac as figures carrying rods. The difference between the sky today and the Dendera Zodiac, shows that the zodiac is around 700 to 900 years old and not thousands of years old.

It looks nothing like what the sky would look like in ancient times. Historians were telling lies

This means that the Dendera Zodiac was created around the 11th or the 13th century, or during and after the Middle Ages

This means that Ancient Egypt was not ancient at all. This means that the story of Choros - Horus was not an ancient story and could not have been copied by Christianity in the Middle Ages. It meant that they were both the same story, from the same time period: - the Middle Ages

This explains why Horus - Chorus - Cross - Christ, have many similarities. Their story was created by the same people in different parts of the world

There were many zodiacs found in the so called ancient world - and most of them showed dating that pointed to the Middle Ages - 1000 AD to 1600 - and some of them

showed dating around the 1850's. Researchers such as Anatoly Fomenko have done much research on the zodiacs. The photo above shows what dates were found for many of the zodiacs

The evidence found in many zodiacs in Ancient Egypt clearly showed that it was not ancient at all, but a nation that existed during the Middle Ages. It is not hard to read these zodiacs, and the evidence is there for the world to see - but yet they will say Egypt is ancient and is thousands of years old

We are not talking about 1 or 2 historical zodiacs, we are talking about many. Not a single zodiac was older than around 1000 years old or from before the Middle Ages

Why would anyone want to say that Egypt is ancient?

Then you can destroy the true history of Jesus Christ and turn the story into a myth. It would totally destroy the existence of the real man called Jesus Christ, whoever he really was

Christ - the sun and the pyramid and the one eye
The dollar - the sun and the pyramid and the one eye

Horus had one eye. The symbol of Horus is the one eye, known as the “Eye of Horus”. This one eye represented the sun

The photo above shows a painting from around 1789, regarding the “Declaration of the Rights of the Man”, after the French Revolution.

(Researchers found much evidence which shows that the history of that time period had many lies, - but that story is too long to mention here)

It was not hard to see what was going on. It was becoming clear that there was 1 master behind these different systems. The system in Ancient Egypt (which was not ancient at all), and the system known as Christianity and the systems known as democracy and modern capitalism, - they all had 1 master, - but had different methods of rule and control

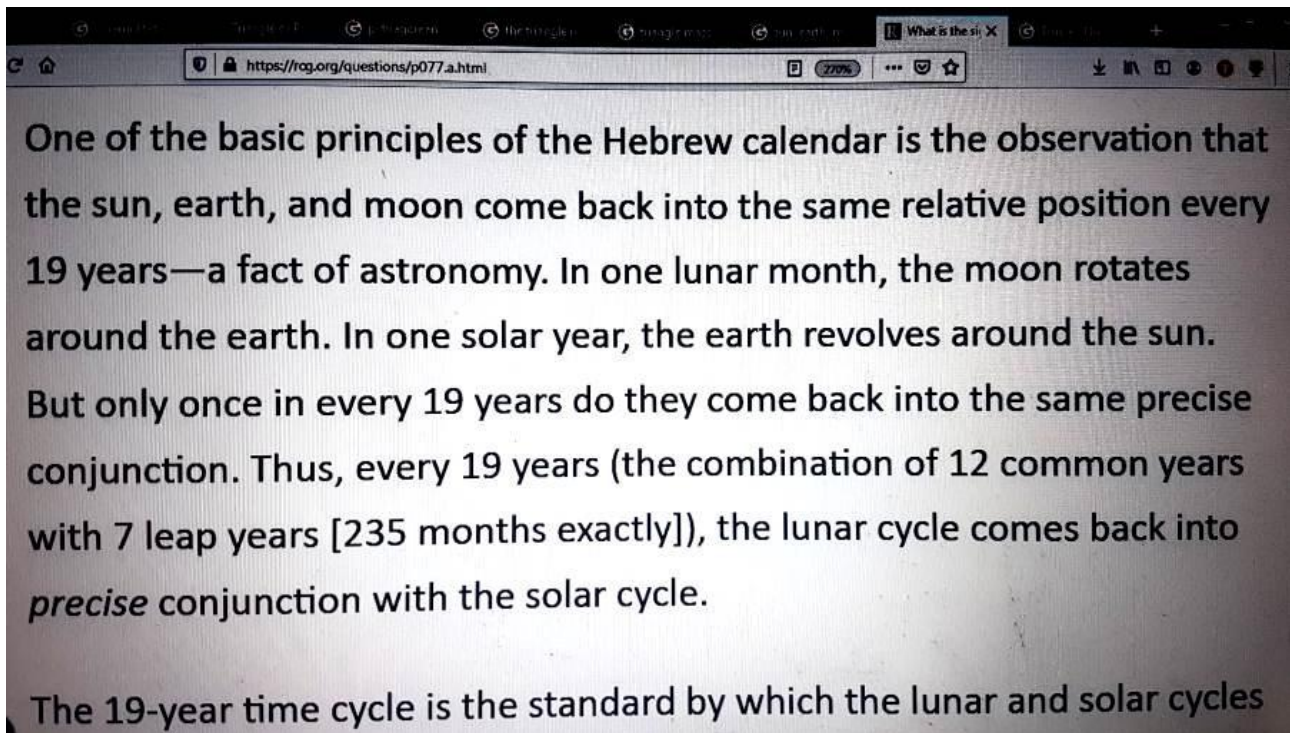

The triangle or the trinity or the pyramid

The photo above shows the Great Pyramid at Giza. The original entrance to the heart of the pyramid was entered through the 19th layer of masonry

The 19th layer...?

Why 19?

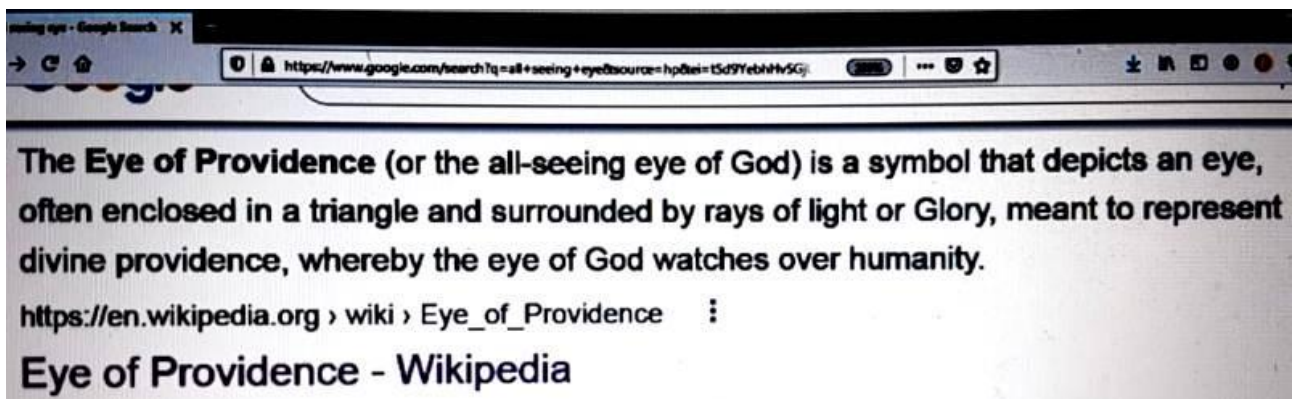

The light or sunlight around the triangle or pyramid or the trinity

The natural trinity of the earth, the sun and moon

It is known that the sun, the earth and the moon, come back into the same relative position every 19 years. This is sometimes known as the “Metonic Cycle”

Every 19 years...?

Why 19?

Historians and the world media and politicians have told the world, that the eye is a symbol to represent the All-Seeing Eye of God. Is this really true?

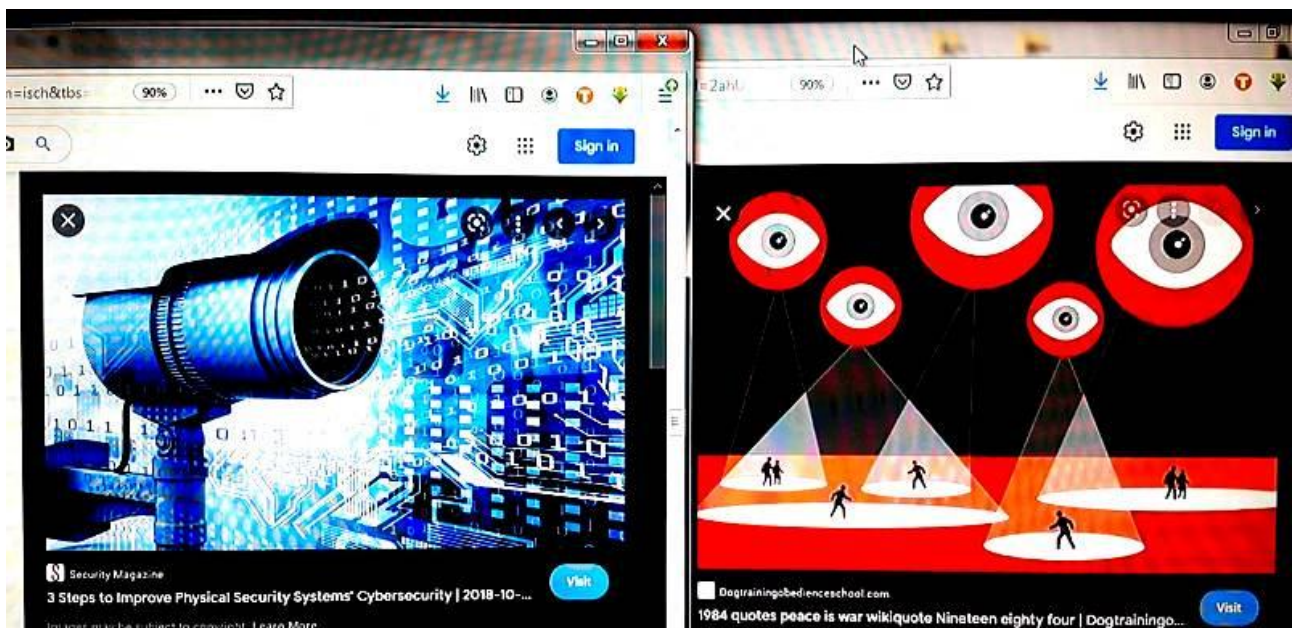

Who said that God has 1 eye? This sounds like a joke

The people in power, - the people who were the creators of Christianity and the people who control the new world system: - they are the people who make the laws and the regulations. God is not making these rules. They are the ones who want to watch people and control people

These people are using the sun and the pyramid and the one eye as their symbol. God did not make the symbol on the American dollar

Who is their God?

What is this one eye?

The photo above shows the modern camera or the modern eye. These cameras are being placed everywhere to watch humanity. Who is really going to watch humanity?

God is not putting these cameras everywhere. The people in power are doing this. These cameras are becoming smarter and are controlled by Artificial Intelligence. Artificial Intelligence will watch humanity. Artificial Intelligence is known as A.I.

The All-Seeing Eye

Or the All-Eye

Or the: - A.I.

Artificial Intelligence will become the master and the controller. The world order is working hard to place Artificial Intelligence all over the world. Is this the god of the people in power?

A = 1

B = 2

C = 3

D = 4

E = 5

F = 6

G = 7

H = 8

I = 9

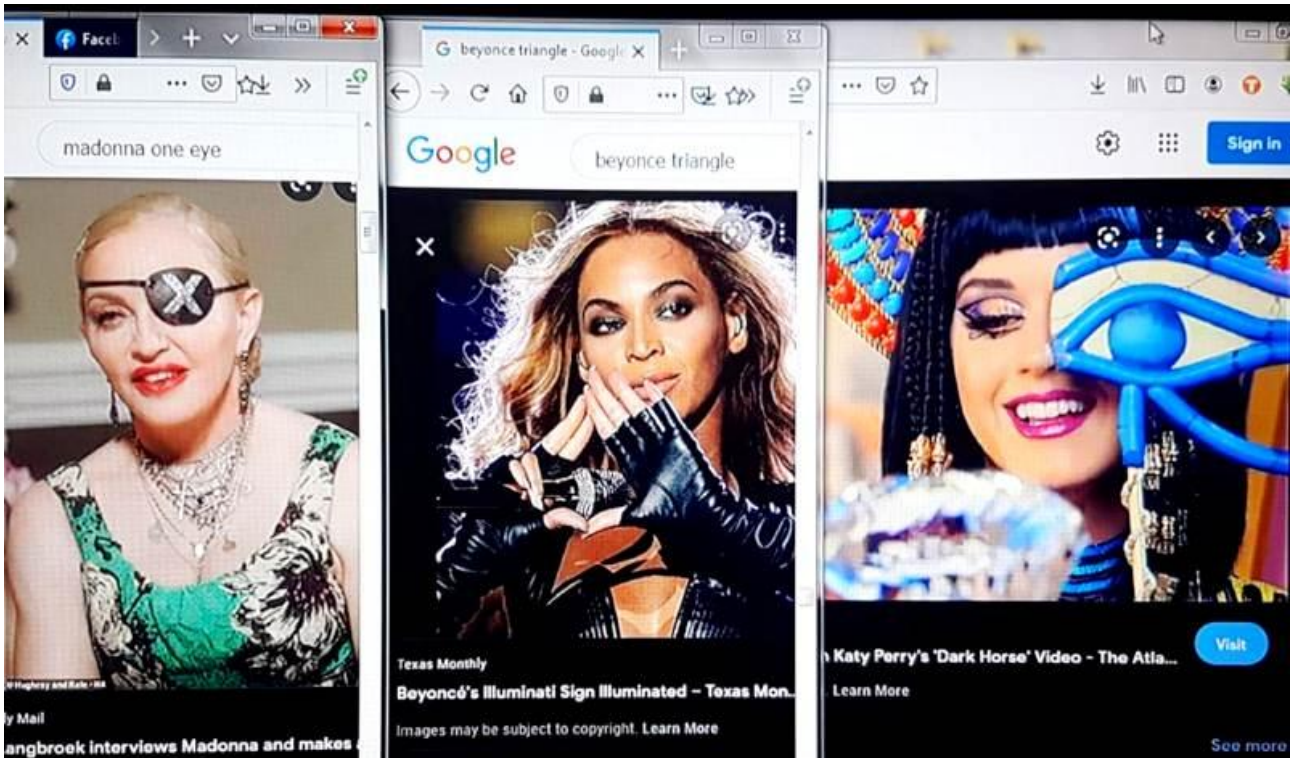

Artificial Intelligence - AI = 19

In the photo above, we can see what is the mathematical value of - A I - in numerical English gematria

Artificial Intelligence (A I = 19)

A.I. is 19...?

Why 19?

The photo above shows famous people with one eye or making the symbol of the pyramid. In the photo we see Madonna with one eye and Beyonce making the symbol of the pyramid and Kate Perry with one eye. This can be seen all over the world. It is done by many media stars in China and Japan and Russia and Turkey and Europe and in many parts of the world

Most famous people are created and controlled by the people in power. They work together with the media, - which is owned and controlled by the people in power.

They do not come on television by accident. It is all a show organised by the people in power.

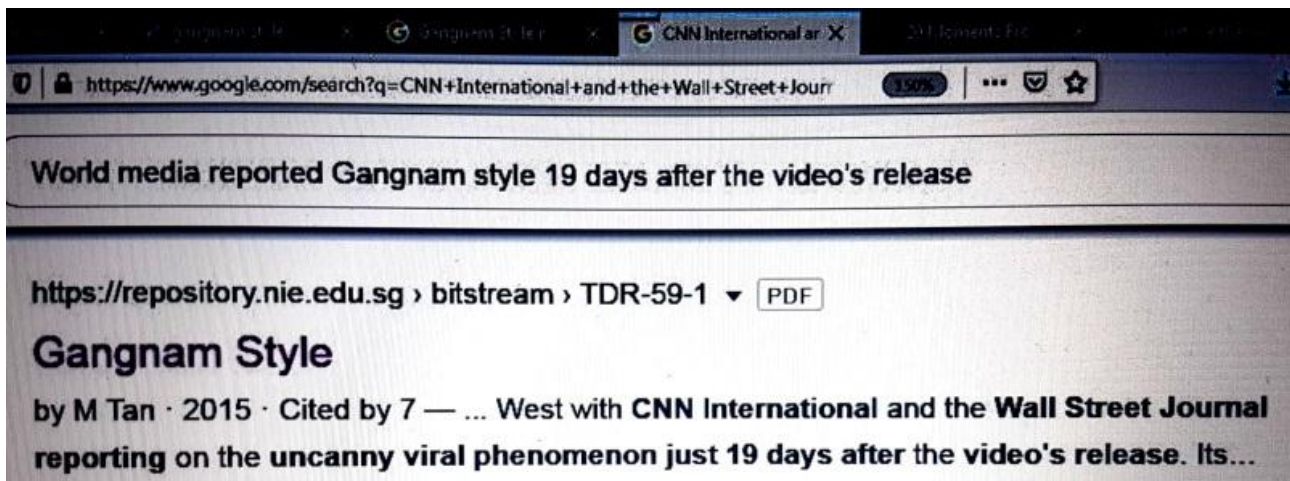

It is the Matrix

Researchers investigated the number 19 and found that this number was being used by the ruling powers and their allies all over the world, - in order to create false history and control the people of the world. Below are some examples of what researchers found - :

Gangnam Style

The Korean singer called "PSY" became famous in 2012 for the song "Gangnam Style". In the photo above, he is making a symbol to show the "one eye"

The world media reported the mysterious success of the song “Gangnam Style”, 19 days after its release. Researchers realised that the media was promoting the song and the singer. It was all planned and carefully organised, as if they wanted more and more people to see PSY and hear his songs.

The media is controlled and organised by the ruling powers. They normally never advertise or promote anything that is not part of their plans

The media and historians reported that “Gangnam Style” had over 10 million views within 19 days

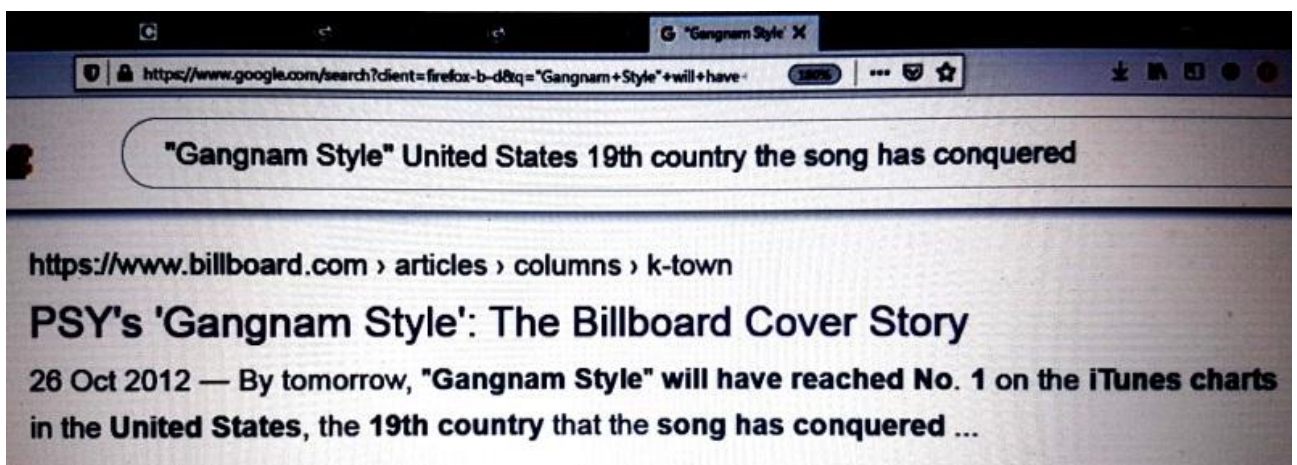

The global media advertised on 19 October 2012 that “Gangnam Style” had over 500 million views on YouTube. YouTube and the internet is greatly controlled by the global ruling powers, - much evidence shows that data on the internet is controlled by them

The media and historians reported that PSY began his promotion of “Gangnam Style” in the United States on 19 October

The video for “Gangnam Style” was available for digital download on 19 October

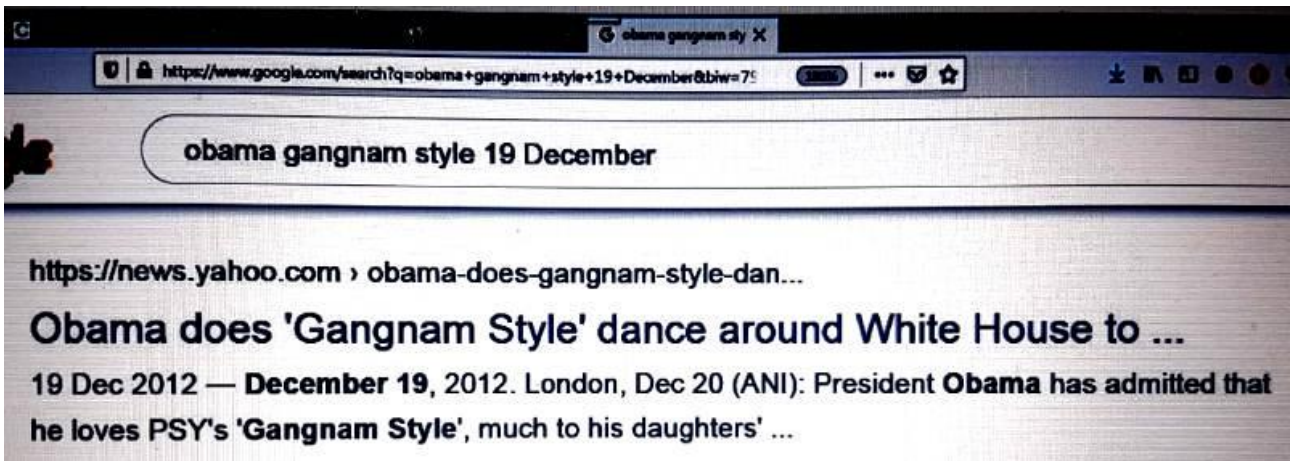

The global media, which is controlled by the ruling powers, announced that the United States was the 19th country that was conquered by “Gangnam Style”

That year, “Gangnam Style” won the best video prize at the 19th annual MTV Europe Music Awards

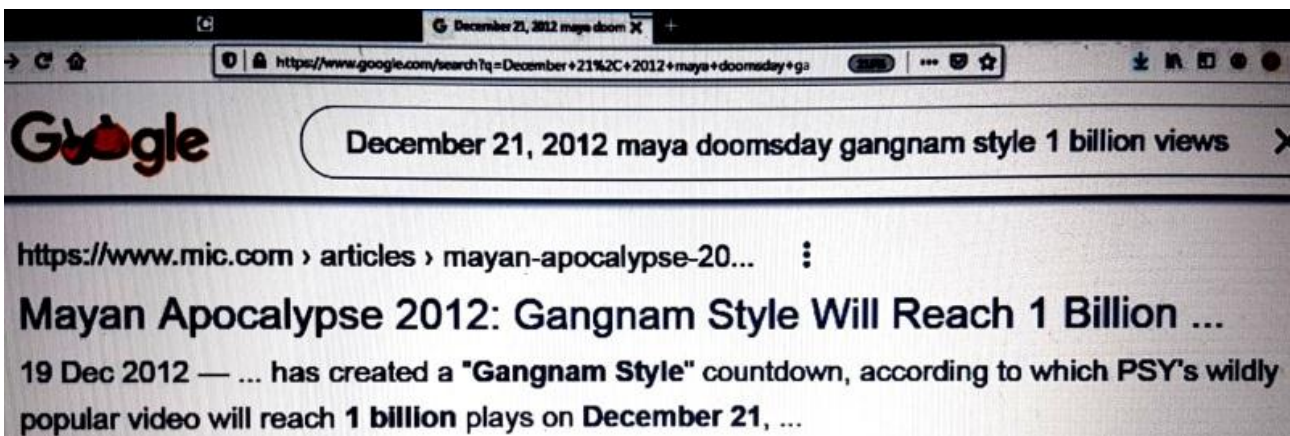

Greenpeace International, made its version of the song “Gangnam Style” on 19 December 2012. Greenpeace is an organisation that is controlled and regulated and promoted by the ruling powers

The global media reported on 19 December that President Obama loved “Gangnam Style”

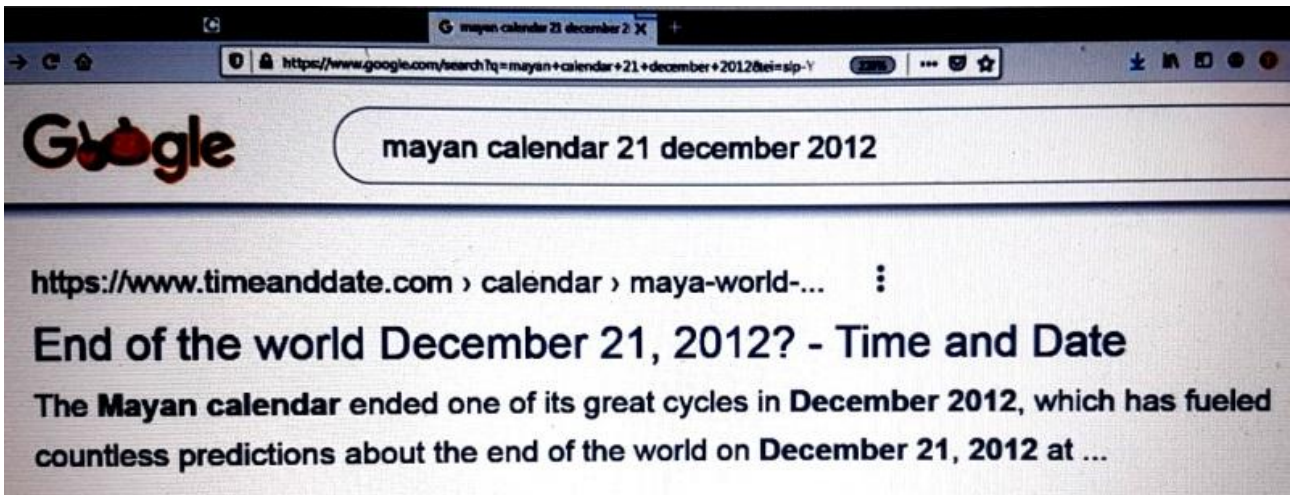

The media and historians reported that “Gangnam Style” stayed in the top ten for 19 weeks

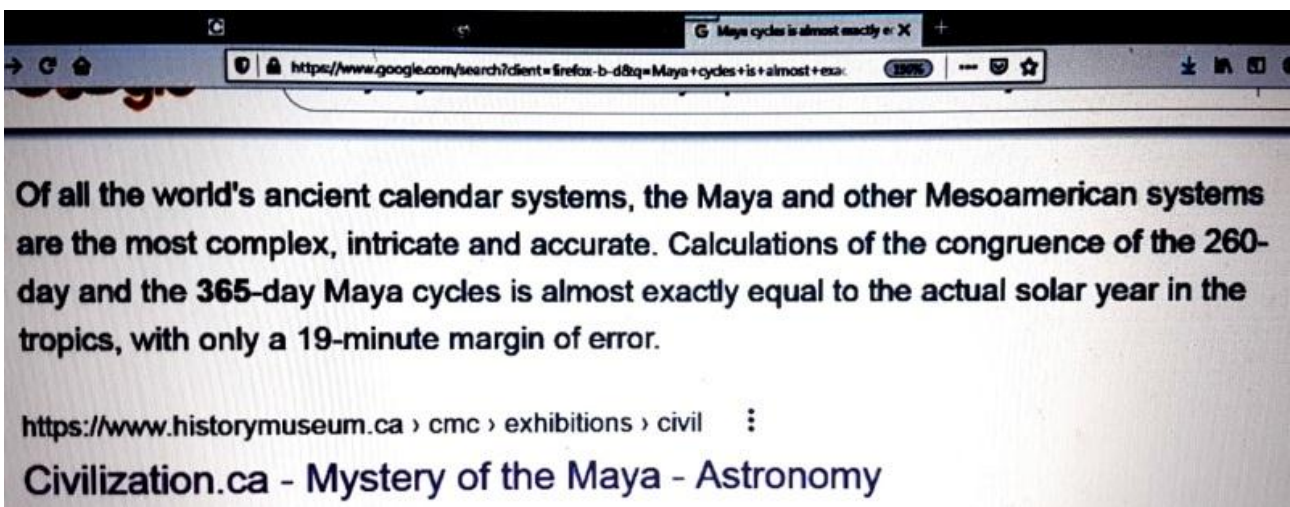

The media advertised and predicted on 19 December, that “Gangnam Style” will have 1 billion views on 21 December 2012. This came true according the media

The date 21 December 2012 was heavily advertised by the media and historians who worked for the ruling powers. They said this date was important in the Ancient Mayan calendar and the media and historians spoke much about the end of the world

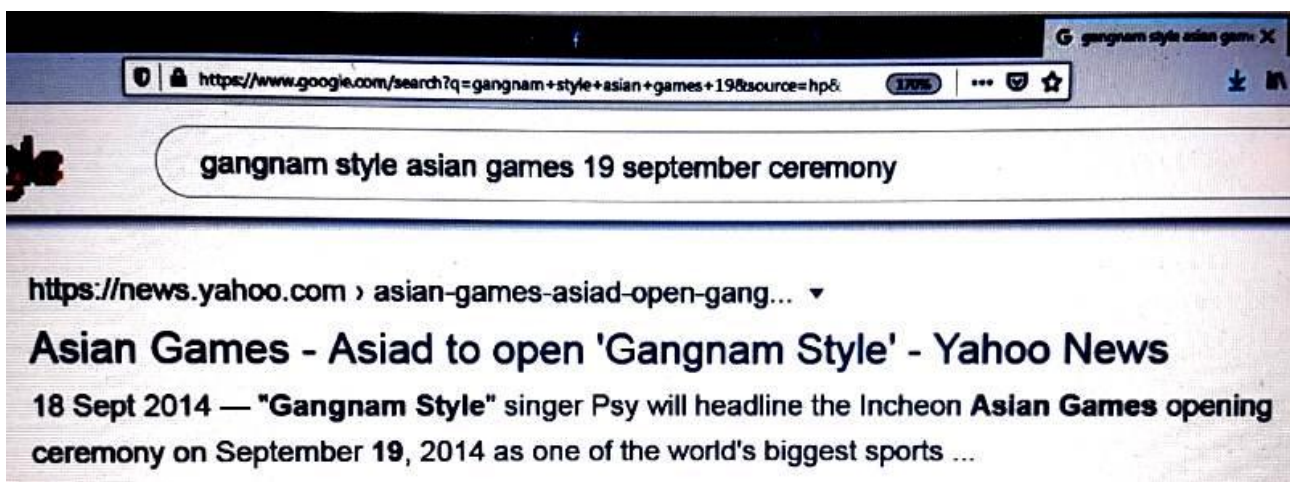

The world media turned the subject of the Mayan calendar into a debate and wasted the time of the people of the world. They got the attention of the world. They made many people imagine that 21 December could be the end of the world

Historians have said that the Mayan calendar has a 19 minute margin of error. Researchers have found that the history of the Ancient Mayans was a lie, just like the history of Ancient Egypt, but that story is too long to mention here

Researchers found that the people in power created this history, and created the calendar, and created the stories about the end of the world, and they advertised it on the media, - the media that they created and control. They taught this history in schools, the schools that they manage and control

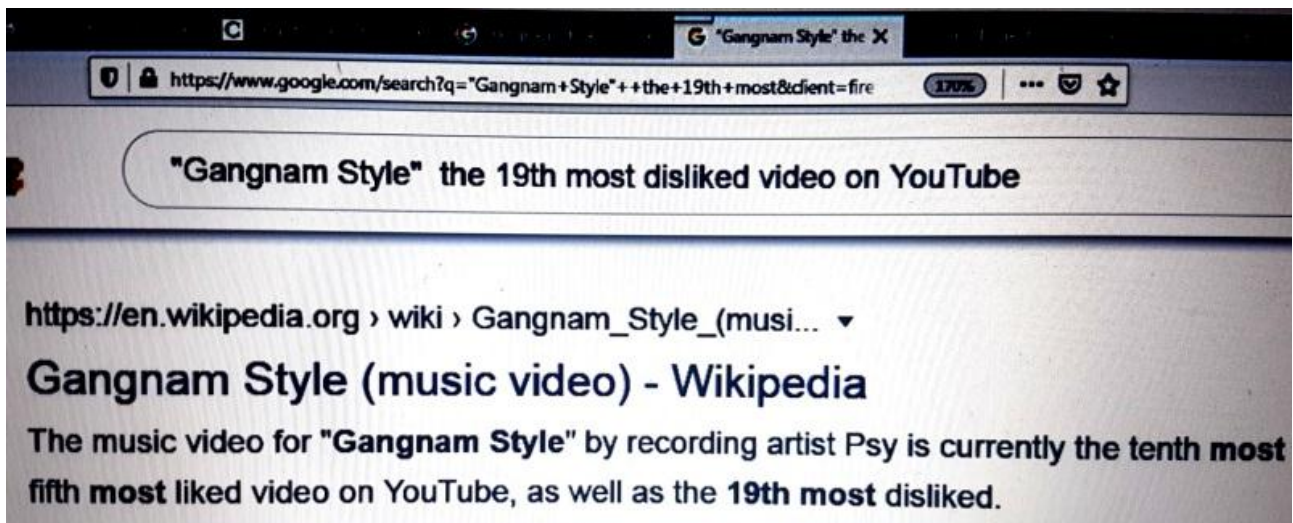

It was all like a game - the Matrix

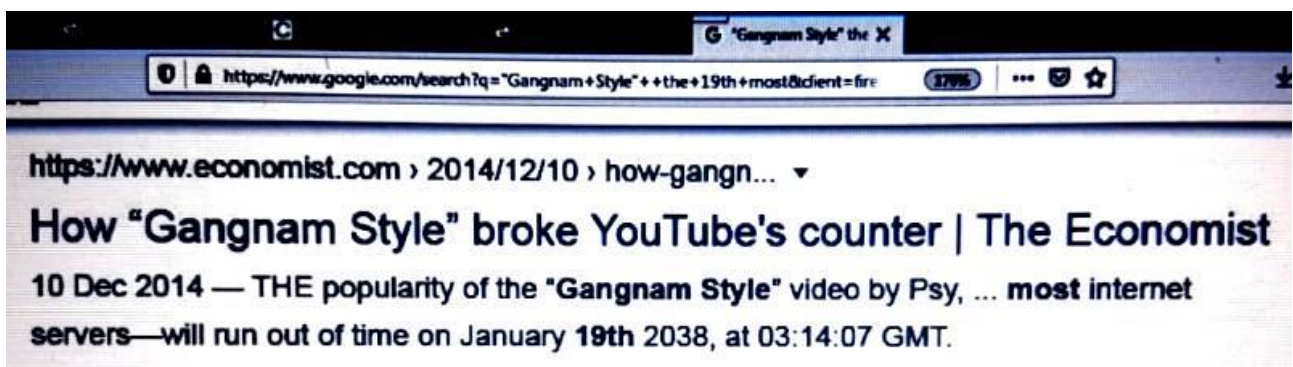

The media advertised that the singer of “Gangnam Style” will perform at the opening of the “Asian Games” on 19 September 2014

The media and historians reported that “Gangnam Style” reached 2.5 billion views on 19 January 2016

The media and historians reported that “Gangnam Style” was the 19th most disliked video at the time

Many media organisations reported that the video “Gangnam Style” exposed problems with many internet servers, which will run out of time on 19 January 2038

The next song that PSY released after “Gangnam Style”, was called “Gentleman” and this was his 19th single

This song broke world records and the media reported that it had almost 19 million views within the first 24 hours

SEPTEMBER 11

September 11, 2001 - New York

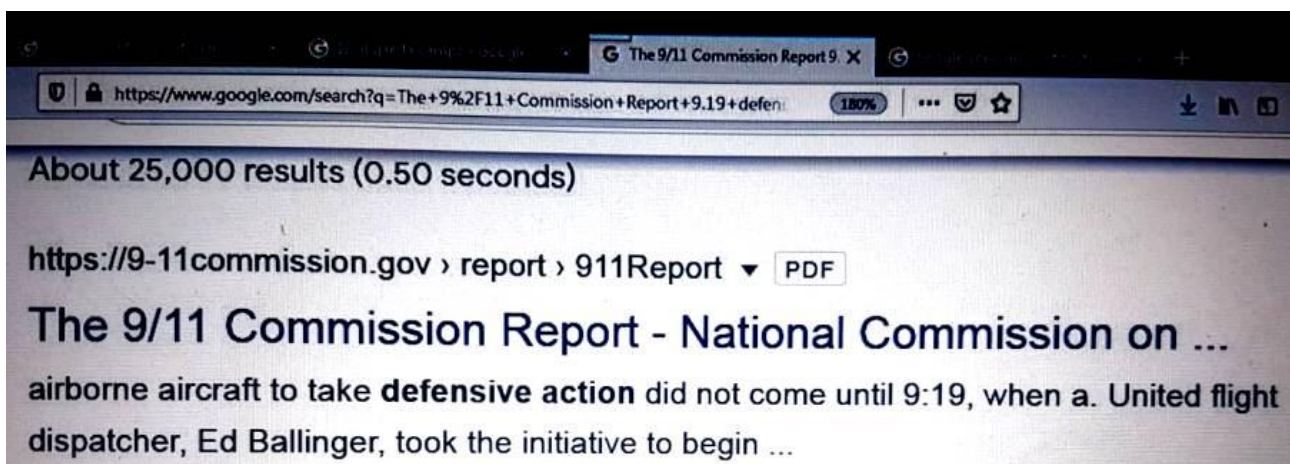

Historians and the media and the people in power, told the people of the world that on September 11, 2001, the Twin Towers of New York City, in the United States of America, - was attacked by Muslim terrorists

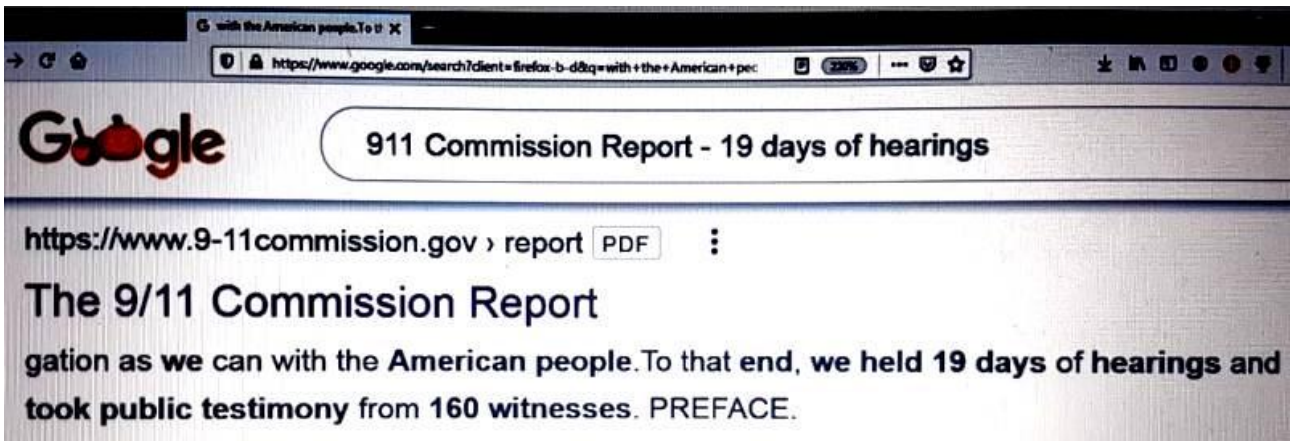

The 911 Commission Report says that the attacks on September 11, were done by 19 hijackers

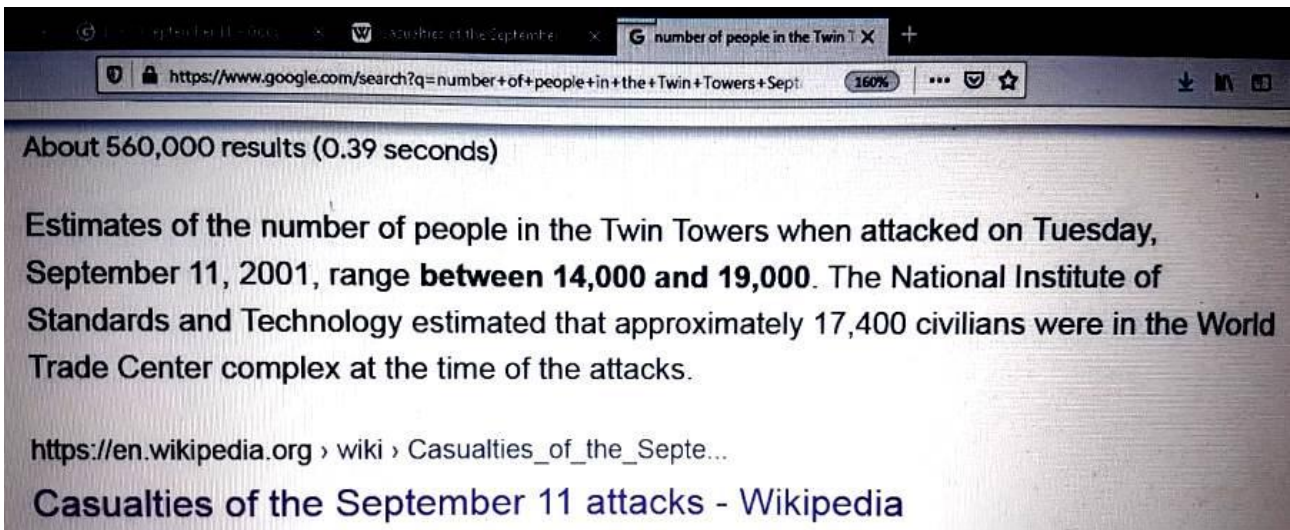

The 911 Commission Report says that - at: - 19 minutes past 8, there were reports of aircraft hijackings

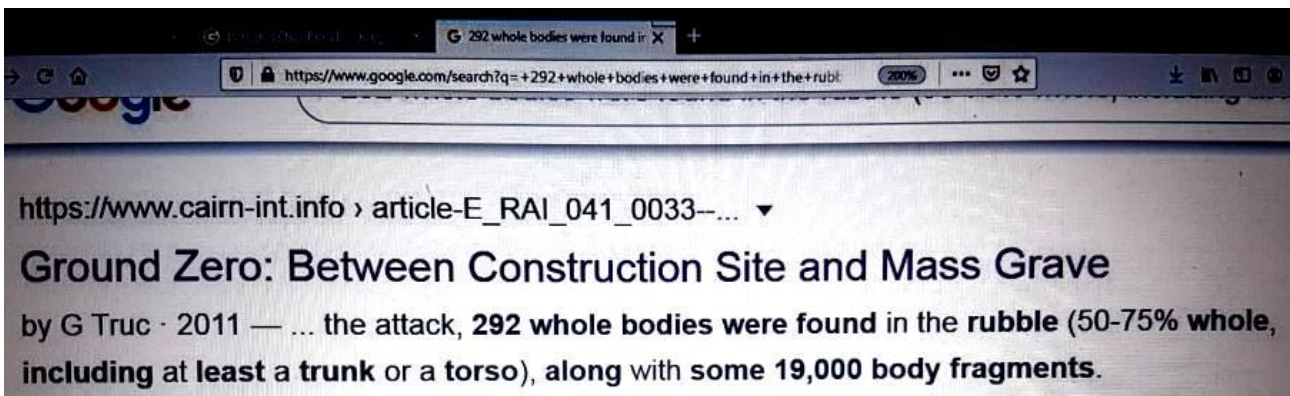

The 911 Commission Report says that: - defensive action started at 19 minutes past 9

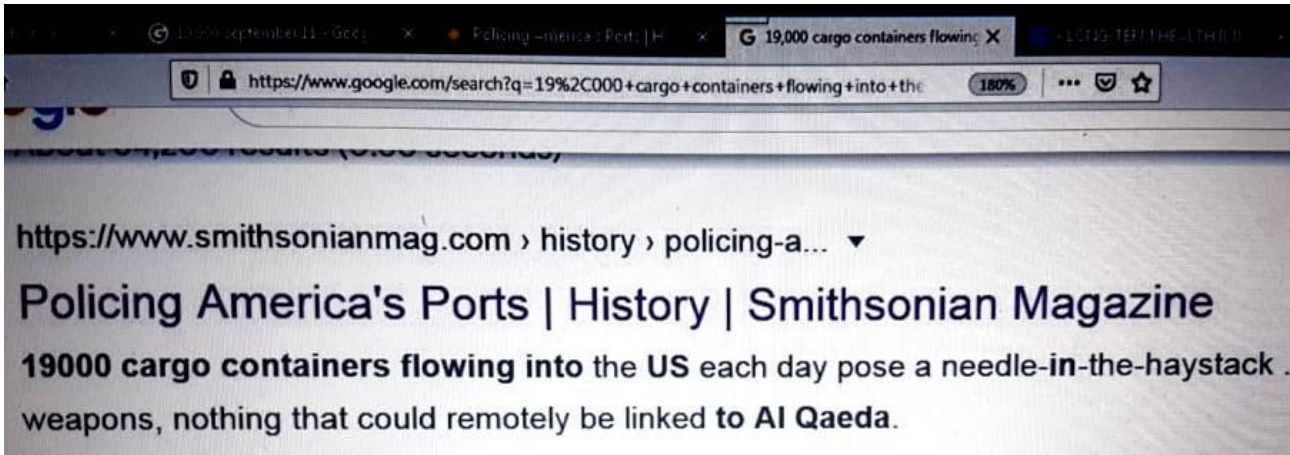

The 911 Commission had 19 days of hearings

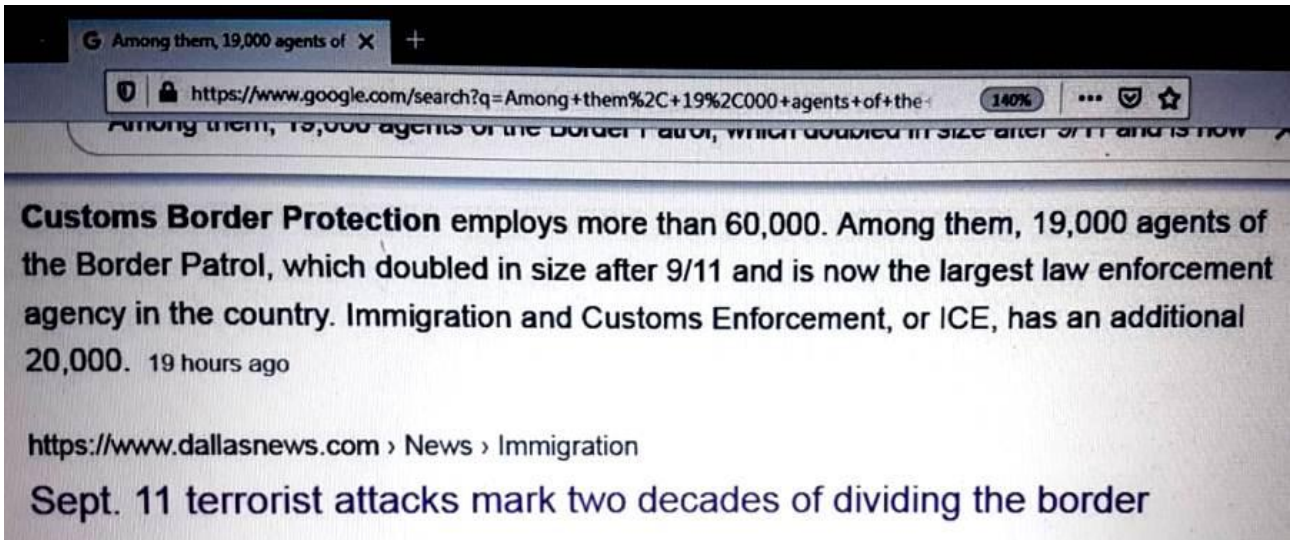

The media and historians have said that an estimated 14 to 19 thousand people, were in the Twin Towers on September 11

Researchers found that the number 19 was being used deliberately by the people in power in thousands of events all around the world, - in order to create false history and control the people of the world. There are many more examples of the number 19 that can be found in major events. Major events are those that are mentioned by politicians or the media or by historians

What is this number 19?

The photo above shows a symbol found in Lullingstone Roman Villa, England. Historians say that Lullingstone Roman Villa was used during the Roman times and during the Middle Ages. Researchers believe the symbol is from the Middle Ages

The circle in the photo above has the symbols for the Alpha and the Omega. This symbol is found in many places throughout the world, and historians tell the world that it is a Christian symbol, but researchers believe that this is a lie.

The symbol is normally found within a circle and has 6 points

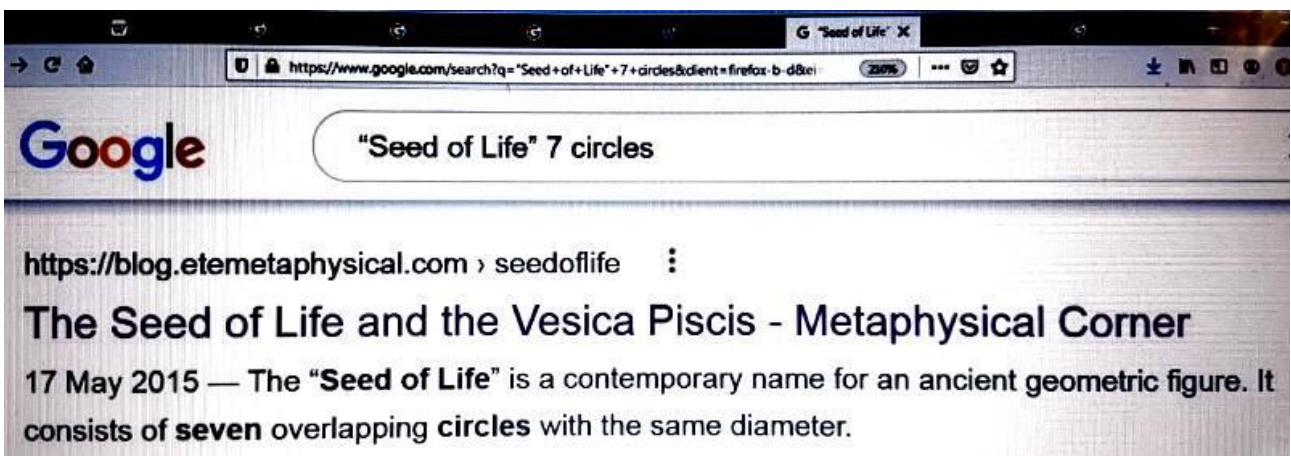

In Sacred Geometry it is sometimes known as the “Force of Life” or “Creator of Life”. This symbol is found in many places all over the world

What does this have to do with the number 19?

The photo above shows 7 circles and shows what happens to the 7 circles when you join them together. These 7 circles are known as the “Seed of Life”.

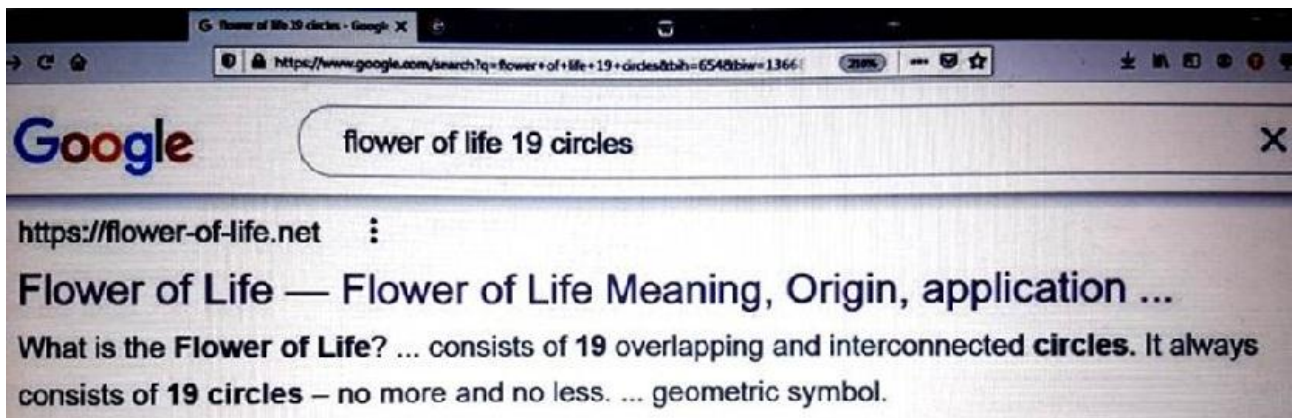

In Sacred Geometry, it is said that the “Seed of Life” is created by the “Force of Life”. This is why there is 6 circles around the centre (the center has 1 circle, making a total of 7 circles)

The “Seed of Life” is a geometric design found in history all over the world, - for example it is found in the decorations of churches and mosques and temples

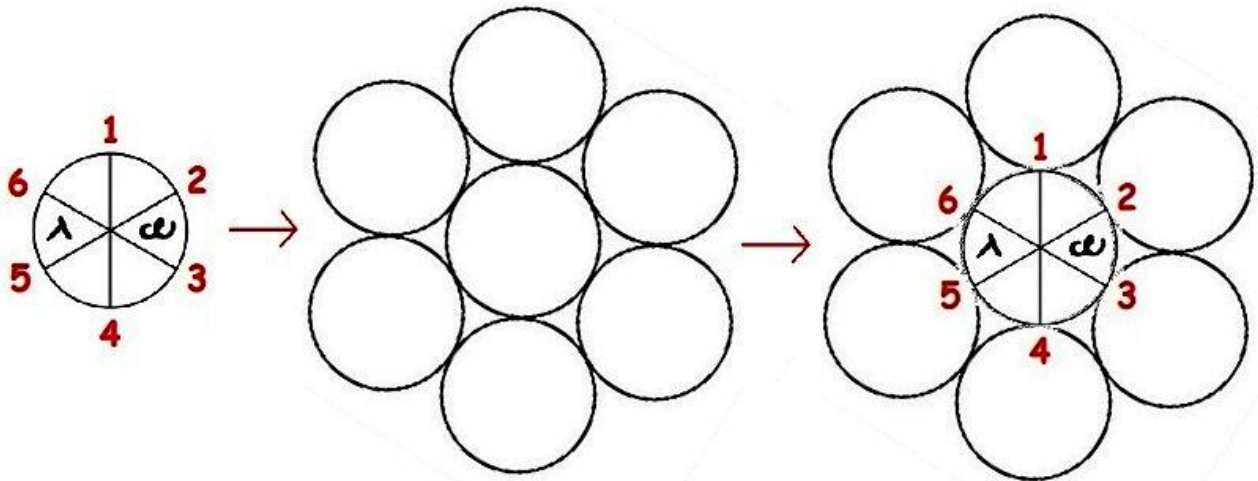

The photo above shows 19 circles, - and shows what happens to the 19 circles when you join them together

When the 19 circles are joined together, a new symbol is formed. This symbol is known as the “Flower of Life”.

The “Flower of Life” has 19 circles. The “Flower of Life” is born from the “Seed of Life”, - and the “Seed of Life” is created by the “Force of Life”. The centre has 1 circle and the next layer has 6 circles and the outer layer has 12 circles

The “Flower of Life” is a geometric design found in history all over the world, for example in the decorations of churches and mosques and temples

The photo above shows the circle which has the Alpha and the Omega, and this will be placed inside the 7 circles of the “Seed of Life”. The first circle has 6 points

The six points are then extended to the new outer circles and the numbers are marked on the edges of the new circles

The first circle with the Alpha and the Omega is marked in green colour and a second circle is placed around the 7 circles - this is also marked in green colour. The numbers 6 represents the 6 points as they are extended into the second green circle

The photo above shows the first circle which has the Alpha and the Omega and it will be placed inside the 19 circles of the “Flower of Life”. The six points are then extended again, to the new outer circles of the “Flower of Life”

The first circle with the Alpha and the Omega is marked in green colour and the second circle is marked in green colour and the final third circle is also coloured in green. The numbers 6 represents the 6 points as they are extended, and what do we see?

$$19 = 666$$

666 is the known as - the Beast
666 is the known as - the anti-Christ
666 is the known as - the Liar

The Matrix: - the creation of artificial history? An artificial world...? The lies...? 19 = 666...? The Beast...? The anti-Christ...? The Liar...?

The photo above shows the “Flower of Life”. The central flower is shown in blue colour and the rest of the flowers are shown in red and green and blue. The “Flower of Life” has 19 flowers within it. The 1st flower is the center of the flower and the other 18 flowers are around it. In the photo above they are shown in different colours to make it easy:

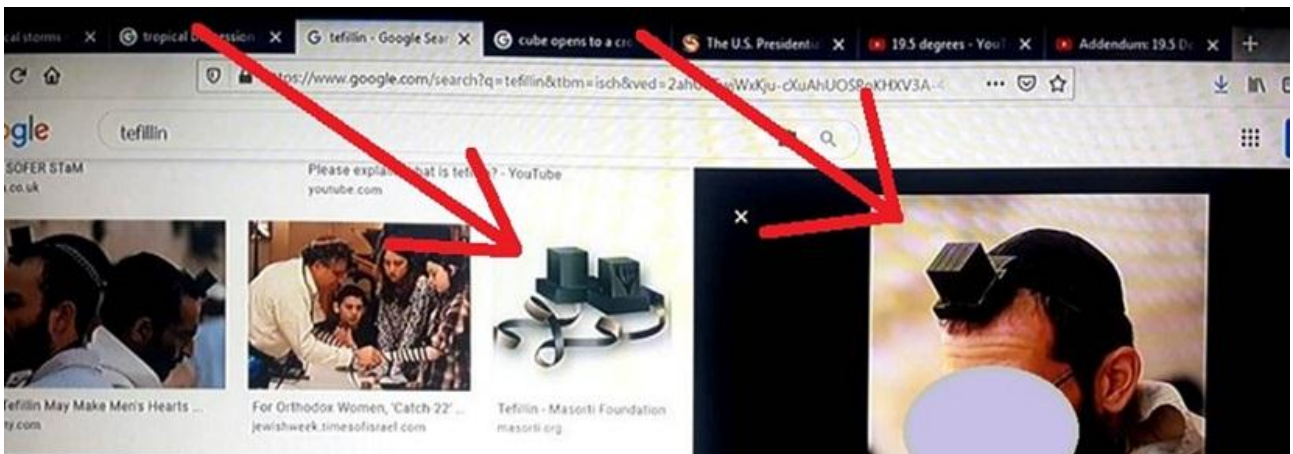

6 yellow flowers
6 green flowers
6 red flowers

This is the “Flower of Life” in Sacred Geometry

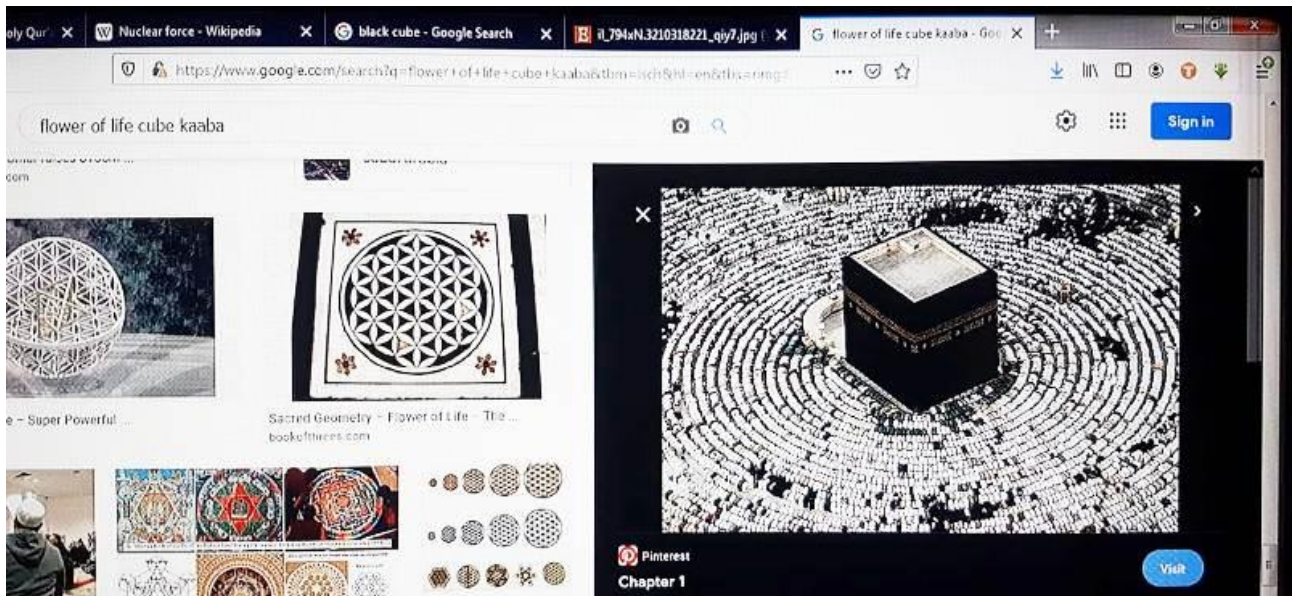

Sacred Geometry - 19 and 666 - was very important in the old world order. Researchers are now investigating this matter

Inside the flower of life, there are many designs. One important design is a three dimensional cube

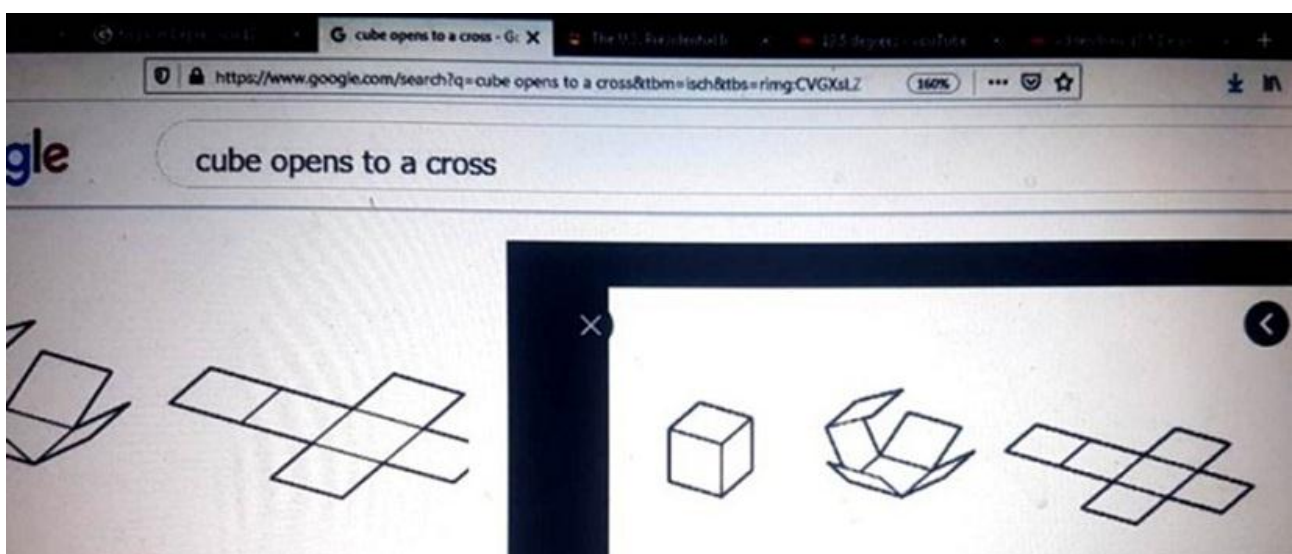

Many Jewish people wear a box on their head called Tefillin. Inside this box are religious words that are written down. For example - it states the unity of the one God and commands people to love and fear God. Jewish people do not worship the box.

Many Muslim people go to a city called Mecca and pray there. There is a building located there that is the shape of a cube, called the Kaaba. Muslim people do not worship the Kaaba.

Muslims and Jews worship the creator of the universe. They call this God - Allah or Elah, the difference is only a matter of pronunciation

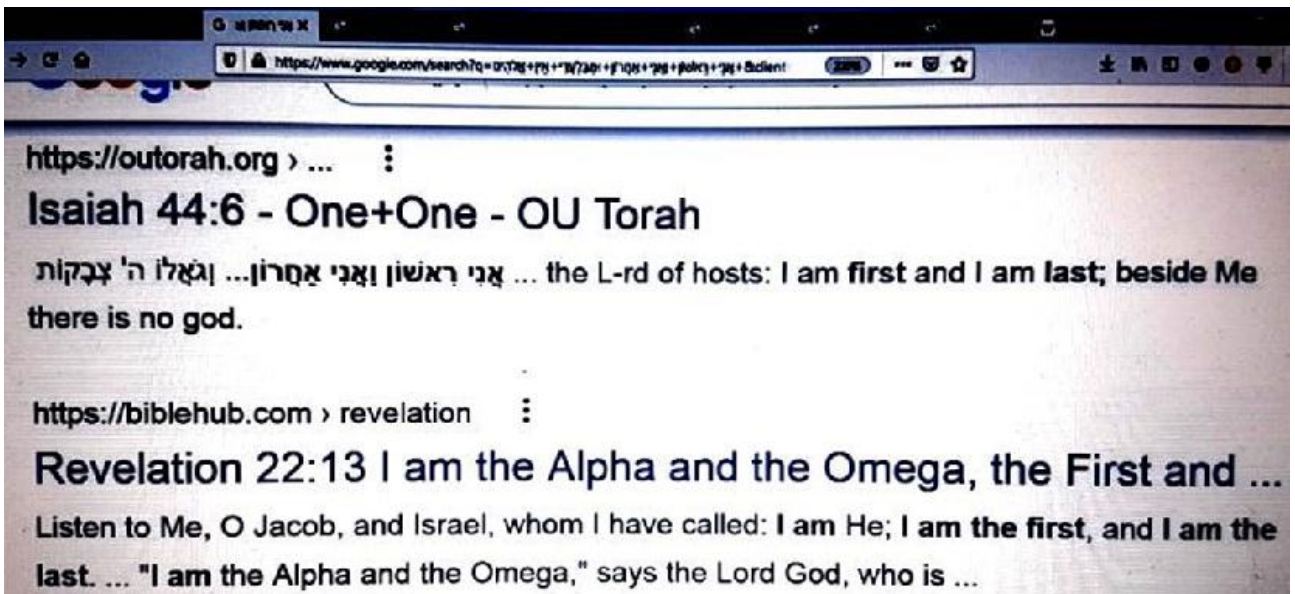

When a cube is opened - it looks like a cross

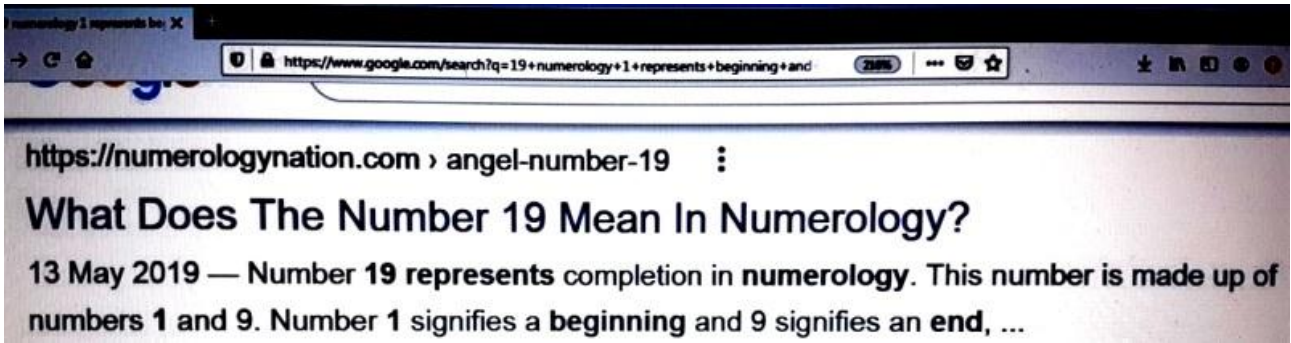

The cross found from the cube - has 19 lines

The cross is used as a symbol in Christianity. Christianity states that Jesus Christ was crucified on a cross. Christians generally do not worship the cross, but many Christians have been known for the worship of Christ and Mary

In the Bible, in the Book of Isaiah, it says that God is the First and the Last. In the Book of Revelation in the New Testament, it says that God is the Alpha and the Omega

In numerology it is said that 19 represents the beginning and the end. 1 is the beginning. 9 is the last or the end. It is the Alpha and the Omega.

**God is the first and the last
God is the Alpha and Omega
God is the beginning and the end
The beginning is 1
The end is 9
1 - 9
19**

The number 19 was a mathematical symbol to represent God or the Creator

The photo above shows the Alpha and Omega, side by side with the symbols for the Muslim word for God - Allah. They are clearly the same. The symbol for God as described in the Bible was Allah. Many people wish to say that the name is Elah. It is clearly the Alpha and Omega, not the Elpha and Omega. The Muslims today also say the word - Alahom (Allahum) and the Jewish people say Elohim

Alpha - Ala
Omega - Om

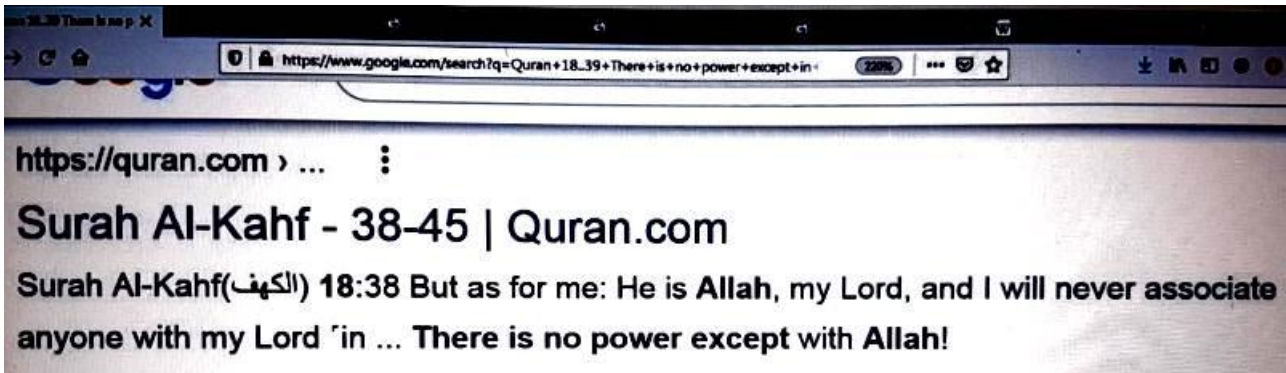

When the Alpha and the Omega are combined together we get: - Ala + Om = Alahom (Allahum) or Elohim

The first sentence in the Arabic Koran says: - In the name of God, the Most Gracious, the Most Merciful. Muslims normally say this sentence every day when they start to eat or when they go out or when they sleep or when they wake up.

This sentence has 19 letters

It was clear to researchers that the number 19 was a mathematical symbol that was used to represent the name of God - the Alpha and the Omega or Allah

The Arabic Koran in Chapter 18, - says that there is no power except with Allah. Does the name of God have power?

The Arabic Koran warned humanity about the number 19 in Chapter 74, - when no one else did

The Arabic Koran says that over the fire:

- Over it are 19 -

And this number is:

- A trial and a test for those who do not believe -

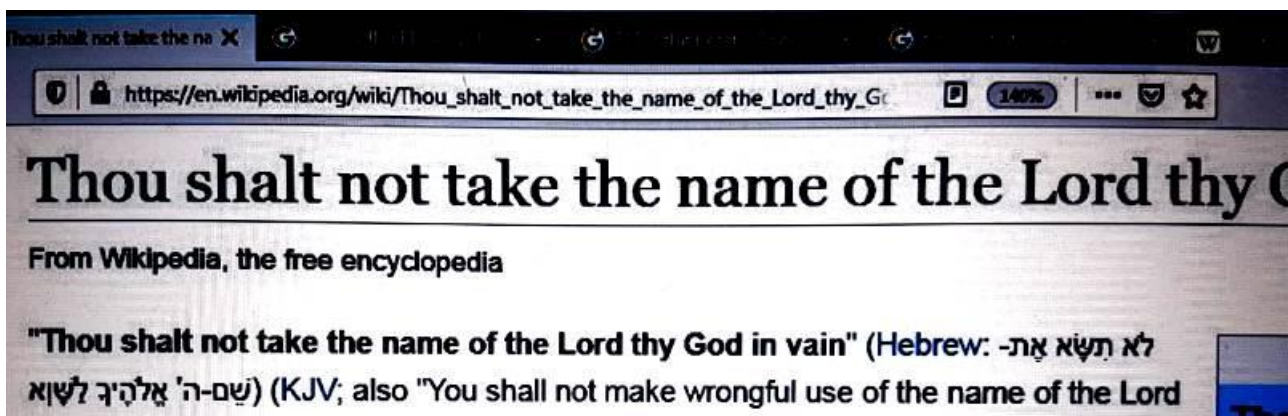

Why?

- So that they may know for sure what is the truth -

And:

- This is one of the greatest warnings to mankind -

Researchers are now investigating what Islam had to say about 666 - the Beast

In the Ten Commandments, it says: - "Thou shalt not take the name of the Lord thy God in vain". In simple words - You shall not make wrongful use of the name of the Lord your God

Researchers concluded that the people in power were using the name of God, in order to benefit from the power that is found within the name of God. The people in power had created an artificial world, with artificial heroes and enemies, using actors. It was the Matrix
